DEPARTMENT OF FINANCE AND COMMERCE

ACCOUNTS AND FINANCE

No 13 —Proposes to introduce the system under which local loans will be made from resources at disposal of Local Governments and prescribes rules for giving effect to it 6

No 14.—Notifies the revision of rules in force under Local Authorities Loan Act 1879 prescribing the procedure in respect of applications for loans or the conditions under which they may be granted, &c 12

No 15 —Publishes rules for grant of loans to local authorities by Government 13

No 16 —Publishes rules for raising of loans by local authorities in open market 15

No 232 —Sanctions certain addition to Rule 10 (e) of Revised Rules for guidance of Depositors in Post Office Savings Banks 22

No 367 —Notifies the reduction of yearly limit for deposits in Post Office Savings Banks and reduction of limit for whole amount of an account, &c 31

No 382 —Advertises list of securities lost or destroyed in respect of which an order has been made for payment of interest pending the issue of a duplicate security, or for the issue of such duplicate security 32

No 264 —Directs that certain words in Notification No 1470 of 26th March 1886 be struck out 40

No 446 —Sanctions certain proposals of the Comptroller General respecting the transfer of Stock Notes into Government paper 61

No 521 —Orders the addition of certain officers to list of officers authorised to cut or break coin 76

No 701 —Publishes and orders circulation of despatch from Secretary of State on the subject of the rate of exchange fixed for adjustment of financial transactions between British and Indian Governments for the year 1889 90 83

No 731 —Publishes letter from the Foreign Office of 7th December 1888 to Under Secretary of State for India relating to convention between Great Britain and Siam for regulating traffic in spirituous liquors 83

No 793 —Rule under sections 5 and 7 of Local Authorities Loan Act 1879 91

No 949 —Publishes correspondence from and to the Bombay Chamber of Commerce regarding the policy of Government in dealing with its cash balances 115

No 1698 —Statement of leading figures of accounts of the year 1887 88 202

No 2367 —Publishes approximate results of 1888-89, compared with Revised Estimates of the year 266

ASSESSED TAXES

No 806 —Exempts from liability to the tax, payable under Act II of 1886, the whole of income of persons not in the service of Government who reside in the Khondmals and in the Mahal of Angul in Orissa 92

No 3065 —Rules made in exercise of powers conferred by section 38 of Act II of 1886 347

CODES

No 602 —Substitution in Civil Pension Code 76

No. 738 —Addendum in Civil Leave Code 83

Page

COMMERCE AND TRADE

No 1353 —Appoints certain officers to whom masters of ships should notify the date and supposed cause of death of every passenger dying on a voyage 153

No 1354 —Makes certain rules in exercise of powers conferred by section 53 of Native Passenger Ships Act, X of 1887 154

No 1355 —Declares that for the purposes of Native Passenger Ships Act X of 1887 certain seasons shall be deemed to be seasons of fair weather and seasons of foul weather on certain coasts 161

CUSTOMS

No 625 —Prohibits the bringing into British India by sea or by land of pieces of copper or mixed metal which not being coin as defined in Indian Penal Code are intended to be used as money 76

No 1864 —Exempts from customs duty certain articles imported into British India 230

No 2139 —Exempts from customs duty dynamite tonite and detonators when imported into British India 253

MERCHANT SHIPPING

No 357 —Orders publication of despatch from Secretary of State and Order in Council extending provisions of Foreign Deserters Act 1852 to certain deserters from ships belonging to subjects of Emperor of Brazil 40

No 2460 —Corrections in Notifications Nos 1353 and 1355 of 14th March 1889 (Rules under Native Passenger Ships Act X of 1889) 287

MINT

No 2051 —Rules made in exercise of powers conferred by Indian Coinage Act, 1870, and Indian Paper Currency Act, 1882 263

OPIUM

No 1546 —Directs what duty shall be levied on each chest of Malwa opium of certain weight imported into the Punjab through Ajmere 174

No 3104.—Notification regarding price and sale of opium in the calendar year 1890 347

PENSIONS

No 1061 —Resolution by Government of India to the effect that certain ruling laid down in the matter of certain Civil Engineers counting service towards extra pensions shall also apply to certain officers of Telegraph Department 145

POST OFFICE.

No 644.—Resolution by Government of India on the subject of running a special mail train from Calcutta to Bombay 77

No 3056 —Publishes letter from Director General of Post Office of India No 8535 of 7th February 1889 submitting annual report on operations of Postal Life Insurance and Monthly Allowance Schemes during official year 1887 88 347

PUBLIC DEBT

No 3036 —Declares that sub section (1) of section 7 of Indian Securities Act XIII of 1886, applies to office of Registrar of all Presidency Small Cause Courts 346

SALT

No 2985 —Directs that the duty to be paid on salt manufactured in, or imported by land into, any

Page

part of Burma, excluding Shan States shall be the same as that fixed for salt manufactured in, or imported by land into, Lower Burma 334

No 3154 —Prohibits the transit of salt on certain part of the river Indus without a pass signed by an officer of Northern India Salt Department of certain rank, certifying to duty having been paid at the rate in force in Cis Indus districts of the Punjab 347

No 3207 —Directs the publication of certain rules made in exercise of powers conferred by Indian Salt Act, XII of 1882, and to apply to districts of Bhagulpur Division 367

STAMPS

No 6910 —Notifies that certain debentures of Municipality of Madras have been exempted from stamp duty in consideration of their paying a certain sum as composition for the same 16

No 316 —Remits stamp duty chargeable in Central Provinces upon a document of certain kinds when furnished by a Patwari to a Malguzar or tenant of or in the village with which that document is concerned 40

No 467 —Directs that certain receipts granted by Jagirdars on account of rent or land revenue in Hyderabad Assigned Districts shall be exempt from stamp duty 62

No 1519 —Remits stamp duty payable on all instruments of the nature of a memorandum or agreement furnished to or made or entered into with the Public Works Department by contractors for due performance of their contracts 174

No 1746 —Cancels Notification No 690 of 1st February 1884, and directs how, under certain circumstances the value of subject-matter of certain suits for possession &c of certain portion of an estate shall be determined 224

No 2653 —Remits fees payable on applications for advances under Rule 146 of Rules framed under Burma Land and Revenue Act II of 1876 308

No 2654 —Remits the duties chargeable on instruments executed for purposes of securing the repayment of advances made or to be made under Rule 147 of Rules framed under Burma Land and Revenue Act, II of 1876 308

STAR OF INDIA AND INDIAN EMPIRE

No 6 *S I*—Notification regarding the holding of an Investiture of Orders of Star of India and of Indian Empire 108

No 8 *S I*—Notification of an Investiture of Orders of Star of India and of Indian Empire having been held 142

SPECIFICATIONS OF INVENTIONS

No 63 of 1880 —E Worms and J Balé, for improved process and apparatus for tanning by aid of electricity 362

No 139 of 1887 —W D Priestman and S Priestman, for improvements in the manufacture of vapour and in mixing apparatus adapted therefor 363

No 160 of 1887 —H Appleby and J G Robinson, for improvements in blast pipes and in means for regulating the draught created thereby 362

No 187 of 1887 —J Robertson, for improvements in and relating to couplings and joints for metallic tubes or pipes, and in appliances therefor 333

No 219 of 1887 —H H Remfry, for improvements in shoes for horses or other hoofed animals, and in the method of attachment of the shoe to the hoof 314

No 220 of 1887 —E Sutcliffe and G E Sutcliffe, for improvements in the method of and in apparatus for washing bleaching dyeing and treating textile materials 362

No 225 of 1887 —Surgeon Major H Boyd, M D for an improved boiler for the economical generation of steam 362

No 246 of 1887 —H Thompson for improvements in the method of and apparatus for drying tea 363

No 248 of 1887 —A N Martin and D M Lumsden, for a tea drying apparatus, to be called the Borelli drying stove 333

No 1 of 1888 —E J Hill, for improvements in apparatus for coupling and uncoupling railway wagons 28

No 2 of 1888 —C Dozey for automatic action for working the grid tables attached to Waston's Patent Hydraulic Jute Press into position by the utilization of waste hydraulic power 132

No 2 of 1888 —C J Geneste amended specification of an invention for an improvement in the method of oxydizing the liquor obtained by steeping the indigo plant in the manufacture of indigo 183

No 3 of 1888 —R Olpherts for improvements in straining tables employed in obtaining coloring matters from the indigo plant 363

No 5 of 1888 —J J E Mayall for improvements in the production of photographic impressions 51

No 9 of 1888 —L Laporte for improvements in spinning machines 108

No 13 of 1888 —W L Henderson and F W Shallis for an improved beater cotton gin 291

No 15 of 1888 —A S Massey for the construction of cupola or furnace for melting or smelting iron and other metals 333

No 16 of 1888 —J C W Stanley and L B Wrightson for improvements in tea chests boxes or the like, applicable for containing other goods or articles 142

No 17 of 1888 —C C Sullivan, for a new machine for raising water earth, and other substances 332

No 19 of 1888 —G E Moore, for an improved form of permanent-way 184

No 25 of 1888 —C Ewing for an improvement in the construction of the Drunken Eccentric referred to in the specification of his invention for pulling punkhas—(Register No 208 of 1887) 152

No 29 of 1888 —Dr F Borel and E Procand, for an electric apparatus for use either as an electromotor or as an electric current meter 152

No 32 of 1888 —Fuckeer Chand Dass for improvements in sugar canemills 22

No 34 of 1888 —R Olpherts for improvements in obtaining colouring matters from the indigo plant 362

No 36 of 1888 —A Graemiger for processes and apparatus for dyeing scouring, bleaching and otherwise treating yarn in cops 68

No 40 of 1888 —F W Tytler, for an improved process of indigo manufacture called "Tytler's New Indigo Process 303

No 44 of 1888 —H Grieger, for improvements in oil lamps with annular burners 363

Page

No 46 of 1888 —H Manners, for surface water drainer for mal tables 363

No 47 of 1888 —T Quinlivan, for improved methods and appliances for working machinery by means of rope as a substitute for belting 314

No 48 of 1888 —L Chater, for a high speed improved cotton-cleaning machine with automatic feeding apparatus to be called ' L Chater s Cotton cleaner 314

No 50 of 1888 —E Smith and F Smith, for improved method or means of producing sparkling brilliant effect in or from glass alone or from a combination of glass and metal or metalised material 142

No 51 of 1888 —W Defries and V I Feeny for improvements in feeding oil for lighting and heating 293

No 51 of 1888 —J J Bell for an improved tent and for improvements in tents 22

No 52 of 1888 —W Jackson for improvements in machinery or apparatus for reducing or breaking tea 22

No 59 of 1888 —F M Prigent A M , for making ice without using mechanical power, and for distillation of any fluid previously freed from permanent gaseous matter and concentration of any solution by continuous automatic vaporisation in vacuo 333

No 59½ of 1888 —J Hertz, for improvements in combined envelopes and note paper or other paper or cards 363

No 60 of 1888 —C Sin Kee for an improved method of whitening rice 314

No 63 of 1888 —J Anderson, for improvements in apparatus for ventilating railway and other carriages 183

No 67 of 1888 —deFonblanque Pennefather, for improvements in apparatus for ventilating rooms, chambers buildings ships, cabins railway carriages and the like 68

No 70 of 1888 —Mr leComte Edonard deRotter mund for a new or improved process for extracting gold silver, and other metals from refractory ores sands and residues 51

No 71 of 1888 —D E Gostling for causing the settling down and deposition of the fly and dust blown off from the blowing machines used in cleaning the cotton fibre in cotton spinning mills, and the preventing the same from escaping into the atmosphere 362

No 72 of 1888 —W Ellis, for improvements in machinery for cutting wood for matches, splints, and match boxes 293

No 72 of 1888 —H Bull, for an improved native oil mill 314

No 77 of 1888 —J Brooks, for a conservancy cart for the reception of liquid night soil 314

No 79 of 1888 —J A S Biernatzki for improvements in cotton waste pickers 108

No 80 of 1888 —H Thompson for improvements in the method of and apparatus for drying tea leaf 293

No 83 of 1888 —The Ducker Portable House Company Ld , for improvements in portable building 28

No 84 of 1888 —J R Greaves, for improvements in Platts single action and double action Macarthy cotton gin 152

Page

No 88 of 1888 —T A Kitt, for improvements in steeping the indigo plant in the manufacture of indigo 314

No 89 of 1888 —J B. Witt, for an improved rotary ventilator either for induction or eduction purposes 89

No 90 of 1888 —C K Subba Rao, for a water raising inclined plane 333

No 90 of 1888 —S C Davidson, for improvements in apparatus for employing heated air in drying or baking vegetable or other substances 152

No 92 of 1888 —J B Witt for an improved method for cooling air gases and fluids 89

No 94 of 1888 —W Gadd for improvements relating to the construction of gas-holders 09

No 96 of 1888 —D Ballardie, for improvements in burners for lamps to burn solid paraffin, napthaline or such oils or hydrocarbons as freeze or solidify at a low temperature 314

No 97 of 1888 —S Alley and J A Mac Lellan, for improvements in and connected with apparatus for making moulds for casting 22

No 98 of 1888 —T Witter for improvements in automatic fire extinguishing sprinklers 22

No 99 of 1888 —C J Geneste, for improving the manufacture of indigo from the green or dried plant by the use of certain oxidising agents in the heating process 286

No 99 of 1888 —D R Dawson for improvements in over edge sewing machines 314

No 100 of 1888 —J A C Rogers for the improved ' Rajah sugarcane mill 293

No 101 of 1888 —M Crawford for improvements in machines for removing the lint or fibre from cotton seed and for like purposes 314

No 101 of 1888 —L deClosets C F for starting tramway cars called Tramway Car starter 363

No 103 of 1888 —E L Cantwell for a betelnut cutter 314

No 105 of 1888 —R Fraser for improvements in or appertaining to feed heating and water circulating apparatus for steam boiler furnaces 314

No 106 of 1888 —B L Mosely and C Chambers, for improvements in the manufacture of artificial stones marbles and concretes 294

No 108 of 1888 —C D Aria for improvements in or applicable to moderator and carcel lamps to render them capable of burning mineral oils 22

No 109 of 1888 —S M Rutnagar, for improvements in Tower bolts 332

No 110 of 1888 —The Newbery Vantin (Patents) Gold Extraction Company Ld for improvements in apparatus for the extraction of gold from crushed or other finely divided auriferous material 293

No 111 of 1888 —The Newbery Vantin (Patents) Gold Extraction Company, Ld for improvements in apparatus for the separation of solutions of metallic salts from pulverised material mixed therewith 293

No 116 of 1888 —The Harden Star Lewis and Sinclair Company, Ld , for a new or improved ejector oil vapour lamp 51

No 116 of 1888 —Pullman s Palace Car Company, for improvements in railway vehicles 362

No 118 of 1888 —D Wilson for improvements in the manufacture of telegraph poles columns, pillars, flagstaffs, signal posts for railways, fence posts and other posts, rolls or rollers for various

Page

purposes, pipes or tubes for containing telegraph wires, railway sleepers, pillar letter boxes, urinals, chimney pieces, slabs for use in the construction of urinals and chimney pieces and for pavements and stair treads and for other uses, tiles and slabs for roofing sewer grids or gratings and other gratings, cellar plates wheels pulleys sheaves for pulley blocks dead eyes, buckets, coal boxes, and cocks or taps 108

No 122 of 1888 —F Purbrick and R H Stone, for improvements in means for locking nuts on bolts 286

No 123 of 1888 —The Vacuum Brake Company, Ld for improvements in or applicable to vacuum brake mechanism 28

No 124 of 1888 —S Bayliss for improvements in means for preventing nuts and bolts from working loose 363

No 124 of 1888 —J A Cundall for improvements in the method of imprinting marks and devices upon folded piece goods and in apparatus therefor 22

No 125 of 1888 —C E Tripler for improvement for amalgamating and separating precious metals from powdered ore or earth 69

No 126 of 1888 —E L Bellhouse for improvements in hydraulic packing apparatus 142

No 127 of 1888 —W H Noble for improvements in the manufacture of gunpowder and of gun powder charges for guns 22

No 128 of 1888 —A W Robinson for noiseless tyres of wheels for hand platform trucks and other vehicles 332

No 129 of 1888 —S J Kilby for improved means for facilitating the hoisting weighing and discharging of salt coal metals grain or any other articles 28

No 129 of 1888 —F S Kohler and L Keyling for improvements in the manufacture of salt or spheres or globules of iron steel or other metal and in apparatus therefor 51

No 131 of 1888 —A H B Sharpe for improvements in tea rolling machines 108

No 132 of 1888 —H F Clayton and G H Holdroyd for an improved method of filtering and apparatus therefor 22

No 133 of 1888 —W Siemens for improvements in the extraction of gold and other precious metals from minerals and ores containing them 363

No 133 of 1888 —O Bowen A S Tomkins and J Cobeldick for an improvement in the manufacture of charcoal 293

No 134 of 1888 —F R. Jones MIME, for improvements in vertical sugarcane mills 183

No 135 of 1888 —C J Geneste for making ammonia for use in the manufacture of indigo 286

No 140 of 1888 —F H Bowman, for improvements in the manufacture of lace and other reticulated fabrics from silk wool and other similar animal fibres 28

No 141 of 1888 —T Coad for improvements in voltaic or galvanic batteries 132

No 137 of 1888 —J D Jones for an automatic periodic valveless filling and flushing cistern with an automatic water-supply regulator 142

No 138 of 1888 —F Greening for the manufacture or production of an improved material or compound adapted for use as a substitute for ivory horn, whale bone, india rubber gutta-percha, and other materials, also as a coating or varnish for waterproofing and other purposes 108

Page

No 141 of 1888 —T Coad, for improvements in voltaic or galvanic batteries 132

No 141 of 1888 —W V Pittler for improvements in sewing and embroidering machines 314

No 142 of 1888 —H Thompson, for improvements in machinery or apparatus for rolling or curling tea leaf 293

No 142 of 1888 —E E Ries for improvements in the method and means for increasing the frictional contact between the wheels and rails in railways 314

No 143 of 1888 —A Parkes for improvements in the extraction of gold and silver from ores or compounds containing the same and insolvents for such metals 89

No 143 of 1888 —W M Jackson, for marine propulsion 363

No 144 of 1888 —Revd Father Philip for improvements in punkhas or suspended fans for use in public buildings 152

No 150 of 1888 —The Gas Patents Syndicate, Ld, for apparatus for the manufacture of gas 293

No 151 of 1888 —J B Evans for improvements in apparatus for regulating the tension of fencing wires and for testing the same 152

No 152 of 1888 —E Hulburd for improvements in and relating to metallic packing 152

No 152 of 1888 —A Whyte and A Whyte for an improved process for the manufacture of Portland or other hydraulic or lime cements 314

No 153 of 1888 —J R Jefferies and J King, for improvements in thrashing machines 142

No 154 of 1888 —The Gas Patents Syndicate Limited for a process and apparatus for manufacturing water oil gas 293

No 155 of 1888 —L Mond and Dr C Langer Ph D for improvements in gas batteries 286

No 156 of 1888 —R S Baxter and G D MacDougald for an improved process and apparatus for the removal of cotton lint or fibre from cotton seed 142

No 157 of 1888 —A J Eli for improvements in lamps for burning petroleum and similar fuel 89

No 158 of 1888 —G A Whyte and R M Miller for an improved process of polishing rice and other grain 333

No 1 of 1889 —G P C Holmes for a new or improved combined racket-holder and press 89

No 3 of 1889 —J Mactear for an improved process of preparing or treating vegetable fibrous material for obtaining fibre therefrom 132

No 4 of 1889 —J Lewthwaite, for a method of constructing breakwaters groins moles, seawalls, foundations for light houses coast defences, and other like works 108

No 7 of 1889 —E Burke, for an improved apparatus for mixing or bulking tea or other similar substances 293

No 8 of 1889 —W P Widdifield J B Perry, S S Fuller J R Fuller, and A T Button, for electric brake for railway trains 314

No 12 of 1889 —A Noble for improvements in the manufacture of explosives 132

No 14 of 1889 —W Phillips, for an improved system for raising water from wells and other sources of water-supply and called 'Phillips improved Bucket Water Lift Economist applicable for man or animal power and for deep or shallow sources of supply 286

Page

No 16 of 1889 —D Rylands for improvements relating to the axle-boxes or bearings of carriages and other vehicles 183

No. 17 of 1889—J Thorne for improvements relating to lamps or lanterns for railway and other purposes 183

No 18 of 1889 —H Fricker, for improved portable cooking apparatus 68

No 19 of 1889 —A Lamberton, for improvements in machinery or apparatus for grinding or pulverising substances 108

No 21 of 1889 —R. M Wanzer, for improvements in lamps for lighting and heating purposes and in detail appliances to be used in connection therewith 68

No 22 of 1889 —The Hon ble E Wiman, for improvements relating to the pulverization or reduction of mineral or other substances and to apparatus therefor 293

No 23 of 1889 —W Bull, for pulverizing and sifting hard substances 142

No 26 of 1889 —J Smith, for an improved composition for covering cloth of every description, proof against water and fire 293

No 27 of 1889 —T messenger for improvements in machinery for compressing substances into convenient forms 183

No 28 of 1889 —H R Dinsmore, for improvements in and connected with the manufacture of gas from coal and apparatus employed therein 291

No 29 of 1889 —G Fowler for improvements in telegraph insulators and appliances for suspending wires on aerial telegraphs 293

No 30 of 1889 —F W Oliver for a new and improved method of producing colored transparencies 89

No 31 of 1889 —M Johnson, W E Field and J S Beeman for 'Johnson Field and Beeman's patent amalgamating process 293

No 33 of 1889 —F B Hill for improvements in pumps for ice making and refrigerating machines 293

No 35 of 1889 —J L Connor for a perfect sight rule for plane table surveying 332

No 37 of 1889 —S C Davidson for improvements in rotary fans 293

No 38 of 1889 —L Povel, for improvements in stop or loose reed mechanism for power looms 293

No 39 of 1889 —J Gresham for improvements in apparatus for applying sand or other substances to prevent the slipping of the driving wheels of locomotives 183

No 41 of 1889 —Fakir Chand Dass for improvements in sugarcane mills 186

No 42 of 1889 —Fakir Chand Dass, for improvements in sugarcane mills 287

No 45 of 1889 —C E Mitchell, for improvement in self generating gas burners and apparatus connected therewith whereby the same are rendered more conveniently applicable to the inflation of balloons and for aerial navigation heating and other purposes 287

No 50 of 1889 —C D Aria for improvements in oil lamps 333

No 52 of 1889 —W Kuhn for improvements relating to the treatment of beer and other fermentable and effervescent liquids and to apparatus therefor 183

LOANS AND ADVANCES

RESOLUTION—By the Government of India, Department of Finance and Commerce

Read—

Despatch from the Secretary of State for India, No 200, dated the 28th July 1887, suggesting that the system under which in the United Kingdom advances are made by the Government for local works might with some modification be introduced in India

Resolution in this Department, No 2169, dated 26th April 1888
Despatch to Secretary of State, No 194, dated 21st July 1888
Despatch from Secretary of State, No 248, dated 27th September 1888

OBSERVATIONS—In Resolution in this Department, No 2169, dated 26th April 1888, the question of associating Local Governments more immediately

with the granting of loans from public funds for local purposes was discussed

It was said—

2 The result of the present Indian system is that while all these loans and advances are made either by, or by the advice of, the Local Governments, those Governments are not directly interested in the financial result further than seeing that the security is adequate, and that the amount of the loan is ultimately recovered as all loan and advance transactions take place on the Imperial accounts It a loan or advance is irrecoverable it is charged off as Provincial Expenditure but as regards the punctual and complete realisation of interest the Provincial Governments are not financially concerned

3 With a view, therefore to improve the present system by more directly connecting the interests of the Local Governments with the success of the local loan transactions, and to carry out the wishes of Her Majesty's Government as far as possible, the Governor General in Council desires to extend the system of Provincial finance, so as to entrust the entire control of these loans and advances to Local Governments The manner in which it is proposed to give effect to this proposal is as follows

4 It is proposed to place at the disposal of each Provincial Government an advance and loan account The principles and restrictions to be kept in view by Provincial Governments in making advances and loans from the credits afforded them should be the same as those already laid down by this Department in the orders issued from time to time Their general effect is summarised in Chapter 7 of the Civil Account Code

5 On the sum so credited the Local Government would pay to Imperial Revenues interest at 4 per cent a year and would receive all interest realised from the borrowers as an asset of Provincial Revenues Such additional credits to the Local Loan Account as might be found necessary would be made from time to time and, as now, Provincial Revenues would be charged with all irrecoverable loans and advances

* * * * * * * *

9 It is not intended to include in these arrangements the loans to Presidency Corporations, but the following are included —

I —Advances to cultivators under various Acts, such as the Land Improvement Loans Act, 1883, or the Agriculturists Act, 1884, or on occasions of calamity for purchase of seed, cattle, &c , or for famine relief, or to tenants on Government estates For each of these purposes Local Governments have powers of sanction as defined in Rules 5, 7, and 7(*a*) of Chapter 7 of the Civil Account Code

II —For Survey operations, such as for erecting boundary marks or for other Survey expenditure recoverable from landholders or cultivators

III —Under special laws not coming within class (I) such as the Jhansi Encumbered Estates Act, or the Bengal Drainage and Embankment Act

IV —To landholders and notabilities apart from the provisions of any law

V —Advances of special Revenue Departments, such as Excise and Salt

2 The opinions of Local Governments were invited on these proposals These have been received and are uniformly favourable, explanations on matters of detail being only required in some cases

3 The discussion which resulted in the issue of these orders involved the reconsideration of the policy under which it was decided to discontinue the practice of making loans from public funds to Municipal and other public Corporations The views of the Government of India are expressed in the following paragraphs of the Despatch to the Secretary of State for India read above —

3 It may be stated that up till 1876 loans were pretty freely made from public funds to Municipalities and other public Corporations for works of proved public utility and convenience In 1876 the embarrassment caused by the sudden fall in the gold value of silver necessitated the adoption of measures of economy and retrenchment Among other things, it was directed that since the means at the disposal of the Government of India for granting loans to Municipal and other Corporations and to Native States were likely to be limited so long as silver did not recover in value, no application for such loans should be made or forwarded by any Government officer except for purposes which would not admit of postponement (Financial Resolution No 1967, dated 31st July 1876)

4 Following the principle enunciated in the Resolution of 1876, and in view of the increasing demands upon the Imperial Treasury for the capital cost of State works, the Government of India published a further explanation of its position

and intentions in paragraph 30 of the Financial Statement for 1879 80 in the following terms

> There has been a change in the policy of the Government as respects loans to Municipalities and other Corporations For some years past these bodies have borrowed all the money which they have required from the public treasury which could afford to lend them in many rather more cheaply than they could obtain it in the open market This plan had this advantage, that the Registered Public Debt of India represented substantially the whole debt of the country including the debts of these Corporations But the demands upon the Imperial Treasury for the capital cost of State works are now so considerable compared with the limits of its resources that the Government can no longer afford to extend this aid to these independent bodies and they will henceforth be generally left to borrow in the open market for themselves always under strict State supervision The Government is how ver still pledged to some loans to these bodies which are in course of expenditure and it cannot always thus throw Native States or the smaller Municipalities in the interior upon their own resources

5 The operation of the principles thus announced was slightly relaxed by a Resolution, No 2145, dated 28th August 1879, which permitted the several Local Governments and Administrations to make small loans to rural Municipalities without reference to the Government of India on the conditions (i) that the amount of each loan did not exceed ₹5,000 and (ii) that the total amount of such loans sanctioned in a year was not to exceed ₹20,000 in the case of the Local Governments, and ₹10,000 in case of Local Administrations

6 This policy has since been adhered to, except in very special cases Successive Secretaries of State have declared in favour of it, and have been unwilling to sanction a departure from it even in special cases

7 Experience has, however, shown that its rigid adoption has operated very unfavourably in delaying and preventing sanitary improvement and reform It has been found that local bodies cannot raise money in the market except upon extravagant terms, and Municipalities and other Corporations have in several cases found it necessary in consequence to abandon or indefinitely postpone well considered schemes of drainage and water supply We have accordingly cordially accepted the invitation in paragraph 5 of Your Lordship's Despatch No 216, dated 15th September 1887, to reconsider the question

8 The enclosed Resolution, to which we have already invited Your Lordship's attention in paragraph 2, will explain that in future all loans of public money will be made on the guarantee and responsibility of Local Governments It is obvious that under such conditions—where the responsibility for securing the punctual payment of interest and repayment of the principal devolves on Local Governments—loans will not be granted on insufficient security or in cases where the public character of the necessity for them is not fully established It was not the object of the policy adopted in 1876 to impede sanitary reform in the smaller Municipalities, though it would now appear that this has been the result As between a policy which has the practical effect of forbidding public Corporations to adopt methods of sanitary reform and the extended guarantee of the Government which is necessary to enable them to do so there is, we submit, little room for difference of opinion One objection to making the loans from public funds—namely, that it necessarily involved an extension of the borrowing, or at least of the guarantee of Government and thereby affected our credit—we hope to minimise by limiting the funds available for these purposes to a sum which will not appreciably raise the price at which we can borrow money

9 We do not propose at present to adopt the policy of lending to the Presidency Corporations, as they have a public credit of their own and they may very well continue to borrow in ordinary cases in the open market

10 The position of the mofussil Municipalities is, however essentially different, for practically the loan market is closed to them If they can borrow at all, they can only do so at excessive rates of interest We accordingly propose to change our present policy in respect of them and to authorise Local Governments to grant loans to them in future, the three following conditions being strictly adhered to —

1st —Loans to be granted only for works in which the Government, apart from mere local interest, has a general interest, such as drainage and water works, and not to be granted for works of purely local interest, or works which are conveniences but not necessities, such as roads, bridges, market places, town halls, and the like

2nd —A loan to be repaid within as short a period as possible, not exceeding 30 years in any case, or 20 years except under very special circumstances, and with special sanction

3rd —A local body, having borrowed from Government not to borrow from any other source so long as a part of its debt to Government is still outstanding

11 We accordingly ask Your Lordship's permission to provide, if we adopt the policy of placing loan accounts at the disposal of Local Governments, for the loan of public money to the Municipalities described on the guarantee of the Local Government concerned

4 These proposals met with the approval of the Secretary of State, who replied in the following terms —

6 To the general policy thus described I give my cordial approval as being one calculated to facilitate the development of the smaller towns and districts without adding to the charges falling on the Imperial Revenues

7 The expression in the 11th paragraph of your letter that the money will be lent to the Municipalities on the guarantee of the Local Government, I understand to refer to the arrangements between the Imperial and the Local Governments, and between the latter and those who borrow from them The money for the purpose can only be raised on the credit of the Government of India, as was pointed out in Lord Cranbrook's Despatch, dated the 31st of July 1878, No 267, as part of the general scheme of providing the funds needed for the year

8 It is therefore essential that the total amount to be placed in any year at the credit of the several Local Governments shall not exceed that which you can afford to advance without undue interference with the other objects for which funds may have to be supplied from the balances in India, supplemented by such loans as can be raised without inconvenience in the local market * * *

9 There appears to me to be some fear that difficulty may arise from the third condition prescribed by your Government, and it will be necessary to provide that a municipal body may only borrow from other sources after having obtained the permission of the Local Governments, which would not be granted unless it were clearly shown that the payment of the interest and repayment of the principal of the loan from the Government had been duly secured

— — —

RESOLUTION —The Governor General in Council accordingly proposes to introduce the system under which local loans will be made from resources at the disposal of Local Governments, with effect from the 1st April 1888, and has prescribed the following rules for giving effect to it

1 Advances and loans may be made by Local Governments and Administrations for any of the purposes enumerated below, within the limits or on the conditions defined hereafter, without reference to the Government of India —

I —Advances to cultivators under various Acts such as the Land Improvement Loans Act, 1883 or the Agriculturists' Loans Act 1884

II —Advances under special laws not coming within class (I) such as the Jhansi Encumbered Estates Act or the Bengal Drainage and Embankment Act

III —Loans to landholders and notabilities apart from the provisions of any law

IV —Loans to Municipal and other public Corporations (other than Presidency Corporations) for works of public utility and convenience

2 These rules do not affect the procedure prescribed by rules under the several Acts of the Legislature for making applications for such loans or the conditions under which they may be sanctioned The rules under the Local Authorities Loans Act, 1879, are made by the Governor General in Council Those rules have been modified by notifications No 15 and No 16 of this date so as to transfer, except in special cases, the responsibility of deciding whether a loan should or should not be made, from the Governor General in Council to Local Governments Local Governments should similarly take steps to revise the rules under the Land Improvement, Agriculturists' Loans, and other Acts, so as to bring them into harmony with the system now introduced

3 Existing loans to District and Local Boards are to be included in these arrangements The rules under the Local Authorities Loans Act, 1879, published in the Notification of the Finance Department, No 15 of this date, contemplate the grant of loans to District Boards for works which are estimated to give a return of 4 per cent There is, however, a difficulty in making such loans under the present system of incorporating the transactions of these Boards with the general accounts, as in their purely financial aspect the Boards merely represent an administrative arrangement of the Government for the management of such items of public expenditure as the Local Government by law or executive order makes over to them Local revenue and expenditure are at present entered in the accounts as a portion of the general account of Government revenue and expenditure, and so long as that practice continues, local expenditure from *loan* money will necessarily be recorded as part of the general expenditure, while obviously only expenditure met from revenue ought to be so recorded It is not, however, thought desirable to prohibit the grant of loans to District Boards in all circumstances Under the proposed system of separating off the local transactions from the general account more completely

than is at present the case, the objection that now exists will disappear But until that separation is effected, Local Governments should arrange to restrict loans to District Boards as much as possible

4 As regards loans to Municipalities, the special conditions to be insisted on by Local Governments before making any loan are —

1st —Loans may be granted only for works of public and general convenience and utility such as drainage water works bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as a town hall, public garden or market place

2nd —A local body which has borrowed from Government may only borrow from other sources after having obtained the sanction of the Local Government concerned, which should not be granted unless it is clearly shown that the sum lent by the Government with interest thereon is duly secured

This condition is of course, enforced indirectly through the operation of the rules under the Local Authorities Loan Act under which the Government of India now sees, and under which in future the Local Governments will see, that the assets and future resources of the borrowing body when it desires to borrow are equal to bearing the burden of a further liability as well as to discharging existing ones

5 The following general regulations will apply to all the advances to which reference is hereinbefore made —

(1) The advances should be repaid within as short a period as possible not exceeding 30 years in any case or 20 years except under very special circumstances and with special sanction

(2) A penal rate of compound interest not less than 6 per cent per annum should be enforced as far as the law allows, upon all over due instalments of interest or principal and interest

6 An advance and loan account will be opened with each Local Government The account will be opened with the actual outstanding balance of advances and loans in each province on the 31st March 1888 Further sums will be placed at the disposal of Local Governments on a consideration of the available resources of the Government during the ensuing year and of the demands presented Local Governments will also be free to utilise any repayments of loans or advances during the currency of the year in making fresh loans and advances

7 Interest at 4 per cent a year will be charged to Local Governments on the mean between the outstanding balance at the commencement and the outstanding balance at the close of each year

On the other hand, Provincial Revenues will be credited with the full amount of interest received on these loans and advances, and any sums which it may be necessary to write off as irrecoverable must, as at present, be at once charged to Provincial revenues and credited to the advance account

8 The Local Government will arrange to receive annual reports upon outstanding loans and advances from its responsible account officer This is already prescribed in the case of loans of Classes I and II by the Rules published with Resolution in the Finance Department, No 6233, dated 24th November 1887, and by the Rules in section 11 of Chapter 7, Civil Account Code, and in the cases of Classes III and IV in the orders contained in Resolutions Nos 3687 and 3688, dated 30th September 1875, and in the orders quoted in Rules 18 to 21 of Chapter 70 of the Civil Account Code The annual verification prescribed by Rule 5 of Chapter 71 of the Code should be also separately reported to the Local Government by the account officer, and it is upon the balances shown on the books of the account office that the interest chargeable to Provincial Revenues will be calculated

9 Any default in the payment of interest upon a loan of public money, or in the repayment of the principal, should be promptly reported by the Account Department to the Local Government A Local Government receiving such a report should immediately take steps to remedy the default

10 The account adjustment of the interest will be as follows The amount of interest received from the borrowers will be credited by the account officer concerned directly as a Provincial receipt under *XII—Interest* The amount of interest payable to Imperial will be adjusted in the same manner as the interest chargeable to Provincial Revenues on account of Capital Expenditure on

Railways and Irrigation Works is adjusted, *i e*, the account officer will, after the close of his March Final Accounts, calculate the amount due on the method stated in Rule 7, and debit it as a final Provincial charge under *13, Interest on Debt*, by credit to India in his Exchange Account The Comptroller of India Treasuries will, on receipt thereof, adjust the item by deduction from the total charge under *13—Interest*

11 Each account officer will accordingly prepare and forward to the Government of India in this Department, before the end of the current month, a statement of the outstanding balances of loans and advances of the nature described in Rule 1 on the 31st March 1888 and of the interest receivable on them during the year 1888 89 If interest on the mean between the balances on 31st March 1888 and 31st March 1889 at 4 per cent exceeds in any case the interest receivable on the loans during the year, the difference will be made good by an addition, corresponding to the excess, to the Provincial assignment No similar adjustment in favour of Imperial Revenues will be made if the reverse (as is probable) is the case, as any such benefit to Provincial Revenues may be considered to be taken against the liability of Provincial Governments to make good any sums that become irrecoverable (Resolution, Financial Department, No 747, dated 26th May 1879) After this adjustment of the assignment on account of the initial inequality is once made no future adjustment of this nature will be made

12 In November of each year (for the current year as early as possible and not later than 31st January 1889), each Local Government will submit to the Government of India an estimate in the accompanying form of the loans proposed to be made and the expected recoveries Upon a consideration of the several demands and of its available resources, the Government of India will determine what sum is to be allotted for the purposes indicated, in the ensuing year, and will distribute it as nearly as possible in proportion to the necessities of each province It is not intended to sanction any additional allotments during the currency of a year

	Class 1	Class 2	Class 3	Class 4	Total
(*a*) Balance outstanding March 31st last					
(*b*) Advances estimated to be made during current year (*a*)					
(*c*) Total					
(*d*) Deduct repayments anticipated (*a*)					
(*e*) Balance outstanding March 31st next					
(*f*) Advances estimated to be made next year (*a*)					
(*g*) Total					
(*h*) Deduct repayments anticipated (*a*)					
(*k*) Balance outstanding end of next year					

(*a*) Details of these should be given separately in any case where a single advance or loan exceeds R2,5 000

The excess of (*e*) over (*a*) must not exceed the amount placed by the Government of India at credit of the Loan and Advance account during the current year The excess of (*k*) over (*e*) is the amount for which a further credit is asked for from the Government of India during the ensuing year

13 In paragraph 10 of his despatch the Secretary of State requires to be periodically informed of the loans that may be granted under the system now introduced The transactions that will now fall under the Provincial Advance and Loan Accounts should accordingly be removed from Accounts Nos 83 and 89 of the Finance and Revenue Accounts and shown in a separate statement in which the details for each Province should be furnished The Comptroller General is accordingly authorised to make such modification in the form of these accounts as will enable the Secretary of State's directions to be complied with

14 These rules do not apply to Ajmere, Coorg, Berar, and the territories administered by the Agents to the Governor General for Central India and Biluchistan

---

ORDER.—Ordered, that this Resolution be communicated to the Home and Revenue and Agricultural Departments, all Local Governments and Administrations, the Comptroller and Auditor General, and all Accountants General and Comptrollers

Ordered further, that it be published in the *Gazette of India*

Read also—

Resolutions in this Department, No 2169, dated 26th April 1888, and No 13, dated 1st January 1889

RESOLUTION — Under the Resolution in this Department, No 13 of this date, Local Governments and Administrations have been vested with the control and management of loans granted from public funds to local bodies excepting Presidency Corporations, and rules have been prescribed for the exercise of such control

2 In accordance with the intention expressed in the Resolution, the rules in force under the Local Authorities Loan Act, 1879, prescribing the procedure in respect of applications for loans or the conditions under which they may be granted, have been revised so as to transfer the responsibility of deciding whether a loan should or should not be made from the Governor General in Council to Local Governments The new rules are contained in the Notifications of this date, Nos 15 and 16

3 The classes of loans and advances which have been brought under the operation of the Resolution are—

I—advances to cultivators under various Acts, such as the Land Improvement Loans Act, 1883, or the Agriculturists' Loans Act, 1884,

II—advances under special laws not coming within class I, such as the Jhansi Encumbered Estates Act, or the Bengal Drainage and Embankment Act,

III—loans to landholders and notabilities apart from the provisions of any law,

IV—loans to Municipal and other public Corporations (other than Presidency Corporations) for works of public utility and convenience

4 Advances under the Land Improvement and Agriculturists' Loans Acts are regulated by rules passed by each Local Government with the approval of the Governor General in Council These rules should be revised, as far as may be necessary, by Local Governments, so as to bring them into accord with the new system

5 Loans under the Jhansi Encumbered Estates Act can be granted under existing orders by the Local Government, and no change in them is required

6 The Bengal Drainage and Embankment Act prescribes that advances

under the Act can be made by the Local Government from public funds with the sanction of the Governor General in Council As such sanction will not be necessary in future, the Act should be amended so as to bring it into accord with the new system

ORDER —Ordered, that this Resolution be communicated to the several Local Governments and Administrations (except Hyderabad)

Ordered also, that it be communicated to the Revenue and Agricultural Department and to the Home Department, with a copy of the Resolution of 24th November 1887, No 6233

Ordered further, that it be published in the *Gazette of India*

No 15 —In exercise of the powers conferred by section 5 of the Local Authorities Loan Act, 1879, the Governor General in Council has made the following Rules for the grant of loans to Local Authorities by the Government —

1 These rules shall come into force on the 1st day of February 1889 On and from that date the rules published with Notification No 2710, dated 17th August 1883, in so far as they relate to the granting of loans shall be rescinded except as regards loans applied for before these rules come into force

2 In these Rules (1) "the Act" means The Local Authorities Loan Act, 1879, (2) "Local Authority" and (3) "funds" have the meanings assigned to them respectively in the Act, (4) "the Local Authority" means the Local Authority applying for or, as the case may be, receiving or having received the loan, (5) "loan" means a loan under the Act, and (6) "Local Board" includes a district board and district council, and any body having like authority beyond the local limits of municipalities and cantonments

3 A loan must be defined in rupees and not by the sterling or any other foreign standard

4 No loan shall be granted except for the construction or repair of works of public utility within the local limits of the area subject to the control of the Local Authority, or for the benefit of the inhabitants within those limits

5 Without the consent of the Governor General in Council, no loan shall be granted to any Local Board for the construction of any public work unless it be estimated that a direct net revenue will be derived therefrom equal to at least four per centum per annum on its capital cost Provided, however, that the Local Government may make a loan, not exceeding R10,000, to a Local Board, for a work designed especially to employ labour for the purpose of relieving distress

6 An application for a loan shall state—

1st, the work, or works, for the construction or repair of which the loan is required, and an estimate of the cost thereof

2nd, the amount which it is proposed to borrow

3rd, the fund or funds on the security of which it is proposed to borrow

4th, the law or laws under which the said fund or funds is or are levied, received or held

5th, the period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments, if any, in which it is proposed to repay the loan

6th, a detailed account of the revenue and expenditure of the Local Authority for the three last preceding years

[*Note*—Debt and deposit transactions such as receipts from and repayments of loans and deposits from contractors and others should not be included under revenue and expenditure but should be shown separately All important variations in the amounts of revenue and expenditure should be explained]

7th, all existing prior charges upon the funds of the Local Authority

7 The Local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work

8 If it appears to the Local Government that the loan ought not to be granted, it shall reject the application

9 If it appears to the Local Government probable that the loan ought to be granted, it shall cause to be published in the local official Gazette, and otherwise, as it deems fit, within the local limits of the area subject to the control of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 7, as it may think necessary

10 After the expiry of one month from such publication, and after calling for any further information which it may require, and considering any objections which may be preferred, the Local Government may either reject the application, or grant the loan if funds are available from the grant placed at its disposal for the purpose Provided that, where the Local Authority is any one of the corporations mentioned or referred to in clause (*a*) of the proviso to section 8 of the Act, the Local Government, if it approves the application, shall not itself proceed to sanction it, but shall refer the application for the orders of the Governor General in Council

11 The Local Government shall make such provision as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the purposes for which it is made Every such work, and the accounts connected therewith, shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division the work is situate, and of any person who may be authorised to inspect the accounts of the Local Authority, and of any other person specially authorised by the Local Government in this behalf

12 If the Local Government considers that the conditions on which a loan was granted have not been fulfilled, or that the Local Authority has failed to comply with any of the requirements of these Rules, it may, at any time, order that no further payments shall be made on account of such loan, and recover the amount advanced, with interest thereon, in the manner mentioned in section 6 of the Act

13 Interest shall be charged half-yearly on each loan at the rate agreed upon, and shall be reckoned and paid on each instalment from the date on which it is received

14 The Local Authority may, at any time with the previous consent of the Local Government, repay the whole or any part of a loan made from the Public Treasury in advance of the period fixed by the conditions of the loan

15 The cost of any enquiry made under Rule 7, of advertisements published under Rule 9, of inspections made under Rule 11, and of any other proceedings by order of the Local Government or the Governor General in Council under these Rules, shall be determined by the Local Government, and shall be paid by the Local Authority

16 (*a*) The accounts of every loan shall be kept by the Accountant General of the Province in which it is made

(*b*) The Local Authority shall give to the Accountant General and the Local Government any information which they may require regarding the expenditure of the loan, and regarding its funds

17 An annual Statement of all loans granted under the Act, repayments due and made during the year, and balances outstanding at the beginning and end of the year in each Province, or under each Local Government, shall be prepared by the Accountant General and submitted to the Government of India through the Local Government, which shall add a report of the progress of the works Such Statement shall be published in the local official Gazette

18 An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint Such notice shall be published in the local official Gazette, and otherwise, as may be directed by the Local Government, within the local limits of the area subject

to the control of the Local Authority The moneys collected or received under such attachment shall be paid into the Government Treasury, and the accounts of moneys so collected, and of the cost of the collection, shall be prepared in such form as the Local Government may from time to time direct A copy of the Accounts shall be delivered to the Local Authority, and published in the local official Gazette

No 16—In exercise of the powers conferred by sections 5 and 7 of the Local Authorities Loan Act, 1879, the Governor General in Council has made the following Rules for the raising of loans by Local Authorities in the open market —

1 These rules shall come into force on the 1st day of February 1889 On and from that date the rules published with Notifications Nos 2748 and 2471, dated 17th August 1883 and 11th May 1888, respectively, in so far as they relate to the authorisation of loans, shall be rescinded, except as regards loans applied for before these Rules come into force

2 In these Rules (1) "the Act" means The Local Authorities Loan Act, 1879, (2) "Local Authority" and (3) "funds" have the meanings assigned to them respectively in the Act, (4) "the Local Authority" means the Local Authority applying for permission to raise or, as the case may be, raising or having raised the loan, and (5) "loan" means a Loan under the Act

3 A loan must be defined in rupees and not by the sterling or any other foreign standard

4 No loan shall be raised except for the construction or repair of works of public utility within the local limits of the area subject to the control of the Local Authority, or for the benefit of the inhabitants within those limits

5 Whenever it is desired to obtain the authorisation of the Government to the raising of a loan under section 7 of the Act a statement shall be submitted to the Local Government showing —

1st, the work or works for the construction or repair of which the loan is required, and an estimate of the cost thereof

2nd, the amount which it is proposed to borrow

3rd, the fund or funds on the security of which it is proposed to borrow

4th, the law or laws under which the said fund or funds is or are levied, received or held

5th, the dates between which the money borrowed is to be received

[*Note* —It is essential that the authority to borrow in the market should be limited to a reasonable time as loans of any considerable amount cannot be held in suspense indefinitely The dates therefore must be fixed with reference to this condition and must not be so wide apart and so indefinite as practically to be a limitation]

6th, the term of years for which the money is to be borrowed, the instalments, if any, in which it is to be repaid, and the amount of sinking fund, if any, provided for its repayment

7th, a detailed account of the revenue and expenditure of the Local Authority for the last three preceding years

[*Note* —Debt and deposit transactions such as receipts from and repayments of loans and deposits from contractors and others should not be included under revenue and expenditure but should be shown separately All important variations in revenue and expenditure should be explained]

8th, all existing prior charges upon the funds of the Local Authority

6 The Local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work

7 If it appears to the Local Government that the loan ought not to be raised, it shall reject the application

8 If it appears to the Local Government probable that the loan ought to be raised, it shall cause to be published in the local official Gazette, and otherwise, as it deems fit, within the local limits of the area subject to the control of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 6 as it may think necessary

9 After the expiry of one month from such publication, and after calling for any further information which it may require, and considering any objections which may be preferred, the Local Government may either reject the application or sanction it Provided that, where the Local Authority is any one of the corporations mentioned or referred to in clause (*a*) of the proviso to section 8 of the Act, the Local Government, if it approves the application, shall not itself proceed to sanction it unless it is authorized so to do by some special enactment for the time being applicable to the corporation, but shall refer the application for the orders of the Governor General in Council

10 The Local Government shall make such provision as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the purposes for which it is raised Every such work, and the accounts connected therewith, shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division the work is situate, and of any person who may be authorized to inspect the accounts of the Local Authority, and of any other person specially authorized by the Local Government in this behalf

11 The cost of any enquiry made under Rule 6, of advertisements published under Rule 8, of inspections made under Rule 10, and of any other proceedings by order of the Local Government or the Governor General in Council under these Rules, shall be determined by the Local Government, and shall be paid by the Local Authority

12 The Local Authority shall give to the Accountant General and the Local Government any information which they may require regarding the expenditure of the loan, and regarding its funds

13 An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint Such notice shall be published in the local official Gazette, and otherwise, as may be directed by the Local Government, within the local limits of the area subject to the control of the Local Authority The moneys collected or received under such attachment shall be paid to the lender, and the accounts of moneys so collected, and of the cost of collection, shall be prepared in such form as the Local Government may from time to time direct A copy of the accounts shall be delivered to the Local Authority, and published in the local official Gazette

---

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may seem to be of interest to the Public and as may usefully be made known The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-subscribers to the GAZETTE may receive the SUPPLEMENT separately in advance payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately in advance payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post

No Official Orders or Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT For such Orders and Notifications the body of the GAZETTE must be looked to

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and Prospects of the Crops

Madras—*For week ending 29th December, 1888*—Rainfall slight in Nellore and Tanjore, and none elsewhere More rain wanted in parts of Ganjam, Coimbatore and Salem Standing crops generally good, but damaged by disease or excessive rain in parts of South Arcot and Tinnevelly, wet crops withering in two taluks of Coimbatore Pasture generally sufficient, except in parts of Salem, Coimbatore, and Trichinopoly Agricultural operations progressing Prices rising in Ganjam and three other districts, falling in six and stationary in others General prospects fair

Bombay—*For week ending 2nd January, 1889*—Rain needed for late crops in parts of Hyderabad, Upper Sind Frontier, Nasik Khandesh, Poona, and Ahmednagar where crops are withering *Jowari* in parts of Bijapur, gram in parts of Belgaum, exotic cotton in four talukas of Dharwar, and late crops generally in two talukas of Satara, blighted, standing crops otherwise good, except wheat in Broach and Belgaum Harvesting of early crops progressing in parts of Nasik, Satara, Bijapur, Belgaum and Dharwar, and sowing of late crops in parts of Shikarpur, Kanara, and Baroda Cotton picking continues in parts of Guzerat Probable outturn of early crops in Kaira from five to nine and half annas, and in Kanara from six to twelve annas Fodder scarce in parts of Broach, Khandesh Kathiawar, and Baroda, and in five talukas of Nasik and two of Belgaum Scarcity of drinking-water in parts of Khandesh and Baroda, and in two talukas of Nasik

Bengal—*For week ending 1st January 1889*—No rain, but fine dry weather prevails generally Winter rice harvest is nearly over, and the outturn, as reported in previous weeks, is nowhere estimated at less than half an average crop, except in the affected tracts in the Patna Division, and in parts of the

Rajshahye Division *Rabi* crops, so far as sown, are doing fairly well, but rain is wanted in the Patna and Chota Nagpore Divisions Poppy and tobacco crops are promising Sugarcane is being pressed in some districts, and is generally expected to be a good crop Spring rice is being planted out and doing well No further information received regarding the affected tracts in the Patna Division beyond what was reported last week The Collector of Chumparun states that the number of labourers on relief works is increasing

North-Western Provinces and Oudh —*For week ending 2nd January, 1889* —Weather clear and cold West winds prevailing *Rabi* crops doing well, but rain greatly needed for unirrigated lands Supplies sufficient Prices steady Fodder dear in parts Condition of cattle good

Punjab —*For week ending 2nd January, 1889* —Slight rain at Peshawar Prices are unsettled in Delhi and Peshawar, rising in Rawalpindi, and stationary in other districts Cotton picking over, *rabi* sowing finished Rain much wanted at Hissar for *rabi* crops, otherwise prospects of *rabi* generally good Stock cattle healthy Fodder sufficient, except in Hissar, Dera Ismail Khan, and in parts of Rawalpindi

Central Provinces —*For week ending 2nd January, 1889* —Weather clear Rain has been insufficient for winter sowings in northern districts, and for wheat and linseed in Raipur Prospects of winter crops favourable elsewhere Cattle in fair condition Fodder sufficient

Burma —*For week ending 29th December, 1888* —No rain has fallen throughout Upper and Lower Burma during the past week Reaping continues, and crop prospects remain generally favourable There has been a slight rise in the price of paddy in Thayetmyo Moulmein, and Pakokku In Shwegyin it is reported to have fallen more than one third

Assam —*For week ending 2nd January, 1889* —Weather cold Slight rain in Lakhimpur Harvesting of cold weather rice still continues Prospects of standing crops in general good

Mysore and Coorg —*For week ending 2nd January, 1889* —Standing crops in good condition Harvesting operations continue Prospects of season favourable Prices slightly fallen in Shimoga

Coffee picking and harvesting of rice in progress in Coorg

Berar and Hyderabad —*For week ending 2nd January, 1889* —No rain Picking of cotton and cutting of *jowari* completed in some districts Outturn estimated from 0 to 12 annas *Rabi* crops generally good Wheat in ear Gram in pod Linseed in flower Cattle healthy Fodder insufficient in some districts Prices stationary

No report received from Hyderabad

Central India —*For week ending 2nd January, 1889* —Bhopawar reports scarcity of water in parts to south and west of agency, and supply diminishing No other changes of importance since last report

Rajputana —*For week ending 2nd January, 1889* —Agricultural operations satisfactory Standing crops good and thriving Prospects of harvest good Agricultural stock good Pasturage or fodder sufficient Prices steady generally

Nepal —*For week ending 27th December, 1888* —No rain Weather cloudy Prospects fair in the valley of Nepal

E C BUCK,

Secretary to the Government of India

ANNUAL REPORT ON THE POST OFFICE OF INDIA FOR THE YEAR 1887 88

No 180 dated Calcutta the 10th January 1889

RESOLUTION—By the Government of India Department of Finance and Commerce

Read—

The Annual Report on the Post Office of India for the year 1887 88

RESOLUTION —The year 1887 88 has been one of general progress in postal business, and the Report for that year, which was received in print on 15th December, illustrates how closely the work of the Post Office touches, at many points, the commercial life of the country In Burma a marked advance has been made in placing the postal administration on a proper footing

2 The new contract with the Peninsular and Oriental Steam Navigation Company for the mail service between the United Kingdom and India and China came into force from the beginning of February 1888 A saving of £95,000 has been effected in the total cost of this service, of which India will receive its appropriate share, probably about £18,000, and the contribution required to make up the deficiency in the cost of the European mail service was reduced from £68,000, the sum paid in the two preceding years, to £65,000 for 1887 88

3 There was an increase of 14 millions in the number of articles issued for delivery Newspapers and parcels have not actually fallen off in number, but show a tendency towards decrease, letters maintain their ordinary rate of increase, while postcards are constantly gaining a more important place in the correspondence of the country The greatest increase was in the number of book-packets, but this, no doubt, was connected, to some extent, with the improper use of the value-payable post described in paragraph 42 of the Report Nearly five million letters were registered, so that in seven years, since the registration fee was reduced, the number has nearly doubled, notwithstanding the fact that the progress of the money order system constantly tends to lessen the practice of sending remittances by registered letters, which formerly was one of the main reasons for the use of registration

4 The funds of the District Post have been spent of late years largely on rural delivery, and the propriety of this policy, which has been approved in the past, can hardly be questioned when these funds are derived from cesses It is clearly right that the provision of postal services for the agricultural population should be one of the objects on which money directly contributed by them should be spent

5 More than 5½ million money orders were issued during the year, and the constant growth of the popularity of this branch of postal business is attended with evidence that the system is being used for the legitimate purpose of a Post Office money order system The average value of each money order was R21-7-9, the lowest figure yet reached, and it is stated that more than half the money orders issued were for sums not in excess of R10 In the North-Western Provinces nearly 18 lakhs of revenue were paid by means of the special Revenue money orders, while in the Lower Provinces, to the whole of which the system was extended for the first time during the year, 2½ lakhs of revenue were paid by these orders The Rent money order system has also commanded a large measure of success during the year, the first year of its general adoption, in the North-Western Provinces, and is to be introduced into the Lower Provinces The reduction in the rates for telegraphic money orders led to an increase of business, and has evidently been appreciated in Burma There was an increase in the sale of British Postal Notes, and it may be hoped that the measures now proposed to be taken will lead to a larger demand for them

6 The business of the Post Office Savings Bank shows a considerable increase, but the amount at present invested in Government securities bears a very small proportion to the total balance at the credit of depositors' accounts

7 As regards general matters, it is satisfactory to find that the result of calling public attention last year to the insecure and careless way of sending newspapers and packets through the post has been an improvement in this respect, and the whole section of the Report dealing with the work of Dead Letter Offices has been read with interest The complaints regarding defective gum on postage stamps have received the attention of Government, and it is hoped that the representations made on the subject will lead to the removal of the defect in future supplies The matter is one in which a good deal of public inconvenience in a small way has been caused

8 The revenue and expenditure of the Post Office stand as under —

	1886-87	1887-88
	R	R
Revenue	1,15,43,070	1,21,41,962
Expenditure	1,35,02,920	1,37,52,017
Deficit	19,59,850	16,10,055

To this deficit should be added indirect expenditure connected with the Post Office which appears in the Finance and Revenue Accounts under other heads, while the charge on account of District Post establishments which is met from local cesses and contributions by Local Governments has to be excluded The financial position, therefore, of the Post Office may be shown as follows, and it will be seen that the deficit has been reduced by a lakh and three quarters —

	1886-87	1887-88
Deficit according to statement XI of the Report (purely postal transactions including exchange)	R 19,59,850	R 16,10,055
Add—Indirect expenditure	6,52,417	8,24,929
	26,12,267	24,34,984
Deduct—District post charges	11,09,172	11,09,819
Resulting deficit	15,03,095	13,25,165

This deficit includes the cost of maintaining the Post Office Savings Banks, but with regard to service postage it has to be said that there are good reasons why ordinary postage rates should not be charged on official correspondence in India, while the matter is not important financially, as no real question of revenue is involved From a departmental point of view, however, it is natural and reasonable that full credit should be claimed for the services rendered to Government, if the results of the administration of the Post Office are to be compared on equal terms with the results of Post Office administration elsewhere

9 The thanks of Government are due to Sir F R Hogg for the continued success of his administration of the Post Office, to Mr Hynes, Deputy Postmaster General, Burma, and to the other officers whose special services have been brought to notice in paragraph 60 of the Report

ORDER —Ordered, that a copy of the foregoing Resolution be communicated to the Director General of the Post Office of India

Ordered, also, that the Report and the Resolution be published in the *Gazette of India*

A U FANSHAWE,
Offg Secy to the Govt of India.

ANNUAL REPORT

ON

THE POST OFFICE OF INDIA

FOR THE YEAR

1887-88

No 6492 dated 27th November 1888

From—A U FANSHAWE Esq *Offg Director General of the Post Office of India*
To—*The Secretary to the Government of India, Department of Finance and Commerce*

I have the honour to submit the Annual Report on the Post Office of India for the official year 1887-88

Principal events Inland Post

2 The year was one of steady progress, on the whole, in all branches of Post Office business, and was specially marked by a large development of postal communications, chiefly in connection with Burma As regards steam services,* the contract with the Asiatic Steam Navigation Company for the Port Blair service was renewed for five years with effect from the 1st January 1888, and the British India Steam Navigation Company doubled its steamers between Calcutta and Rangoon and the Coromandel coast and Rangoon Arrangements have been made with the Company for the conveyance of mails by these subsidiary steamers with effect from the 1st February 1888, previous to which date the mails were carried free as a temporary measure, with the result that a regular semi weekly mail service has been established between Calcutta and Rangoon, and a regular weekly mail service between Madras, the ports of the Northern Circars and Burma In Burma itself there has been a marked advance in the postal administration with the more complete establishment of civil control over the upper portion of the province, though mail lines have still in some parts to be managed by the civil officers, and there were ten mail robberies during the year In Bengal and the North-West Provinces the revenue and rent money order schemes made substantial progress, and a system of extending the hours of business at post offices was introduced with success, and is now being generally adopted It may be mentioned as a special event that towards the close of the year a Field Post Office was organized for the Sikkim expedition, and a special mail line was opened through the Teesta Valley and across the Sikkim frontier

Principal events Foreign Post

3 The principal events of the year, affecting the external relations of the Post Office, were shortly as follows —The new contract with the Peninsular and Oriental Company came into force from the beginning of February 1888, and the first steamer under the new contract reached Bombay on the 20th February The change in mail arrangements, to which it has given rise, will more properly fall within the scope of next year's report, but it may be mentioned that the most important of these will probably be the introduction of sea-sorting between Aden and Bombay, instead of between Port Said and Bombay A saving of £95,000

* A list of the principal steam services is given in a schedule at the end of the Report

has been effected on the total cost of the India and China mail services, of which India will obtain its proportionate share, and the contract time between London and Bombay has been reduced from 17 days 15 hours 45 minutes to 16 days 16 hours A reduction in the transit rates charged by France and Italy for the conveyance of the overland mails by special train service between Calais and Brindisi was negotiated during the year by the British Post Office, and came into force from the 1st January 1888, but will not lead to any change in the present postage rates from India to the United Kingdom, as, even after making allowance for India's share of the saving in the subsidy to the Peninsular and Oriental Company, there will be a serious deficiency on the overland mail service to be made good It was stated in last year's report that the rates of postage between India and Ceylon by what is known as the land route and by Indian mail packets, had been reduced to ordinary inland rates This change was introduced in Ceylon from 1st January 1887, but in India from the beginning of the official year now under report As a small matter, a direct exchange of mails was arranged between part of Burma and Chiengmai in Siam in recognition of an informal exchange that had grown up, the ordinary route for correspondence for Siam being *vid* Singapore Under the head of the foreign parcel post there were no changes, but it may be mentioned that the entire parcel mail for the United Kingdom from India and Aden, consisting of 788 parcels of the aggregate declared value of £2,466-10 10, was lost in the wreck of the *Tasmania* off the coast of Corsica on the 17th April 1887 Some of the parcel boxes were subsequently got up from the wreck, and the parcels that had not been ruined by the sea water were delivered, but 450 parcels were never recovered The money order exchange that had been established between India and Labuan in October 1885 was discontinued at the request of the Government of that Island

Working of the P and O Contract

4 For the first ten months of the year the old contract with the Peninsular and Oriental Company remained in force, according to which the outward mail steamer was due in Bombay on Tuesday of each week, and it was only for the last six mails of the year that a Monday arrival was obligatory under the new contract But on no less than 44 occasions the steamer actually reached Bombay on Monday or earlier, and the Peninsular and Oriental Company has to be thanked for providing a substantially better service than required by the terms of their contract Further details as to the working of the contract will be gathered from the following extract from the report of the Post Master General, Bombay —

"The contract steamers of the Peninsular and Oriental Company arrived in Bombay behind contract time on four occasions The *S S Nizam*, due on the 11th June 1887, did not arrive until Thursday, the 16th June, at 8-30 A M, the delay being 1 day 20 hours 30 minutes The vessel encountered a severe cyclone between Aden and Bombay and had to lie to out of the range of the cyclone The same steamer was 3 hours 59 minutes behind contract time on the 29th November 1887, the delay on this occasion being due to the fact that the *S S Pekin* bringing the parcel mails from London was late The *S S Mongolia*, due on Tuesday, the 24th January 1888, was 9 hours and 50 minutes behind contract time owing to the detention of the steamer at Brindisi on account of the late arrival there of the mail train The *S S Siam*, due on Monday the 5th March at 12 noon under the new contract, did not arrive until 4 P M the same day, this again being due to the late arrival of the mail train at Brindisi On the other hand, the mail steamers arrived 37 times on Monday, although not due until Tuesday, except for the last six weeks of the year, six times on Sunday and once on Saturday The average time occupied by the mails between London and Bombay was 16 days 15 hours outwards and 16 days 18 hours homewards

It may be added here that the sum actually contributed by the Post Office during the year towards the annual deficiency that has to be made up by the United Kingdom and India was £65,000, as compared with £68,000 the sum paid in each of the two preceding years This reduction is due to the fact that the new contract with the P and O Company, with the reduced subsidy, was in force for

the last two months of the year The full reduction on account of the saving in the Company's subsidy will have effect from next year

5 The administration of the department throughout the year under report was in the hands of Mr Hogg, now Sir F R Hogg, K C IE, the permanent Director General of the Post Office Charge of Post Office

Section I —Post Offices, Letter Boxes and Village Postmen

6 Appendix I, of which an abstract is given in the margin, contains comparative statistics for the last two years regarding the number of post offices, letter boxes and village postmen There has been a material increase on the whole, though less than during some years of late The number of post offices has increased by 166, of which 17 were new offices of some little importance in Burma, while the rest were chiefly branch or village offices in the charge of schoolmasters, or other persons not regular servants of the post office There is now a keen perception abroad in many parts of the country of the advantages of village post offices, and applications for their establishment are constantly received from the villagers themselves, many of which are the genuine expression of their wishes, although in some cases the local schoolmaster may be the moving spirit in the matter, with a view to obtain incidentally an addition to his own income A special check on the revenue of these offices, even after they have been made permanent, has been in force for some years past, and it hardly ever happens that an office opened experimentally fails to pay its way The chief increases in the number of these branch offices were as follows 39 in Bombay, 33 in Bengal, 26 in the North-Western Provinces and in the Central Provinces, and 21 in Madras As regards placing letter boxes much remains to be done, and in many parts of the country facilities for posting letters have not yet been extended to the rural population, the difficulty being to provide the agency for clearing letter boxes without a material addition to Post Office expenditure In the same way there is still ample room for the further extension of rural delivery, if the necessary funds were available In Madras and the North Western Provinces the work of village postmen has received special attention during the year, and it is in this direction that the more immediate development of the Post Office is now required It may be added, however, that during the last ten years the number of village postmen has been doubled Post Office receptacles and rural delivery

	Number at the close of 1886-87	Number at the close of 1887-88	Increase
Post Offices	7 097	7,263	166
Letter Boxes	9 386	9 704	318
Village Postmen	4,455	4,725	270

Section II —Postal Lines

7 Appendix II contains statistics according to postal circles regarding the length of lines over which mails are conveyed by the various agencies used by the Post Office for this purpose There has been an increase under every head as the marginal abstract will show, for which the extension of Postal communications

Year.	Railway	Mail cart horse and camel lines	Runners or boats	Steamer service sea and river	Total
	Miles	Miles	Miles	Miles	Miles
1886 87	12 710	3,933	35 729	11 683	64 055
1887-88	14,043	3,963	36,471	12,483	66,960
Increase	1 333	30	742	800	2 905

postal communications in Burma is chiefly responsible The increase in the railway mileage was due to the opening of a number of new sections of railway in various parts of the country, or to the utilization for the conveyance of mails of sections previously opened The most important of these were the sections of the Southern Mahratta Railway from Dharwar to Belgaum, and from Koregaon to Belgaum, and the Portuguese Guaranteed Railway to Marmagoa in the Bombay Presidency, the line from Rindli to Quetta in Baluchistan, the section from Chaunra to Jhansi of the Indian Midland Railway in the North Western Provinces, the section from Malakwal to Bhakkar of the North Western Railway in the Punjab, and the sections from Guntakul to Nundyal of the Bellary Kistna Railway, and from Nellore to Tirupati of the Cuddapah Nellore Railway in Madras This increase in the railway mileage led to the closing of the Satara to Belgaum section of the old Poona and Belgaum tonga service, and to the discontinuance of the horse post between Rindli and Quetta, but the introduction of horse services on the marginally named lines in Burma more than counterbalances this, and accounts for the total increase under the second head in the abstract The large increase under "Runners or boats" is also due chiefly to new lines in Burma, and the same thing is true of the increase under steamer mileage Most of the steamer lines in Burma which have contributed to the increased mileage under this head, are not subsidized lines, but convey mails free of cost through the courtesy of the Irrawaddy Flotilla Company to which they belong

Section III —Correspondence and Parcels

General Results

6 The estimated number of articles of all kinds including parcels that were issued for delivery during the year was 14 millions in excess of the number issued during the previous year Statistics according to postal circles will be found in Appendix III, and a summary of the general results is given in the margin The increase in all classes of correspondence, taken together, was common to every part of the Empire with the single exception of the postal circle comprising Sind and Baluchistan In this circle a decrease on the whole of 7½ per cent is shown, and has been attributed to the completion during the year of various parts of the Sind-Pishin section of the North Western Railway and the consequent diminution of the railway construction staff in Baluchistan On the other hand, there was an extraordinary increase of 29½ per cent in the correspondence and parcels for Burma, which was chiefly due to the large number of troops in the country in August 1887, when the first week's enumeration of articles was made The results, however, of the second week's enumeration made in February 1888, when most of the troops had been withdrawn, furnish evidence that, apart from this special cause of increase, a material development of correspondence is to be expected in Burma Newspapers show an increase of one per cent only For several years after the introduction, in 1881, of the quarter anna

Year	Letter Inland Registered Post Card	Newspaper	Parcels	Book and Pattern Packet	Total
	No	No	No	No	No
1886 87	2 5[illegible]11 265	21 606 697	1 579 904	5 751 878	254 749 744
1887 88	238 602 376	21 832 775	1,621,418	6 739 658	268 886 227
Increase	12 681 111	226 078	41 514	987 780	14 136 483
Percentage of increase	5 70	1 05	2 63	17 17	5 55

postage rate for light newspapers the percentage of increase in the number of newspapers posted was very marked, but last year it fell suddenly, and during the year now under report it has diminished to one per cent The discontinuance of two papers which had a very large circulation in Bengal is the immediate reason for this The increase in the parcel traffic of the Post Office is also becoming more and more attenuated Last year it stood at 7 per cent and has now fallen to 2½ per cent There was an actual decrease in the number of ordinary parcels and of insured parcels, and the increase of 2½ per cent, on the whole, was entirely due to an expansion of the value payable parcel business Book and pattern packets go on increasing in number, and in no other class of correspondence has the proportion of increase been so consistently high of late years There was an increase of nearly a million in the total number of packets during the year, and the highest percentage of increase was under the head of value payable unregistered books

9 Further details regarding letters and post cards will be found in the table given in the margin Nearly 76 million post cards were issued for delivery during the year, being an increase of eight millions or 11 95 per cent over the number of the previous year Since post cards were first introduced in 1881 82, the yearly increase has been regularly from eight to ten millions, and the proportion of post cards to letters is already much higher in India than in the United Kingdom At the same time there has been an increase of 3 16 per cent in the number of letters on which postage was prepaid, which was about the normal rate of increase in letters before the introduction of post cards There has also been an increase of nearly two per cent in the number of unpaid letters, though the tendency of late years has been generally towards a decrease, partly owing to the growing use of post cards and embossed envelopes, and partly to the increasing confidence of the Native public in the Post Office The total number of letters on which postage is not prepaid is still very large, and, notwithstanding the tendency already referred to, has for the last seven years never been much below 28 millions except in 1884-85 The proportion of such letters to the letters on which postage is prepaid varies very much, as might be expected, in different parts of the Empire, and stands highest in the provinces which have a large emigrant population or are still backward In Behar and Oudh the unpaid letters are nearly half as many as the paid letters, while in Burma they are in the proportion of two thirds to the paid letters The percentage of increase in the number of registered letters is less than last year but about the same as in 1885 86 The registration fee was reduced from 4 annas to 2 annas in August 1881, and the reduction was followed by an increase of 19 per cent in the registration work of 1881 82 over the results of the previous year Since then the percentage of increase has varied between 9 and 5 per cent, and the total number of registered letters has now, after seven years, nearly reached five millions as compared with a total of two millions seven hundred thousand in the year preceding the reduction of the fee

Post cards paid unpaid and registered letters

Year	Post cards	Letters paid	Letters unpaid	Letters registered	Total
	No	No	No	No	No
1886 87	67 756 098	125 871 580	27 567 688	4 620 899	225 811 265
1887 88	75 855 590	129 853 689	28 098 537	4 884,560	238 692 376
Increase	8 099 492	3 982 109	535 849	263 661	12 881 111
Percentage of increase	11 95	3 16	1 94	5 71	5 70

10 The figures given in Appendix III include the foreign correspondence received in India for delivery, and a special table is given below showing separately the amount of correspondence in both directions between India and the United

Kingdom, and between India and foreign countries It will be seen that there has been an increase of about 4½ per cent in the letters and post cards received from and sent to the United Kingdom, and that the totals on each side curiously approximate each other In 1886 87 there was an unusual increase of 20 per cent in the number of book packets received from the United Kingdom, and now a decrease of 6 per cent has to be recorded, but the figures are still largely in excess of those of 1885-86 Enormous numbers of trade circulars are sent from the United Kingdom as book packets, and the discontinuance of this practice by a few firms, or the sudden resort to India as a new field for advertising, is sufficient to make a material difference in the figures under this head As regards foreign correspondence with other countries, a very marked increase is shewn under every head in both directions This is due to the fact that the statistics on which these returns are founded are only recorded at intervals of three years The figures in the report for 1886 87 were those of May 1885, while the present figures are those of November 1887

Class	Estimated aggregate number		Percentage of		Remarks
	1886 87	1887 88	Increase	Decrease	
Despatched from India to the United Kingdom — Letters including post cards	3 099 565	3 238 779	4 49		These figures are based on the monthly accounts between India and the United Kingdom

Books &c	3 270 415	3 091,124		5 48	
Despatched from India to Foreign Countries other than United Kingdom — Letters including post cards	715 390	1,227,641	71 60		The corresponding figures shown in the report for the year 1886 87 were based on statistics taken according to Union rules in May 1885 the figures now given are calculated from similar statistics taken in November 1887
Other articles	293 867	397,861	35 38		
Received in India from Foreign Countries other than United Kingdom — Letters including post cards	744 244	1 344,639	80 67		
Other articles	558 117	1,055 292	89 08		
Grand total of Correspondence exchanged with Foreign Countries other than United Kingdom — Letters including post cards	1 459 634	2,572,280	76 22		
Other articles	851 984	1,453,153	70 56		

N B —The heavy increase and Foreign Countries partly due to the fact that there is a long interval between the present statistics but it is also due in part by the introduction for the first time of correspondence conveyed by non contract steamer in the East

Foreign Parcels

11 The parcels received from the United Kingdom and abroad are also included in the total number of parcels issued for delivery as shown in Appendix III, and a summary of the transactions for the year as regards this class of parcels is given in the table at the end of this paragraph, while the increase, on the whole, in comparison with the results of former years will be seen from the figures in the margin The parcel post with the British Post Office continues to increase in popularity, the total number of parcels sent and received showing an advance of more than 10,000 over the figures for the previous year The limit of weight for parcels exchanged direct with the British Post Office is 11lb, but the majority of the parcels are very light The average weight of parcels received in India was rather over two pounds, and of parcels sent from India not quite two pounds A reduction in the present rate of charge, 1s per pound in the United Kingdom and 8 annas per pound in India, is under negotiation and will probably lead to increased traffic Side by side with the parcel exchange with the British Post Office the old parcel

Year	Number of parcels
1873 74	21 923
1874 75	25 563
1875 76	35 819
1876-77	45 357
1877 78	59 183
1878 79	69 763
1879 80	73 211
1880 81	80 257
1881 82	88 840
1882 83	88 684
1883 84	98 296
1884 85	110 590
1885 86	133 054
1886 87	141 453
1887 88	158 792

agreement with the Peninsular and Oriental Steam Navigation Company has hitherto been allowed to remain in force, the limit of weight in this case being 5olb Very few parcels are now sent from India by the special P and O agency, but a very large number are received by it from the United Kingdom The average weight of these parcels is shown to have been rather less than six pounds, and the reason why this agency is still used, in preference to the British Post Office, for light parcels from the United Kingdom, is that the advantages of insurance and of sending parcels unpaid are available when the P and O Company is the carrier on its own account In addition to this, under a special arrangement made by the Indian Post Office some years ago, parcels of books are carried by the Company at the reduced rate of six pence per pound, and these book parcels have very largely increased in number during the year The agents of a patent medicine sent out during the year an enormous number of book parcels containing thousands of notices in English and various vernaculars of the country to the address of postal officials all over India in the hope that the notices might be distributed by postmen, no less than three thousand of these book parcels arrived at Bombay by one mail in November 1887 This accounts for the fact that, although the total number of parcels received through the P and O agency is larger than last year, the revenue under this head has fallen off Special statistics recorded at Bombay shew that out of the total number of 45,592 parcels received in Bombay by the P and O agency, 29,682 were book parcels, and that 10,038 were parcels not exceeding 1 1lb in weight, of which number 7,724 were either insured or forwarded without the charges having been prepaid Only 5,872 were parcels exceeding 1 1lb in weight

* Net revenue is calculated after deduction of customs duty and sums due to the Peninsular and Oriental Company and London Post Office

Delivery work of year

12 The figures given in paragraph 8 of this report show the total number of letters, post-cards, newspapers, packets, and parcels received by the Post Office for delivery, as calculated from the results of an actual enumeration of articles made for a week in February and for a week in August But in order to ascertain the entire delivery work of the year, it is necessary to add to the figures of that paragraph the number of money orders issued during the year,

which is the actual number as ascertained from the money order accounts The entire delivery work of the year can then be judged from the figures below —

Sent out for delivery (including 5,512,395 money orders)	274,398,622
Received back undelivered	8,614,274
Balance actually delivered	265,784,348
Sent to Dead Letter Offices	2,866 545
	268,650,893

These figures show that the proportion of articles delivered to the whole number sent out for delivery was 96 86 per cent which is about the usual average

Returned letters &c

13 As shown above, the number of letters, post cards and other articles, exclusive, of course, of money orders, that reached the various Dead Letter Offices was 2,866,545 or 104,343 less than the number which they had to deal with in the preceding year The distribution of this work between the Dead Letter Offices and the disposal of the work will be found in Appendix IV, while a summary of the general results is given in the statement at the end of this paragraph The decrease in the total number—and the tendency of late years has been constantly towards a decrease—is due in part, no doubt, to the spread of education and more directly and more largely to the growing use by Natives of India of post cards and embossed envelopes, which at any rate provide sufficient space for a legible address, and are gradually leading in many parts of the country to the extinction of the old native letter folded up into a narrow slip of paper with the address running round both sides of it Of the total number of articles, 309,935 were successfully disposed of by being redirected and so delivered to the persons for whom they were intended, 1,578,715 were returned to the senders, and 707,362 were unreturnable As in the preceding year, there were eleven Dead Letter Offices, but, with effect from the 1st January 1888, the Dead Letter Office, Rangoon, which had previously only disposed of letters and other articles addressed in Burmese, was constituted a regular Dead Letter Office for the disposal of all returned articles from the post offices of the province of Burma

			Number		Percentage	
			1886-87	1887 88	1886 87	1887 88

14 Special attention was directed in last year's report to the remarks of the Postmaster General, Bombay, on the careless and insecure manner in which certain classes of newspapers and packets from the United Kingdom were sent through the post by the public, and the following extract from his report for the year now under review will again be found of interest — Insecure manner of closing packets

"In my last year's report I purposely drew attention to the want of care which unnecessarily consigned many newspapers and packets to an untimely grave in the Dead Letter Office The matter was specially referred to in the Annual Report on the operations of the Post Office, attracted general attention in the public press, and at the express wish of the Government of India was made the subject of a postal notice, which was distributed throughout India to all European residents in March 1888 A number of references have since been received from all parts of India, and though no change could have been expected before the close of the official year under report, it may be stated that an undoubted improvement has now (August 1888) been found as the result of the public attention that has been directed to the matter For the first time during the year under report actual statistics of the newspapers and packets received in the Foreign Mail without covers or wrappers have been recorded, and it was found that there were 6,158 cases of the kind from 1st April 1887 to 31st March 1888 Although there is no doubt that greater care can be taken, of which we already have evidence, it must be remembered that after all the percentage of such articles that suffer in transit is very small out of the enormous mass of newspapers and packets sent out to India This part of the mail alone from Brindisi is estimated to amount to 80,000 or 100,000 articles by each mail steamer"

The same want of care on the part of the public in India is frequently remarked, and is the reason why many packets for the loss of which the Post Office is blamed find their only possible destination in a Dead Letter Office The Postmaster General of the North Western Provinces mentions particularly the number of photographs noticed by him during the year in the Dead Letter Office of those provinces owing to their having become detached from their coverings, or to the label bearing the address having disappeared from the packet So long as carelessness remains a human failing, its effects must, of course, be reflected in the annals of the Post Office, which enters into the daily life of persons of all classes and all ages But something, perhaps, may be done in the way of minimizing the results of this carelessness by constantly inviting public attention to the lessons to be learnt in our Dead Letter Offices It would be something, for instance, if the senders of photographs among the educated classes would realize that, by the simple expedient of writing their name and address on the back of the photographs, they can ensure that they shall receive their packets back, should the Post Office be unable, for any reason, to deliver them to the persons for whom they were intended

15 An instance of still greater carelessness on the part of the public is to be found in the fact that every year large numbers of letters reach the various Dead Letter Offices with no addresses whatever upon them This point was also referred to last year, and the Postmaster General, Bombay, has had special statistics recorded regarding the letters of this kind that reached the Bombay Dead Letter Office He writes as follows on the subject — Letters without addresses, &c

"In my last year's report, I also referred to the number of letters which reached the Bombay Dead Letter Office without addresses Statistics have also been recorded regarding these letters, and it was found that no less than 3 414 letters with absolutely no address of any kind found their way into the Dead Letter Office during the year Only one or two of these envelopes with blank faces contained English letters, the writers in these cases being ladies The great bulk of them held Gujarathi and Marathi correspondence, the Gujarathi letters being in the proportion of three to one to the Marathi letters Most of the Gujarathi letters contained railway receipts, accounts and business communications, and appeared to have been posted in a hurry, frequently at railway stations, and it is a curious fact that the shrewd Gujarathi should be so careless about his business correspondence"

Statistics have not been kept in other postal circles, but the Postmaster General, Bengal, estimates that some 3,000 letters and postcards with absolutely no address were received in the Calcutta Dead Letter Office during the year, and there is no doubt that at the other nine Dead Letter Offices a very large aggregate of similar letters had to be dealt with Carelessness of this nature is not, of course, peculiar to India Similar results, though less in proportion to the number of letters passing through the post, are familiar to the Post Offices of other countries, and it is stated in the Postmaster General's 34th Report on the British Post Office that more than 25,000 letters without any address had to be disposed of during the official year 1887 88 by the Dead Letter Offices in the United Kingdom The number of letters, however, passing through the British Post Office is nine times as great as the number dealt with in India

Valuables and other articles found in returned letters

16 The valuable property found during the year was rather less in amount than in the previous year In the Madras Dead Letter Office it amounted to ₹12,250, and in the Bengal Dead Letter Office to ₹20,673, the greater part of which consisted of cheques, currency notes, and bills of exchange In the Bombay Dead Letter Office property of the value of ₹1,46,057 3-1 was taken out of letters that had to be opened, and is described as under —

"The Dead Letter Office had to deal with valuable securities and other property of the total value of ₹1,46,057 3 1 found in articles which were opened in the course of its business as compared with the property of the total value of ₹1,86,727 2 11 dealt with in the preceding year Of the value of ₹1 46,057 3 1 cheques and hundies were the principal items their value being ₹1,38,523 2 9 and the balance was made up as below —

	₹ a p
Bills of exchange	5 307 10 6
Currency notes	425 0 0
Postage labels	92 8 11
Coins &c	1,708 12 11
	7 534 0 4

Of the total, property of the value of ₹1,37,386 15-6 was disposed of during the year, leaving a balance of ₹8 670 3 7 principally under the head of cheques and hundies as undisposed of at the close of the year"

It may be added, as an illustration of a curious and childish practice on the part of a class of Marwari traders, that a number of very heavy letters, which had been refused because postage was due upon them, were found, on being opened in the Bombay Dead Letter Office, to contain old pieces of iron or brickbats These had been sent from Bombay itself or from places in the Bombay Presidency to the address of Marwaris in Bikanir and Marwar, and enquiries made in Rajputana and Bombay showed that it is a custom with certain Marwari traders to send letters of this kind to members of their firm who, having gone on leave to their homes, fail to return at the proper time The intention of the senders is apparently that the absentee should pay the postage, and in this way be fined for his absence from work, and so reminded of the necessity for his return, but as the persons addressed almost invariably refuse to pay the postage, the practice can hardly be efficacious even in the way intended

Sale of postage stamps.

17 The sales of post-cards, postage stamps and embossed envelopes are shown according to postal circles in Appendix V, while similar information regarding the sales of service post-cards, service postage stamps, and soldiers' embossed envelopes, is given in Appendix VI A statement compiled from these appendices to show the total sales of each class of post card, stamp or envelope, is given

on the next page, and it will be understood that the figures represent the quantities obtained from the treasuries by postmasters and stamp-vendors for retail to the public The inland ½-anna post-card maintains its great popularity, the sales during the year showing an increase of more than 7½ millions over the sales of 1886 87 Nearly two millions of the increase belong to the Bombay circle, and one million to each of the circles of Bengal, Madras, and the Punjab, and it may be noted that the total sales in the Bombay circle of the ½-anna post card were 4½ millions in advance of the sales in any other circle The small ½-anna envelope, which is sold for the denominated value of the stamp, also continues to be in great demand, the number sold during the year being nearly two millions in excess of the number sold during the previous year This envelope like the ½-anna post-card is more used in the Bombay circle than elsewhere, the total number sold there was more than 3 millions in excess of the number sold in the Madras circle, which stands second There was an increase in the sales of postage stamps of all denominations, with the exception of the 4-anna and 6-anna stamps, and the net result of the sales of ordinary post cards, embossed envelopes, and postage stamps, was an increase of ₹4,89,300 in the revenue realized over the sales of last year In the sales of service post-cards and stamps there was an increase under every head, though it will be noted that the value of soldiers' special envelopes sold during the year was slightly less than in 1886 87

Special results of year's sales

18 The year's sales, however, have shown that no great demand can be expected for embossed envelopes when a special charge is made on account of the cost of material and manufacture in addition to the denominated value of the stamp In May 1886, square envelopes with embossed stamps of ½-anna and 1-anna were offered to the public, and during the year closing with March 1887 a fairly large number of both descriptions were sold or obtained for sale by postmasters and stamp vendors But the returns of the year ending with March 1888 show a decrease of 216,322 in the sales of the square ½-anna envelopes, and of more than 50,000 in the sale of the square 1 anna envelopes A registration envelope of a small size was introduced in May 1886, and of this class of envelope 38,280 more have been sold during the year under report than were sold during 1886 87 A registration envelope of a larger size was introduced in November 1886, and 4,622 more of these have also been sold during the year under report, but they were only available for four months of the preceding year The total number, however, of both kinds only amounted to 212,838, while the number of registered letters sent through the post was 4 884,560 It is a remarkable fact that embossed envelopes seem to command a sale in Madras that they command nowhere else Out of the total of 199,816 small registration envelopes sold during the year, no less than 68,700, or rather more than a third, were sold in Madras, out of the total of 55,848 square 1-anna envelopes sold during the year, 10,648 were sold in Madras, while even of the ordinary 1-anna envelopes 40,224 were sold there, when the highest number sold in any other circle was 26,920 As regards the square ½-anna envelopes, the sales in the North-Western Provinces, in the Punjab, and in Madras, were about the same, and in each case largely in excess of the sales either in Bengal or Bombay In connection with the sale of postage stamps, it may be mentioned that 1-anna revenue or receipt stamps of the aggregate value of ₹1,41,036 were sold during the year through the agency of the Post Office, and that in Burma postmasters sold on behalf of Government general stamps of the total value of ₹10,477 A number of complaints were received at the end of the year regarding the deficiency of gum on certain classes of postage stamps, and the matter has been specially represented to the manufacturers through the Secretary of State

(a) A difference of R119 occurs between the gross value shewn in this statement and that exhibited in Appendix V R88 of this difference is accounted for by the application of wholesale rates of sale in this statement while the retail rates at which the sales in some cases were effected, appear in Appendix V The balance of the difference or R29 is due to a deficiency in the Minbu Treasury which subsequently was adjusted in cash

(b) The difference of one rupee between the figures in this statement and those given in Appendix VI is due to a short credit in the Pyinmana Treasury

(c) This is exclusive of R9,800, the value of stamps sold in Burma, of which the different denominations sold have not been stated.

(d) This is exclusive of R.08 the value of stamps sold in Burma, of which the different denominations sold have not been stated

19 Below is given the usual table showing the proportion in which postal revenue is derived from postage stamps whether ordinary or service, including, of course, post cards and embossed envelopes, and from cash payments There is no very material variation from the figures of last year — Proportion of Post Office revenue derived from stamps

Section IV —District Post

20 The District Post funds are derived from a cess supplemented by grants from provincial revenues in some provinces, and in the Madras and Bombay Presidencies consist entirely of provincial grants The original object of the District Post was to provide postal communications between the headquarters of districts and revenue and police stations in the interior, but with the extension of the Imperial Post this has gradually been modified and for many years past a large portion of the District Post income has been spent on improving the rural delivery of the country, except in Bengal where the Zemindari Dâk fund has still to be spent, in accordance with the terms of the Act under which it is raised, on postal establishments required for police purposes There are now 2,632 postmen in all paid from District Post funds, the great majority of whom are village postmen or rural messengers, with, in many cases, very extensive beats, and by their agency postal facilities are brought, to some extent, to the backward parts of the country, though there is still much to be done in this direction The extension of the Imperial Post is limited to cases in which there is reason to believe that the correspondence to be brought into existence by new lines or new village postmen will cover their cost, but as District Post lines and postmen prove remunerative they can be transferred to the Imperial establishment, and in this way funds are set free for a still further advance of rural delivery The District Post thus acts as a pioneer, in some measure, of the Imperial Post That this falls within the legitimate scope of the District Post has been recognized by Government for some time past, but during the year under report a view has been expressed by the Madras Government that the provincial grant in that Presidency, where rural delivery is probably more backward, as was stated last year, than in any part of India, should be limited to the original objects of the District Post, and should not be used for rural delivery The matter, however, is still, it is understood, under consideration The management of the District Post funds is practically everywhere in the hands of the heads of postal circles, though some small sums are still administered by district officers During the year under report the postal lines in the Upper Sind Frontier district were, at the request of the Commissioner, Sind, transferred from the control of the Deputy Commissioner to that of the Deputy Post Master General Scope and management of District Post

(a) Includes contributions from Tributary Mehals, Chota Nagpur Orissa and Khond
(b) Includes the amount of annual subsidy for the Dera Ismail Khan and Chichawatn hill cart line
(c) These are dry season distances during the rains these lines are increased in length
(d) Includes contributions from Frontier Police Fund R3,936 in 1886-87 and R2,928 in 1887-88 contributions by the Maharajah of Agartala R288 in 1886-88 and the same amount in 1887-88 and contributions from Chittagong Hill Tracts R189 in 1887-88
(e) Includes lines paid from the revenues of Feudatory States 642 miles in length in 1886-87 and 604 miles in length in 1887-88
(f) Grant made available from Bombay District Post Funds

General results of year

21 On the opposite page is given a comparative statement showing, for the last two years, the income, expenditure, establishment, and operations of the District Post The total income amounted to R9,99,608, and the total expenditure to R10,32,275, but this income and expenditure does not, as it has been usual to point out, correspond with the receipts and charges under this head as shown in the Finance and Revenue Accounts There was a decrease of 12 in the total number of District Post offices, which was due to the reduction of the number of these offices in the Bombay circle from 37 to 4 This is merely the result of a change in classification A number of village postmen in the Bombay circle, who were originally stationary at the villages where they were posted, had previously been classified as village officers, but are now shown as village postmen There was an increase of 29 in the total number of postmen and village postmen mainly due to the inclusion of these men, of 197 in the number of letter boxes cleared by village postmen which was due to the placing of new boxes in Madras and Burma, and of 582 miles in the length of postal lines which occurred chiefly in Burma In the number of articles, including money orders, received for delivery or posted for despatch, there was an increase of 817 310, and the percentage of articles returned as undeliverable, fell from 4 81 to 4 70 The largest extension of the District Post was in the Central Provinces, where 24 post offices were taken over to the Imperial establishment, and the funds set free utilized for extending postal facilities in the interior of districts

Rural delivery as judged by District Post returns

22 The delivery work of district village postmen will be found in detail according to postal circles, in Appendix VII The number of money orders delivered or paid by them was more than 50,000 in excess of the number delivered or paid in 1886-87, and the chief increase occurred in the North West Provinces and Oudh where it was, no doubt, connected with the special revenue and rent money order systems In the number of packets and newspapers there was a decrease on the whole, but in the Bombay circle a very marked increase of 27,667 over the figures of the previous year was recorded Both in this circle and in the Bengal and Madras circles the proportion of packets and newspapers to the number of letters delivered in the interior of districts stands very high, and it has been noticed in Bombay that there are few villages of any size, regularly served by postmen, which do not receive some newspaper or periodical publication, while trade circulars and advertisements are frequently posted to the address of village accountants, schoolmasters and others as a class The total number of articles of all kinds delivered by district postmen was 278,268 in excess of the number delivered in the previous year, but it has to be remembered, both as regards this relatively small increase, and as the probable reason why the number of packets and newspapers has fallen off, that the most successful district postmen, whose work would go to swell the returns most, are those who are taken over to the Imperial establishment

Section V.—Money-Orders

Inland Money Orders General results

23. The money-order business of the Post Office continues to increase in popularity, and there is probably still much room for the further development of the system in the interior of districts The total number of money-order offices at the close of the year was 7,422, as compared with 7,214 at the end of the previous year, and the payment of orders by village postmen at the houses of payees was extended during the year in a number of circles The number of orders actually issued was in excess of five and a half million, representing

an aggregate value of more than 11¾ crores of rupees, and a commission of nearly 15 lakhs In the margin is given the usual table showing the yearly progress of the money order business since it was taken over by the Post Office in 1880, from which it will be seen that the increase in the number of money orders issued was 14 34 per cent, as compared with the results of the previous year, while the increase in the commission was 11 70 per cent Year by year with the increase in business the average value of each money order has declined, and the results of the present year are in accordance with previous experience The average value is now R21-7 9 as compared with R22-2-7 last year, while more than half the entire money order work is in connection with orders not exceeding R10 in amount

Inland Money Orders	Total number of Money-Orders issued	Total value of Money Orders issued	Commission realised

Incidence of Money-order work according to provinces

24 The following statement shows the distribution of the money order business according to postal circles About a third of the entire business was transacted in the Lower Provinces of Bengal, and Calcutta alone was responsible for a very large and important share of this, as the following extract from the report of the Postmaster General, Bengal, will show —

"Of the total number of money orders issued in this circle, 368,248 or 28 per cent were issued by the Calcutta General Post Office and its sub offices, the aggregate value of the money orders being R64,46,107 or nearly 28 per cent of the total value of the money orders issued in the circle The money orders paid by the General Post Office and its sub offices were 619,613 for R1,14,86,893, or more than 45 per cent of the total number and more than 46 per cent of the total value of the money orders paid in the circle As has been noticed in previous years, the money orders paid in Calcutta far exceed those issued, in both number and total value, owing to the very large number of V P money orders paid to merchants and tradesmen in Calcutta Of the 619,613 money-orders paid by the General Post Office and its sub offices, about 374,000 or more than 60 per cent were V P money orders"

Postal Circles	Issues during 1887 88			Payments during 1887 88			Percentage to the whole

Note —The figures relating to the Madras postal circle include transactions with the Native State of Mysore; the figures relating to the Bombay postal circle include transactions with the Portuguese Settlements of Goa and Daman the figures relating to the Punjab postal circle include transactions with the Native States of Patiala, Nabha, Jhind Chamba and Faridkot, and the figures relating to the Central India postal circle include transactions with the Native State of Gwalior

Revenue Money order system

25 The special adaptation of the money order system as an authorized means of remitting revenue to tahsils was extended last year to the whole of the North-Western Provinces and Oudh with the exception of the Kumaon district, and the year now under report is, therefore, the second year during which the adapted system has had a full trial in those provinces The year's results show that there has been a steadily increasing resort to this means of paying revenue, the number of revenue orders increased from 57,888 to 87,076, and the amount of revenue remitted from ₹10,87,093 to ₹17,94,356, while the Post Office received ₹24,912 as commission as compared with ₹15,284 in the preceding year In the Lower Provinces of Bengal the system was also in force throughout the year, and met with a large measure of success The Postmaster General of those Provinces writes as under on the subject —

"The system for the payment of land revenue and cesses by a special form of money order, which was first introduced experimentally in the ten districts of the Burdwan and Dacca Revenue Divisions, was from the 1st May 1887 extended to the whole of the Lower Provinces of Bengal the restrictions still being maintained that no revenue money order should be issued for more than ₹50 and that the system should only apply to estates the annual land revenue of which did not exceed ₹50 Notwithstanding these restrictions 51,611 revenue money orders were issued during the year, the total value of the money orders being ₹2 44 230 As no difficulties were experienced in working the rules and the usefulness and popularity of the system were established by numerous applications for its extension, as well as by the rapid increase in the number of orders, the Lieutenant Governor was pleased at the close of the past year to withdraw the restrictions mentioned above, and to authorise the application of the system from the beginning of the current year to all remittances of land revenue irrespective of the amount annually due from the estate From the same date also the system has been extended to remittances of zemindari dâk cess as well as to remittances of land revenue, road cess, and public works cess to which it previously applied One of the principal features of the revenue money order system is, that all payments of revenue orders by the Post Office to the Collectorate are made by book transfer, so that there is no handling of cash by the subordinates of either office and the risk of fraud and embezzlement is reduced to a minimum The Government expressed a wish during the year that a somewhat similar system of book transfer should be adopted for the payment of all other remittances by money-order in favour of District Officers and District Boards, and a special set of rules has been prepared and approved to give effect to this wish without adopting the somewhat elaborate procedure considered necessary for remittances of land revenue on account of the stringency of the sunset law Under the rules for miscellaneous remittances in favour of District Officers and District Boards, any Government dues and sums payable to District Boards may be remitted by money order, and all the money orders received in one day by each Sudder Post Office on account of such remittances will be paid by a single Treasury Voucher, the amount of which will be debited in one sum against the Post Office These rules will take effect from the 1st July 1888"

The further extension of the system is being carried out, but for the Madras and Bombay Presidencies it does not offer the same advantages as for other parts of India, as the revenue there is generally paid by the ryots to the headman of the village and sent into the nearest tahsil by village servants

Special Rent Money orders

26 It was stated in last year's report that a further step had been taken in the North Western Provinces and Oudh to render the money-order system useful to the agricultural population by providing a special form of order for the remittances of small sums due on account of rent by tenants to land owners The results of the year under report are the first complete year's results available, and they show that 30,165 rent money orders were issued, representing an aggregate sum of ₹3,55,283 The Postmaster General, North Western Provinces, reports that some little opposition to the use of these orders has been manifested by land owners, but there is sufficient evidence to show that the scheme meets a want, and its more complete adoption may safely be left to the growing recognition of its advantages by tenants, and the general good sense of the land owners It has already been arranged that the system should be introduced into the Lower Provinces of Bengal

Money order business with Native States &c

27 The money-order transactions with the Native States of India and with the Portuguese Possessions are shewn in the statement below —

State or Settlement	Issues		Payments	
	Number	Value	Number	Value
		₹		₹
Gwalior	24,474	6,19 989	9,615	3 03,373
Patiala	6,401	1,73,504	9,441	2,87,390
Portuguese Settlements	5,215	1,93 433	1 812	56,925
Mysore	3,132	73,908	3,068	98,034
Jhind	1,234	60 609	2,298	72 708
Nabha	1,288	45 043	1,952	60,022
Chamba	704	21,890	144	5,600
Faridkot	1,121	19,706	222	5 841
Total	43,569	12,08,082	28,552	8,89,893

Note —These figures are included in the general statement of inland Money orders

On the whole there has been an increase of 34 per cent in the number of orders exchanged and of 25 per cent in their value The business with Gwalior is much larger than the business with any other State, and the issues on Portuguese India represent the remittances to their homes made by a large class of Goanese who are in employment in British India, chiefly as domestic servants

Telegraphic Money orders

28 In January 1887 revised rules for the telegraphic money order business came into operation, the main features of which were that the telegraph charge was reduced from ₹2 to ₹1 in all cases, while the Post Office agreed to make no charge on account of commission on orders not exceeding ₹10, and only to take the ordinary fee for commission on orders in excess of that sum This reduction in charges has led to a very large increase in business, the total number of telegraphic orders having risen from 18,540 in 1886 87 to 45,417 during the year under report More than half of these orders were sent from Burma, notwithstanding the introduction during the year of a semi weekly service between that province and the continent of India, and the great majority of these were for payment in the Madras Presidency It is noted by the Postmaster General, Bombay, as an instance of the new development of telegraphic money order caused by the cheaper rates, that orders of the aggregate value of ₹5,000 were paid during the year at a small office in Cutch where there had never been any telegraphic money order work before The whole of these orders were also sent from Burma Details are given in the table below —

Name of Post & Circles	Issues			Payments	
	Number of money orders	Value of money orders	Commission realized	Number of money orders	Value of money orders
		₹ a	₹ a		₹ a

Use of Telegraphic Money order system for purposes of fraud

29 There were four cases of fraud by false personation in connection with the telegraph money-order system as compared with eleven last year, and it may be hoped, therefore, that the constant vigilance, that is now being everywhere exercised in making payments of such orders, is tending to put a stop to these cases But the readiness with which travellers in this country confide particulars regarding their life and movements to chance acquaintances, and the credulity with which new-comers at a place are accepted as being what they give themselves out, are favourable conditions for the commission of frauds of this description Of the four cases, one occurred at Sharigh in Baluchistan, and in this a postal signaller was implicated in the fraud, one at Cawnpore, one at Mandalay, and one at Kolhapur in the Bombay Presidency In the Cawnpore case a sum of R200 was obtained from a baniya in Bombay by a swindler, who had assumed the name of the remitter's brother who was at the time actually in Calcutta The swindler asked that the money should be telegraphed to him in the care of a well known firm of Marwaris at Cawnpore, and he was identified by one of the members of the firm, who, as it turned out afterwards, only knew the man as having come to his shop on various occasions under his assumed name, and as having been in company with a relative of his own The case at Kolhapur is a further instance of the difficulties with which postal officials have to contend in ascertaining whether persons for whom telegraphic money orders are received are really known to residents of the place, and is described as follows by the Postmaster General, Bombay

"A man called Hari Ganesh Cholkar telegraphed from Kolhapur in the name of Balwant Ganesh Phadke to a brother of the person whom he personated asking for R50 The brother, who is a schoolmaster at Gwalior, could not send so large a sum, but remitted R15 by telegram a day or two after he received the request The swindler was acquainted with Balwant Ganesh Phadke, who was residing at the time at Jamkhandi in the southern Mahratta Country at no great distance from Kolhapur, and had, before sending the telegram asking for money, given out that he had been robbed on his way to Kolhapur and had received assistance and sympathy from the Chief of Inchal Karanji, at whose bungalow at Kolhapur he was staying The money order from Gwalior came to Balwant Ganesh Phadke in the care of the Telegraph Master Enquiries were made from the latter, who said that he knew nothing about the payee beyond the fact that he had sent several telegrams in that name The payee was then sent for and told his story but the postmaster declined to pay the money without further reference and sent to the bungalow of the Chief of Inchal Karanji Information was there obtained that the man was Balwant Ganesh and had been assisted by the Chief, but was then putting up at a temple of Ganpati in the city Enquiries were then made at the temple, and as it was found that the man was also known there as Balwant Ganesh Phadke, the money was paid to him Subsequently a letter was received by the Telegraph Master from the real Balwant Ganesh Phadke, and the case was at once placed in the hands of the police The swindler who was still in Kolhapur was arrested and sentenced to two years' rigorous imprisonment for cheating by personation"

Foreign Money orders in Sterling

30 Foreign money-orders on the United Kingdom and Colonies, and on European countries and Egypt, are issued in sterling, payment being made in India by remitters at rates of exchange which are fixed from time to time by the Post Office The most important, of course, of the sterling money order exchanges is the exchange with the United Kingdom, and the results of the year show an increase in the number of transactions, although the total value of the remittances from India was less than last year The falling off in money order business with New South Wales, never of much importance, is attributed, as were similar results last year, "to the cessation of subscriptions from India for tickets in race lotteries," and the following remarks by the Postmaster General, Bombay, as to the increase in the money orders received from Italy will be found of interest "Almost the whole of these were remittances made by Natives of India at Massowah to payees in Bombay, the remittances being sent through Italy The actual

number of orders from Massowah was 712, of the aggregate value of R1,61,169 15 0" Details are given in the statement below —

Foreign Money orders in Indian Currency

31 Money order exchanges in Indian currency exist with Ceylon, the Straits Settlements, China and Japan, and Mauritius The business is not large with any of these countries, though with Ceylon it is steadily growing, and is mainly confined to Natives of India The transactions with Mauritius are chiefly between that Colony and Aden, and the postmaster of the latter place reports that the reason for the falling off in the year's business is that the Oriental Bank is now giving special facilities for small remittances between Aden and Mauritius at low rates The actual results of the year will be found in the following table —

Countries of Exchange	1886-87				1887-88			
	Orders issued by India		Orders paid in India		Orders issued by India		Orders paid in India

British Postal Orders

34 There has been an improvement in the sales of British postal orders, the number sold during the year being 1,830 in excess of the number sold in the previous year The total value of the orders sold was £10,803 2 7½, including the commission or poundage of the British Post Office, while the Indian Post Office realized a sum of ₹506-2 6 on the transactions The marginal abstract of the year's results shows that, as in preceding years, the chief demand has been for orders of the value of 5*s* and upwards, and that the very small orders are practically not required The largest sales were in the Punjab, where 3,422 orders representing a value of £2,596 were disposed of, while in each of the Bombay and Madras Circles about 2,200 orders of the value of about £1,400 were sold In reviewing last year's report, Government expressed a wish that a further trial should still be given to the sale of these orders, and fresh endeavours will now be made to bring their existence prominently before the public There is some reason for believing that, notwithstanding all that has been done in the past in the way of special notices, the fact that these orders are available at our post

Denominations of British Postal Orders	Number sold during 1886-87	Number sold during 1887-88	Increase	Decrease
From 1*s* to 1*s* 6*d*	749	690		59
From 2*s* to 10*s* 6*d*	5 455	6,603	1 148	
From 15*s* to 20*s*	7 856	8 597	741	
Total	14,060	15 890	1 889	59
			1 830 Increase	

offices, is not so widely known as it ought to be Experience is constantly showing that the proportion even of educated persons who read postal notices or look at the *Postal Guide*, is exceedingly small

Section VI —Savings Banks

General results of year

35 On the opposite page will be found a statement showing in detail, according to postal circles, the Savings Banks transactions of the year in comparison with those of the previous year The number of Savings Banks offices at the close of the year was 5,966 as compared with 6,048 at the close of the previous year, the decrease being due to the conversion of a number of sub offices into branch offices, and the consequent withdrawal from them of Savings Banks work There were four new head office banks opened, and the reduction in the total number of Savings Banks offices does not mean any real diminution of the facilities of the public for depositing money The amount deposited during the year was 377 lakhs as compared with 444$\frac{2}{5}$ lakhs in 1886 87, the amount withdrawn was 314 lakhs as compared with 258$\frac{4}{5}$ lakhs in 1886-87, and the interest paid was 16$\frac{3}{4}$ lakhs as compared with 14$\frac{1}{7}$ lakhs in 1886 87 There were 261,157 accounts open at the close of the year as compared with 219,010 at the close of the preceding year, and the total amount standing at the credit of depositors was nearly 505 lakhs, or an increase of nearly 80 lakhs The apparent decrease in the amount deposited is due to the fact that the District Savings Banks accounts were transferred to the Post Office in 1886 87, and very largely increased the total deposits of that year If the amount transferred in this way be left out of consideration, the deposits of the year under report show an increase of 57 lakhs over the actual deposits of 1886 87 Bombay has the largest number of accounts, 58,918, and the highest total balance at the credit of depositors, and the average amount of each account was highest in Sind, as in previous years, and lowest in Madras

(a) Excluding 2 414 dead accounts

(b) Excluding balance of dead accounts

(c) Out of this balance R1 65 738 5-6 bears no interest

Depositors Europeans and Natives of India

36 The statement below shows the number of accounts held by Europeans and Eurasians as compared with the number of accounts held by Natives of India The proportion of the latter to the total number of accounts tends to increase, and is now more than 87 per cent of the whole It will be noticed that Bombay and Madras have by far the largest number of European and Eurasian accounts

Depositors according to occupation

37 The statement given below shows the number of depositors in each circle classified according to certain broad classes of occupation Nearly half the depositors in the Post Office Banks belong to the professional class, in which are included Government and municipal servants of all kinds, but the large numbers under the head of Class VI —Indefinite, especially in Bombay and Bengal, would seem to show that the classification might with advantage be made more accurate The percentages of increase vary so much from year to year in the different classes that no trustworthy conclusions can be founded on them The greatest proportional increase, however, during the year was in the domestic class, and this was chiefly due to an unusual increase under this head in Burma There is no sign as yet of any of the agricultural classes making use of the opportunities for thrift supplied by the Post Office Banks

Goverment Security investment business

38 From the 1st April 1886 the power of purchasing Government Securities through the Post Office was limited to *bonâ fide* depositors in the Post Office Savings Banks, and certain restrictions as to the amount of purchases were also introduced These changes did not affect transactions during the first year they were in force, but have led to a reduction during the year under report The total amount invested by depositors was R3,33,300 as compared with R4,40,600 during 1886 87, but the balance in the hands of the Comptroller General at the end of the year was R4,06,700 as compared with R3,78,800 at the close of the preceding year The total number of transactions was 459, of which 432 were purchases and 27 sales of Government Securities The great majority of these transactions, 277, related to Securities not exceeding R1,000 in value, and only 27 were for amounts in excess of R2,000 The Comptroller, Post Office, remarks on the year's figures that "whenever Government 4 per cent paper reaches par, depositors prefer not to run the risk of investing therein, but choose the safer way of lodging their money in the Post Office Savings Bank Whenever Government paper goes down, investors come forward to obtain a higher rate of interest"

Section VII —Insurance and Value-payable System

Isurance business General results

39 The progress of the insurance business of the Post Office since the year it was first undertaken is shown in the marginal statement The system has now been in force for ten complete years, and the results of the year under review only show an increase of R60,000 in revenue over the first complete year During the last two years the business in insured letters has increased, and the value on which insurance fees were paid during the year under report is the highest yet reached In several postal circles, however, there has been a regular tendency towards decrease in the number of insured letters The great majority of these letters still contain currency notes,

Year	Value Insured Letters	Value Insured Parcels	Value Insured Total	Insurance fees
	R	R	R	R
1877 78 last quarter being the commencement of the system	6,66 320	18 60 191	25 26 511	13,230
1878 79	89 71 775	2,81 21 219	3 70 92 994	1 23 556
1879-80	1,63,35 058	5 34 34 161	6 97 69,219	1 97 790
1880 81	1 57 33 428	6 30 26 524	7 87 59 952	2 01 046
1881 82	1 79 69 808	5 85 53 413	7 65 23 221	1 90 980
1882 83	2 30 67 342	5 95 70,924	8,26 38 266	1 99 841
1883 84	2 21 16 868	6 04 08,142	8 25 25 010	2 06 839
1884 85	2,30,06 964	5 52 14 744	7 82 21 708	1 93 579
1885 86	2 21 78 613	4 75 99 870	6 97 78 483	1 69 945
1886 87	2,35 74 205	5 26,06 770	7 61 80 975	1 85 74
1887-88	**2,43,93,295**	**5 29,89,932**	**7,73 83,227**	**1,83,494**
Percentage of increase as compared with 1886 87	3 47	0 73	1 58	1 79

Note —The average value of insurance effected on each article was R3 0 in the case of letters and R355 in the case of parcels

and the practice of making remittances in this way through the post is one that may be expected to fall more and more into disuse with the progress of the money order system There was a small increase in the parcel insurance business as compared with the results of 1886 87, but the total value on which insurance fees were paid is still much less than when the insurance system was allowed to be applicable to the Indian Post Offices at Baghdad and in Basra The largest amount of insurance business on the whole was done in the Bombay Circle where property of the value of ₹2,29 03,110 was insured, then in the Madras Circle where property of the value of ₹1,59,46,024 was insured, and then in the Bengal Circle where property of the value of ₹1,41,48,644 was insured It may be added that 42 per cent of the insured letters and 75 per cent of the insured parcels in the Bengal Circle were posted at the Calcutta General Post Office and its sub-offices

Claims for compensation

40 There were 28 claims for compensation made during the year as compared with 43 in 1886 87 in connection with insured articles, and in 19 cases liability was admitted In 18 of these cases there had been fraud or grave neglect on the part of servants of the Post Office, while the nineteenth was due to a serious mail robbery in Kathiawar, in account of which will be found further on A summary of the year's results in comparison with those of the previous year is given in the margin, from which it will be seen that the amount paid as compensation was ₹20,285 2 4 or ₹3,534-11 7 in excess of the amount paid in 1886 87, although the number of claims was smaller But the compensation on account of the highway robbery in Kathiawar will be repaid under Government rules by the Native State or States adjudged to be in fault The insurance fees during the year amounted to ₹1,83,494, and the compensation actually paid by the Post Office was, therefore, 11 05 per cent of this total The nine cases in which liability was not admitted were all cases of partial abstraction of contents of insured letters or parcels In two cases complaints were made on imperfect information and subsequently withdrawn, and in the remaining seven cases the abstraction either occurred before the articles were posted, or the contents declared to be missing were never enclosed

Loss under the Insurance system	1886-87	1887 88
	R a p	R a p
Loss by accident or by departmental neglect or fraud	20 608 0 0	14 002 10 0
Losses by highway robbery in british territory		
Losses by highway robbery in Native States		11 221 0 0
	20 608 0 0	25,223 10 0
Value of property recovered	3 747 9 3	4 938 7 8
	16 860 6 9	20,285 2 4
Claims not preferred or not entertained	110 0 0	
TOTAL	16 750 6 9	20,285 2 4

The sum paid as compensation amounted in all to R 0 285 2 4 or 11 05 per cent of the total amount realized as insurance fees viz R1 83 494

Value payable business

41 The value payable system, like the insurance system, has now been in force for ten complete years, and the progress made in this class of business during this decade will be seen from the marginal table During the year under report there was again a very marked advance in the use of the value-payable post the number of articles increased by 30 12 per cent, the value declared for realization by 29 34

Value payable system year	Number of articles sent under the value payable system	Value declared for realization	Commission
		R	R
1877 78 (from the commencement of the system in December 1877)—4 months	413	6 721	195
1878 79	7 408	1 32 109	3 942
1879 80	25 589	3 49 857	11 498
1880 81	49 389	5 76 574	13 413
1881 82	99 416	10 80 543	19 838
1882 83	1 74 301	16 86 098	32 568
1883 84	2 87 377	28 08 873	53 450
1884 85	3 36 930	34 15 045	65 571
1885 86	4 36 115	45 32 803	85 530
1886 87	5 96 296	58 78 016	1,17 247
1887-88	7,75 928	76,02 734	1 50,708
Increase per cent in 1887 88	30 12	29 34	28 53

per cent, and the amount of commission by 20 per cent Calcutta stands out pre eminent for the extent to which it utilizes the system Out of the total number of value payable articles, 775,920, posted throughout India, no less than 374,589 were posted in the Calcutta General Post Office and its sub-offices, while out of the total declared value of these articles, 76 lakhs, a sum of 38¼ lakhs was paid to tradesmen in Calcutta The posting of railway receipts as value payable articles has not yet become general, and is chiefly confined to the East Indian Railway

42 The statement given in the margin shows the different classes of value payable business during the year The increase in the total number of articles mainly occurred under the head of unregistered packets, which rose from 196,288 in 1886 87 to 311,120 during the year under report, an increase of 58 50 per cent The increase in number has been accompanied by a decrease in the average value of each book packet, which was R4-10 9 in 1885 86, R4 0 11 in 1886 87, and is now less than R4 On the other hand, there is a tendency to a decrease in the number of registered letters sent by the value payable post, and to an increase in their average value The total number of registered letters and packets has fallen from 114,420 in 1886 87 to 109,575, while the value has risen from R17 3 4 to R20 6 8 The increase in the use of the cheap book packet post for sending value-payable articles occurred chiefly in Bengal, and advantage has there been taken of the system by some obscure booksellers and publishers for the purpose of sending pamphlets, on which a fictitious value is placed, to large numbers of persons who had not ordered them A certain number of these are accepted and paid for, owing to carelessness on the part of the persons addressed, or because delivery is taken by their friends or relatives who believe them to have been ordered, and this has apparently been sufficient to make the system profitable to the senders The result has been that, apart from the annoyance caused to the persons addressed, the Post Office has had to carry back to the senders, without remuneration, large numbers of these book packets on which only a very low rate of postage had been paid Special measures have been under consideration to put an end to this abuse of the value payable post, but the steps taken will come within the scope of next year's report

Different classes of value payable business

	Number	Value	Commission	Average value of each article	Average commission on each article
		R	R	R a p	Annas

Value payable unregistered packets	311 120	12 28 192	42 670	3 15 2	2
TOTAL	775 928	76 02 734	1 50 708	9 1 9	2

Section VIII —Miscellaneous

43 The usual statements regarding the position of the special security fund of the Post Office are given below On the creation of the new fund in January 1883, it was decided that all sums decreed against the security fund, under the rules governing its treatment, should be taken against the old fund until the balance should be exhausted The balance at the credit of the fund in that year was R2,16,913, and this has now been reduced to R1,00,073 The balance at the credit of the new fund has increased from R1,58,565 at the end of 1886-87 to R2,06,860 at the close of the year under report

Complaints by the public

44 The number of complaints made by the public, which came to the knowledge of the heads of postal circles was 8,095, as compared with 8,476 in 1886-87 The decrease is due to the exclusion from the returns of cases which, although couched as complaints, are in reality mere enquiries Cases of this character are enquiries whether registered letters, which the person addressed has never acknowledged, have reached their destination, or whether parcels, which are believed to have been despatched from the United Kingdom, have arrived On the whole, the number of complaints is exceedingly small in relation to the vast amount of business of every kind which the Post Office transacts, and hardly a third of those actually made prove to be well founded The Post master General of the North Western Provinces reports, among other cases, that a lady made a serious complaint that one of her newspapers was being regularly stolen in the Post Office, while it turned out on enquiry that the paper had been discontinued because her subscription had not been renewed Instances

of this kind are common in the experience of the heads of all circles, and are well illustrated in the following extract from the Bengal Report —

"Many complaints are made with absolute recklessness, as in the recent instance, when the Manager of a Calcutta Newspaper, both publicly and by formal representation to the department, charged the Post Office with abstracting valuable papers from a registered letter and not returning the acknowledgment, while at the very time the charge was made, the acknowledgment was on file in the Newspaper office, and the letter itself had a fortnight before been duly delivered at Hyderabad in perfect condition and with its contents intact Numerous similar cases of recklessness in preferring complaints and other cases involving fraud on the part of the complainant or his correspondent occurred during the year under report A complaint was received from Singapore that a registered letter had not been received by the addressee in Calcutta but it was found on enquiry that the letter was duly delivered to the addressee in the North Western Provinces The addressee of an insured registered letter complained that instead of ten notes for R100 he had found in the cover a packet of valueless papers, it turned out on enquiry that the sender had put the wrong enclosures in the letter In another case, a registered cover containing a note for R100 was said not to have been received, but it was admitted after a long enquiry that the addressee had credited the money to another correspondent of the same name Of complaints involving fraud I may mention one in which the complainant, the sender of a registered letter said to contain some currency notes, ultimately admitted that he had not really enclosed the notes, but advised their despatch with the intention of afterwards putting pressure on the addressee to repay him the amount or give him an equivalent In another case, three registered covers posted in Mauritius and said to contain cheques for large amounts, were found to contain on arrival only pieces of blank paper, but it turned out that the cheques had been removed before the covers were posted The enquiry into another complaint showed that a currency note said to have been abstracted from a registered cover, while in transit, was never issued by the Currency Office at all

* * * * *

A gentleman attached to one of the Government offices complained that he had not received a book sent to him from Bombay, but two months later he wrote from Simla that the book had been addressed to him there instead of to Calcutta and had been duly delivered A lady complained that a piece of music sent to her from England had reached her several weeks too late, but enquiry showed that it had not been posted until three weeks after its despatch was advised A packet containing three large official books was reported to have been lost in transit but it was found to have been duly delivered and then mislaid by one of the office clerks A lady at Bombay complained that an important letter posted by her husband in Calcutta had not been received, but it was eventually ascertained that the letter and money to pay the postage had been entrusted to a servant who had kept the money and destroyed the letter In India it rarely happens that even the most important letters are posted by the senders themselves, or persons whose honesty care and punctuality can be implicitly relied upon and the cases mentioned above—a few out of many—are only noticed in order to shew the difficulties with which the Post Office has to contend in enquiring into complaints even when they are made in perfect faith and on apparently good foundation'

What the Post Office is anxious to receive are complaints founded on well ascertained facts, as these are a most valuable check on the working of the Department There is perhaps a tendency on the part of some of the subordinate officials of the Department to treat complaints too much as a matter of routine, and in the case of loss of ordinary letters it is exceedingly difficult, if not impossible, to make any satisfactory enquiry, but complaints are one of the few means by which defective procedure can be brought to light, and frequently enable the heads of circles to fix responsibility for neglect or misconduct

Complaint regarding special classes of articles

45 The statement given below shows the number of complaints received during the year regarding parcels, and registered, insured, and value payable articles There were 264 complaints, as compared with 289 in 1886 87, regarding registered letters and ordinary parcels, not a large number, it may be said, when there were 4,884,560 registered letters alone sent through the post But half of these complaints were found on enquiry to have no real justification as

complaints against the Post Office Registered letters are still largely used as a means of sending currency notes through the post, and there is a prevalent belief among certain classes of the Native public that to send a registered letter said to contain notes, but without any enclosures, is a successful way of paying debts, or perhaps of obtaining a respite from their creditors A number of such cases are reported every year from most circles Sometimes there is an ulterior motive The Post Master General, Madras, states that within a short period no less than seven complaints were received that currency notes had been abstracted from registered or insured letters, posted at a post office in a suburb of Nellore, in every one of which the police enquiry and the Post Office enquiry led to the same conclusion that the notes had never been enclosed, and all these cases were believed to have been got up by the traders of this suburb with a view to bring the local post office into trouble, because a request on their part for the change of business hours had had to be refused

Offences by servants of Post Office

46 The offences punishable by law committed by servants of the Post Office during the year are shown according to postal circles in Appendix VIII, and in abstract of the results is given in the margin The greatest number of offences were committed in Madras and Bengal, but there was no serious case of fraud in any circle Out of the total number of offences, 70 were cases of misappropriation in connection with the money order business of the Post Office, as compared with 97 in 1886 87 The total amount of money involved, after deducting recoveries, was R4,863-11 5, of which R2,843 4 were charged against the security fund, while the balance had not been adjusted at the close of the year In 37 of these cases postmen or village postmen misappropriated sums of money which had been entrusted to them for payment of money orders, amounting in all to R2,628 12, but as the delivery staff of the Post Office numbers more than 11,000 men, it may be claimed for them, as a body, that they are discharging this responsible work with signal honesty There was only one case in the Bombay circle, and only one case in the Punjab circle in which a postman or village postman proved dishonest, and the amount misappropriated in Bombay was R42, and in the Punjab R22 only There were seven instances of fraud in connection with Savings Banks business, in one of which a branch postmaster, who was not a regular servant of the Post Office, was concerned The amount involved was R1,365 12, of which R272 was recovered, and R1,066 12 written of against the security fund, while R27 was pending adjustment at the end of the year At Shewegyin, in Burma, a sum of R683-4 and at Tipperah, in Bengal, a sum of R450 was misappropriated, and in each case

	1886 87	1887 88
Number of legal convictions	160	150
Number of cases punished departmentally	85	92
Total	245	242

the opportunity for the misappropiation was given by the apathy of the depositors who had never applied for new pass books since their accounts had been transferred from the District Saving Banks In five of these cases convictions were obtained, and the offenders sentenced to terms of imprisonment The majority of the rest of the offences, whether punished criminally or departmentally, were of a petty character

47 There were twenty three high-way robberies of the mail during the year as compared with eighteen in 1886-87, and the marginal abstract shows how these were distributed between the various postal circles Thirteen of these occurred in British territory, and ten in Native States or Foreign territory Ten out of the 13 high way robberies in British territory were committed in Burma, where the transit of mails in the still unsettled condition of parts of the province is necessarily attended with danger, and, in fact, in two of these cases the guards sent to protect the mail were either killed or wounded The case in the Bombay circle was only a constructive case of high way mail robbery A village postman of the Poona District was attacked, while on his round in company with four travellers, by a gang of dacoits in December 1887 He and his companions were severely beaten and robbed, and the dacoits carried away his belt, badge and visit book, but left the letters he had with him in his possession The cases, however, in the North-Western Provinces and Central Provinces were deliberate robberies of the mail, though the latter was not premeditated The large number of cases in Foreign territory was due to the occurrence of three high way robberies in Rajputana, none of which were serious, and of four robberies in Kathiawar which are described in the next paragraph It may be added that in only three of the whole twenty three cases were convictions secured, and the offenders in most of the robberies were never traced The statements below show the districts or place where the mail robbery took place —

Character of the mail robberies during year

48 Notwithstanding the large number of mail robberies, there was only one serious loss of mails In almost all the other cases there was no property of any great value in the mail, and the contents were almost invariably recovered In three instances there is reason to believe that the mails were not the real object of attack In the Meiktila case in Burma an Indian trader was travelling for safety with the two mail riders, and the party was stopped by dacoits who killed and robbed the trader and hardly concerned themselves with the mail bags In the Myingyan case also in Burma, the runners carrying the English mail ran into a gang of dacoits who were robbing some carts, and immediately made for the jungle leaving their mails on the road which were seized by the dacoits A similar thing occurred in the case of the robbery in the Betul district in the Central Provinces A runner carrying the parcel mail at night disturbed a party of men who were robbing a baniya's cart, and they then turned upon him There were one or two cases of cowardice on the part of the servants of the Post Office engaged in carrying the mail, but on the whole they behaved with great bravery One mail runner was killed and another severely wounded while defending his mails, and in eight or ten cases mail riders or runners or the drivers of mail tongas were more or less seriously wounded The following extract from the report of the Postmaster General, Bombay, describes shortly the mail robberies that occurred in Kathiawar, including the case in which insured parcels

of the value of R11,221 were carried away, in each of which, as it happened, a different class of mail carrier was attacked —

"All the four cases in Native States occurred in Kathiawar,—the first in the Morvi State, the second in the Dhrangadra State, the third in the Vankaneer State, and the fourth in the small State of Pal just beyond Rajkot The first case was not a very serious one The rider carrying the mail from Morvi towards Cutch on the night of the 9th May 1887 was frightened on being accosted by several men standing under some trees close by a broken bridge on the road to Vananya, and at once turned his horse's head and rode back to Morvi He was pursued by a horseman, who got in front of him and he then dropped the mail wallet and made his escape in the direction of the first stage out of Morvi The wallet was cut open by the robbers and the mail scattered about, but there was nothing valuable in it and the whole contents were recovered the next day in a field near the scene of the mail rider's flight The robbers were not traced, and the mail rider, a servant of the horse contractor, was dismissed for cowardice In the second case, a mail runner accompanied by an escort on foot belonging to the Dhrangadra State was attacked by a band of robbers on the night of the 5th November 1887, while on his way to Wadhwan Both the runner and the escort offered a stout resistance, and the runner was killed on the spot while the escort was badly wounded The mail wallet was cut open by the robbers, but here again there was nothing valuable among the contents, and the entire mail was recovered the next day The robbers could not be traced, but the Dhrangadra State behaved with great liberality to the widow and relations of the unfortunate runner The third case was a very serious one The mail tonga travelling between Dolia and Rajkot was stopped on the night of the 5th January 1888 by a band of armed dacoits, who fired a volley at it as it came up to the place where they were lying in ambush behind some bushes at the side of the road There were two passengers in the tonga at the time and an armed police guard The latter and one of the passengers was wounded by the first volley, and the mail driver, who did his best to get the tonga away, was disabled by a sword cut The robbers then carried away the whole of the mail bags, and divested the passengers of all the property they had with them Most of the letter mail was afterwards found strewn about a field at some little distance from the place of attack, but the parcel mail was successfully carried away, and a sum of R11,221 had to be paid on account of the insured parcels in the mail A number of persons were arrested as being implicated in this dacoity, but the principal offender was allowed to escape from jail and only one of the others has been convicted by the Judicial Assistant, Kathiawar In the fourth case the parcel mail was seized at 7 o'clock in the morning of the day after the previous robbery, a few miles out of Rajkot The parcel mails are carried by camels from Rajkot to Jamnagar, and a single robber, armed with a double barrelled rifle and dagger, took possession of the camel, and rode off with it He stopped the camel rider by threatening to shoot him, then pulled the camel on to its knees by seizing the nose string, upset the rider, got up in his place and rode away in triumph A hue and cry was at once raised and the robber was pursued and captured Some of the articles of the mail had been thrown away by him and three small parcels of no value could not be recovered The robber, who was believed to be a Cabuli, was sentenced to ten years' imprisonment"

Casualties during year

49 Fortunately the annals of the year were not marked by such a series of deeds of violence and accidents as had to be recorded last year On the 16th October 1887, the mail tonga running between Belgaum and Dharwar in the Bombay Presidency was swept away by a flood caused by the sudden rising of a stream, and the ponies, the horse keeper, and a passenger were drowned Some of the mail bags were carried to a great distance but were subsequently recovered on the subsidence of the flood On the 28th March 1888, the Hlaingbwe Village in the Moulmein District, Burma, was attacked and burnt by dacoits, and the post office was destroyed in the conflagration Nothing, however, was lost beyond the books and equipment of the office and postage stamps of the value of nine annas Railway communication was interrupted in various parts of the country by floods which led to delays in the mail service The most serious of these was caused by the destruction of part of the Bolan Railway on the 1st August 1887, and by breaks on the North-Western Railway, on the 10th September 1887, between Rajpura and Sirhind, a distance of 15 miles, and also between Sirhind and Sarái Banjara. The country round for more than 20

miles along the railway was entirely submerged, the grand trunk road was destroyed, and it was only with the greatest difficulty that an ekka and cooly service was organized to carry the mails over the distance, 18 miles in all, for which railway communication was stopped The line was not fully restored until the 2nd October 1887

Post Office staff

50 The Post Office establishment of all grades is shown according to postal circles in Appendix IX, and an abstract of this appendix, excluding heads of circles, is given in the margin The total numerical strength of the Post Office staff has increased by more than a thousand during the year, and now stands at 40,691 The increase in the supervising staff of Superintendents and Inspectors occurred mainly in Burma and Madras, and Burma is also chiefly responsible for the increase in the road establishment. The increase in the other classes is due to general development of the work of the Post Office

Postal Officials	1886-87	1887-88
Superintendents and Inspectors of Post Offices	352	380
Postmasters Deputy and Sub Postmasters including Branch Postmasters	4 901	4 915
Extraneous Agencies such as School masters &c	2 214	2 376
Clerks	5 342	5 603
Postmen and other Servants	9 566	9 851
Road Establishment	12 098	12 171
Village Postmen	4 455	4,725
Signallers Clerks and other servants employed in combined offices	642	670
TOTAL	39 570	40,691

Cost of printing by private presses.

51 The charges incurred during the year on account of printing work done by private presses amounted to ₹79,703 as compared with ₹53,797 during the preceding year The increase occurred mainly in the charges of the Railway Mail Service, and this was due to revisions of sorting and mail lists consequent on a change in the system of work made with the object of reducing establishment and the cost of Railway haulage

Section IX —Non-Postal Branches of the Post Office

Telegraph work done by Post Office

52 During the year under review, 52 new telegraph offices were opened in charge of the Post Office, while it was found necessary to give up telegraph work at 6 offices that had previously been combined post and telegraph offices There was, therefore, an increase of 46 in the number of combined offices, and as only 13 of these were at places where there had been separate telegraph offices, the year's results show a substantial extension of telegraph facilities The largest number of new offices, 11, was opened in the Bombay circle, 6 of which were in Kathiawar, and Burma stands next with 9 new offices, 7 of which were in the upper part of the province The total number of telegraph offices open throughout the Empire at the close of the year was 745, and out of this total, 486 were combined offices During the year 137 servants of the Post Office qualified as signallers, and there were 72 still under training on the 31st March 1888 There is, therefore, a large staff of qualified men in the ranks of the Post Office, and, in fact, it has become necessary to limit the number of those who are allowed to go through the special course of training It may be mentioned that the experiment of employing boys as telegraph messengers, with a view to effect a small economy, was extended, during the year, to several combined offices in Calcutta and its suburbs, and has so far been attended with success

Telegraph Traffic at combined Offices

53 The statement given below shows the traffic statistics of the year separately for each postal circle It will be seen that Madras stands quite at the head of the list as regards the amount of work done and the revenue realized, and

it may be added that out of the 83 offices in existence at the close of the year, 58 are offices that have been opened at new stations, so that the use of the telegraph has been very largely extended in that Presidency owing to the amalgamation of telegraph and post offices As compared with the figures of last year, the total number of messages sent has increased by 25 12 per cent, and the revenue by 25 83 per cent, while the total realizations of the year exceed the expenditure by ₹4,87,413

Postal Circles	Number of combined offices on 31st March 1888	Total cost of Post and Establishment debitable to the Telegraph Department for working combined office during the year	Number of Messages			Revenue realized during the year on cut messages (Inland and Foreign)	Remarks

Percentage of Increase	10 45	14 40	25 12	21 77	24 19	25 83	

54 The Post Office also acts as an auxiliary of the Telegraph Department by receiving telegrams, at all post offices where this can be done with advantage, which are sent by post to the nearest telegraph office to be placed on the wires This work naturally tends to decrease with the extension of direct telegraph facilities, and during the year under report the number of receiving offices fell from 1,720 in 1886 87 to 1,670, the decrease being mainly due to the opening of the new combined offices The total number of messages received was 32,819 as compared with 31,578 in 1886 87, but the income realized has fallen from ₹32,942 10-0 to ₹30,698 2 0 Mention was made in last year's report of the extension to the Indo European Telegraph Department of the reciprocity, as regards the free transmission of service letters and telegrams, which exists between the Post Office and the Government Telegraph Department The number of messages collected by the post offices in the Persian Gulf, on account of the Indo European Department, was 305, with fees amounting to ₹2,667, as compared with 117 with fees amounting to ₹1,116 5 0 in the preceding year Towards the close of the year under report, the management of the Indo-European Telegraph lines was taken over by the Government Telegraph Department

Telegraph Receiving Offices

55 The other branch of non postal work that has to be dealt with here is the Government carrying agency and passenger service The only carrying agency now in existence is the bullock train between Umballa and Simla with branch lines to the hill stations of Kasauli, Dagshai, Solon and Subathu, and the only passenger service directly managed by the Post Office is the line between Umballa and Simla There was no change during the year in the mileage or in the conditions under which the service is worked

Post Office carrying agency and passenger service

Section X—Financial Results

Receipts and Expenditure on account of Postal Service proper and non postal branches

56 The receipts and charges of the year, so far as the regular accounts of the Post Office are concerned, are shown in comparison with those of the previous year, according to postal circles in Appendix X, and a summary of the results is given in the statement below Under the head of Postal Service proper the receipts for the year were ₹5,88,996 in excess of the receipts in 1886-87 There was an increase of ₹1,56,041 in the amount of postage realized in cash and commission, taken together, of which ₹51,592 occurred in Burma, an increase of ₹3,94,935 in the revenue derived from the sale of ordinary postage stamps, and of ₹61,906 in the revenue derived from Service postage stamps The total charges were ₹2,37,414 in excess of the charges in 1886 87, a large part of this excess being due to the development of posts in Burma, and the net revenue was ₹17,07,271, or ₹3,51,582 in excess of the net revenue of 1886-87, as compared with an excess of ₹1,76,751 in that year over the returns of the preceding year Under the head of Non-Postal Branches of Post Office business the deficit on the Bullock train transactions of the year has risen to ₹48,011 from a deficit of ₹13,538 in 1886 87 This deficit was mainly due to a necessary increase of the rolling stock and to the entertainment of additional cattle to meet special pressure of traffic The figures, however, given in the statement below do not fairly represent the year's transactions in comparison with those of the preceding year The receipts in 1886 87 included the share of the income realized on through booking on behalf of the North-Western Railway, and this sum was also included in the disbursements, while for the year under report this share has been excluded, in accordance with the accounts of the Comptroller General, from both sides of the accounts The actual net receipts of the year were ₹1,04,161 as compared with ₹1,01,635 in 1886 87

	1886 87	1887-88
POSTAL SERVICE PROPER	₹	₹
Receipts including sale of service postage stamps	1,11 88,319	1,17,77,315
,, excluding ,, ,, ,,	94,39,167	99,66,257
Disbursements, including discount on sale of ordinary stamps	98,32,630	1,00,70,044

Receipts and disbursements	2,05,698	2,11,120
Contract subsidies paid through the Post Office, but employed also largely on general and military considerations		
Disbursements	5,38,143	5,31,906

57 A comparative abstract of the receipts and charges of the Post Office during the year under report and the preceding year is given in Appendix XI, and this appendix includes, in addition to the two heads of Postal Service and Non-Postal Branches of the Post Office, the results of which have been dealt with in the preceding para, a third head of account comprising the items of receipt and expenditure given in the margin, which, although not shown in the Post Office Departmental Accounts, are included in the Finance and Revenue Accounts of the Empire The total receipts for the year under the whole of these heads were ₹1,21,41,962, while the charges amounted to ₹1,37,52,151 The deficit, therefore, on the year's transactions was ₹16,10,189 as compared with a deficit of ₹19,59,989 in 1886 87 If, however, the receipts and charges under the District Post, over which the Imperial Post Office has no direct control, be omitted, the deficit will be reduced to ₹5,05,036 There are then several considerations to be taken into account, as was specially pointed out last year, before the position of the Indian Post Office can be properly judged In Upper Burma service articles were still carried during the year under report entirely free of charge, owing to the difficulties in the way of providing regular supplies of service postage stamps, and it is estimated that, even at the special service rates, this correspondence represented postage of the amount of ₹43,994 The Post Office may then justly claim to be allowed to take credit for an agency charge on account of the Savings Bank work which it performs for Government The commission on the year's business, calculated at the rates which the Presidency Banks are allowed to charge on the same class of work, amounts to ₹2,68,952 8 as shown in the margin If, therefore, these two amounts, making an aggregate sum of ₹3,12,946, be deducted from the deficiency shown above, the net deficit at which the Post Office was administered will be reduced to ₹1,92,090

Financial position of the Post Office

REVENUE, 1887-88	₹	CHARGES, 1887 88.	₹
District post collections including zemindary dâk receipts in Bengal	48,666	District post establishment including zemindary dâks in Bengal	11 53 819
		Stores from England	4 99 400
		Payments under postal arrangements with Lords of the Treasury	6 50,000
TOTAL	48,666	Exchange on charges in England	4 82 990
		TOTAL	27 86 209

	₹ a
¾ per cent on a balance of ₹4 25 19 344	1,59 447 8
A charge of 8 annas on each of ₹2 19 010 active accounts	1 09 505 0
TOTAL	2 68 952 8

It may, then, again be fairly claimed that if the Post Office of India is to be judged by a strict standard of profit and loss, allowance must be made for the fact that official correspondence is carried, for special reasons, at lower rates of postage than ordinary correspondence, whereas no such distinction is made by the Post Office of the United Kingdom Although no change in this respect is advocated, and the revenues of the Empire would be in no way affected by it, yet when the cost of the Post Office in relation to its work is compared with that of other Departments of Government, or with the results of Post Office administration elsewhere, it is only right that this should be taken into consideration It was stated in last year's report that if the charges for official correspondence were reckoned at ordinary rates, assuming for the moment that they would be fair rates for the service rendered, the revenue derived from this source would, at a low computation, be doubled, and the Post Office instead of showing a deficit in its accounts would rank among the revenue yielding departments of the State With a view to obtain data by which the correctness of this view might be tested, special statistics were recorded during the year now under report The number

of official articles of all kinds, and the actual weight of letters, packets, including newspapers, and parcels, was recorded during a week in August 1887 at every post office in India The total number of official articles of all kinds for the year, calculated on the results of this enumeration, was over 25 millions, and the revenue at ordinary postage rates is estimated to amount to ₹58,72,423, while the actual amount of postage paid at official rates during the year, so far as this can be judged by the sales of Service postage stamps, as shown in Appendix VI, was ₹18,11,058 The result of this calculation must be regarded as approximate only, but it is sufficient to establish the substantial correctness of the view expressed last year

Specially excluded items of expenditure

58 There are certain other items of charge, not included in the departmental accounts of the Post Office or in the Finance and Revenue Accounts which, it has been ruled, need not be added to the expenditure of the Post Office These items are shown, for purposes of reference, in the table in the margin in accordance with the practice of late years

	1886 87	1887-88

Section XI —General Review of Progress

Proportionate increase in revenue and expenditure

59 It has been usual for some years past to give a table showing the proportion of increase in correspondence, revenue, and expenditure since the year 1854, in which cheap postage rates were first introduced The information in the accepted form has been prepared and will be found in the table in the margin, but is not of much value, and may, I think, in future be discontinued

		Comparison of number of letters and newspapers (the figures for 1855 56 being represented by 100)	Comparison of receipts from private correspondence (the figures for 1855 56 being represented by 100)	Comparison of total expenditure (the figures for 1855 56 being represented by 100)

Section XII —Notice of Post Office Officials

Mention of Special Services

60 The services of Mr G J Hynes, Deputy Postmaster General, Burma, during the year under report, deserve special recognition In the face of many difficulties, by the exercise of good judgment, tact, and unflagging industry, he has improved, in a marked degree, the postal administration of that province Among the officers, whose names have been brought to notice

by the heads of circles, the following deserve mention Mr J Owens, who is now acting as a Deputy Postmaster General, on account of special work in connection with the extension of business hours at post offices and money arrangements for sub offices in Bengal, Babu Purna Chandra Mustafi, for success in introducing and maintaining an unprecedented rate of speed on the important mail lines to Serajganj and Pabna, also in Bengal, Mr Henry Smith, Postal Superintendent, Cocanada, and Mr A Wilson, Postal Superintendent, Vizagapatam, for similar success in improving the working of the main post line through the Northern Circars,—an improvement that has been attended with a saving of money to Government, Mr Manekji Jamsetji, Manager, Dead-Letter Office, Bombay, for the special ability and care with which he has conducted his work, the results of which have been seen in the section dealing with Dead-Letter Offices, Mr McCrea, Postal Superintendent, Pyinmana division for organizing and maintaining runners' lines in the Eastern division, Burma, and Babu Surya Kumar Mukerji, for exceptionally good work under difficult circumstances also in the Eastern division, Burma

SCHEDULE OF PRINCIPAL STEAM SERVICES

By the British India Steam Navigation Company

(1) Weekly communication between Calcutta, Rangoon and Moulmein (2) Weekly communication between Calcutta and Rangoon *via* Chittagong Akyab, Kyouk Phyo and Sandoway (3) Weekly communication between Rangoon and Mergui *via* Tavoy (4) Fortnightly communication between Madras and Rangoon touching at certain intermediate ports on the north-east coast of Madras (5) Weekly direct communication between Bombay and Karachi (6) Weekly communication between Bombay and Karachi *via* the coast ports (7) Weekly communication between Karachi and Busrah *via* the Persian Gulf ports	Under contract with the Post Office for ten years from 1st May 1884, on an annual subsidy of R4 39,000
(8) Fortnightly communication between Madras and Bimlipatam *via* Masulipatam Coconada and Vizagapatam (9) Weekly communication between Tuticorin and Colombo	Under supplementary contract with the Post Office from 6th May 1886 to 30th April 1894, on an annual subsidy of R15 000
(10) Weekly communication between Kyouk Phyo, Ramree and Cheduba	Under contract for ten years from November 1884 with the Local Administration on a monthly subsidy of R1 500 for the first five years and R1 200 for the second period of five years subject to other arrangements if intermediately made

By the Asiatic Steam Navigation Company

(11) Four weekly communication between Calcutta and Port Blair with extensions to Nancowry and Rangoon	Under the control of the Military Department the consideration given being not in the form of subsidy but of guaranteed rates for the transport of Government stores Began to work for five years from 1st January 1888 and terminable thereafter by a notice of six months

By the Irrawaddy Flotilla Company

(12) Weekly communication between Rangoon and Mandalay and intermediate ports with a monthly extension between Bhamo and Mandalay	Under contract for five years from the 1st January 1886, the subsidy being R3 500 per month
(13) Semi weekly communication between Rangoon and Bassein and Bassein and Henzada	Under contract with the Local Administration for five years from 1st July 1880 and to continue in force thereafter unless determined by six months notice The monthly subsidy is R2 500 towards which the Post Office contributes R500 per mensem

By the Euphrates and Tigris Steam Navigation Company

(14) Weekly communication on the river Tigris between Busrah and Bagdad	Under contract for ten years from the 1st May 1884 with Her Majesty's Secretary of State for India Subsidy R36 000 per annum steamers run in connection with line No 7

By Messrs Apcar & Co Calcutta and Jardine Mathewson & Co, Hong Kong

(15) Monthly communication between Calcutta and Straits and Hong Kong the dates of departure being regulated primarily with reference to the Calcutta opium sales	No subsidy

By the Peninsular and Oriental Steam Navigation Company

(16) Fortnightly communication between Calcutta and Colombo touching at Madras Fortnightly communication between Bombay and Colombo	Non contract lines maintained by the Company on its own account in connection with the China and Australian mail services The Post Office pays by weight for the conveyance of mails sent by these non contract steamers

By other Agencies

(17) By the River Steam Navigation Company Daily communication between Dhubri and Dibrugarh on the Brahmaputra river	Under contract with the Local Administration from the 7th October 1883 to the 1st May 1893 Annual subsidy R1,00 000, towards which the Post Office contributes R30 000
(18) By India General Steam Navigation Company Daily communication between Naraingani and Silchar	Under contract with the Local Administration, from 1st January 1887 to 31st December 1891 Annual subsidy R40 000 during the 1st two years and R30 000 during the succeeding three years towards which the Post Office contributes R10 000
(19) By Shepherd and Company's Steamers Daily communication between Bombay and Goa	Under contract with the Local Government from 1st October 1886 to 31st May 1887 The monthly subsidy is R2 880 towards which the Post Office contributes R780, the Portuguese Government R200
(20) By Bengal Central Flotilla Company Daily communication between Khulna and Barisal	Under contract with the Post Office from 1st July 1884 to 30th June 1889 Monthly postal subsidy R350, of which the Imperial Post Office contributes R183, terminable by six months' notice

NOTE.—A service by sea worked by native boats is maintained by the Government of Ceylon between Point Calimere on the Indian side and Kankesanturai on the Ceylon side

Appendix No I

Statement showing the number of Post Offices and Letter Boxes opened, and Village Postmen entertained during the year 1887 88, and the total number that stood at the end of the official years 1886 87 and 1887 88

The 10th January 1889.

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 5th January, 1889* —Rainfall slight in North Arcot, none elsewhere More rain wanted in parts of Ganjam, Vizagapatam Kurnool, Salem, and Coimbatore Standing crops generally good Damaged by insects, disease or excessive rain in parts of South Arcot, Chingleput, Tinnevelly and Coimbatore, withering in Ganjam, Kurnool, and three taluks of Coimbatore Pasture generally sufficient, except in parts of Salem and Coimbatore Agricultural operations progressing No material fluctuations in prices General prospects favourable, except in Ganjam and Coimbatore Over 21,300 labourers last week on Rushikulya works, Ganjam

Bombay —*For week ending 9th January 1889* —Late crops in Khandesh, in parts of Nasik, Ahmednagar, and Upper Sind Frontier, in one taluka of Poona and five of Sholapur, and *jowari* in four talukas of Bijapur, suffering for want of moisture Cotton in four talukas of Bijapur, *jowari* in two talukas of Belgaum, exotic cotton in seven and wheat in two talukas of Dharwar, and late crops generally in two talukas of Satara, blighted Standing crops otherwise good, except those in two talukas of Surat, and wheat in Broach Opium crop in Baroda good Cotton picking continues in Guzerat Fodder scarce in parts of Broach, Khandesh, Nasik, Bijapur, Kattiawar, and Baroda Agricultural stock poor in three talukas of Nasik and Ahmednagar, and in parts of Kattiawar Scarcity of drinking water in parts of Khandesh, Nasik, and Baroda Prices rising in Nasik

Bengal —*For week ending 8th January, 1889* —No rain has fallen throughout the Province during the week The winter rice harvest is almost over, and nowhere, except in limited portions of the Patna, Bhagalpore, and Rajshahye Divisions, is the outturn reported to be less than eight annas of an average crop In the extreme north of Durbhanga and Mozufferpore and in the Dhaka thana of Chumparun, the failure of the rice crop has been complete Prospects of the *rabi* crops are generally fair and promising, except in the affected tracts in the Patna Division, in parts of Chota Nagpore, and also in the Pubna district A fall of rain now would do much good in Behar and Chota Nagpore Sugarcane is a good crop Poppy and tobacco crops are progressing satisfactorily, the weather being very favourable Spring rice is doing well Latest report regarding affected tracts in the Patna Division shows that the grain supply is everywhere sufficient, but that prices have risen in Mozufferpore, Durbhanga, and Chumparun, that attendance on relief works in Chumparun and Mozufferpore is increasing, and that there is as yet no necessity for giving charitable relief

N W P. and Oudh —*For week ending 9th January, 1889* —Weather clear Rain much wanted *Rabi* being irrigated Poppy promises well Sugarcane pressing in progress Supplies ample Prices on the whole steady, but rising in places Condition of cattle satisfactory

Punjab —*For week ending 9th January, 1889* —No rain during the week Prices are unsettled in Peshawar, rising in Rawalpindi, stationary in other districts *Rabi* sowings completed Watering of crops in progress in Lahore Rain is now wanted throughout the Province for the *rabi* crops, but most urgently in the Delhi Division Crops are reported as suffering for want of rain in parts of Umballa and Amritsar Stock cattle healthy Fodder sufficient, except in Sialkot, Dera Ismail Khan, and in parts of Mooltan and Rawalpindi The opium crops are in good condition in Amritsar

Central Provinces —*For week ending 9th January, 1889* —Weather clear Prospects unchanged Winter crops below average in northern districts owing

to insufficient rain Prospects elsewhere favourable Linseed injured by insects in Bilaspur Cattle in fair condition Fodder sufficient

Burma —*For week ending 5th January, 1889* —No rain fell during the week Crop prospects remain generally favourable, but in Thayetmyo the rice crop is very short The price of paddy has fallen in the Pegu, Thayetmyo, Amherst, Tavoy, Sagaing, Lower Chindwin, and Minbu Districts, and has risen in Tharrawaddy Elsewhere prices are stationary

Assam —*For week ending 9th January, 1889* —Weather cold Rainfall *Nil* Reaping of cold weather rice still continues Mustard being gathered in some districts Prospects of other crops good

Mysore and Coorg —*For week ending 9th January, 1889* —In Mysore no rain Standing crops in good condition Harvesting nearly completed and sowing operations commenced in parts Prospects and outturn favourable Prices slightly risen in parts

Weather favourable for paddy harvest in Coorg Rainfall slight

Berar and Hyderabad —*For week ending 9th January, 1889* —Picking of cotton and cutting of other *kharif* crops completed in some districts *Rabi* crops thriving Agricultural stock good Fodder insufficient in some districts No marked change in the price of food grains

No rain in Hyderabad *Rabi* crops thriving Sowing of *tabi* crops continues Scarcity of fodder still felt Prices stationary

Central India —*For week ending 9th January, 1889* —Unfavourable report regarding condition of standing crops and probable outturn in Western Malwa, but agricultural prospects are entered as fair instead of good No other changes of importance

Rajputana —*For week ending 9th January, 1889* —Agricultural operations satisfactory Standing crops thriving Prospects of harvest good Agricultural stock good Pasturage or fodder sufficient, except in Kherwara and parts of Jeypore Prices steady generally Opium and cotton satisfactory

Nepal —*For week ending 3rd January, 1889* —No rain Weather chilly and foggy Wheat progressing

No 212 /—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879, and of all other powers enabling him in this behalf, the Governor General in Council is pleased to apply Act No V of 1861 (*for the regulation of Police*) to the Cantonment of Secunderabad, subject to the following modifications, namely —

Omit sections 2, 3, 5, 6, 11, 14, 15, 21, 46, and 47

In section 1, omit the definitions of "Magistrate of the District" and 'General Police District"

For section 4 substitute the following —

"The administration and control of the police throughout the Cantonment of Secunderabad shall, subject to the superintendence of the Resident at Hyderabad and to the general control of the Governor General of India in Council, be vested in a District Superintendent or an Assistant District Superintendent of Police, who shall from time to time be appointed by the Resident at Hyderabad and may be removed by the same authority '

In section 7 for the words 'Inspector General, Deputy Inspector General, Assistant Inspector-General and District Superintendents' substitute the words "District Superintendent or Assistant District Superintendent' and *after* the words "of this Act shall" insert the words "subject to the confirmation of the Cantonment Magistrate and," and *after* the words "who may" insert the words "subject to such confirmation and'

In section 8, for the words "Inspector General or such other officer as the Inspector General shall appoint" substitute the words 'District Superintendent or Assistant District Superintendent of Police "

In section 9, for the words "or by some other officer authorised to grant such permission" substitute the words "or Assistant District Superintendent," and insert the same words after "District Superintendent" where these words again occur

In sections 10, 12 and 45, for the words "Inspector General" wherever they occur *read* the words 'District Superintendent or Assistant District Superintendent"

In section 13, omit the words "Inspector General of Police or any Deputy Inspector-General or Assistant Inspector General or for the," insert after the words 'District Superintendent," wherever they occur, the words "or Assistant District Superintendent," and omit the words "Inspector General, Deputy Inspector General or Assistant Inspector-General or to the"

In section 16 for the words "district of such Magistrate" read "Cantonment of Secunderabad"

In section 17, for the words "place where such unlawful assembly, or riot, or disturbance of the peace has occurred or is apprehended' read "Cantonment of Secunderabad," and for the word "neighbourhood" read "Cantonment"

In section 24, omit the last nine words which were repealed by Act X of 1882

In section 30, after the words "District Superintendent," for the word "and" read "or"

In section 34, for the words "any town to which this section shall be specially extended by the Local Government," read 'the Cantonment of Secunderabad after this section shall have been specially extended thereto under section 10 of the Cantonments Act III of 1880, as applied to the Cantonment of Secunderabad"

In section 35, omit the portion of the section which was repealed by Act X of 1882

In section 40, for the words "District Court of the district wherein the offender is convicted" substitute the words "Cantonment Magistrate's Court'

In section 42, for the first sentence thereof, read—

"Notice in writing of all actions and prosecutions against any person which may be lawfully brought for anything done or intended to be done under the provisions of this Act or under the general Police powers hereby given and of the cause thereof shall be given to the defendant or to the District Superintendent or Assistant District Superintendent of Police one month at least before the commencement of the action"

In section 45, for the words "such Local Government" read "him"

In the Form annexed to the Act after the words and figures "Act V of 1861" insert the words "as applied to the Cantonment of Secunderabad"

For the words "General Police District,' "Local Government" and "Magistrate of the District" wherever they occur, read the words "the Cantonment of Secunderabad," 'the Resident at Hyderabad and "Cantonment Magistrate of Secunderabad," respectively

II The notification of the Government of India in the Foreign Department, No 33 J, dated the 25th April, 1878, applying Act No V of 1861 (for the regulation of Police), to the Cantonment of Secunderabad, and so much of the notification of the Government of India, in the same Department, No 70 I, dated the 7th January, 1884, as applies to the same cantonment section 9 (in a modified form) of the Cantonments Act, III of 1880, are hereby superseded

W J CUNINGHAM,

Under Secretary to the Government of India

SAVINGS BANKS

The 18th January, 1889

No. 367.

RESOLUTION—By the Government of India Department of Finance and Commerce

Read—

Resolution by the Government of India Department of Finance and Commerce, No 1729 dated the 9th April 1888, prescribing revised rules for the guidance of depositors in Post Office Savings Banks

According to the present Post Office Savings Bank rules, a depositor is allowed to deposit R500 yearly and R3,000 in all, exclusive of interest These limits, which are much higher than the limits prescribed for Post Office Savings Banks in other countries, were adopted from the District Savings Bank rules, when the Post Office Banks were first established in 1882

2 At that time persons in the interior of districts had little opportunity of placing their savings anywhere except in the Government Savings Banks, but of late years facilities for investing money in Government securities have been considerably extended The minimum for Government Promissory Notes of the ordinary loans has been reduced to R100, Savings Bank depositors are now allowed to purchase and sell such notes through any Post Office Bank, and to remove the difficulty that might be felt by the poorer classes in providing for the safe custody of their Promissory Notes, it has been arranged that Post Office Banks should take charge of these securities and pay the interest regularly to the accounts of any depositors who may wish this to be done, so that without any trouble to themselves they are enabled to obtain a higher rate of interest than is paid on Savings Bank accounts There is, therefore, no reason for maintaining the existing high limits for deposits, which are no longer necessary in India for the encouragement of thrift, the true object of a Post Office Savings Bank

3 The Governor General in Council has, therefore, decided that, with effect from the 1st April 1889, the yearly limit for deposits shall be reduced from R500 to R200, and the limit for the whole amount of an account from R3,000 to R2,000, exclusive of interest But in the case of all accounts in excess of R2,000 on that date, interest will still be paid under the present rule, that is, on all balances not in excess of R3,000 No further deposit, however, will be allowed to be made to the credit of any such account unless the total balance should fall below R2,000, after which the account will be limited to that sum exclusive of interest

4 The Governor General in Council has further decided that, with effect from the 1st April 1889, the total amount of any account opened by a relative or guardian on behalf of a minor shall be limited to R1,000 exclusive of interest In the case, however, of all accounts of this character in excess of R1,000 on that date, interest will continue to be paid on balances not in excess of R3,000, but no further deposit will be allowed to be made to the credit of any such account unless the total balance should fall below R1,000, after which the account will be limited to that sum exclusive of interest

5 The necessary alterations in the existing Savings Bank rules to bring them into accordance with the present orders will be made hereafter

6 These orders will also apply to Presidency Savings Banks, the rules for which will be similarly altered with effect from 1st April 1889

ORDER —Ordered, that this Resolution be communicated for information and guidance to the Director General of the Post Office of India and to the Comptroller and Auditor General for the issue of necessary orders to the Presidency Banks

Ordered, also, that this Resolution be published in the *Gazette of India* for general information

ACCOUNTS AND FINANCE

PUBLIC DEBT

The 18th January, 1889

No 382—In pursuance of Rule 22 made by the Government of India under the Indian Securities Act of 1886, Section 14, and published in the *Gazette of India*, dated 7th January, 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security All persons, other than the respective claimants named below, who have any claim upon these Securities, should communicate immediately with the Comptroller General, the Treasury, Calcutta

Notice is hereby given that the Securities mentioned in the first division of the list (marked A) will be discharged at the General Treasury of Fort William on the 30th June 1889 with all interest due upon them, and that upon that date all further interest upon such Securities shall cease Notice of discharge has already been given in respect of all Securities mentioned in the second division of the list (marked B)

N B—Under Section 13 of the above Act Government will be discharged from all liability in respect of the original Securities in the first division (marked A) after the lapse of six years from (*a*) the several dates stated against them in the last column of the list, or (*b*) the last payment of interest on them whichever date is the later

The 18th January, 1889

No 359 —The services of Surgeon F C Reeves Officiating Deputy Assay Master, Calcutta, are replaced at the disposal of the Government of Madras, with effect from the 14th January 1889

No 383 —The following reversions of officers of the Account Department are notified —

With effect from the 1st December, 1888, in consequence of the return of Mr F J Atkinson from the Military Department —

Mr F J Atkinson to officiate in class IV,

Mr H J Brereton to revert to class V,

Mr G D Pudumjee to revert to class VI, and Mr K B Wagle to revert to the class of Probationers

With effect from the 4th December, 1888, in consequence of Mr T W Rawlins return to duty—

Mr T W Rawlins to be Accountant General, class II,

Mr R Logan to officiate as Accountant General, class III,

Mr E W Kellner to revert to class I of the Enrolled List,

Mr J E O Conor to revert to class II,

Mr E Lawrence to officiate in class III,

Mr G H R Hart to revert to class IV,

Mr H G H Keene to revert to class V,

Mr C G Vansittart to revert to class VI and

Messrs I E Pritchard and J A Robertson to revert to the class of Probationers

SEPARATE REVENUE

STAMPS

The 18th January, 1889

No 316 —In exercise of the powers conferred by section 8 of the Indian Stamp Act, No I of 1879, the Governor General in Council remits the stamp duty chargeable under the said Act, in the Central Provinces, upon a document of either of the kinds specified below, when furnished by a Patwari to a Malguzar or tenant of or in the village with which that document is concerned

Kinds of Documents

Copies or extracts certified by Patwaris to be true copies of, or true extracts from, records or papers, which they are required to prepare or keep by any rule made by the Chief Commissioner under section 146 of the Central Provinces Land Revenue Act, 1881

STATISTICS AND COMMERCE

MERCHANT SHIPPING

The 18th January, 1889

No 357

ORDER By the Government of India Department of Finance and Commerce

Ordered, that the following Despatch, and the Order in Council, be published in the *Gazette of India*, for general information —

Public
No 129

INDIA OFFICE,
London, 20th December, 1888

To His Excellency the Most Honourable the Governor General of India in Council

MY LORD MARQUIS,—With reference to my despatch No 108, of the 4th of October last, I transmit, for the information of Your Excellency in Council ten copies of the Order of Her Majesty in Council, extending the provisions of the Foreign Deserters Act 1852, to certain Deserters from Ships belonging to subjects of the Emperor of Brazil

Dated 17th November 1888

I have, &c,

(Signed) CROSS

AT THE COURT AT WINDSOR,

The 17th day of November, 1888

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT

MARQUESS OF LOTHIAN

SIR HENRY PONSONBY

MR ROBERTSON

WHEREAS by the "Foreign Deserters Act, 1852," it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British Merchant Ships in the territories of any foreign power, Her Majesty may, by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such power when within Her Majesty's dominions shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such Order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen (not being Brazilian subjects) who desert from British Merchant Ships in the territories belonging to His Majesty the Emperor of Brazil will be given under an Agreement between the Governments of Great Britain and Brazil signed at Rio de Janeiro on the 30th July, 1888

NOW, THEREFORE, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that, from and after the publication hereof in the London Gazette, seamen, not being slaves, and not being British subjects, who, within Her Majesty's Dominions, desert from merchant ships belonging to subjects of His Majesty the Emperor of Brazil shall be liable to be apprehended and carried on board their respective ships Provided always, that if any such deserter has committed any crime in Her Majesty's Dominions he may be detained till he has been tried by a competent Court, and until his sentence, if any, has been carried into effect

And Her Majesty, by virtue of the powers vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is further pleased to order and declare that, upon and after the publication hereof in the London Gazette, the Order in Council relating to seamen who desert from the merchant ships belonging to the subjects of the Emperor of Brazil made by virtue of the said Act on 17th day of May, 1876, shall be revoked, and the same is hereby revoked accordingly

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council are to give the necessary directions herein accordingly

C L PEEL

A U TANSHAWE,

Offg Secretary to the Government of India

MILITARY DEPARTMENT

Fort William, the 18th January, 1889

FIELD OPERATIONS

LUSHAI EXPEDITION

No 32—Lieutenant W H Pollen, R E, officiating Deputy Superintendent, 4th grade, Survey of India, to be Survey Officer with the Lushai Expeditionary Force

APPOINTMENTS

ADJUTANT GENERAL'S DEPARTMENT

No 33.—Colonel K D Murray, D S O Royal Irish Fusiliers, to be an Assistant Adjutant General on the Establishment, *vice* Colonel G deC Morton whose tenure of appointment has expired Dated 9th January, 1889

COMMISSARIAT DEPARTMENT

No 34—Colonel A R Badcock, C B, officiating Commissary General in Chief, is confirmed in that appointment, *vice* Colonel J V Hunt, C B, who has vacated the appointment on succeeding to the Colonel's allowance Dated 20th December, 1888

HYDERABAD CONTINGENT

No 35.—*4th Cavalry*—

Lieutenant S M Mason, Adjutant, 3rd Infantry, officiating Squadron Officer, to be Squadron Officer, to fill an existing vacancy Dated 6th December, 1888

No 36—*2nd Infantry*—

Second Lieutenant F P S Dunsford Durham Light Infantry, a candidate for the Bengal Staff Corps, to be officiating Wing Officer, on probation, with effect from the 11th December, 1888

ORDNANCE DEPARTMENT

No 37—Lieutenant M S C Campbell, R A, officiating Ordnance Officer, 3rd class to be Ordnance Officer 3rd class with effect from the 24th November, 1888, *vice* Captain W D B Fenton, R A, promoted

No 38—Lieutenant E S Brooke R A, officiating Ordnance Officer, 4th class, is confirmed in that class with effect from the 3rd December 1888, *vice* Lieutenant C G Oldfield, R A promoted

Lieutenant H de T Phillips, R A, to officiate as an Ordnance Officer 4th class with effect from the 30th December, 1888, *vice* Brooke, confirmed

STAFF CORPS

No 39—Lieutenant William Charles Marmaduke Woodcock, Liverpool Regiment, Wing Officer, 11th Bengal Infantry, is admitted to the Bengal Staff Corps from the 12th August, 1887, subject to confirmation by the Secretary of State for India

No 40—Lieutenant Henry Walter George Cole, Northumberland Fusiliers, Wing Officer, 2nd Battalion, 2nd Gurkha Regiment, having completed 18 months' probationary service, is admitted to the Bengal Staff Corps, subject to confirmation by the Secretary of State for India

No 41—The undermentioned officers appointed by the Secretary of State for India probationers for the Indian Staff Corps, are posted as follows with effect from the dates of their arrival in India —

Madras Staff Corps

Second Lieutenant L I Wood, Border Regiment

Second Lieutenant C Barnett, Duke of Cornwall's Light Infantry

Second Lieutenant C E Bowen, Leinster Regiment

Second Lieutenant H P Bell, Worcester Regiment

Second Lieutenant W B Powell Northamptonshire Regiment

Second Lieutenant W I Fair Wiltshire Regiment

Second Lieutenant A M Anderson, Argyll and Sutherland Highlanders

Second Lieutenant F G H Sutton, Royal Irish Regiment

Bombay Staff Corps

Second Lieutenant F C W Ware, Duke of Cornwall's Light Infantry

FURLOUGH AND LEAVE

No 42—The undermentioned officers are granted furlough or leave out of India —

Colonel L Beddy, Bengal S C, 29th Bengal Infantry, (p a) to the 25th November 1889 inclusive under the leave rules for the Staff Corps Pension Service—32nd year commenced 14th April, 1888

Lieutenant Colonel H F Thiot, General List Infantry, 4th Bengal Infantry, (p a) for one year under the leave rules for the Staff Corps Pension Service—29th year commenced 12th February, 1888

Captain W O Harris Bengal S C, 20th Bengal Infantry (p a) for one year under the leave rules for the Staff Corps Pension Service—19th year commenced 6th July, 1888

Captain F H J Birch, R A, Commandant No 3 (Peshawar) Mountain Battery Punjab Frontier Force, (p a) for two years, under rule IX of the regulations of 1868

Lieutenant A A J Johnstone, Bengal S C, Wing Officer, 5th Punjab Infantry, Punjab Frontier Force, (p a) for one year, under rule I of the regulations of 1875

Surgeon Major E Mulvany, (p a) for one year and 182 days, under rule IX of the regulations of 1868

No 43—Lieutenant W H Pollen, R E, Assistant Superintendent, 1st grade, survey of India, was on furlough out of India (m c) from 7th June, 1887, to 10th November, 1888, under rule IX, note 1, of the Regulations of 1868

No 44.—Colonel C F Sharpe, Bengal S C, is permitted to reside out of India

No 45.—Lieutenant Colonel W E Forbes Bengal S C, Commissioner, N W P and Oudh, is granted an extension of furlough (m c) up to the 15th June, 1889

No 46.—The undermentioned officers have been granted extensions of furlough or leave by the Secretary of State for India —

Colonel Sir W S A Lockhart, K C B, C S I, Infantry, (p a) for six months

Lieutenant Colonel A R Wilkinson, General List Infantry, (m c) to 19th March, 1889

Surgeon Major W N Keefer, (m c) for five months

Surgeon Major J Bennett, M D, (m c) for two months

Surgeon Major W A D Tasken, M D, (m c) for two months

Surgeon A Duncan, M D, (m c), for six months

Surgeon R J Marks, (m c), for six months

LONDON GAZETTE

No 47.—The following extracts are published for general information —

'London Gazette," dated the 25th December, 1888, pages 7355 and 7356

India Office, 24th December, 1888

The Queen has approved of the following promotions among the Officers of the Staff Corps and Indian Military Forces made by the Governments in India —

BENGAL STAFF CORPS

To be Major

Captain Archibald Mungo Muir Dated 30th September, 1888

To be Captains

Lieutenant Henry Augustus Carleton Dated 9th October, 1888

Lieutenant William James Knowles Dobbin Dated 13th October, 1888

BENGAL MEDICAL ESTABLISHMENT

To be Surgeons Major

Surgeon James Moorhead, M D Dated 30th September, 1888

Surgeon Charles William Owen, C M G, C I E Dated 30th September, 1888

Surgeon Gilbert Saunders Griffiths Dated 30th September, 1888

* * * * *

INDIAN ARMY

To be Colonel

Lieutenant Colonel James Grant Duff Walker, Madras Cavalry Dated 4th October, 1888

PROMOTIONS

No 48.—Under the provisions of the Royal Warrant of the 10th November, 1881, the names of the following officers are moved up on the Indian Gradation List —

Lieutenant General Sir C H Brownlow, G C B, Bengal S C, is placed on the list of Generals,

Major General T G Kennedy, C B, Bengal S C, is placed on the list of Lieutenant Generals,

Colonel J P Pedler, Madras S C, is placed on the list of Major Generals,—

in consequence of the transfer to the unemployed supernumerary list of General Sir H W Norman G C B, G C M G, C I E, Bengal S C on the 1st December, 888

Colonel R G Rogers, C B, Bengal S C, is placed on the list of Major-Generals, in consequence of the transfer to the unemployed supernumerary list of Colonel W I Fagan, Bengal S C (whose name is borne on the list of Major Generals of the Indian Army), on the 1st December, 1888

No 49.—The following promotions are made, subject to Her Majesty's approval —

To be Colonels in the Army

Lieutenant Colonel Charles Drummond Pilsmore Payne, Bombay S C,—12th January, 1889

Lieutenant Colonel Sir Benjamin Parnell Bromhead, *Bart*, Bengal S C,—18th January, 1889

BENGAL STAFF CORPS

To be Lieutenant Colonel

Major Henry Mackenzie Macdonald Wood, —17th January, 1889

To be Majors

13th January, 1889

Captain James Ramsay Hobday

Captain Edward James Gardner Lewis

Captain George Williams Deane

NATIVE ARMY

No 50.—*4th Bengal Infantry*—

Jemadar Maharáj Singh to be Subadar, and Havildar Kunjbihári Singh to be Jemadar, *vice* Maharaj Upadhya, invalided, with effect from the 3rd November, 1888

PUNJAB FRONTIER FORCE

No 51.—*2nd Punjab Cavalry*—

Kot Dafadar Bhagwán Singh to be Jemadar, *vice* Amrík Singh, invalided, with effect from the 13th November, 1888

ORDNANCE DEPARTMENT

No 52.—The undermentioned Sub Conductors on probation, are confirmed in their present grade, with effect from the dates specified —

John Arthur Holland,—23rd May, 1888

Oliver Spark,—26th May, 1888

George Collins,—26th May, 1888

Thomas Spooner,—11th June, 1888

Albert Henry Williams,—11th June, 1888

REWARDS

No 53—The Governor General in Council is pleased to sanction the following promotions of warrant and non commissioned officers, under the provisions of clause 48, India Army Circulars, 1884, for services with the Burma Expeditionary Force —

Commissariat Department

Conductor Charles Lightening (Bengal) to be Deputy Assistant Commissary

Conductor Alfred Sincock (Bombay) to be Deputy Assistant Commissary

Conductor Edward J Keane (Bombay) to be Deputy Assistant Commissary

Sub Conductor Henry Hawkins (Bengal) to be Conductor

Sergeant and Acting Sub Conductor Frederick Kalkoven (Bombay) to be Conductor

Sergeant Joseph Wanson McKie (Bengal) to be Sub Conductor

Sergeant John Scutt (Bengal) to be Sub-Conductor

Sergeant Charles Strudwick Wallis (Bombay) to be Sub Conductor

Sergeant John Nyren (Madras) to be Sub Conductor

Transport Department

Sergeant (Sub Conductor sub *pro tem*) William Wood (Madras) to be Conductor

Sergeant Herbert George Roach (Bengal) to be Sub Conductor

Sergeant Charles Wilson (Madras) to be Sub Conductor

GOOD CONDUCT MEDALS

No 54—The undermentioned non-commissioned officers and men have been granted medals, with annuities and gratuities, for meritorious service and good conduct, under the provisions of clause 115, India Army Circulars of 1888

Medals inscribed "For Meritorious Service," with annuity

No 199—Pay Havildar Gopál Das, No 2, Field Battery, Hyderabad Contingent

No 439—Havildar Sakaram, 5th Infantry, Hyderabad Contingent

No 1366—Color Havildar Nágoji, 6th Infantry, Hyderabad Contingent

Medals inscribed "For Long Service and Good Conduct," with gratuity

No 104—Gunner Sikandar Khan, No 4, Field Battery, Hyderabad Contingent

No 1766—Naick Ajodhya, 6th Infantry, Hyderabad Contingent

No 1372—Sepoy Shaikh Dáud, 6th Infantry, Hyderabad Contingent

Medals inscribed "For Long Service and Good Conduct," without gratuity

No 22—Lance Naick Saiyid Ismaíl, No 1, Field Battery, Hyderabad Contingent

No 94—Sepoy Chhote Khan, 1st Infantry, Hyderabad Contingent

No 723—Sepoy Kurbán Beg, 6th Infantry, Hyderabad Contingent

VOLUNTEER CORPS

APPOINTMENTS

No 55—*2nd Punjab (Simla) Volunteer Rifle Corps*—

Mr Charles Heyman Le Marchand to be Second Lieutenant, *vice* Towelle, promoted Dated 9th November, 1888

PROMOTIONS

No 56—*1st Punjab Volunteer Rifle Corps*—

Captain Edward Nicholl is granted the honorary rank of Major

MARINE DEPARTMENT.

FURLOUGH AND LEAVE

No 4—Mr T S Edwardes, Third Grade Officer, Indian Marine, has been granted by the Secretary of State for India, a further extension of furlough (m c) for three months

E H H COLLEN,
Secretary to the Government of India

MILITARY DEPARTMENT.

NOTIFICATION

Calcutta, the 18th January, 1889

Under Clause 25 of the Regulations appended to the Regimental Debts Act of 1863, it is notified that reports of the deaths of the undermentioned Commissioned officers, on the dates specified, were received in the Military Department between the 4th and the 18th January, 1889 —

Corps	Rank and Names	Date of Decease	Place of Decease	Testate or Intestate	Remarks
Indian Medical Service (Bombay Establishment)	Surgeon E Tully	7th June, 1888	Fort Stedman Upper Burma.		
3rd Dragoon Guards	Lieutenant R G Dyson	12th Jan, 1889	Meerut		

Statement of Deposits on account of Estates between the 24th November, 1888, and the 18th January, 1889

On whose account.	Rank	Corps	Date of Decease.	Testate or Intestate.	Total unclaimed amount deposited	Amount paid in India	Date to which claims will be received
Thomas Roddis	Sergeant Major	2nd Battalion Royal Lancaster Regiment	2nd August, 1887	Intestate	R a p 6,240 0 0		

E H H COLLEN,
Secretary to the Government of India

PUBLIC WORKS DEPARTMENT

NOTIFICATIONS

Calcutta, the 12th January, 1889

No 16—Mr S G Wood, Assistant Accountant General, Public Works Department, is granted furlough out of India for fifteen months, under Section 132 of the Civil Leave Code

The 15th January 1889

No 17—Major W I LeBreton B S C, Examiner, 2nd class, is promoted to Examiner, 1st class *temporary rank*, with effect from the 14th November, 1888

Consequent on the return from leave of Major W I LeBreton, B S C, Mr R G Macdonald, Examiner, 1st class, *temporary rank*, reverted to Examiner, 2nd class, with effect from the 14th November, 1888

The 17th January, 1889

No 19—Mr C Swappe, Executive Engineer, 1st grade, State Railways, is placed at the disposal of the Government of Madras for employment on Railways in that Presidency

The 18th January 1889

No 21—Mr H A F Currie, Assistant Engineer, 2nd grade, State Railways, is transferred from the Establishment under the Director General of Railways to that under the Government of Bengal for employment on the Western Bengal Railway Survey

No 22—*Corrigendum*—In Public Works Notification, No 7, dated 8th January, 1889, *for* C S I *read* C I E

TELEGRAPH

The 15th January, 1889

No 18—The following reversions are made in the Persian Gulf Section of the Indo European Telegraph Department, with effect from the forenoon of the 19th December, 1888, consequent on the return to duty from furlough on that date of Mr J Possmann, Engineer and Electrician —

Names	From	To
Mr G W Sealy	Officiating Engineer and Electrician	Superintendent
Mr E Pierce	Officiating Superintendent	Assistant Superintendent
Mr J P Hawkins	Officiating Assistant Superintendent	1st grade Clerk.

The 18th January, 1889

No 20—In accordance with the provisions of section 4, sub section (*4*), of the Electricity Act, 1887, the following rules which the Governor General in Council proposes to make under the Act are published for the information of persons likely to be affected thereby

Persons desirous of offering any objections or suggestions in regard to the proposed rules should communicate the same in writing to the Secretary to the Government of India in the Public Works Department before noon of the 1st May next, when the rules will be taken into consideration

In exercise of the powers conferred by section 4, sub section (*1*), of the Electricity Act, 1887, the Governor General in Council is pleased to make the following rules —

General

1 In these rules, unless the context otherwise requires,—

(1) expressions used in the Indian Telegraph Act, 1885, and the Electricity Act, 1887, have the same meanings as in those Acts

(2) "electric supply line" means a wire or wires, conductor, or other means used for the purpose of conveying, transmitting or distributing electricity for light or power, with any casing, coating, covering, tube, pipe or insulator enclosing, surrounding or supporting the same, or any part thereof, or any apparatus connected therewith for the purpose of conveying, transmitting or distributing electricity or electric currents for light or power

(3) "main" means a conductor used to convey electricity from the source of supply to the point or points where it is distributed for use

(4) "lead" means a conductor used to distribute electricity from the mains to the various appliances in which it is to be used

(5) "switch" means any appliance for permitting arresting or changing the flow of electricity in conductors

(6) "commutator" means any appli ance for regulating or diverting the flow, or for altering the direction, of electricity in con ductors

(7) "cut out means any appliance for confining the flow of electricity to conductors capable of safely carrying it when its amount rises accidentally above the nor mal

(8) "transformer' means any appli ance by means of which elec tricity of high potential is con verted to electricity of lower potential, or *vice versa*

Rules for the protection of person and pro perty from injury by reason of contact with, or the proximity of, appliances or apparatus used in the generation or supply of electricity

2 Whenever notice has been given under section 3 of the Electricity Act, XIII of 1887, of an intention of any person to undertake the business of supplying electricity or to use electricity for a pub lic purpose or in a public place or such other place as is referred to in clause (*b*) of that section, the District Magistrate or Commissioner of Police receiving such notice shall forthwith report the cir cumstance to the Local Government, who may thereupon authorise an officer, either by name or in virtue of his office to enter inspect and examine any place carriage or vessel in which the officer has reason to believe any appli ances or apparatus used in the genera tion or supply of electricity are, and any building or place to and in which electricity is to be supplied and used

3 The Local Government shall, if necessary, instruct the District Magistrate or, in a Presidency town, the Commissioner of Police as to the roads or public places in which overhead electric supply lines are not to be allowed, and the persons undertaking the supply of electricity or using the same shall attend to any orders of these officers in this respect

4 The person or persons who intend to undertake the business of supplying elec tricity or intend to use the same for the purpose or in a place indicated in rule 1, shall provide all means for testing the appliances or apparatus used in the generation or the supply and use of electricity

5 Conductors must have a sectional area and conductivity so proportioned to the work they have to do that if double the current proposed is sent through them, the tem perature of such conductors shall not exceed 150° Fahrenheit

6 The conductors or their casings must be placed in sight as far as possible and they must always be as accessible as cir cumstances will permit

7 Within buildings the conductors must all be insulated and this rule applies equal ly to all conductors and parts of fittings which may have to be handled

8 Whatever insulating material is employed, it must not soften until a temperature of 170° F has been reached, and in all cases the material must be damp proof

9 When leads pass through roofs, floors, walls or partitions, and where they cross or are liable to touch metallic substances, such as bell wires, iron girders or pipes, they must be thoroughly protected by suitable additional covering, and where they are liable to abrasion from any cause, or to the depredations of rats or mice, they must be encased in some suitable hard material

10 In the case of portable fittings with which flexible leads are used, special precau tions must be taken

11 Conductors must be kept as far apart as circumstances will permit, the spacing between them being governed by their potential difference

12 When conductors are carried in very inflammable structures, precautions must be taken to isolate them therefrom

13 Conductors which are protected on the outside by lead or metallic armour of any kind require the greatest care in fixing on account of the large conducting sur face which would become connected to the core in the event of metallic contact between them

14 In cases where conductors pass into a building from one building to another, or from one room to another, precau tions must be taken to prevent the pos sibility of fire or water passing along the course of the conductors

15 All joints must be mechanically and elec trically perfect to prevent heat being generated at these points When sol dering fluids are used in making joints, the latter must be carefully washed and dried before insulation is applied

16 Under all circumstances complete metallic circuits must be employed Gas and water pipes must never form part of the circuit, as their joints are rarely electri cally good, and therefore become a source of danger

17 Overhead conductors, whether passing over or attached to buildings, must be insulated at their points of support Precautions must be taken to obviate all risk of short circuiting where they are likely to touch a building or other overhead conductors and wires, either by their own falling or being fallen upon by other conductors

18 In the case of overhead wires, every main conductor must have a lightning protector at each point where it enters or branches into a building

19 Metal fastenings for fixing conductors must be avoided

20 The insulation of a system of distribu tion must be such that the greatest leak age from any conductor to earth (and, in case of parallel working, from one conductor to the other, when all branch es are switched on, but the lamps, motors, &c, removed) does not exceed

one five thousandth part of the total current intended for the supply of the said lamps, motors, &c, the test being made at the usual working electromotive force

21 It is desirable as a means for the prevention of accidents for the positive lead to be coloured differently to the negative, or made otherwise distinguishable

22 Every switch or commutator must be of such construction as to comply with the following condition, namely, that, when the handle is moved or turned to and from the positions of "on" and "off," it is impossible for it to remain in any intermediate position, or to permit of a permanent arc or heating

23 The handle of every switch must be completely insulated from the circuit

24 The main switches of a building must be placed as near as possible to the point of entrance of the conductors, or to the generators of the current if they are within the building itself Switches must be provided on both leads

25 Switch boards must bear clear instructions for their use by the inexperienced

26 Switches commutators, resistances bare connections, lamps, &c, must be mounted on incombustible bases Cut outs mounted on bases of wood rendered uninflammable are admissible Vulcanite bases are undesirable in damp situations The cracking of porcelain and earthenware fittings is a source of danger which can be avoided by precautions in fixing

27 All circuits must be protected with cut outs, and all leads from the mains or small conductors from larger ones must be fitted with cut outs at their branching points

28 Where fusible cut outs are used the section must so be situated within its frame that the fused metal cannot fall where it may cause a "short circuit" or an ignition

29 For all main conductors a cut out must be provided for both the "flow" and "return," and the two fusible sections must not be in the same compartment

30 The flexible leads of portable fittings must in all cases be protected by cut outs at their fixed points of connection

31 Arc lamps must always be guarded by lanterns or netted globes, so as to prevent danger from ascending sparks and from falling glass and incandescent pieces of carbon

32 All parts of the lamps and lanterns which are liable to be handled (except by the persons employed to trim them) must be insulated

33 The armatures and field magnet coils of dynamo machines must be thoroughly insulated Dynamo machines must always be fixed in dry places, and they must not be exposed to dust flyings or other industrial waste products carried in suspension in the air They must not be permitted in the working rooms of mills, where the liability to such dangers exists, or where any inflammable manufactures are carried on or inflammable materials are stored

34 Motors must be subject to the same conditions but when it is necessary to use them in positions such as those referred to, they must be securely cased in such cases having a non combustible lining

35 Both primary and secondary batteries must be placed and used under the same precautions as prescribed for dynamo machines, and the room in which they are placed must be well ventilated The batteries themselves must be well insulated

36 When transformers are used to transform either direct or alternating currents of high electromotive force, that is, from or to an electromotive force of, say 200 volts, they together with their switches and cut outs must be placed in a fire and moisture proof structure preferably outside the building for which they are required No part of such apparatus must be accessible except to the person in charge of their maintenance

37 In all cases conductors conveying currents of high electromotive force inside buildings must be specially and exceptionally insulated, cased in, the casing made fire proof

38 The positive and negative terminals connected to such conductors must not be permitted to be nearer each other than 12 inches

39 Transformers which, under normal conditions of load, heat above 150° Fahrenheit must not be permitted to remain in use

40 Transformers must be so constructed that under no circumstances whatever should a contact between the primary and secondary coils lead the high electromotive force into the building

41 No repairs nor alterations must be made when the current is "on"

42 Full particulars of the proposed installation must be furnished when required to the officer authorised by the Local Government under rule 1 These particulars must include a statement of the maximum current to be sent by means of the various conductors, the electromotive force of the current, and the nature of the current (whether direct or alternating) that is to be employed Samples of the conductors to be used must be furnished that their conductivity and the quality of their insulation may be ascertained Specimens of the cut outs protectors and switches may be required, if considered necessary, by such officer

Rules for preventing telegraph lines from being injuriously affected by any appliances or apparatus used in the generation or supply of electricity

43 Any person supplying or using electricity shall not lay down any electric supply line or do any other work for the supply or use of electricity whereby any tele

graph line established by, or by license from, the Governor General in Council is or may be injuriously affected Before any such electric supply line is laid down or work is done within ten yards of any part of such telegraph line (other than repairs or the laying of connections with the mains where the direction of the electric supply lines so laid down crosses such telegraph line at right angles at the point of shortest distance and continues the same for a distance of six feet on each side of such point), the person or his agent shall not more than twenty eight nor less than fourteen clear days before commencing such work give written notice to the Telegraph authority specifying the course and nature of the work, including the gauge of any electric supply lines, and the person and his agent shall conform with such reasonable requirements, either general or special, as may from time to time be made by the Telegraph authority for the purpose of preventing any telegraph lines established by or by license from, the Governor General in Council from being injuriously affected by the said work

44 Any difference which arises between the Telegraph authority and the person supplying or using electricity or his agent with respect to any requirements so made shall be referred to the Local Government for decision, and the orders of that Government shall be final

45 For the purposes of the foregoing rules a telegraph line shall be deemed to be injuriously affected by a work if telegraphic communication by means of such line is, whether through induction or otherwise, in any manner affected by such work, or by any use made of such work

46 Electric supply lines must throughout their entire lengths and in all localities be so constructed as to avoid contact with telegraph lines, and if carried overhead must be so placed as to enable telegraph lines at any future time to be carried in any street on posts of 24 feet in height without contact with or interference from such electric supply lines

47 Only one side of any street must be occupied by electric supply lines

48 At all street crossings the minimum head way of electric supply lines must be 30 feet

49 The provisions of rules 5 and 6 may be relaxed in certain localities where it is not intended immediately to construct telegraph lines for, or by license from the Governor General in Council, on condition that the person or persons erecting the electric supply lines give a general undertaking to the Telegraph authority to comply with these rules within 14 days from the time when notice may be given that telegraph lines are to be constructed in such localities

PART V.

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th January, 1889 —

NO 1 OF 1889

A Bill to amend the Sea Customs Act, 1878 and the Indian Tariff Act, 1882

WHEREAS it is expedient to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882, It is hereby enacted as follows — VIII of 1878 XI of 1882

Sea Customs Act, 1878

Amendment of section 37 Act VIII 1878. VIII of 1878

1 For the provisos to section 37 of the Sea Customs Act, 1878, the following proviso shall be substituted, namely —

"Provided that, if such goods are warehoused under this Act, the rate and valuation (if any) applicable thereto shall be the rate and valuation in force on the date on which application is made to clear such goods from the warehouse for home consumption"

Amendment of section 110, Act VIII, 1878.

2 For section 110 of the same Act the following shall be substituted, namely —

"110 Any owner of goods warehoused may, at any time within three years from the date of the bond executed in respect thereof under section 92, clear such goods for home consumption by paying—

Clearance of bonded goods for home-consumption

(*a*) the duty leviable on such goods at the rate and according to the valuation (if any) applicable thereto on the date on which application is made to clear such goods from the warehouse for home consumption, and

(*b*) all rent, penalties, interest and other charges payable to the Customs collector in respect of such goods"

Amendment of section 115 Act VIII, 1878

3 In section 115 of the same Act, the words "in accordance with the second proviso to section 37" are hereby repealed

Indian Tariff Act, 1882

Addition of new section to Act XI 1882

4 The following section shall be added to the Indian Tariff Act, 1882, namely — XI of 1882

When contracts have been entered into, amount of increased or decreased duty to be added or deducted

"10 In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty paid where duty was chargeable at that time, — [30 & 40 Vict c 36, s. 20]

(*a*) if such imposition or increase so takes effect that the duty or increased duty as the case may be, is paid, the seller may add so much to the contract-price as will be equivalent to the duty or increase of duty, and he shall be entitled to be paid and to sue for and recover such addition, and

(*b*) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid, the purchaser may deduct so much from the contract price as will be equivalent to the decrease of duty or remitted duty and he shall not be liable to pay or be sued for or in respect of such deduction"

Amendment of the Second Schedule to Act XI 1882

5 In No 1 of the Second Schedule to the same Act, for the following, namely —

No	Names of Articles	Per	Tariff valuation	Rate of duty
*	*	*	*	*
			Re A	
	Gunpowder common	lb	0 5	10 per cent
	Gunpower sporting	lb	1 0	
	All other sorts		*Ad valorem*	

there shall be substituted the following, namely —

No	Names of Articles	Per	Tariff valuation	Rate of duty
*	*	*	*	*
			Re A	
	Gunpowder, common	lb	0 5	10 per cent
	Gunpowder sporting	lb	1 0	
	All other sorts of Arms Ammunition and Military Stores		*Ad valorem*	10 per cent

Explanation — The expression 'Arms Ammunition and Military Stores' as used in the foregoing part of this Schedule includes in addition to any article specifically mentioned in that part —

(*a*) all articles which are either 'arms' or 'ammunition' within the meaning of the Indian Arms Act 1878 and XI

(*b*) any articles which the Governor General in Council may from time to time by notification in the Gazette of India declare to be military stores for the purposes of this Act

STATEMENT OF OBJECTS AND REASONS

THE main object of this Bill (section 1) is to repeal the proviso to section 37 of the Sea Customs Act, 1878, which enacts that when the rate of duty or tariff-valuation (if any) applicable to any goods imported has been raised after the grant of port clearance at the port of shipment, the rate and valuation applicable to such goods shall be, not the rate and valuation in force on the date on which the bill of entry thereof is delivered to the Customs collector under section 86 of the Act, but the rate and valuation in force on the date on which port clearance at the port of shipment was granted There is no precedent for such a proviso either in the law of England or, so far as the Government of India has been able to ascertain, in the law of any other country The proviso was adversely criticised while the Bill, which became the Sea Customs Act, 1878, was under consideration it has had the effect, which was then anticipated, of seriously disturbing trade, and it has caused very heavy loss of revenue to the Government

Another object of the Bill (section 2) is to make it clear that where, after goods liable to duty have been assessed and warehoused, the duty is repealed, the goods may be cleared from the warehouse for home consumption free of duty

A third object (section 4) is to introduce into India the rule enacted in 18 & 19 Vict, c 97, s 9, and continued in 39 & 40 Vict, c 36 s 20 It was proposed to incorporate such a rule in the Bill which became the Sea Customs Act, 1878, but the proposal was not approved by the mercantile community and was on that account abandoned The rule, however, has been in operation in the United Kingdom since 1855, and would seem, from the fact of its re enactment by Parliament in 1876 and from the absence of any reference to it in the Law Reports, not to have entailed the ill effects which were feared when its introduction into India was last considered In these circumstances, it is held to be desirable to insert the rule in the Bill with a view to its being carefully considered again

A fourth object (section 5) is to define the expression "arms, ammunition and military stores," as used in the Indian Tariff Act, 1882 and to enable the Governor General in Council to declare from time to time what articles are to be deemed to be "military stores" within the meaning of the Act The amendment necessary for this purpose will not affect any notification for the time being in force under section 23 of the Sea Customs Act, 1878

The 18th January, 1889

Director General of Railways' No 316 (Statistical), dated the 27th November 1888, forwarding the Abstract Returns of Accidents to Trains, &c, on the open lines of Railways in India for the quarter ending 31st March 1888, together with Reports of the Inspecting Officers upon certain accidents which were enquired into

OBSERVATIONS —As compared with the average of the five corresponding previous quarters, the number of accidents to trains, rolling stock, permanent-way, &c, shows an increase of 92, or 14 67 per cent, with an increase of 2,741 miles, or 23 74 per cent, in the mean mileage open, and of 1,776,755 miles, or 16 02 per cent in the train mileage The following are the railways on which the more important fluctuations occurred —

Railways	ACCIDENTS					TRAIN MILEAGE	
	No of accidents	Increase	Decrease.	Percentage of increase	Percentage of decrease	Percentage of increase	Percentage of decrease
Rajputana-Malwa	63		11		14 86	9 51	
Southern Mahratta	72	61		554 54		343 50	
North-Western .	113		16		12 40	22 16	
Eastern Bengal	109	24		28 24		29 58	
Madras .	55	15		37 50		12 31	
Great Indian Peninsula	18		43		70 49	4 57	
Oudh and Rohilkhand	31	18		138 46		29 12	

2 On the Rajputana-Malwa Railway the number of accidents from "Trains running over cattle on the line" decreased from 29 to 22, while under "Collisions between goods trains, or parts of goods trains" there were 6 accidents against *nil*

3 On the Southern Mahratta Railway there were increases under most of the heads, but there was an increased train mileage run in consequence of the increase in the open mileage The number of accidents was larger by 61, having risen from 11 to 72, an increase of 554 54 per cent against an increase of 304 64 per cent in the open mileage, and of 343 50 per cent in the train mileage Out of this total of 72 accidents, 35 are recorded under "Trains running over cattle on the line" and 15 under "Fire in trains"

4 On the North-Western Railway fluctuations are noticed chiefly under "Goods trains, or parts of goods trains, engines, &c, leaving the rails" 17 against 9, "Trains running over cattle on the line" 14 against 27, and "Fire in trains" 6 against 23

5 On the Eastern Bengal Railway, the increase in the number of accidents was nearly in the same ratio as the increase in the train mileage Of the total increase, *viz*, 24, 12 cases occurred under "Trains running over cattle on the line" and 5 under "Goods trains, or parts of good trains, engines, &c, leaving the rails"

6 On the Madras Railway the number of "Goods trains, or parts of goods trains, engines, &c, leaving the rails" was exceptionally large, being 24 against 4

7 On the Great Indian Peninsula Railway there was a decrease of 43 accidents Of these, 11 were under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," and 14 under "Fire in trains," the rest being distributed over the other classes

8 On the Oudh and Rohilkhand Railway, where the total number of accidents rose from 13 to 31, the difference was pretty evenly distributed over all heads

9 The casualties resulting from accidents to trains, &c, were among passengers and others, 1 killed and 10 injured, against 1 killed and 17 injured, and among servants, 3 killed and 15 injured, against 2 killed and 8 injured Of the total casualties, 10 passengers and 1 servant were injured in a collision which took place between a down train and an up train on the Eastern Section of the Eastern Bengal State Railway On the Northern Section of the same Railway on the 26th January 1888, one Railway servant was killed and 3 others injured in an accident which occurred to a down goods train while running across the Bowrah Bridge, where a rail had been removed for repairs The engine, tender, and 5 trucks fell from the bridge to the ground, a distance of about 15 feet On the 24-25th March 1888 an accident occurred on the Bengal Nagpur line, causing the death of a Railway servant and extensive injury to the rolling stock and permanent-way, in spite of a careful enquiry, the cause of this accident has not been conclusively cleared up A detailed report of both these accidents is appended to the returns

10 On the Rajputana-Malwa Railway 3 servants were injured by a collision which took place between two goods trains on the 13th February 1888 at Charkhi Dádri, 34½ miles from Rewari, owing to the carelessness of the driver of the up goods, who ran through the station disregarding the signals against him

11 The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby

		Average of corresponding quarters of 5 previous years	First quarter 1888					Total all classes	
			No	Number of passengers and others		Number of servants			
				Killed	Injured	Killed	Injured	Killed	Injured
1	Collisions between passenger trains or parts of passenger trains	2	1						
2	Collisions between passenger trains and goods or mineral trains engines and vehicles standing foul of the line	11	19		10		2		12
3	Collisions between goods trains or parts of goods trains	18	24			1	4	1	4
4	Collisions between light engines	2	3						
5	Passenger trains or parts of passenger trains leaving the rails	18	28						
6	Goods trains or parts of goods trains engines &c leaving the rails	59	92			1	4	1	4
7	Trains or engines travelling in the wrong direction through points	14	18				1		1
8	Trains running into stations or sidings at too high a speed	4	5				1		1
9	Trains running over cattle on the line	210	245						
10	Ditto over obstructions on the line	29	29	1				1	
11	Ditto through gates at level crossings	13	9				1		1
12	The bursting of boilers of engines		4						
12(a)	The bursting of tubes &c of engines	16	20						
13	The failure of machinery springs &c of engines	52	51						
14	Ditto of tyres	1	2						
15	Ditto of wheels								
16	Ditto of axles	8	11						
17	Ditto of brake apparatus								
18	Ditto of couplings	34	31						
19	Ditto of tunnels bridges, viaducts culverts &c								
20	Broken rails	8	8						
21	The flooding of portions of permanent way	1	4						
22	Slips in cuttings or embankments	1	4						
23	Fire in trains	67	39						
24	Fire at stations, or involving injury to bridges or viaducts	8	12						
25	Other accidents	51	60			1	2	1	2
	1888		719	1	10	3	15	4	25
	Total { Average of corresponding quarters of 5 previous years		627	1	17	2	8	3	25

12 The principal variations occurred under "Passenger trains, or parts of passenger trains leaving the rails," 28 against 18, "Goods trains, or parts of goods trains, engines, &c, leaving the rails," 92 against 59, "Trains running over cattle," 245 against 210, and "Fire in trains," 39 against 67

13 The increase under "Passenger trains, or parts of passenger trains, leaving the rails" was chiefly due to the number of accidents recorded on the Southern Mahratta Railway being 4 against *nil*, on the North-Western Railway, 7 against 2, and on the Dibru-Sadiya Railway, 5 against 2

14 Of the 92 cases of "Goods trains, or parts of goods trains, engines, &c, leaving the rails," 17 occurred on the North-Western Railway, 11 on the Eastern Bengal, 24 on the Madras, and 8 on the Dibru-Sadiya

15 The cattle accidents were very numerous on the Eastern Bengal and Southern Mahratta Railways, being 54 and 35, respectively The South Indian Railway comes next, with 24 accidents of the same class

16 The number of cases of "The bursting of tubes, &c, of engines" and "The failure of machinery, springs, &c, of engines," was the largest on the North-Western Railway, being 14 and 16, or 70 00 and 31 37 per cent of the totals, respectively

17 The number of cases of "Fire in trains" shows a decrease from 67 to 39, of which 15 occurred on the Southern Mahratta Railway, 6 on the North Western, and 5 on the Great Indian Peninsula The two last-mentioned Railways show decreases of 17 and 14 accidents under this head, respectively

18 Out of 60 accidents, classed as "Other accidents," 22 were recorded on the Bombay, Baroda and Central India Railway

19 The casualties to passengers from causes other than accidents to trains, &c, were —

Cause of accident	1st Quarter 1888		Average of corresponding quarters of 5 previous years	
	Killed	Injured	Killed	Injured
From falling between carriages and platforms	1	1	1	2
Falling on to the platform, ballast, &c, when getting into or out of trains.	5	6	2	3
Whilst crossing the line at stations	1		1	
By closing of carriage doors . .		1		
Falling out of carriages during the travelling of trains	1	19	3	13
Other accidents . .	1	6	3	5
Total	9	33	10	23

20 The accidents to servants in the employ of Railways, or of Contractors, whilst performing duties connected directly with the transit of passengers and goods from causes other than accidents to trains, &c, were as follows —

Cause of accident	1st Quarter 1888		Average of corresponding quarters of 5 previous years	
	Killed	Injured	Killed	Injured
During shunting operations	15	17	4	11
Falling off engines, vans, wagons, &c	1	17	2	8
Coming in contact with overbridges, &c, during the travelling of trains		1		1
Coming in contact, while shunting, with vehicles, &c, standing in adjoining lines	2	2		1
Getting on or off trains, engines, &c	2	9	4	10
Whilst loading, unloading or sheeting		16	2	15
Whilst braking, spragging, or choking wheels		1		2
Whilst working at cranes or capstans		3		3
Whilst working on the permanent way or in sidings	9	13	1	4
Whilst walking along the line on the way home, or to work	1			1
Whilst walking, crossing, or standing on the line	6	6	7	6
Whilst passing between vehicles		3	2	1
Whilst attending to the machinery of engines, cleaning them, &c		7	1	3
Whilst attending to gates at level-crossings	1	3	1	1
Falling, or being caught between vehicles and platforms	2		1	
Falling off ladders, scaffolds, platforms, &c	2	6		2
By falling of lamps, wagon doors, timber, weights, &c	1	3	1	6
Whilst coupling or uncoupling wagons	1	4	2	7
Miscellaneous	5	34	4	22
Total	52	140	32	104

21 Of other persons killed and injured by running trains, &c, 4 were killed and 2 injured whilst passing over the line at level-crossings, 32 were killed and 18 injured whilst trespassing on the line, 4 committed suicide, and 1 was injured in attempting to commit suicide, and 8 were killed and 2 injured from miscellaneous causes

22 The following table shows the total number of persons killed and injured from causes connected with the working of trains, as compared with the average of the corresponding quarters of five previous years —

	1st Quarter 1888		Average of corresponding quarters of 5 previous years	
	Killed	Injured	Killed	Injured
Passengers				
From causes beyond their own control		17	1	17
From misconduct or want of caution	9	26	10	22
Servants				
From causes beyond their own control	13	29	3	12
From misconduct or want of caution	42	126	32	101
Others				
Whilst passing at level crossings	4	2	4	2
Trespassers, including suicides	36	19	33	7
Other persons	8	2	1	4
Total	112	221	84	165
Total open mileage	14,285¼		11,544¾	
Total train mileage	12,864,966		11,088,211	

23 In addition to the above, 18 persons are reported to have been killed and 33 injured in station yards, workshops, &c , and 157 persons to have died in carriages and at stations from causes unconnected with the working of trains

24 A tabulated statement has been added to the returns, comparing the accidents on Indian Railways with those on English Railways It will be observed that the number of minor accidents in 1887 was greater on Indian Railways, but that the casualties amongst passengers compare favourably with those recorded against English lines

25 In Public Works Department Circular No IV Railway, dated the 24th April 1888, the Government of India decided to publish for general information, in addition to the quarterly returns of accidents, a complete report, similar to that rendered by the Inspecting Officers to the Board of Trade, of any important accident which might occur In accordance with this order, detailed reports of two serious accidents are appended to the present returns

---

Resolution —It is satisfactory to notice that the increase in the number of accidents to trains, rolling stock, permanent-way, &c , generally compares favourably with the increase of mileage open and of train-mileage, as contrasted with the average of the five corresponding preceding quarters

The Governments of Madras, Bombay, Bengal, the North Western Provinces and Oudh and the Punjab
The Chief Commissioner of the Central Provinces, Burma and Assam
The Resident at Hyderabad
The Agents to the Governor General for Central India, Rajputana and Baluchistan
The Director General of Railways
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Central Division

ORDER.—Ordered that this Resolution be communicated, for information, to the Local Governments, Administrations and Officers noted on the margin

Ordered also that copies be forwarded for the information of Her Majesty's Government

Ordered further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*

By order,

M C BRACKENBURY, *Major, R E*,
Under Secretary

Letter from the Consulting Engineer to Government of India for Railways, Calcutta, to Government of India, dated 28th January 1888

I HAVE the honor to report, for the information of the Government of India, the result of the inquiry into the cause of an accident which occurred on the 26th instant, at mile 12, on the northern section of the Eastern Bengal State Railway

No 14 Down Goods of the 26th instant, consisting of one F class metre-gauge engine, 40 loaded goods wagons, and one brake van, crossed over, against signals, a girder bridge during repairs, at a time when a rail had been taken up by the permanent way inspector The engine, tender, and five trucks fell from the top of the bridge to the ground, a distance of about 15 feet, the sixth wagon remained on the bridge but off the rails

One of the permanent way gangs on the bridge at the time was hurt, and died about an hour afterwards The jack, fireman, and another of the permanent way gangs working on the bridge were slightly hurt

The damage to the engine was slight, two six wheeled iron wagons were damaged beyond repair, two wooden and two six wheeled iron wagons have their lower frames intact, but their bodies damaged beyond repair, all the wheels of the wagons are intact A pair of 40 feet plate girders was slid forward and twisted beyond repair

Description

The bridge where the accident occurred consists of 16 spans of 40 feet plate girders resting on brick masonry piers The rails over the bridge are carried on transverse wooden sleepers, resting on the top flanges of the girders, and attached to them by four hook bolts in each sleeper There are spaces of about 5 inches between the ends of the girders throughout the bridge, which had not been fitted up with timber to prevent the girders sliding forward in case of an accident of this kind

The line is straight for several miles to the north of the bridge, and level for two miles in the same direction The driver coming from Malanchi has a clear and unobstructed view for several miles

Wooden signals kept at caution are placed at 1,100 feet on each side of the bridge, and two lamps at each signal, one on each side of the line, to show a green light at night to caution drivers to go slowly over the bridge

Men with red and green flags are placed at the wooden signal posts, to show red or green flag as the permanent way inspector may order

Also at 150 feet from the north abutment of the bridge, between the bridge and the wooden signal-post, is a lodge for the bridge watchman, who was also provided with red and green flags

The station masters at the stations on each side of the bridge had received orders to endorse on all line clear messages that the speed over this bridge at mile 12 was to be 4 miles an hour, and this was endorsed on the line clear message received at Malanchi station by the driver of No 14 Down Goods of the 26th instant

The first rail joint on the bridge from north abutment was 11 feet from the face of the ballast wall on No 1 span, the second was 29 feet At this point there was only one rail in, *viz*, that on the east side, this was fish-plated, but not spiked The west rail had not been put in All the sleepers except two from the second joint were carried away by the accident The two girders of No 2 span from the north abutment were pushed forward off the top of No 1 pier, and were supported on No 2 pier, and against the side of No 1 pier The engine being derailed on No 1 span, got on to the transverse sleepers of No 2 span, and the sleepers being attached to the girders by four hook bolts in each sleeper, the wheels of the engine caught the sleepers, and carried them, and with them the girders of 4 spans, until sufficient space had been gained by the accumulation of 5 inches (the space over piers between the ends of the girders of two contiguous spans) from each of the piers to allow of the north end of the girders of No 2 span to drop off No 1 pier

Evidence

Herbert De Garnier stated —I am permanent-way inspector in charge of this section in which repairs to the bridge are being executed, have been in charge since October last, was formerly on the Dacca Section, and was transferred from there owing to illness, have been 4 years on the Eastern Bengal State Railway I had passed No 4 Down Goods of the 26th instant over the bridge about 11 50 A M The No 14 Down Goods came at 12 45 I had two danger signals out The flags are about 18 inches square, and have standards about 2 feet long The danger signal flag nearest the bridge was about 150 feet, and the farthest one about 1,100 feet, from the north end of the bridge towards Malanchi

The red flags were held by men, and I saw them at their posts, it is a straight line, and nothing to obstruct my view

I had one 24 feet length of rail in on the east side, only fish plated not spiked The 18 feet rails previously put in were sufficiently spiked to pass No 4 Down Goods train at the speed of 4 miles an hour

I was changing and re spacing the timbers, and had 31 men working at the repairs

I did not hear the train till the man with the danger signal called to me that the train was coming I was working with my head down, and not looking in the direction of the coming train

I jumped up, and held up my hands and yelled out Some of the men jumped, others ran back along the girder to the abutment, and some got in between the girders One of my gangmen was on the pier I afterwards found him on the ground on the north side of first pier from the north abutment

I gave orders to the two signal men who were at the hut close to the bridge, to go off with their danger signal flags, this was when I saw the smoke of the engine about Malanchi They had ample time to go to their posts before the train arrived I did not order Dunnu, Khalassi, to hold up a red flag, nor did I see him

I pulled up No 4 Down Goods under exactly the same precautions

The driver of No 14 Down Goods did not whistle

C A McRae stated —I was the driver of No 14 Down Goods on the 26th instant, have been 8½ years on this line, of which 7 have been driving I have driven both mail and goods trains At Malanchi station I was 50 minutes late I left Malanchi at 12 20, and got to the bridge, mile 12, at 12 45, this was the time when I looked at my watch after the accident

The station master, Malanchi, gave the guard line clear, which the guard handed to me It was endorsed to go 4 miles an hour over bridge at mile 12

The bridge where the accident occurred is about 4 miles from Malanchi

On coming up to the wooden caution signal, I saw a green signal flag about 6 feet high on the east side of the line, *i e*, on my left hand coming from Malanchi, the signal was stuck in the ground close to the wooden caution signal

Shortly after passing this caution signal, I saw a man with a red flag

[Position noted and measured, and found to be 430 feet from the north abutment of the bridge]

I was going about 7 to 8 miles an hour I did not notice the red flag till almost close up to it I saw the men working on the bridge When I got on the bridge I was going about 3 miles an hour My engine left the rail at the end of the second rails in the first span There was no rail on my right hand side I am certain of the left or east rail being in

I have crossed over this bridge 3 or 4 times since the permanent way inspector began repairs It was a cloudy day Have never been stopped at this bridge, but have been stopped at others

I shut off steam north of the caution signal, and on seeing the red flag, I whistled for brakes, put on the tender brake myself, then my steam brake, reversed my engine, and put on steam

I was about 50 yards inside caution signal when I saw the red flag A second red flag was about 50 yards from north of the bridge I reversed my engine when about opposite this red flag When I was at Atrai, No 4 Down Goods was at the next station, Madhnagar, which is about 6 miles from Atrai I left Atrai station at 10 37

Alfred Duncan stated —I was guard of No 14 Down Goods on the 26th instant Have been 8 months as guard on this line Previous to joining this railway I was on the Darjeeling line for 16 months

I was on the look out all the way from Malanchi I saw the wooden caution signal, but did not see a green flag or any flag near it

I was looking out of the right-hand side of my brake-van I saw a man quite close to the bridge with a red flag, he was about 80 yards from the bridge, and was coming from the bridge towards the train The train was going about 4 miles an hour past the caution signal post when my brake passed it I put on my brake when the driver whistled

I was about 10 feet inside caution signal post when I heard the whistle, and when I saw the red flag

I have been several times over this bridge since the permanent way inspector began repairs I did not see the men working on the bridge I looked at my watch when I got out of my brake The train had come to a standstill My watch shewed between 14 and 45 minutes past 12

Almost immediately after the whistle I felt a jerk, then looked out and saw the engine had gone over the bridge It took me about half a minute to put on my brake I had papers on my brake, as there is no arrangement in my brake van to place my way bills and other papers in Taking off these papers caused delay in my putting on the brake

The brake vans are in my opinion too light to be of any use in stopping a heavy goods train like that I was guard of

Heera Singh stated —I have been watchman at this bridge (Bourah) for the past two months I shew a red signal flag when ordered by the permanent-way inspector The engine was at the distant house about a mile off when I put up my red flag I received the order from the permanent way inspector to shew a red flag about an hour before the arrival of the train When the train was at Malanchi the permanent-way inspector told me to put up my red flag

I saw the distant signal man with a red flag standing between the rails, and when the train came up to him he crossed over to the west side of the line The engine never whistled The man Dunnu was not present with a red flag

I ran towards the approaching train with my red flag up

Awar Deen stated —I was ordered to hold a red flag at the caution signal post I look after the lamps by night and the flags by day The lamps shew only a green light I have got a hand signal lamp as well I was called by the permanent-way inspector, I came to the bridge where the permanent way inspector was at work, he told me to go and put up my red flag at the caution signal post I was standing between the rails with my red flag, and went to the west side when the train came up to me The train was coming faster than usual and did not whistle I have been in this post since the repairs to the bridge were commenced I saw a flag stuck up between me and the house near the bridge

Dunnu, Khalassi, stated —I held a red flag midway between the distant signal and the hut near the bridge I stood between the rails I placed the red flag in the ground after the No 4 Down Goods had passed On arrival of the No 14 Down Goods I rushed forward and held up the red flag I saw the man at the caution signal-post, also Heera Singh, holding red flags

Bal Kundi stated —I am telegraph lineman Was a passenger in the brake van by the No 14 Down Goods of the 26th instant, was looking out on the left hand side of the brake van I saw a red flag beside the caution signal post I called to the guard that there was a red signal flag, and that it meant the train to stop I saw this red flag from the gateman's hut at the level crossing, which is about ¾ of a mile from the bridge

The guard put on his brake, when I told him about the red flag

The driver did not whistle

The brake van stopped about 80 yards inside the caution signal post

Shaik Nasib stated —I was fireman of No 14 Down Goods of the 26th instant, I saw a green hand signal flag tied to the caution signal post, and saw a red signal flag at the house near the bridge I noticed the red flag when about 200 feet inside the caution signal post I applied the tender brake, and not the driver, the driver applied the steam brake

Mr Fouracres, Assistant Locomotive Superintendent stated—that the driver of No 14 Down Goods of the 26th instant, told him, on the evening of the 26th instant, that he saw the red flag at the caution signal post, but could not stop his train in time

Mr Chabrel, Executive Engineer in charge of Northern Section of the Eastern Bengal State Railway stated —Similar repairs to bridges in this section had been going on for the past three months under the same conditions as regards the distances of the fixed caution signals from the work and of exhibiting red or green hand signal flags as occasion required

Conclusion

This accident was due to carelessness on the part of the driver in not keeping a proper look out for signals

He was evidently running at his usual speed till he got up to the caution signal-post, when he suddenly noticed the red flag at the caution signal post, he shut off steam, applied his brakes, and reversed his engine, but too late to stop his train before reaching the bridge The reversing lever of the engine, when examined, was back, and had been found in this state by the Assistant Locomotive Superintendent (Mr Chase)

From the statements of the permanent-way inspector and his two signal-men, and also that of the telegraph lineman, it appears that the two danger signals were exhibited, one at 1,100 feet, the other about 200 feet from the north end of the bridge

The driver stated that he saw a green flag stuck in the ground at the caution signal-post A green flag at this point would be unnecessary, as the caution signal-post (its arm at 45°) served the same purpose, so that the driver's statement to Mr Fouracres on the evening of the accident may be believed as the correct one, but he may not have noticed the red flag at the caution signal post until he was close up to it, and this heavy train, going at even 8 miles an hour, could not be pulled up in 1,100 feet

If the driver had been keeping a proper look out, he would have noticed the red flag some time before coming up to it, and thus have sufficient length in which to bring his train to a halt before reaching the bridge

The guard, if his statement is to be believed, is also to blame in not keeping a better look-out, knowing that the bridge was undergoing repairs, having passed over this bridge several times since the repairs commenced

The statement of the guard is hardly reliable, and I believe he had his brake on before arriving at the caution signal-post as stated by the lineman, notwithstanding the guard's statement to the contrary The guard brought prominently to my notice that the brake-vans on the northern section (metre gauge) were much too light for

these heavy goods trains, in this case there was only one brake van on a goods train of 40 loaded wagons

This point should be inquired into

The permanent-way inspector is to blame in not having his danger signals at the proper distance from his work, as laid down in Rule No 277 of General Rules for Indian Railways, *viz*, half a mile on a flatter grade than 1 in 250, or level, instead of which they were only 1,100 feet away from his work Neither had he detonators placed on the line as required by the same rule

The line at this place is straight for several miles, and level for a distance of two miles north of the bridge in the direction of Málánchi

The wooden signal-posts which were placed at 1,100 feet instead of half a mile on each side of the bridge were fixed permanently at caution, the arm being at an angle of about 45 degrees, instead of which they should have been moveable and kept at danger, and only lowered to caution when the line over the bridge was ready for the passage of a train

The statement of Dunnu, Khalassi, is not reliable

It appears similar repairs to bridges on this length have been in progress for the last three months, and under the same conditions as regards the distances of signals from the work, and I presume without detonators being placed on the line, even at this short distance of 1,100 feet As the operation of re sleepering the bridge necessitated the removal of rails, and thus involved danger to trains, and as from Mr Chabrel's statement similar repairs had been going on for three months, it appears that the conditions laid down in Rule No 277 of the General Rules for Indian Railways, and the subsidiary rules framed by the Manager of the Eastern Bengal State Railway were not attended to

---

Letter from the Consulting Engineer to Government of India for Railways, Central Division, to Government of India, dated 23rd June 1888

In compliance with Public Works Department Circular No IVR of 24th April 1888, I have the honor to report the result of the inquiry into the causes of the serious accident to a Goods Train near Darekasa Station on the Bengal-Nagpur Railway on the night of 21th 25th March 1888, in which 24 Goods Wagons were greatly injured and a native brakesman was killed, and the permanent-way under the train was torn up

In this case the No 18 Up Goods train from Raj Nandgaon to Nagpur, being a double train consisting of two engines and 51 goods vehicles, was suddenly wrecked when close to Darekasa Station, without any of the train staff being able to assign the cause

The information prescribed in the above circular is attached

Description

The train was composed of—

Two	Engines, small, F class, running chimney first
19	Covered goods wagons loaded
1	Brake-van in which the brakesman Nawab Ali was killed
2	Timber Trucks empty
28	Covered goods wagons loaded
1	Brake-van loaded
51	Total

The thirty third vehicle from the engines was fitted with screw brake gear but was not manned, and the brake was not in use on the occasion

The first twenty-seven were all derailed The first three were not much damaged, the following twenty four were wrecked or greatly damaged No damage was found done to wheels or axles The draw bar of the eighteenth wagon from the engines was found broken with a bad flaw in it The engines were not derailed and the second engine had its leading buffer casing broken

The leading wagon was found 672 feet east of the Darekasa East Distant Signal

The accident occurred on a descending gradient of 1 in 166 66 on a straight line The permanent-way was in good order

This gradient extends 1,200 feet backwards Behind it is another of 1 in 300 for 1,800 feet, then 1,400 feet of level, and then a temporary diversion with gradients of 1 in 80 and curves of 800 feet radius A plan and section of the line* are attached, and a sketch* showing the relative positions of the wrecked wagons and of the place where the broken buffer head was found

Evidence

Murphy, W, Driver—I was driver of the above train and had charge of the front engine Driver Dunjeebhoy being in charge of the 2nd engine We left Bortalao 5 minutes late owing to 2 engines taking water I do not remember having crossed any diversion between Bortalao and Darekasa When near Darekasa driver of 2nd engine whistled for the signal, the signals were given, at this time we were running at about 8 miles an hour I am prepared to take my oath that the speed was not greater than 8 miles per hour I first put on my brake about a mile from scene of accident The first intimation I received of the accident was through a sudden shock, the first shock was a violent shove forward followed by a jerk towards the rear I noticed that the fire man Peters fell down on the foot plate and then jumped off the engine I did not leave the engine until after it had stopped

In my opinion the accident occurred through parting of the train, my reasons for thinking so being that the two men who travelled in the middle brake van informed me that immediately before the accident they heard a rumbling noise, and that Brakesman Nawabally, who was in the same compartment with these two men, left them and proceeded towards his brake compartment

I felt nothing wrong with the road and nothing was damaged on my engine The moon, at the time of the accident was obscured by clouds and the night was foggy

My hand signal lamp glass was broken and small oil can was dinged by the accident I was appointed as a driver on 17th of February 1888

Dhunjeebhoy, Driver—I was the driver of the second engine of the train in question

We left Dongargarh at 10 5 P M, arrived at Bortalao at 11 5 P M, left Bortalao at 11 15 P M, 4 minutes late, owing to the two engines having taken water On our arrival at mileage 111, post 11, at 11 30 P M, I whistled for the signal, both the signals were lowered for us to go into the station I felt a sudden shock which threw me back, I happened to look behind and I saw the wagons were mounting each other, thus causing the 28 loaded wagons from the second engine to be derailed and telescope causing serious damage to the rolling stock and permanent-way and also causing the death of Brakesman, Nawab Ali The damage done to my engine was one tender buffer and coupling broken, and engine buffer casting broken, the coupling between the tender and first vehicle of the train was that broken probably causing both engines to separate themselves from the train The volute spring casing of the front buffer of my engine was the one broken The train consisted of 46 loaded, 2 empties, and 3 brakes, total 51 vehicles

In the rear brake van there was the Head Guard of the train and in the centre brake van there was a Brakesman Nawab Ali and two other passengers, the brakesman got killed, and in the brake wagon which was loaded there was no one From the time I was whistling till my engine came to a stand, the time occupied was only two minutes

My engine moved about 15 to 20 yards after I first saw the wagons were mounting each other

Lutchmon, Carriage Examiner—I was in the same compartment with Francis I was awake I heard a great noise The train mounted and I got out through the window The hind portion of the body of my brake van was severed from the under frame and slipped down to the ground I think I got out through the window The train was running slowly I do not know what was the cause of the accident There was no one with Nawab Ali

Raghoo Nursoo, Fireman—I was the Augwallah (fireman) on 18 Up Goods on 24th instant with Driver Dhunjeebhoy The driver shut off steam on the other side of the diversion The driver whistled for the guard's brake, because it was on a slope † When we arrived near the signal I felt a shock My driver looked to see what was the matter and on looking out I found the wagons one on the other I put on the brake after leaving the diversion We were running slowly from the diversion up to the scene of the accident The train pulled back and I fell forward I fell on my face towards Darekasa in the direction of the engine ‡

I saw the rear portion of the train after passing the diversion The line was all right The driver's bottle and kettle fell in the direction of the tender The front vehicle was separated from the engine about 5 yards The tender buffer was bent and the engine buffer casing was broken I cannot state the cause of accident

Baily L, Guard—I was the Head Guard in charge of 18 Up Goods on 24th March, Dongargarh to Nagpur My train consisted of 48 wagons and 3 brakes Out of the 48 wagons 2 rail trucks were empty I occupied the rear brake Nawab Ali was my brakesman He occupied a brake-van not a brake wagon This brake-van, No 3679, was the 20th vehicle from the rear engine The 3rd brake was a brake wagon loaded, No 321 This was the 33rd vehicle from the engine, and the rear brake which I occupied was No 835 This was the 51st vehicle from the engine My train was worked by two engines Before starting from Dongargarh I examined the whole train and found that it was properly coupled up and that

* Not published in the Gazette

† Down grade

‡ This man contradicted himself as to how he was standing, and how he fell when the shock took place

DEPARTMENT OF FINANCE AND COMMERCE,
STATISTICAL BRANCH
Calcutta 1

A. U. FANSHAWE,
Offg. Secretary to the Government of India

the bridle chains were secured I left Dongargarh right time at 10-5 P M and arrived Bortalao right time, *viz*, 11 5 P M We left Bortalao at 23-11 I exchanged the all right signal with the driver on passing the trailing points There is a diversion between Bortaláo and Darekasa We passed this diversion at a speed of 10 miles an hour I put on my brake about 2 miles outside Darekasa, because there is an incline there The driver whistled for signals about one mile outside Darekasa Station They were lowered at once I was standing on the left hand side of the brake at the door looking towards the engine I felt a shock and I was thrown forward in the direction of the engine From the time I felt a shock until the brake stopped We ran about the length of this room at the time of the accident, the train was running slowly On passing the diversion I could see that the whole train was intact I am quite sure of this Also I saw it on the 3,700 feet curve or 4,500 feet from scene of accident I am quite certain that the train had not parted at this curve, because I could see the engine on the train length After leaving the first curve I again saw the engine apparently connected with the train before the accident took place I stood on the left hand side of the brake on passing over the diversion and kept on that side up to the time of the accident I cannot say how the accident took place *

I was the sole occupant of the brake van I saw the train intact I did not hear the driver whistle for brake

Peters, J, Fireman—I was the fireman on the front engine with driver Murphy We left Bortalao all right and crossed the diversion having shut off steam on the other side and put on the brake The driver put on a little steam at the foot of the diversion and shut it off at the top where the brake was again applied When about half mile off we whistled for the distant signal The signals were lowered at once, and I put on my brake harder and stood by it looking towards Darekasa until the shock threw me forward towards the boiler, I felt the engine being pulled back The engine was just moving forward as I recovered myself, and on looking back I saw the wagons derailed

The distance between tender of rear engine and first wagon was about 10 yards I was stunned and think that the train derailed itself after the shock took place The road was as usual I don't know how the accident occurred The last time I saw the rear of the train was before crossing the diversion I cannot say whether the train parted My engine was undamaged except that the draw bar was slightly cracked We were running very slowly when the accident took place The oil cans fell in the direction of the engine tender when the accident took place

Baboo Lall, Fitter—I am a fitter who accompanied the material train and am employed in repairing bolsters of rail trucks When the accident occurred the train was going at a moderate speed I was in the passenger compartment of the rear brake and Ramkrishna Bhicaree was with me I did not look out

Francis, Train Inspector—I was riding in the rear passenger compartment of the middle brake van which was wrecked I was sitting on the left hand corner with my back towards the engine I was asleep soon after I left Bortalao A bump on the head woke me I looked out towards the rear of the train and saw there was nothing wrong there I then looked out of the window towards the front of the train, and all this time my brake was mounting up and twisting across the rails The front portion in which was Nawab Ali was smashed by the wagon in rear mounting on it, whilst the hind portion of the body separated itself from the under frame and slid off on the left of the truck clear off the rails, and I jumped out through the window I had a slight bruise on my leg and arm

Narain Rao Permanent way Inspector—I saw nothing of the accident, but I reached the spot at 3 30 A M The road was torn up and 9 lengths of rails had to be replaced The road was in good order The up mixed train passed over it about 2½ hours before the accident took place †

The road was in good order and had not been touched as conversion work had not been begun on it It consisted of metre gauge rails and wooden sleepers

Evidences taken by Railway Police Inspector, W Saigon

Baily, L, Guard—I left Dongargarh on the 24th of March at 10 5 P M with the No 18 up goods, arrived at Bortalao at 11 5, left again at 11 11 I had two drivers Murphy was the train man and Dhanjeebhoy, pilotman The load consisted of 51 vehicles, *viz*, three brake-vans, two empty and forty six loaded About four telegraph posts from Darekasa distant signal I felt a sudden shock and was thrown forward in my brake, the train was going at the speed of eight or ten miles an hour, when this occurred the train stopped at once I went out to see what was the matter and found 28 vehicles derailed from the engines, the brake van in which my brakesman was by name Nawab Ali was smashed up, and several wagons were on top of the brake-van, the man was inside at the time of the accident and was killed; the time the accident occurred was 11-32 P M I cannot say how it occurred There was great damage done to the wagons and grains

Peters, Francis, Train Inspector—I was travelling with the No 18 up goods on the night of the accident from Dongargarh I was asleep in the spare compartment of the brake van Nawab Ali, brakesman was in the same brake I heard a crashing sound which woke me I looked out of the window (being moon light night) to see what was the matter I saw the wagons on front mounting one on top of the other On seeing this I jumped out I cannot say what speed the train was going at the time the accident occurred near Darekasa distant signal I don't know the cause of the accident Brakesman by name Nawab Ali was killed in the accident This man was in the same brake as myself, but in the guard's compartment, the

* Mr Rooper is of opinion that the guard looking out from the left hand side of his rear brake van would not be able to see the distant signal until the front engine was 500 feet from it

† When asked his opinion he stated that the train probably parted that on the driver slowing down the rear portion of the train run into the front

brake van was smashed up and some wagons on top of it, a number of wagons were derailed and broken

Murphy, W, Driver —On the 24th March I was driver of engine No 274 on 18 up goods My engine was in front of another driver by name Dhunjeebhoy who was also with the train I left Dongargarh right time, at Bortalao I arrived to time, both engines took water I left 6 minutes late owing to this, on nearing the distant signal of Darekasa I felt as if my engine was pushed forward and suddenly drawn back, the engine stopped immediately, I and the other driver Dhunjeebhoy shut off steam about 2½ miles back from the spot where the accident occurred, I was going 8 miles an hour or less at the time Twenty eight wagons were derailed and severely damaged A brakesman by name Nawab Ali was killed There were some wagons on top of the brake in which Nawab Ali was killed I cannot say how many wagons were on top I don't know how the accident occurred

Dhunjeebhoy Jamsetjee, Driver —I was driver on 18 up goods on 24th March I left Dongargarh at 10 5 P M, 46 loaded, 2 empty, and 3 brakes The driver was Murphy I left Bortalao at 11 15 P M, on nearing the distant semaphore of Darekasa I felt a sudden shock which threw me back I was going at the rate of 8 or 10 miles an hour I had shut off steam about 2 miles back from the spot where the accident occurred, the train driver also shut off steam from about the same spot as myself After receiving the shock I turned round to see what was the matter (being moon light night) I could see the wagons mounting on the top of each other The engines stopped at once as I and the other driver had shut off steam, 28 wagons from my engine were derailed and the brake van in which brakesman Nawab Ali was, was smashed up and he was killed This is what I discovered after the accident I cannot say what was the cause of the accident, the time the accident occurred was 11 32 P M

Peters James, Fireman —I was fireman to driver Murphy who was trainman of 18 up goods on the 24th of March, Dhunjeebhoy was pilot driver on 18 up goods as well The train left Dongargarh at 10 5 1 M on nearing the distant semaphore of Darekasa I felt a shock which threw me forward, the engines stopped at once, the train was going at the rate of 10 miles an hour, both engines had shut off steam as it is down hill, both engines went through the diversion with steam shut off after getting out of the diversion My driver gave the engine a little steam and shut off again 28 wagons were derailed in the accident from the engine a brakesman by name Nawab Ali was killed and his brake was smashed up and several wagons were on top of it I don't know how the accident occurred

Finding of the Departmental Committee of Enquiry

The evidence is conflicting

We are of opinion that the train must have parted behind the 17th vehicle on account of the flawed leading drawbar of the 18th vehicle The parting probably took place on the ascending grade of the diversion, and the rear portion on account of the falling grades must have acquired considerable velocity and run into the front portion, whose speed had been reduced to 8 or 10 miles an hour at the actual scene of the accident

The extensive damage done was probably due to the awkward way in which the first wagons were derailed, causing the others to mount on or telescope into them

Traffic Supdt

Conclusion of Inspecting Officer

The evidence in this case is conflicting, and leaves the immediate cause of the accident in some doubt

The view adopted by the officers of the line is that, while the train was passing over the diversion, the steam which was given to the leading engine at the bottom of the diversion and shut off again after getting across jerked the train and fractured the drawbar of the 18th vehicle which was afterwards found broken 230 feet back from the wreck with a bad flaw in the iron extending through half its sectional area, that the detached buffer head was carried from the diversion to this point attached to the next wagon by means of the bridle chain, that the engines and 17 wagons ran on ahead, while the remainder of the train retarded by the curves and grades of the diversion was left behind, while the leading engine was steaming out of the diver-

sion, and that on the leading portion of the train slowing down on approaching the station the rear portion ran into it and caused the derailment and wreck of the leading 17 vehicles and 7 of the following ones

This is a consistent theory, but I think the weight of the evidence shows that, though the train was provided with sufficient total brake power, this was badly distributed The total weight of the train was probably 390 tons, the weight of the 2 engines about 39 tons, and of the two brake-vans 12 tons, these being the 20th and the 51st or last vehicles When the engine brakes were put hard on near the distant signal, the great inertia of such a heavy train probably caused the derailment of one or more of the leading wagons, and when these became too far displaced to run any longer on the ballast they upset

The difficulty is to account for the distance from the place where the broken buffer head was picked up to the place where the wagon it belonged to lay

This is greater than would be accounted for by the shortening up of the length occupied by the wrecked wagons before the accident, added to the distance said to have been run by the engines after the first shock before coming to a stop This would seem to have been underestimated

The Head Guard states positively that he observed that the train had not parted either on the diversion or after it had cleared the diversion, and had got on to the descending gradients It is true this man had an interest in showing that he was on the look out and had not allowed such an occurrence as the parting of his train to escape his notice It is also true that his evidence generally is somewhat vitiated by his statement that he saw the signals lowered while looking out of the left of his brake about a mile from the station He could not have seen the signals on account of the curve extending from 5,865 to 5,876 chains But his statement that the train had not parted after it got clear of the diversion where he could see its whole length from the left of his brake is confirmed by Dunjeebhoy the driver of the second engine, who states he looked back and saw the brake van lights at about half a mile or a distance which he estimated to be that of the train's length To this it may be objected that he underestimated the distance, but it was within three days of being full-moon and he could scarcely have failed to notice the parting of the train had it occurred

Before the Police he stated that it was a moon light night The statement of driver Murphy that the night was cloudy and foggy was not confirmed by the other witnesses Driver Murphy also stated that the first shock was a violent shove forward followed by a jerk back This would support the theory of collision His evidence was taken on 31st March, the day after the departmental enquiry, in the Locomotive Superintendent's Office He had probably heard of the theory as to the parting of the train Driver Dunjeebhoy stated he was quite sure the first shock pulled his engine back, and was very clear in his evidence that the train did not part His fireman Raghoo Nursoo confirms this in stating the train pulled his engine back and he fell forward on his face towards Darkasi

Before the Police Inspector driver Dunjeebhoy stated he felt a sudden shock and was thrown *back* This appears to conflict with his evidence before the Committee Fireman Peters of the leading engine stated before the Police that the shock threw him *forward*, and gave the same evidence before the Committee stating that he felt his engine being pulled back The damage to the rear draw-gear and to the forward buffer casing of the second engine is consistent with this view

The evidence as to the way small articles on the engines fell at the moment of shock is of a very weak and inconclusive character I think loose articles on the boiler inside the cab would be more likely to fall on the footplate (that is backwards) than anywhere else, no matter what the direction of the impulse throwing them down

The fireman of the leading engine stated he put on his brake harder when near the distant signal, that is, just before the accident occurred

I consider that this accident was caused by one or more of the leading vehicles of the train having been derailed by doubling up owing to the excessive weight of the train on a descending gradient having been too suddenly checked by the brakes of the engines The Agent has since agreed to limit the loads of trains to 12 loaded or 52 empty This is the limit on the Rajputana Railway, and its observance will, I think, obviate danger in future

APPENDIX

List showing the Damages done to Vehicles in the Dareiaza Accident on 24th March

Vehicles			Nature of Damage	Remarks
Class		No		
Iron covered Goods Wagon		9219	Four axle guards bent 4 axle boxes broken 2 buffers bent 2 volute springs broken 2 guide plates broken 2 volute spring washers broken one underneath angle iron broken middle bars bent 2 flap door boards broken 2 swing door frame pieces broken one body angle iron broken, channel iron bent, door hinges bent	
Ditto	ditto	589	Two pairs of wheels not in gauge 4 bearing springs weak in camber 2 axle guards broken 2 axle guards bent 4 axle boxes broken both buffers broken channel irons bent 6 angle irons bent and broken 4 iron plates torn 4 flap door hinges bent 2 head stock plates broken brake lever broken, 6 flap door boards broken 12 swing d or frame pieces and 4 swing door boards broken door hinges bent	
Ditto	ditto	11521	One pair of wheels out of gauge one buffer broken one buffer bent 4 axle guards bent 4 bearing springs weak 4 axle boxes broken channel irons and middle bars bent 5 body angle irons broken 6 iron plates torn 6 angle irons bent, head stock plates broken door hinges bent	
Ditto	ditto	562	Both buffers broken 2 axle guards broken 2 axle guards bent 2 volute springs broken 4 axle boxes broken door hinges bent 2 swing doors frame pieces damaged iron underframe bent iron plates of body torn heavily angle irons broken head stock plate broken floor plate damaged	
Ditto	ditto	11532	Both buffers broken 4 axle guards bent 4 axle boxes broken 2 angle irons bent and 2 angle irons broken 2 iron plates of body torn middle bar slightly bent swing doors frame broken head stock bent, door hinges bent	
Ditto	ditto	10379	Two buffers broken 4 axle boxes broken 2 axle guards bent swing doors and flap door entirely damaged middle bars and channel irons bent head stock plate bent 4 angle irons bent 6 angle irons bent 6 body iron plate torn and some plates bent door hinges bent floor plate damaged both ends plates broken heavily and bulged in	
Ditto	ditto	543	Two buffers broken 3 axle boxes broken one axle guard broken 3 axle guards bent 2 striking plates broken brake lever bent middle bars and channel irons bent 3 iron plates of body torn one head stock plate broken flap doors and swing doors damaged 4 angle irons bent and 4 angle irons broken door hinges bent brake lever rack broken one end bulged in and plates damaged	
Ditto	ditto	10409	Two pairs of wheels loose in axle both buffers 4 axle guards and axle boxes broken 6 angle irons of body and roof broken 4 iron plates of body and roof torn one head stock plate broken swing door frames and boards damaged flap door hinges bent brake lever rack broken 2 bridle plates missing middle bars and channel irons bent and damaged Floor plate damaged	
Ditto	ditto	615	Both buffers broken 2 pairs of wheels not in gauge 4 axle guards bent and broken 4 axle boxes broken, middle bars and channel irons bent and damaged head stock plates broken 6 angle irons of body broken and remaining bent badly swing doors damaged and missing flap door hinges bent 6 body iron plates torn and rest bent flap door boards broken and missing brake gear damaged floor plates damaged, body iron work is entirely useless	
Ditto	ditto	10387	Both buffers broken 2 pairs of wheels not in gauge, 4 axle gaurds bent and broken 4 axle boxes broken, middle bars and channel irons bent and damaged head stock plates broken 6 angle irons of body broken and remaining bent badly swing doors damaged and missing, flap door hinges bent 6 body iron plates torn and rest bent flap door boards broken and missing brake gear damaged, floor plates damaged, body iron work is entirely useless	

Vehicles		No	Nature of Damage	Remarks
Class				
Iron covered Goods Wagons		10423	Both buffers broken 4 axle guards bent brake gear damaged 4 axle boxes broken swing doors damaged flap door hinges bent 4 beards broken middle bars and channel irons damaged head stock plate broken, one end entirely broken and bulged inside body angle irons broken and plates torn, floor plates broken	
Ditto	ditto	10400	Both buffers bent 4 axle boxes broken 4 axle guards broken brake gear damaged 2 swing door frames broken and one missing flap door hinges bent and 2 boards broken middle bars and channel irons bent and damaged 4 angle irons broken some bent body iron plates torn badly floor plates damaged both ends bulged in	
Ditto	ditto	10421	Wheels not in gauge both buffers broken axle guards and axle boxes broken whole body broken into pieces underframe very badly bent and damaged	
Ditto	ditto	716	Both buffers and 2 axle guards bent 2 axle guards and 4 axle boxes broken middle bars and channel irons damaged 2 head stock plates broken 6 body angle irons broken 6 iron plates torn and damaged swing doors damaged flap door hinges bent, brake gear damaged	
Ditto	ditto	10416	Two pairs of wheels not in gauge both buffers broken 4 axle guards bent 4 axle boxes broken swing doors damaged flap door hinges 2 boards broken middle bars and channel irons bent and damaged 6 angle irons broken 1 angle irons bent 6 iron plates torn and damaged floor plate damaged head stock plates broken roof plates torn and both ends bulged in and plates damaged	
Wooden Lowsided Wagon		6855	Both buffers broken 4 axle boxes broken 4 axle guards bent and damaged whole body broken into pieces and underframe bent and damaged	
Iron Lowsided Wagon		247	Both buffers broken 4 axle boxes broken 4 axle guards bent and damaged whole body broken into pieces and underframe very badly damaged	
Ditto	ditto	259	One buffer bent and one buffer broken 4 axle guards bent 4 axle boxes broken 8 iron stanchions broken 4 I iron broken whole end flap badly damaged side flaps bent and side flap hinges some bent and some broken middle bars and channel irons bent	
Brake van		3679	Both buffers and 4 axle boxes broken 4 axle guards bent whole body damaged into pieces underframe bent and damaged roof corrugated sheet damaged	
Wooden covered Goods Wagon		426	One buffer bent and one buffer broken 4 axle guards bent 4 axle boxes broken one volute spring broken brake gear damaged 6 side and end pillars broken 4 door hinges bent 2 head stocks damaged 2 rocker bars broken 3 flap doors 2 swing door boards and 7 new end casing boards broken one new underneath cross piece broken one cant rail broken, 8 side casing boards broken 5 corrugated sheets damaged	
Ditto	ditto	477	Both buffers bent 2 axle boxes broken 1 axle guards bent 1 flap door hinges bent 2 end pillars broken one arch rail broken one head stock and 2 bottom boards broken corrugated roof sheets damaged brake gear damaged 2 flap door boards and 4 swing door boards broken	
Ditto	ditto	507	Both buffers bent 2 axle boxes broken 4 axle guards bent 4 door hinges bent 2 arch rails 4 end corner pillars, one head stock 2 rocker bars and 5 end casing boards broken roof corrugated sheets damaged 2 flap door boards and 4 swing door boards damaged brake gear damaged	
Ditto	ditto	6807	Both buffers 4 axle boxes and 4 axle guards broken whole body damaged into pieces roof corrugated sheets damaged, underframe bent and damaged wheels not in gauge	
Ditto	ditto	501	Both buffers 4 axle boxes and 4 axle guards broken whole body damaged into pieces roof corrugated sheets damaged underframe bent and damaged wheels not in gauge	
Ditto	ditto	502	Both buffers, 4 axle boxes and 4 axle guards broken whole body damaged into pieces roof corrugated sheets damaged underframe bent and damaged wheels not in gauge	
Ditto	ditto	482	Both buffers 4 axle boxes and 4 axle guards broken whole body damaged into pieces roof corrugated sheets damaged underframe bent and damaged wheels not in gauge

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weather Summary for December, 1888

The month of December usually witnesses the final retreat of the south-west humid winds of the south west monsoon circulation from the Bay of Bengal and Arabian Sea, and the establishment of the north east monsoon circulation over the whole Indian area, including India and the adjacent seas north of the Equator Hence, during the first fortnight of the month, rain continues to fall under the same conditions as in November in Southern India, but is generally confined to Travancore and the most southerly districts of Madras and Mysore The final important burst of rain frequently accompanies the march of a small cyclonic storm which usually forms in the south west of the Bay, advances in a westerly direction across the south Coromandel Coast, and breaks up shortly afterwards under the obstructive action of the Palni and other hills of Southern India If what are termed the north east monsoon rains (but which are really the concluding rains of the retreating south west monsoon circulation) terminate with a cyclonic storm accompanied by a heavy cyclonic burst of rainfall, it usually occurs in the second or third week of December It will be seen from the following remarks that the mode and time of termination of the north east monsoon rains of the present season were normal in character

The conclusion of these rains in Southern India immediately precedes the establishment of conditions in Upper India which favour the occasional occurrence of cold weather storms and rainfall in Northern India and of frequent snowfall in the Himalayan mountain region During the first three weeks of the month weather is usually fine and clear in Northern and Central India and temperature decreases rather rapidly (especially the night temperature in Upper India) The barometer usually oscillates somewhat rapidly through small amounts, the period of a complete rise and fall varying from two to five days The periods of falling barometer are usually associated with a tendency to the formation of cloud, and of rising barometer with its dissipation During the last week or ten days of the month there is, on the other hand, a marked tendency to disturbed weather in Upper India indicated by barometric movements on a larger scale and the formation of cloud, when this occurs a depression appears or forms in Upper India, and extends its influence eastwards and gives more or less rain This weather forms the so called "Christmas rains" of Upper India When they occur, they are due to and accompany a feeble cyclonic depression or storm, and are usually followed by a succession of similar storms during the months of January and February These cold weather storms are of great economic importance, and form the most important feature of the weather of the last fortnight of December and the months of January and February Their formation is by no means thoroughly understood as yet, but they appear to originate in the upper return current of the north east monsoon circulation, and generally drift from west to east or in an opposite direction to the cyclonic storms of the rains As they originate in the upper atmosphere and their action

is chiefly confined to the upper strata, (although they modify to some extent the air movement near the Earth's surface), it is much more difficult to forecast their occurrence, line of march, and general character, than it is to forecast the storms of the rains

The preceding remarks give the normal weather conditions and features of the month in the Indian area In the adjacent seas the south west humid winds retreat down to the Equator (and are probably finally absorbed in the Doldrums) and are replaced by north east winds, so that before the end of the month, north-east monsoon winds usually prevail over the whole of the Arabian Sea and Bay of Bengal

The following gives a brief account of the chief features of the weather during the past month

Frequent showers fell from the 1st to the 6th in the southern districts of Madras, including Madura, Tanjore, Trichinopoly, Coimbatore, South Arcot, and Chingleput, and in South Mysore and Travancore They were as usual heaviest in the coast districts, where very favourable rain was received on the 3rd and 4th For example, on the morning of the 4th, Negapatam registered 4 inches and Madura 2 inches, and on the morning of the 5th Madras recorded 4 inches

Rain ceased to fall in this area on the 7th and an interval of fine weather succeeded until the 12th During the whole period from the 1st to the 12th fine clear weather prevailed over the whole of Northern and Central India and the North Deccan The observations of the 12th indicated the commencement of two disturbances The first was a shallow depression which gave much cloud and modified the temperature conditions on the north west frontier It marched rapidly eastwards and lay over the Punjab Himalayas on the morning of the 14th It gave snow on the higher hills and a few light showers in the north of the Punjab Fine clear weather was re established in Upper India on the afternoon of the 13th The second disturbance was of much greater importance, as it developed into a cyclonic storm, which gave the final heavy burst of north-east monsoon rain of the present season to Southern India The observations of the 12th showed that a low pressure area was forming to the north east of Ceylon It increased rapidly in intensity during the next two days and marched westwards, and on the morning of the 14th the centre was a little to the east of Negapatam It crossed the coast on the afternoon or evening of the 14th, and was a little to the south east of Madura on the morning of the 15th It was, however, then filling up rapidly, and it disappeared as a cyclonic circulation and storm during the day It gave moderately heavy rain to the same districts that had received rain on the first six days of the month Weather cleared up in Southern India on the 16th and 17th, and fine weather prevailed until the end of the month A small depression formed over the Punjab Himalayas on the 20th, which accompanied moderate snowfall on the higher elevations It filled up during the day On the morning of the 21st a shallow depression overlay Beluchistan and Upper Sind It marched rapidly eastwards and gave overcast skies and light showers in the North and East Punjab during the day It apparently filled up or approaching or passing over the Punjab Himalayas on the 22nd Anti cyclonic conditions prevailed in Upper and Central India until the morning of the 29th when a very shallow depression formed in the north west frontier between Mooltan and Quetta It advanced eastwards and died out during the next 24 hours after having given some light showers of rain and snow at Quetta and in the North Punjab and adjacent hills

It will thus be seen that whilst the weather conditions have been normal in Southern India and have given favourable rain, the weather in Upper and Central India has been marked by the prevalence of strongly marked anti cyclonic conditions and by the absence of the usual Christmas rains Three shallow depressions have passed eastwards across Upper India, two of them during the last ten days of the month, but they failed to develop and gave very little rain They were hence abortive attempts at cold weather storms, and as such their history is interesting and instructive

The chief features of the meteorology of the past month may be summarized as follows —

(1) General excess of pressure accompanying large and important local anomalies

(2) Diminished temperature (more especially night temperature) in Northern India, and increased temperature in Southern India more especially in the west coast districts

(3) Normal or decreased humidity in the plains and excessive dryness of the air at the hill stations

(4) The prevalence of unusually steady easterly winds in the west coast districts and the West Deccan and of northerly winds in Bengal

The most important of these features is the first The average pressure over the whole of India during the month was 03″ above the normal Relatively to this general condition, pressure was in moderate defect along the foot of the hills from Rawalpindi to Dhubri, and also in Bengal The following table gives the anomalies at the chief stations in that area —

Sealkot . .	— 050″	Burdwan	— 032″
Ludhiana	— 033	Dacca	— 035
Gorakhpur	— 027	Calcutta	— 028
Dhubri	— 043	Chittagong	— 023

The deficiency was as marked in the neighbouring hill districts These anomalies hence shew that whilst pressure is at present relatively in defect over and near the hills in Northern India, the deficiency is most marked in the western and eastern districts and least marked in the central districts

Pressure was also, relatively to the general state, in slight defect along the west coast The following gives the local anomalies at four representative stations —

Kurrachee	— 008″	Karwar	— 007″
Bombay	— 006	Cochin	— 007

Between these two areas of relatively deficient pressure lay an area of excessive pressure, stretching north and south between Upper Sind and the West Punjab to the South Deccan The axis of this is defined by the following stations (the relative anomalies of which are added) —

Ajmere	+ 065′	Poona	+ 044′
Neemuch	+ 057	Sholapur	+ 042
Indore	+ 051	Belgaum	+ 032
Khandwa	+ 047	Bangalore	+ 023
Malegaon	+ 041		

A small isolated area of excessive pressure overlay Jubbulpore (the anomaly of which for the month is + 037′) and Sutna (+ 055′)

A reference to the weather reports of the two previous months show that the chief features of the pressure distribution of the month of December are similar to those of the two preceding months, the only difference being that they are more strongly marked It is certain that these strongly marked pressure features will largely modify the distribution of rainfall during the next two months So far as can be judged from the very imperfect investigations as yet made in this subject, they would appear to indicate the probability of more stormy weather than usual during the next two months in the Himalayan region (and perhaps the adjacent plain districts) and also perhaps less rainfall in Central India and the Central Provinces than usual

One very remarkable feature during the past month has been the very great dryness of the air at the hill stations, where the average humidity was from 10 to 20 per cent below the normal

Rainfall of the month —The preceding paragraphs have stated the conditions under which the rainfall of the month has occurred The average rainfall of the month for the whole of India is little more than half of that of the month of November, and is very small in amount, as the month is the transition period from the south west monsoon rains of Southern India to the cold-weather rains of Northern India No rain fell during the month over by far the greater part of the country, including the whole of Northern and Central India and the Dec-

can (except some parts of the Punjab, North Western Provinces and Khandesh) In the southern districts of the peninsula the rainfall of the month was normal or in moderate excess Mysore and Bellary received their normal amounts, and the Carnatic an average of $4\frac{1}{2}$ inches, or upwards of half an inch above the normal Lower Burma and Malabar received a little rain, but less than half the small average of the month

The following table shows the amount of rain and the difference from the average during the month of December 1888 in the twenty one meteorological divisions into which India was divided by Mr Blanford, so far as it is indicated by the comparatively small number of the Telegraphic returns of rainfall received from the observing stations

Districts	Number of stations	Actual average rainfall	Normal average rainfall in December	Difference from the average in December 1888
Punjab, West	7	0 17	0 74	—0 57
„ East	4	0	0 66	—0 66

JOHN ELIOT,

SIMLA, *Offg Meteorological Reporter to the Government of India*

The 9th January 1889

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 12th January, 1889* —Rainfall slight in southern districts, little or none elsewhere More rain wanted in Ganjam, Vizagapatam, and Coimbatore Standing crops generally good, but damaged by insects, disease or excessive rain in parts of South Arcot, Chingleput, Madura, and Tinnevelly, withering in Coimbatore Pasture generally sufficient, except in parts of Salem and Coimbatore Agricultural operations progressing Prices still high in Ganjam, no material fluctuations elsewhere General prospects

favourable, except in Ganjam and Coimbatore Over 24,400 labourers on Rashikulya works, Ganjam

Bombay —*For week ending 16th January, 1889* —Slight rain in parts of Shikarpur Late crops in parts of Khandesh, Nasik, Ahmednagar, and Sholapore, and in one taluka of Poona, and two of Surat suffering for want of moisture Cotton in parts of Bijapore and exotic cotton and wheat in parts of Dharwar injured by blight, *jowari* in two talukas of Belgaum by blight and unfavourable winds, and late crops generally in two taluks of Satara by blight and insects Standing crops otherwise good, except wheat in Broach Opium crop in Baroda good Harvesting of late crops progressing in parts of Kaira, Khandesh, and Bijapore, and cotton picking in parts of Guzerat and Kathiawar Fodder scarce in parts of Broach, Nasik, Belgaum, and Kathiawar Agricultural stock poor in one taluka of Belgaum, and in parts of Kathiawar Drinking water scarce in two talukas of Nasik

Bengal —*For week ending 15th January, 1889* —Weather unseasonably warm during the last few days Beneficial showers fell on the 13th and 14th instant in Behar, Chota Nagpore, and Central and Northern Bengal Prospects of all cold weather crops, including poppy and tobacco, are promising *Boro* or spring rice is coming on well, sugarcane is being cut and pressed in some districts, and is generally a fair crop The winter rice harvest is practically over, with an average outturn of from eight to ten annas in the majority of districts, about twelve annas in the districts of Chota Nagpore and in Backergunge, and almost sixteen annas in Dacca, Furreedpore, Mymensingh, Tipperah, and Noakholly The Collector of Chumparun reports that prices are gradually rising, and that the pressure upon the labouring classes in the affected area is consequently on the increase

North-Western Provinces and Oudh —*For week ending 16th January, 1889* —Weather is cloudy but no rain Rain much needed Irrigation continues *Rabi* prospects fair Poppy thriving Sugarcane being pressed Markets well supplied Prices steadier Condition of agricultural stock generally satisfactory

Punjab —*For week ending 16th January, 1889* —Slight rain in Rawalpindi Prices rising in Rawalpindi, stationary in all other districts *Rabi* sowings completed Watering of crops in progress in Lahore Rain is urgently wanted throughout the province for the *rabi* crops Crops reported to be suffering for want of rain in parts of Umballa, Amritsar, and Sialkot No serious damage has yet been done, but if rain holds off much longer large areas will be injured Stock cattle healthy Pasturage or fodder sufficient, except in Hissar, Dera Ismail Khan and in parts of Mooltan, Rawalpindi and Sialkot

Central Provinces —*For week ending 16th January, 1889* —Weather clear Rain required in northern and eastern districts for winter crops Linseed injured by insects in Bilaspur Cattle in fair condition Prices rising in northern districts

Burma —*For week ending 12th January, 1889* —No rainfall during last week Crop prospects are good except in parts of Prome and Thayetmyo The price of paddy has fallen in Akyab, Sandoway, Thongwa, Amherst, Toungoo, Tavoy, Pakokku, and Minbu, and risen slightly in Henzada

Assam —*For week ending 16th January, 1889* —Weather seasonable Slight rain in Assam Valley districts, Sylhet and Garo Hills Reaping of winter rice almost over, gathering of pulses and mustard commenced in some districts State of other crops generally good

Mysore and Coorg —*For week ending 16th January, 1889* —Slight rain in parts of Mysore Crops in good condition Outturn of crops harvested fair Water supply deficient in one taluk of the Mysore district Prices risen somewhat in the Tumkur district

In Coorg the weather is favourable for harvesting paddy and the coffee crop

Berar and Hyderabad —*For week ending 16th January, 1889* —In Berar picking of cotton and harvesting of other *kharif* crops still in progress in some parts, outturn of cotton estimated from 12 to 14 annas *jowari* from 10 to 12 annas *Rabi* crops promise well Wheat in ear, linseed in flower, and gram in pod Cattle healthy Fodder insufficient in some districts Prices, same as last week

No rain during week at Hyderabad *Rabi* crops thriving Sowing of *tabi* continues Scarcity of fodder still felt Prices stationary

Central India —*For week ending 16th January, 1889* —Bhopawar reports crops suffering from want of winter rain Report regarding agricultural stock and prospects in Neemuch somewhat better than last week

Rajputana —*For week ending 16th January, 1889* —Agricultural operations satisfactory Standing crops thriving Agricultural stock good Pasturage or fodder sufficient except in Kherwara, Meywar, and parts of Marwar Prices steady generally

Nepal —*For week ending 10th January, 1889* —No rain Weather dry, strong winds Rain needed Prospects of the crops fair in the valley

E C BUCK,
Secretary to the Government of India

GOVERNMENT OF INDIA

HOME DEPARTMENT

LEVY OF FEES AND TRAVELLING ALLOWANCE FOR THE ATTENDANCE OF REGISTRARS OF BIRTHS AND DEATHS UNDER ACT VI OF 1886 AT PRIVATE RESIDENCES

No $\frac{I}{36-48}$

Extract from the Proceedings of the Government of India in the Home Department (Judicial), under date, Calcutta, the 17th January 1889

READ again —

Home Department Notification No 1173, dated 19th July 1888, promulgating rules framed under sections 26, 28 and 36 of the Births, Deaths and Marriages Registration Act, VI of 1886

Read also —

Letter from the Government of Madras, No 903, dated the 15th September 1888

RESOLUTION

With its letter dated the 15th September last, cited in the preamble to this Resolution, the Government of Madras forwards a copy of a general order of that Government, in paragraph 11 of which it is suggested that, in cases in which a person is unable to attend at the office of the District Registrar and requires his presence at his private residence for the purposes of section 22 of the Births, Deaths and Marriages Registration Act, VI of 1886, the same fees should be charged for such attendance as are levied under section 78 of the Indian Registration Act, 1877 The Governor General in Council observes that, for the purpose of registering births and deaths, Act VI of 1886 contemplates the attendance of parties at a Registrar's Office If, however, he is requested to attend at a private

residence, His Excellency in Council sees no objection to his doing so if he thinks that course necessary, on payment of a fee for such attendance and of such travelling allowances as may be prescribed under section 78 of the Indian Registration Act, 1877, for similar attendances under that Act His Excellency in Council is accordingly pleased to direct that a fee of Rs 10 shall be charged for every attendance at a private residence In rule 20 of the rules promulgated by Home Department Notification No 1173, dated the 19th July 1888, it is provided that a register (in the prescribed form) is to be kept of all fees realised under those rules, and that the fees should be credited to Government The fees referred to in this Resolution should be treated in the same way, but the travelling allowances may be appropriated by the Registrar, who will receive no travelling allowance from Government

ORDER.—Ordered that this Resolution be communicated to Local Governments and Administrations, to the Foreign Department and to the Department of Finance and Commerce, for information

Ordered also that it be published in the Supplement to the *Gazette of India*

(True Extract)

A P MACDONNELL,

Secretary to the Government of India

The Gazette of India.

NOTIFICATIONS —PUBLIC

Calcutta, the 24th January, 1889

No 117 —The boundaries of the Myingyan Cantonment having been defined and approved by the Governor General in Council, the following definition of them is published for information —

No 1 boundary pillar will be situated at the south-east corner of the cantonment about 885 feet east of the present military cemetery

Bearing N E to Pagoda on hill north of Natogec	60	18′	
Bearing S E to peck of Toungtha hill	159	20′	
Bearing S W to spire of large Pagoda near Deputy Commissioner's temporary Court house	241	15	
Bearing S W W to spire of old Treasury Pagoda	263°	37	30′

Boundary Pillar	Description	Forward bearings from M N	Direct horizontal distance in feet
1 to 2	From pillar No 1 the boundary runs in a Northerly direction	352° 0′	2 220
2 to 3	From pillar No 2 the boundary runs in a Westerly direction	261° 0′	4,688
3 to 4	From pillar No 3 the boundary runs in a North Westerly direction	325° 0	5,134
4 to 5	From pillar No 4 which is situated on the East bank of River Irrawaddy the boundary runs in a Southerly direction along the East (left) bank of the River Irrawaddy	172° 0	4 609
5 to 6	From pillar No 5 which is situated on the East bank of River Irrawaddy the boundary runs in a South Easterly direction along the left bank of the River Irrawaddy Pillar No 5 bearing to old Treasury Pagoda 123° 10	159° 0′	4 114
6 to 7	From pillar No 6 the boundary runs in a North Easterly direction Pillar No 6 is situated on the East (left) bank of the River Irrawaddy at a distance of 5 0 feet from the North West corner of the Circuit house Bearing to old Treasury Pagoda 30° 52′	65 0	6 075
	Area of proposed Cantonment 558½ acres		

ESTABLISHMENTS

The 24th January 1889

No. 61 —With reference to Home Department Notification No 459, dated the 5th December, 1888, the services of Mr P H

O'Brien, are replaced at the disposal of the Government of Bengal

MEDICAL

The 25th January, 1889

No 51—The services of Surgeon Major G Bomford, M D, are replaced at the disposal of the Military Department, with effect from the 21st instant

POLICE

The 21st January 1889

No 27—Under Section 3 of Act VIII of 1870 (An Act for the Prevention of the Murder of Female Infants), the Governor General in Council is pleased to confirm the following rules drawn up by the Government of Bombay under the provisions of Section 2 of that Act for the regulation and limitation of marriage expenses among the Lewa Kunbis of the Kaira District

These rules shall come into force on the 1st February, 1889, and shall apply to the Lewa Kunbis, in all villages of the Kaira District—

Rules

The following shall be the scale of expenses to be incurred for the celebration of marriages and any ceremony and custom connected there with, and no other payment of any description shall be made or received —

I—The "Parthan" or dowry paid by the father or guardian of the bride shall not be more than from R1 to R251

This shall include—

(1) The "Chandlo" (the payment the acceptance of which signifies completion of the betrothal)

(2) The "Wasant' or deposit on behalf of the bride,

but shall not include payments on account of "Abab' or miscellaneous perquisites

II—These ("Abab') payments shall be restricted as follows, *viz* —

R1 to R14 8 by the father of the bride and R1 to R30-8 by the father of the bridegroom

III—The "Jan" or marriage party and expenses thereof shall be restricted to the following —

The said party shall not exceed 100 persons and 10 carriages and not more than three dinners and two morning meals shall be provided For the entire period of the halt the allowance of grain for horses and bullocks shall not exceed 10 lb for each of the former and 7½ lb for each of the latter

Only sons in law shall be entitled to presents on this occasion, and such presents shall not exceed R2 to each person

IV—The cost of the marriage feast to the members of the bride's family shall not exceed R 25

V—On the occasion of the first visit of the bride to her husband's house the expenditure shall be restricted as follows —

(1) R1 to R11 on account of "Kothla" (money presented in a small bag or purse)

(2) R1 to R3 in all as "Dakshina" (gifts) to the bride's attendants

(3) Not exceeding R3 for oil, spices and supári (betel nuts) for the use of the bride

VI—On the occasion of the second visit of the bride to her husband's house presents may be sent not exceeding R3 in value and the "Dakshina" (gifts) to the bride's attendants shall not exceed R1 8

VII—On the occasion of the first visit to the bride's house the presents or "Challá" may be as follows —

To the bridegroom, from R1 to R15

To the bridegroom's father, mother, sister, grandfather, and grandmother, from R1 to R5 each

VIII—On the marriage of the first daughter the expenditure shall not exceed—

R1 to R75 for "Mámeroo" (or marriage present),

R1 to R25 for "Chuda" and "Panetar" or bangle, &c, for the bride,

and on the marriage of any other child the expenditure shall not exceed R10 on all accounts

IX—On the occasion of the death of the bridegroom's father mother, grandfather or grandmother or of the bride's father or mother, the claims on the bride's family shall be limited to—

R1 to R11 account of both "Paghdi Shela" and "Báras" (condolatory presents of a turban and cloth, &c,) and R1 for "Kogla (present on the occasion of a condolatory visit)

X—On the occasion of the husband's death the amount to be given on account of "Poth" and 'Chhábdi' (mourning dress, &c), shall not exceed R2 and R3 respectively

XI—On account of "Chithi" (mourning notes sent on the occasion of a death to the women of the family) the expenditure shall not exceed R1 to each individual or R75 in all

XII—Nothing in the above rules shall prevent the acceptance of customary presents of sweetmeats &c, on the usual occasions, or of such assistance or allowance as the bride's father may wish to give or make when his daughter and her husband set up house for themselves provided that such gifts shall not be claimable under any pretext, and that they shall not be used by, or applied for, the use or benefit of the bridegroom's father

ECCLESIASTICAL

The 25th January, 1889

No 22—Her Majesty's Secretary of State has permitted the Reverend J W Adams, V C, a Senior Chaplain on the Bengal Ecclesiastical Establishment, to retire from the service, with effect from the 25th February, 1889

No 24—The services of the Reverend G W Manson, Chaplain, Church of Scotland, are placed at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the date of his return from privilege leave

No 28 —Her Majesty's Secretary of State has permitted the Reverend G G Gillan, the Senior Chaplain, Church of Scotland, Bengal, to retire from the service, with effect from the 19th January, 1889

No 30 —The Reverend J Lillie, Officiating Senior Chaplain, Church of Scotland, is confirmed in that appointment, with effect from the 19th January, 1889, *vice* the Reverend G G Gillan, retired

II In further exercise of the powers conferred by the same section, the Governor General in Council is also pleased to appoint the Civil and Sessions

Judge of the Civil and Military Station of Bangalore, for the time being, to be a Registrar of Births and Deaths for the territories of Mysore including the Civil and Military Station of Bangalore in respect of the classes of persons (other than those referred to in part I of this notification) indicated in section 11, sub section (1), clause (*b*) of the said Act

III For the purposes of section 24, sub section (2) and section 32 of the said Act, the Governor General in Council is further pleased to appoint the Registrar-General of Births, Deaths, and Marriages for the Presidency of Madras for the time being, to be the Registrar-General for the territories of Mysore, including the Civil and Military Station of Bangalore

No 343 *I*—I In exercise of the powers conferred by section 13 of the Births, Deaths and Marriages Registration Act, VI of 1886, the Governor General in Council is pleased to appoint the person for the time being holding the office of Residency Surgeon in Kashmir to be a Registrar of Births and Deaths in respect of the classes of persons indicated in section 11, sub section (1), clause (*b*) of the Act for (1) all places situate within the valley of Kashmir, (2) Gulmarg and (3) Jammu, being within the territories of His Highness the Maharaja of Jammu and Kashmir

II For the purposes of section 24, sub section (2), and section 32 of the said Act the Governor-General in Council is further pleased to appoint the Registrar-General of Births, Deaths and Marriages for the Punjab, for the time being, to be the Registrar General for the territories of His Highness the Maharaja of Jammu and Kashmir

No 344 *I*—I In exercise of the powers conferred by section 13 of the Births, Deaths and Marriages Registration Act, VI of 1886, the Governor General in Council is pleased to appoint—

(1) The person holding the office of Political Agent, Quetta and Pishin, for the time being, to be a Registrar of Births and Deaths for the Quetta District and the Bolan Pass, including Rindli, and

(2) The person holding the office of Political Agent, Thal-Chotiali, for the time being, to be a Registrar of Births and Deaths for the line of railway from the frontier of British India near Jacobabad to the frontier of the Assigned District of Sibi, in respect of the classes of persons indicated in section 11, sub section (1), clause (*b*) of the said Act

(3) All Ministers of Religion from time to time empowered to solemnize marriages under the Indian Christian Marriage Act, or who have been, or may hereafter be, under the said Act appointed Marriage Registrars or licensed to grant certificates of marriage between Native Christians, within either of the local areas specified above, to be Registrars of Births and Deaths for such local areas respectively in respect of persons they baptize or whose funeral ceremonies they perform

II For the purposes of section 24, sub section (2), and section 32 of the said Act, the Governor General in Council is further pleased to appoint the Registrar General of Births, Deaths and Marriages for the Punjab, for the time being, to be the Registrar General for the Quetta District, the Bolan Pass, including Rindli and the line of railway from the frontier of British India near Jacobabad to the frontier of the Assigned District of Sibi

No. 345-*I*—I In exercise of the powers conferred by section 13 of the Births Deaths and Marriages Registration Act, VI of 1886, the Governor-General in Council is pleased to appoint the person holding the office of First Assistant to the Agent to the Governor-General at Baroda, for the time being, to be the Registrar of Births, Deaths and Marriages in respect of the classes of persons indicated in section 11, sub section (1), clause (*b*) of the said Act, for the Baroda State including the British Cantonment of Baroda

II For the purposes of section 24, sub-section (2), and section 32 of the said Act, the Governor General in Council is further pleased to appoint the

Registrar-General of Births, Deaths and Marriages for the Bombay Presidency, for the time being, to be the Registrar-General for the Baroda State including the British Cantonment of Baroda

No 346-*I*—I In exercise of the powers conferred by section 13 of the Births, Deaths and Marriages Registration Act, VI of 1886, the Governor-General in Council is pleased to appoint the persons for the time being holding the offices designated in the first column of the following schedule to be Registrars of Births and Deaths in respect of the classes of persons indicated in section 11, sub-section (1), clause (*b*) of the said Act for the local areas mentioned opposite their designations in the second column of that schedule respectively —

Offices	Local areas
Resident at Jaipur	The Jaipur Agency, *i e*, States of Jaipur and Kishengurh, excepting the lands herein declared to constitute separate local areas
Railway Medical Officer at Bandikui	Bandikui Railway Station and Railway lands adjoining
Apothecary in Medical Charge at Phalera	Phalera Railway Station and Railway lands adjoining
Assistant Commissioner, Northern India Salt Revenue, Sambhar	Sambhar and lands within the jurisdiction of the Assistant Commissioner, Northern India Salt Revenue, Sambhar
Resident, Western Rajputana States	The Western Rajputana States Agency, *i e*, States of Marwar, Jeysulmere, Serohi and district of Mallani excepting the lands herein declared to constitute separate local areas
Officer Commanding Erinpura Irregular Force	Erinpura Cantonment
The Magistrate of Abu	Mount Abu
The Apothecary in Medical Charge, Abu Road Station	Abu Road Station and the Railway lands adjoining
Superintendent, Northern India Salt Revenue, Phalodi	The lands within their respective jurisdictions
Superintendent, Northern India Salt Revenue, Bhatki

Resident, Meywar	The Meywar Agency, *i e*, States of Meywar Banswara, Pertabgurh, and Dungarpur, excepting the lands herein declared to constitute separate local areas
Officer Commanding Meywar Bhil Corps	Kherwara Cantonment
Superintendent of Police, Rajputana Malwa Railway	The stations on the Rajputana Malwa Railway not specially named above

II For the purposes of section 24, sub section (2) and section 32 of the said Act, the Governor General in Council is further pleased to appoint the Registrar-General of Births, Deaths, and Marriages for Ajmere-Merwara, for the time being, to be the Registrar General for the local areas mentioned in the schedule above

No 347 *I*—Whereas it is expedient to provide for the voluntary registration of births and deaths among certain classes of persons in the Hyderabad Assigned Districts, for the more effectual registration of those births and deaths and of marriages registered in those districts under the Indian Christian Marriage Act, XV of 18
1872, and for the establishment of a general registry office for keeping registers of those births, deaths and marriages

And whereas it is also expedient to provide for the authentication and custody of certain existing registers made otherwise than in the performance of a duty specially enjoined by the law of those districts, and to declare that copies of the entries in those registers shall be admissible in evidence,

The Governor General in Council has been pleased to issue the following orders —

CHAPTER I

PRELIMINARY

Title and commencement

1 (*1*) These orders may be called the Hyderabad Assigned Districts Births, Deaths and Marriages Registration Law, 1888, and are hereinafter referred to as "this Law", and

(*2*) They shall come into force on such day as the Governor-General in Council, by notification in the *Gazette of India*, directs

(*3*) Any power conferred by this Law to make rules or to issue orders may be exercised at any time after the publication of this Law in the *Gazette of India*, but a rule or order so made or issued shall not take effect until the Law comes into force

Extent

2 This Law extends to the whole of the Hyderabad Assigned Districts

Definitions

3 In this Law, unless there is something repugnant in the subject or context,—

(*1*) "Resident" means the Resident at Hyderabad

(*2*) "sign" includes mark, when the person making the mark is unable to write his name

(*3*) "prescribed" means prescribed by a rule made by the Governor-General in Council under this Law and

(*4*) "Registrar of Births and Deaths" means a Registrar of Births and Deaths appointed under this Law

Saving of local laws

4 Nothing in this Law, or in any rule made under this Law, shall affect any law heretofore or hereafter passed providing for the registration of births and deaths within particular local areas

Powers exercisable from time to time

5 All powers conferred by this Law may be exercised from time to time as occasion requires

CHAPTER II

GENERAL REGISTRY OFFICE OF BIRTHS, DEATHS AND MARRIAGES

Establishment of general registry office and appointment of Registrar General

6 The Resident—

(*a*) shall establish a general registry office for keeping such certified copies of registers of births and deaths registered under this Law, or marriages registered under the Indian Christian Marriage Act, 1872, as may be sent to it under this Law, or under the Indian Christian Marriage Act as amended by this Law, and

XV of 1872

(*b*) may appoint to the charge of that office an officer to be called the Registrar-General of Births, Deaths and Marriages

Indexes to be kept at general registry office

7 The Registrar-General of Births, Deaths and Marriages shall cause indexes of all the certified copies of registers sent to his office under this Law, or under the Indian Christian Marriage Act as amended by this Law, to be made and kept in this office in the prescribed form

XV of 1872

Indexes to be open to inspection

8 Subject to the payment of the prescribed fees, the indexes so made shall be at all reasonable times open to inspection by any person applying to inspect them, and copies of entries in the certified copies of the registers to which the indexes relate shall be given to all persons applying for them

Copies of entries to be admissible in evidence

9 A copy of an entry given under the last foregoing section shall be certified by the Registrar General of Births, Deaths and Marriages, or by an officer authorised in this behalf by the Resident, and shall be admissible in evidence for the purpose of proving the birth, death or marriage to which the entry relates

Superintendence of Registrars by Registrar General

10 The Registrar-General of Births, Deaths and Marriages shall exercise a general superintendence over the Registrars of Births and Deaths

CHAPTER III

REGISTRATION OF BIRTHS AND DEATHS

Application of this Chapter

Persons whose births and deaths are registrable

11 (*1*) The persons whose births and deaths shall, in the first instance, be registrable under this Chapter are the members of every race, sect or tribe to which the Indian Succession Act 1865, applies and in respect of which an order under section 332 of that Act is not for the time being in force, and all native persons professing the Christian religion

(*2*) But the Resident, by notification in the Residency Orders may, with the previous approval of the Governor General in Council, extend the operation of this Chapter to any other class of persons either generally or in any local area

Registration Establishment

Power for Resident to appoint Registrars

12 The Resident may appoint, either by name or by virtue of their office, so many persons as he thinks necessary to be Registrars of Births and Deaths for such local areas as he may define and, if he sees fit, for any class of persons in any local area

Registrar to be deemed a public servant

13 Every Registrar of Births and Deaths shall be deemed to be a public servant within the meaning of the Indian Penal Code XLV of 1860

Power to remove Registrars

14 (*1*) The Resident may suspend, remove or dismiss any Registrar of Births and Deaths

(*2*) A Registrar of Births and Deaths may resign by notifying in writing to the Resident his intention to do so, and on his resignation being accepted by the Resident, he shall be deemed to have vacated his office

Office and duties of Registrar

15 (*1*) Every Registrar of Births and Deaths shall have an office in the local area for which he is appointed

(*2*) Every Registrar of Births and Deaths to whom the Resident may direct this sub-section to apply shall attend at his office for the purpose of registering births and deaths on such days and at such hours as the Registrar-General of Births, Deaths and Marriages may direct, and shall cause to be placed in some conspicuous place on or near the outer door of his office his name, with the addition of Registrar of Births and Deaths for the local area or class for which he is appointed and the days and hours of his attendance

Absence of Registrar or vacancy in his office

16 (*1*) When any Registrar of Births and Deaths to whom the Resident may direct this section to apply is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf, or, in default of such appointment the Judge of the District Court within the local limits of whose jurisdiction the Registrar's office is situate, or such other officer as the Resident appoints in this behalf, shall be the Registrar of Births and Deaths during such absence or until the Resident fills the vacancy

(*2*) The Registrar General of Births, Deaths and Marriages shall report to the Resident all appointments made by him under this section

Register books to be supplied and preservation of records to be provided for

17 The Resident shall supply every Registrar of Births and Deaths with a sufficient number of register books of births and of register books of deaths, and shall make suitable provision for the preservation of the records connected with the registration of births and deaths

Mode of Registration

Duty of Registrar to register births and deaths of which notice is given

18 Every Registrar of Births and Deaths, on receipt of notice of a birth or death within the local area or among the class for which he is appointed, shall, if the notice is given within the prescribed time and in the prescribed mode by a person authorised by this Law to give the notice, forthwith make an entry of the birth or death in the proper register book

Provided that—

(*a*) if he has reason to believe the notice to be in any respect false, he may refuse to register the birth or death until he receives an

order from the Judge of the District Court directing him to make the entry and prescribing the manner in which the entry is to be made, and

(*b*) he shall not enter in the register the name of any person as father of an illegitimate child, unless at the request of the mother and of the person acknowledging himself to be the father of the child

Persons authorised to give notice of birth

19 Any of the following persons may give notice of a birth, namely —

(*a*) the father or mother of the child,

(*b*) any person present at the birth,

(*c*) any person occupying, at the time of the birth, any part of the house wherein the child was born and having knowledge of the child having been born in the house,

(*d*) any medical practitioner in attendance after the birth and having personal knowledge of the birth having occurred,

(*e*) any person having charge of the child

Persons authorised to give notice of death

20 Any of the following persons may give notice of a death, namely —

(*a*) any relative of the deceased having knowledge of any of the particulars required to be registered concerning the death,

(*b*) any person present at the death,

(*c*) any person occupying, at the time of the death any part of the house wherein the death occurred and having knowledge of the deceased having died in the house,

(*d*) any person in attendance during the last illness of the deceased,

(*e*) any person who has seen the body of the deceased after death

Entry of birth or death to be signed by person giving notice

21 (*1*) When an entry of a birth or death has been made by the Registrar of Births and Deaths under section 18, the person giving notice of the birth or death must sign the entry in the register in the presence of the Registrar

(*2*) Until the entry has been so signed, the birth or death shall not be deemed to be registered under this Law

(*3*) When the birth of an illegitimate child is registered and the mother and the person acknowledging himself to be the father of the child jointly request that that person may be registered as the father, the mother and that person must both sign the entry in the register in the presence of the Registrar

Grant of certificate of registration of birth or death

22 The Registrar of births and deaths shall, on application made at the time of registering any birth or death by the person giving notice of the birth or death, and on payment by him of the prescribed fee give to the applicant a certificate in the prescribed form, signed by the Registrar of having registered the birth or death

Duty of Registrar as to sending certified copies of entries in register books to Registrar General

23 (*1*) Every Registrar of Births and Deaths shall send to the Registrar-General of Births, Deaths and Marriages, at the prescribed intervals, a true copy certified by him, in the prescribed form, of all the entries of births and deaths in the register book kept by him since the last of those intervals

Provided that in the case of Registrars of Births and Deaths who are clergymen of the Churches of England, Rome and Scotland, the Registrar may, if so directed by his ecclesiastical superior, send the certified copies in the first instance to that superior, who shall send them to the Registrar-General of Births Deaths and Marriages

(*2*) In this section "Church of England" and "Church of Scotland" mean the Church of England and the Church of Scotland as by law established respectively, and "Church of Rome" means the Church which regards the Pope of Rome as its spiritual head

Searches and copies of entries in register books

24 (*1*) Every Registrar of Births and Deaths shall, on payment of the prescribed fees, at all reasonable times, allow searches to be made in the register books kept by him, and give a copy of any entry in the same

(*2*) Every copy of an entry in a register book given under this section shall be certified by the Registrar of Births and Deaths, and shall be admissible

in evidence for the purpose of proving the birth or death to which the entry relates

Exceptional provision for registration of certain births and deaths

25 Notwithstanding anything in section 18, the Governor General in Council may make rules authorising Registrars of Births and Deaths, on conditions and in circumstances to be specified in the rules to register births and deaths occurring outside the local areas or classes for which they are appointed

Penalty for False Information

Penalty for wilfully giving false information

26 If any person wilfully makes, or causes to be made, for the purpose of being inserted in any register of births or deaths, any false statement in connection with any notice of a birth or death under this Law, he shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both

Correction of Errors

Correction of entry in register of births or deaths

27 (*1*) If it is proved to the satisfaction of a Registrar of Births and Deaths that any entry of a birth or death in any register kept by him under this Law is erroneous in form or substance, he may, subject to such rules as may be made by the Governor General in Council with respect to the conditions and circumstances on and in which errors may be corrected, correct the error by entry in the margin, without any alteration of the original entry, and shall sign the marginal entry and add thereto the date of the correction

(*2*) If a certified copy of the entry has already been sent to the Registrar-General of Births, Deaths and Marriages, the Registrar of Births and Deaths shall make and send a separate certified copy of the original erroneous entry and of the marginal correction therein made

---

CHAPTER IV

AMENDMENT OF CHRISTIAN MARRIAGE ACT

Amendment of the Indian Christian Marriage Act 1872.

28 In the Indian Christian Marriage Act, 1872, as applied to the Hyderabad Assigned Districts, the following amendments shall be made, namely — XV of 1872

(*a*) at the end of section 3 the words "'Registrar General of Births, Deaths and Marriages' means the Registrar General of Births, Deaths and Marriages appointed under the Hyderabad Assigned Districts Births, Deaths and Marriages Registration Law, 1887," shall be added,

(*b*) for the words "Secretary to the Resident at Hyderabad," wherever they occur the words "Registrar General of Births, Deaths and Marriages" shall be substituted, VI of 1886

(*c*) for the words "at such places as the Resident at Hyderabad directs," in section 62, the words "in the office of the Registrar General of Births, Deaths and Marriages" shall be substituted, and

(*d*) in section 81, after the words 'Registrar-General of Births, Deaths and Marriages," the words "in England" shall be added

---

CHAPTER V

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS

Permission to persons having custody of certain records to send them within one year to Registrar General

29 If any person has for the time being the custody of any register or record of birth, baptism, naming, dedication, death or burial of any persons of the classes referred to in section 11 sub-section (*1*) or of any register or record of marriage of any persons of the classes to which the Indian Christian Marriage Act, 1872 applies, and if such register or record has been made otherwise than in performance of a duty specially enjoined by law, he may, within one year from the date on which this Law comes into force, send the register or record to the office of the Registrar General of Births, Deaths and Marriages XV of 187

Appointment of Commissioners to examine registers

30 (1) The Governor General in Council may appoint so many persons as he thinks fit to be Commissioners for examining the registers or records sent to the Registrar General of Births, Deaths and Marriages under the last foregoing section

(2) The Commissioners so appointed shall hold office for such period as the Governor General in Council, by the order of appointment, or any subsequent order, directs

Duties of Commissioners

31 (1) The Commissioners appointed under the last foregoing section shall enquire into the state, custody and authenticity of every such register or record as may be sent to the Registrar General of Births, Deaths and Marriages under section 29,

and shall deliver to the Registrar-General a descriptive list or descriptive lists of all such registers or records, or portions of registers or records, as they find to be accurate and faithful

(2) The list or lists shall contain the prescribed particulars and refer to the registers or records, or to the portions of the registers or records, in the prescribed manner

(3) The Commissioners shall also certify in writing upon some part of every separate book or volume containing any such register or record or portion of a register or record, as is referred to in any list or lists made by the Commissioners, that it is one of the registers or records, or portions of registers or records referred to in the said list or lists

Search of lists prepared by Commissioner and grant of certified copies thereof

32 (1) Subject to the payment of the prescribed fees, the descriptive list or lists of registers or records, or portions of registers or records, delivered by the Commissioners to the Registrar-General of Births, Deaths and Marriages shall be at all reasonable times open to inspection by any person applying to inspect it or them, and copies of entries in those registers or records shall be given to all persons applying for them

(2) A copy of an entry given under this section shall be certified by the Registrar General of Births, Deaths and Marriages, or by an officer or person authorised in this behalf by the Resident and shall be admissible in evidence for the purpose of proving the birth, baptism, naming, dedication, death, burial or marriage to which the entry relates

CHAPTER VI

RULES

Power of Governor General in Council to make rules

33 In addition to any other power to make rules impliedly or expressly conferred by this Law, the Governor General in Council may make rules—

(a) to fix the fees payable under this Law,

(b) to prescribe the forms required for the purposes of this Law,

(c) to prescribe the time within which, and the mode in which, persons authorised under this Law to give notice of a birth or death to a Registrar of Births and Deaths must give the notice,

(d) to prescribe the registers to be kept and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Law and the intervals at which they are to send to the Registrar General of Births, Deaths and Marriages true copies of the entries of births and deaths in the registers kept by them,

(e) to prescribe the particulars which descriptive lists to be prepared by Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the registers or records, or portions of registers or records, to which they relate,

(f) to prescribe the custody in which those registers or records are to be kept, and

(g) generally to carry out the purposes of this Law

Procedure for making and publication of rules

34 (1) The Governor General in Council shall, before making rules under this Law, publish a draft of the proposed rules in such manner as may, in his opi-

nion, be sufficient for the information of persons likely to be affected thereby

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration

(3) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified

(4) Every rule made under this Law shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under this Law shall be conclusive evidence that it has been duly made

W J CUNNINGHAM,
Under Secretary to the Government of India

ACCOUNTS AND FINANCE
PUBLIC DEBT

Calcutta, the 24th January, 1889

No 446

RESOLUTION—By the Government of India Department of Finance and Commerce

Read again—

Resolution in the Department of Finance and Commerce, No 2566 dated 30th August, 1885

Read also—

Resolution in the Department of Finance and Commerce No 1539, dated 17th August, 1888

Letter from the Comptroller General, No 1316 D, dated 7th January, 1889

RESOLUTION—In Resolution No 1539, dated 17th August, 1888, the Comptroller General was authorised to receive applications for the conversion into Government promissory notes of the 4 per cent loan of 1842 13 of any amount of stock notes tendered in even hundreds of rupees one of the conditions of conversion being that the promissory notes should be issued at a premium of 8 annas per cent The Comptroller General, in reporting for the information of Government the amounts of stock notes transferred and paid in cash up to 31st December and the balance outstanding on that date, now recommends that, as in some cases the holders of trust funds have objected to transfer into Government paper on the ground that they are not justified in paying the premium of $\frac{1}{2}$ per cent, it may be waived and transfers accepted at par

2 He recommends, at the same time the withdrawal of the concession given in Resolution No 2566, dated 28th August 1885, which allows the transfer of stock notes from one circle to another, on the ground that the concession has not been largely used, that, when used, it has proved very troublesome, and that there will be no ordinary procedure under which the transfer can now fall, the issue of fresh notes having been stopped

3 In sanctioning these proposals the Governor General in Council reserves the right to withdraw the first concession whenever it may appear desirable to do so

ORDER—Ordered, that a copy of this Resolution be forwarded to the Comptroller and Auditor General for information

Ordered also, that the Resolution be published in the *Gazette of India* for general information

The Hon'ble Rájá Durga Charn Laha, C I E
The Hon'ble Maung Ôn, C I E, A T M

METAL TOKENS BILL

The Hon'ble SIR DAVID BARBOUR presented the Report of the Select Committee on the Bill to prohibit the making or issue by private persons of pieces of metal for use as money and the making of coins in resemblance or similitude of coins of Foreign States

The Hon'ble MR STEEL said —"Under ordinary circumstances the proper occasion for discussing the principle of this Bill should have presented itself on the Motion to refer it to a Select Committee, but, as that stage was passed at Simla, I take the first opportunity of making a few observations The Hon'ble Mr Westland, when introducing the Bill, clearly showed the need for legislation to protect the public from the loss and inconvenience caused by the present condition of the copper currency, and to secure for the revenue any profit which may accrue from the issue of token coinage There will be general agreement concerning the nature of the evils to be remedied, but there is room for difference of opinion regarding the best means of accomplishing this object

"The Bill proposes to prohibit the manufacture and importation of unauthorised coin and to forbid the receipt of such coin by any local authority or railway administration, but it does not prohibit the ordinary circulation of the coin now in existence It thus appears that the Bill strikes at only one of the evils that have been described It does not propose to redress the existing inconvenience to the public, and may even increase this inconvenience by depriving the holders of those coins of some of the outlets by which they could have got rid of them

"The Bill will certainly tend to secure for the revenue the profit accruing from the issue of token coinage, but it will only partially achieve this object While the circulation of unauthorized coin is permitted there will be temptation to import it, and the importation can only be effectually prevented by stringent inquisitorial and punitive measures which the Government will be unwilling to put in practice It will be observed that the Committee, for good and sufficient reasons, recommend that offences under this Act shall not be cognizable, that is to say, the law shall only be put in force under the order of a superior Magistrate, and the police shall not be allowed to interfere with the public of their own motion Under these conditions preventive measures cannot be completely successful Now, my Lord, we could have effectually accomplished all our objects by preventing the circulation of unauthorized coin altogether In this case it would have been necessary in the interests of the poor that Government should undertake the buying up of all the pieces of metal in circulation by giving in exchange for them our own current copper coins It would also have been necessary to give long notice—possibly two years' notice—of the intended conversion With these safeguards the interests of both the public and Government would have been completely served, and it remains only to consider whether the cost of conversion could have been prohibitive Now, it is understood that at the ruling exchange these pieces of metal are worth intrinsically more than our own copper coins, and the operation might presumably be carried out at small cost The production of the large quantity of coins required might cause a strain upon our Mints, but these are not fully employed, and if necessary we might import coin from Birmingham, and probably do this as economically as we can make it for ourselves

"If such a plan were adopted, it might possibly be found that the interval of two years might be employed to pour unauthorized coin across our frontier, but, if this apprehension were justified, there would be much less objection to stringent preventive measures to be adopted for a limited period, than to the same measures which under the present Bill may possibly become a permanent administrative necessity

"Having said so much, my Lord, I may be asked why I have signed the report of the Select Committee recommending the passing of this Bill To this the reply must be that it is not my function to initiate legislation but to advise upon measures brought before this Council by a responsible Government

"I think the Bill will do some good in itself I believe it proceeds in the right direction, and I hope it may lead the way to the bolder and larger measure which, in my opinion, will alone be completely successful I look upon the Bill as a palliative in preparation for a radical cure"

The Hon'ble SIR DAVID BARBOUR said —"I should like to explain very briefly why the more stringent measures recommended by the Hon'ble Mr Steel have not been adopted Like him I am of opinion that these pieces of metal

in resemblance of coin should not be allowed to circulate as money But, if the Government were now to offer to buy up the whole of the unauthorized currency in circulation in the country, it must do so either at its value as copper—a course which would impose great loss upon the present holders of such coin, persons who are quite innocent holders—or it must offer to buy these pieces of metal at their nominal value, a course which would involve considerable loss to Government Another objection is that, if it were known that we were buying these pieces of metal at their nominal value, they might be largely manufactured in order to be sold to the Government, and we should be buying copper at a large percentage above its real value

"But a still more serious objection is that, in many districts of India, these pieces of metal are in common circulation, and the people are not accustomed to the use of our coin, it would be a severe measure entirely to prohibit the circulation of coin to which people are accustomed and might cause great confusion in remote bázárs and villages and among ignorant people On the whole, therefore, I think the course which the Select Committee has taken is the best, that is, that we should prevent the manufacture of these pieces of metal as far as possible, and prevent them from being imported into British India and put into circulation, and take some steps towards discouraging their use If we find hereafter that the quantity of unauthorised coin is increasing in circulation, it will no doubt be necessary to take some further step such as that suggested by my hon'ble friend I hope that it may not be the case, but, if it is, it will have to be dealt with by further legislation in the way proposed"

The Hon'ble SIR CHARLES ELLIOTT said —"I have only one remark to make in reference to what has fallen from the Hon'ble Mr Steel, who made the suggestion that, whereas the Government will incur considerable loss in buying up this coin and withdrawing it from circulation, it might be able to recoup itself by the gain which will be obtained by the issue of its own copper coinage in the place of that which is withdrawn I may mention that on behalf of the Finance Committee I undertook the investigation of the accounts of the Mints two years ago, and we came to the conclusion (in which I believed the Financial Department also agreed) that the gain on the copper coinage was extremely small, and in fact almost infinitesimal, and there would probably be no such profit to Government from the circulation of its own coin as the Hon'ble Mr Steel has suggested"

SALT DUTY BILL

The Hon'ble SIR DAVID BARBOUR also moved for leave to withdraw the Bill to regulate the payment of duty in respect of Salt where there has been an alteration of the rate of duty payable in respect thereof He said —

"The circumstances under which it was thought necessary to introduce this Bill were explained by the Hon'ble Mr Westland when the Bill was introduced in July last

"The sufficiency of the grounds for the proposed legislation are beyond question It is a cardinal principle of all taxation that as little as possible should be taken from the pockets of the people over and above what is added to the revenue of the State But the first proviso to section 37 of the Sea Customs Act, 1878, operates in the direction of taking money from the public which is not added to the revenue of the State but merely put into the pockets of those importers of salt who are fortunate enough to have their ships at sea when the rate of duty on salt is raised Proceedings of this nature are wholly unjustifiable, and I do not propose to withdraw the Bill on the ground that its provisions are unnecessary or inexpedient, but on the general ground that the Bill does not go far enough, that, in short, the law which it was proposed to apply to salt should also be applied to all other imports

"There is as little justification for transferring money from the pockets of the public to the pockets of a small number of importers of (we will say) iron or steel, chosen at hazard, as there is for transferring money in the same way to the pockets of a few fortunate importers of salt

"The principle on which the present Bill is based was recognised by the Hon'ble Mr Westland to be as applicable to the imports of other goods as to the imports of salt, though the amount of money at stake may not be so great, in proportion to the value of the goods, as in the case of salt But since the Bill was introduced the Secretary of State for India has suggested that the proposed legislation should be made applicable to all imports and not to salt alone, and I believe I am correct in saying that the members of the Select Committee to whom the Bill was referred were unanimously of the same opinion The proposal to withdraw the present Bill is, therefore, merely preliminary to my moving for leave to introduce a Bill dealing in the manner proposed with all other articles of import as well as with salt, and needs no lengthy justification at my hands

"I may as well mention that the proposal to deal with the whole question in a comprehensive manner must not be taken to indicate that the Government of India has any intention of re imposing the import duties"

The Motion was put and agreed to

SEA CUSTOMS ACT, 1878, AND INDIAN TARIFF ACT, 1882, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR also moved for leave to introduce a Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882 He said —

"In moving for leave to withdraw the Bill to regulate the payment of duty on salt I have already indicated generally the nature of the legislation which is now proposed, and I need not go over the same ground again

"The first proviso to section 37 of the Sea Customs Act, 1878, runs as follows —

"Provided that, when such rate or valuation has been raised after the grant of port-clearance at the port of shipment, the rate and valuation applicable to such goods shall be the rate and valuation in force on the date of such grant"

"This is the proviso which, for reasons with which this Council is now familiar, it is proposed to entirely repeal This proviso met with much opposition when it was first proposed I do not think it will find a single defender in the present day, and, so far as I am aware, no similar provision is to be found in the laws of any other country I need not waste time by considering it any further But, on repealing this proviso, it is proposed to substitute for it in the Indian Tariff Act, 1882, a provision which met with opposition when the present Sea Customs Act was being passed into law, and which in consequence of such opposition was not inserted in the Act as finally passed I refer to a provision under which, if a contract is made for the sale of goods without any stipulation as to payment of duty, and a duty is imposed, or the previously existing rate of duty raised or lowered, before the contract is fulfilled, the buyer or seller, as the case may be, has the right of lowering or raising the price by a sum equal to the rate of duty imposed for the first time on the goods, or by the amount by which such duty has been either raised or lowered An almost exactly similar provision is found in the English law, and I confess I can see no valid objection to it If it is inoperative in any case, it does neither harm nor good, and whenever it is operative it removes what might be a serious risk It has been said that this risk of the alteration of duty, or the imposition of a new duty, is a fair mercantile risk, and that no legislation is required I trust that I may not be considered an advocate of unnecessary legislation, but I do hold the opinion that all risks are an evil, and that the fewer the risks to which commerce is exposed the better, all that is claimed for the proposed change is a full and fair consideration on the merits

"And, as we are dealing with the Indian Tariff Act, it is proposed to make one or two slight changes with a view to clearing up doubt as to the meaning of the Act The first change is merely the alteration of the position of a bracket in the schedule in the Act which has on one or two occasions caused doubt as to whether the words 'all other sorts' meant 'all other sorts of gunpowder' or

'all other sorts of arms, ammunition and military stores' The latter is the correct interpretation, and this will now be made clear.

"The other alteration is merely the defining of 'arms' and 'ammunition' in the sense in which these terms are used in the Indian Arms Act, 1878, and the application to the Indian Tariff Act of the same procedure for declaring what articles come under the head of 'military stores,' which is at present in force in the Indian Arms Act

"That procedure enables the Governor General in Council, by notification in the Gazette of India, to declare from time to time what articles shall be included under the head of 'military stores' for the purposes of the Indian Arms Act, and it will obviously be convenient that the same procedure should be followed under the Indian Tariff Act"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local Official Gazettes in English and in such other languages as the Local Governments think fit

The Motion was put and agreed to

The Council adjourned to Friday, the 1st February, 1889

S HARVEY JAMES,

Secretary to the Government of India,

Legislative Department

FORT WILLIAM,
The 23rd January, 1889

SUPPLEMENT TO

The Gazette of India.

No 4] CALCUTTA SATURDAY, JANUARY 26, 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may seem to be of interest to the Public and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications the publication of which in the GAZETTE OF INDIA is required by Law or which it has been usual to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. Such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 19th January, 1889*—Rainfall very slight in Tanjore and Salem and none elsewhere, more rain wanted in Ganjam and Coimbatore. Standing crops generally good, but damaged by disease or excessive rain in parts of Chingleput, South Arcot and Tinnevelly and withering in Coimbatore. Pasturage generally sufficient, except in parts of Salem and Coimbatore. Agricultural operations progressing. Prices rising in Ganjam and six other districts, falling in eight and stationary elsewhere. General prospects favourable except in Ganjam and Coimbatore. 28,383 labourers on Rushikulya works, Ganjam.

Bombay —*For week ending 23rd January, 1889*—Slight rain in parts of Shikarpur. Late crops in Khandesh and Nasik, in one taluka of Poona, three of Surat and almost throughout Ahmednagar and Sholapur unsatisfactory, also cotton in parts of Sholapur and Bijapur, *jowari* in parts of Belgaum and exotic cotton and wheat in parts of Dharwar blighted, grain in one taluka of Ahmedabad injured by insects, *jowari* in two talukas of Ahmednagar by cloudy weather, and late crops in three talukas of Satara by blight and insects, standing crops, including opium in Baroda, otherwise good. Fodder scarce in Khandesh and Nasik and in parts of Hyderabad, Ahmednagar, Baroda, and Kathiawar. Prices rising in two talukas of Nasik.

Bengal —*For week ending 22nd January, 1889*—The rainfall reported last week, which extended to places in Western and Eastern Bengal, besides Behar, Chota Nagpore and Central Bengal, though slight and not general, has been useful, in spite of the hail, with which it was attended in Behar. The *rabi* crops are generally promising, but more rain is much needed throughout Chota Nagpore and in some districts in Central Bengal. Poppy and tobacco crops are reported on favourably. Sugarcane, which is being harvested in some districts, is expected to yield a good outturn. *Boro* rice is being transplanted, and is

doing well Prices of rice and other grains continue to be very high as compared with the past year No fresh report received concerning the affected tracts in North Behar, which are being personally inspected by His Honour the Lieutenant-Governor The Collector of Chumparun, however, states that the pressure upon the people is not acute, but is increasing

North Western Provinces and Oudh —*For week ending 23rd January, 1889* —Weather cloudy Light showers fell during the week in five districts Rain is urgently needed everywhere to improve the prospects of the *rabi* Poppy crop doing well Irrigation continues Sugarcane pressing in progress Markets well supplied Prices steady Fodder becoming scarce and dear in places Cattle healthy except in Kumaon

Punjab —*For week ending 23rd January, 1889* —Slight rain in Rawalpindi and Peshawar Prices unsettled in Delhi and Peshawar, stationary in all other districts *Rabi* sowings completed Watering of crops in progress in Lahore Rain is urgently wanted throughout the Province Crops on irrigated lands are reported to be in good condition, but those on unirrigated lands are already injured in many districts from want of rain, and will be much damaged if rain does not fall within the next week Stock cattle are reported healthy Fodder sufficient, except in Hissar, Dera Ismail Khan and in parts of Sialkot, Multan and Rawalpindi

Central Provinces —*For week ending 23rd January, 1889* —Weather rather cloudy and warm Light shower in Jubbulpore District Wheat and other winter crops below average in Northern districts and in Bilaspur Elsewhere prospects favourable Cattle in fair condition

Burma —*For week ending 19th January, 1889* —No rain has fallen during the past week Crops are generally good, except in parts of Thayetmyo and Prome The price of paddy has fallen in Akyab, Prome, Henzada, Sagaing, Kyaukse and Magwe and risen in Rangoon, Tharrawaddy, Thôngwa and Moulmein

Assam —*For week ending 23rd January, 1889* —Weather cold Slight rain in Upper Assam Harvesting of winter rice nearly finished Pulses and mustard are being gathered , sugarcane crushed and tea pruned

Mysore and Coorg —*For week ending 23rd January, 1889* — No rain Standing crops in good condition Paddy and sugarcane sown in parts Prospects generally favourable Water supply diminishing in parts of two taluks in the Mysore District No material change in prices

Rice crop harvested in Coorg Coffee picking in progress

Berar and Hyderabad —*For week ending 23rd January, 1889* —Picking of cotton and harvesting of other *kharif* crops nearly over in Berar *Rabi* crops are doing well Prospects favourable Cattle in fair condition Fodder insufficient in some districts Prices stationary

No rain in Hyderabad *Rabi* crops thriving, *tabi* sowings continue, scarcity of fodder still felt Prices stationary

Central India —*For week ending 23rd January, 1889* —The report from Bhopal this week shows rain wanted in the Bhilsa district Standing crops and probable outturn only fair Prices of food grains fallen in Dhar and risen elsewhere in Bhopawar agency

Rajputana —*For week ending 23rd January, 1889* —Agricultural operations satisfactory Standing crops thriving, but wheat withering in Kotah for want of rain Agricultural stock good Pasturage or fodder sufficient, except in Marwar, Kherwara, Meywar and Dholepore Prices steady generally except in Marwar Opium satisfactory Cotton fair

Nepal —*For week ending 17th January, 1889* —Showers fell during the week Weather chilly and cloudy at times Dry winds in the morning and evening Prospects improved in the valley

exercise the powers of a District Magistrate and a Magistrate of the 1st class, and the Station Officer at Wadhwan for the time being and the District Thanadar at Wadhwan for the time being shall exercise the powers of a Magistrate of the second class (with power to commit for trial to the Court of Session) as described in the Code of Criminal Procedure within the aforesaid lands"

The 1st February, 1889

No 182-*G*.—The services of Lieutenant C C Leveson-Gower, Officiating Wing Officer (on probation) Bhopal Battalion, are replaced, temporarily, at the disposal of the Military Department, with effect from the date on which he may be struck off the strength of the regiment

XV of 1872

No 467 *I*.—Whereas it is expedient to provide for the voluntary registration of births and deaths among certain classes of persons in the Cantonment of Secunderabad, for the more effectual registration of those births and deaths and of marriages registered in that Cantonment under the Indian Christian Marriage Act, 1872, and for the establishment of a general registry office for keeping registers of those births, deaths and marriages

And whereas it is also expedient to provide for the authentication and custody of certain existing registers made otherwise than in the performance of a duty specially enjoined by the law of that Cantonment, and to declare that copies of the entries in those registers shall be admissible in evidences,

The Governor General in Council has been pleased to issue the following orders —

CHAPTER I

PRELIMINARY

Title and commencement

1 (*1*) These orders may be called the Secunderabad Births, Deaths and Marriages Registration Law, 1888, and are hereinafter referred to as "this Law", and

(*2*) They shall come into force on such day as the Governor-General in Council, by notification in the *Gazette of India*, directs

(*3*) Any power conferred by this Law to make rules or to issue orders may be exercised at any time after the publication of this Law in the *Gazette of India*, but a rule or order so made or issued shall not take effect until the Law comes into force

Extent

2 This Law extends to the whole of the Cantonment of Secunderabad

Definitions

3 In this Law, unless there is something repugnant in the subject or context,—

(*1*) "Resident" means the Resident at Hyderabad

(*2*) "sign" includes mark, when the person making the mark is unable to write his name

(*3*) "prescribed" means prescribed by a rule made by the Governor General in Council under this Law and

(*4*) "Registrar of Births and Deaths" means a Registrar of Births and Deaths appointed under this Law

Saving of local laws

4 Nothing in this Law, or in any rule made under this Law, shall affect any law heretofore or hereafter passed providing for the registration of births and deaths within particular local areas

Powers exercisable from time to time

5 All powers conferred by this Law may be exercised from time to time as occasion requires

CHAPTER II

GENERAL REGISTRY OFFICE OF BIRTHS, DEATHS AND MARRIAGES

Establishment of general registry office and appointment of Registrar General

6 The Resident—

(*a*) shall establish a general registry office for keeping such certified copies of registers of births and deaths registered under this Law, or marriages registered under the Indian Christian Marriage Act, 1872, as may be sent to it under this Law, or under the Indian Christian Marriage Act as amended by this Law, and

XV of 1872

(*b*) may appoint to the charge of that office an officer to be called the Registrar-General of Births, Deaths and Marriages

Indexes to be kept at general registry office

7 The Registrar-General of Births, Deaths and Marriages shall cause indexes of all the certified copies of registers sent to his office under this Law, or under the Indian Christian Marriage Act as amended by this Law, to be made and kept in his office in the prescribed form XV of 1872

Indexes to be open to inspection

8 Subject to the payment of the prescribed fees, the indexes so made shall be at all reasonable times open to inspection by any person applying to inspect them, and copies of entries in the certified copies of the registers to which the indexes relate shall be given to all persons applying for them

Copies of entries to be admissible in evidence

9 A copy of an entry given under the last foregoing section shall be certified by the Registrar General of Births, Deaths and Marriages, or by an officer authorised in this behalf by the Resident, and shall be admissible in evidence for the purpose of proving the birth, death or marriage to which the entry relates

Superintendence of Registrars by Registrar General

10 The Registrar General of Births, Deaths and Marriages shall exercise a general superintendence over the Registrars of Births and Deaths

---

CHAPTER III

REGISTRATION OF BIRTHS AND DEATHS

Application of this Chapter

Persons whose births and deaths are registrable

11 (*1*) The persons whose births and deaths shall, in the first instance, be registrable under this Chapter are the members of every race, sect or tribe to which the Indian Succession Act, 1865, applies and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion X of 1865

(*2*) But the Resident, by notification in the Residency Orders, may, with the previous approval of the Governor General in Council, extend the operation of this Chapter to any other class of persons either generally or in any local area

Registration Establishment

Power for Resident to appoint Registrars

12 The Resident may appoint, either by name or by virtue of their office, so many persons as he thinks necessary to be Registrars of Births and Deaths for such local areas as he may define and, if he sees fit, for any class of persons in any local area

Registrar to be deemed a public servant

13 Every Registrar of Births and Deaths shall be deemed to be a public servant within the meaning of the Indian Penal Code XLV of 1860

Power to remove Registrars

14 (*1*) The Resident may suspend, remove or dismiss any Registrar of Births and Deaths

(*2*) A Registrar of Births and Deaths may resign by notifying in writing to the Resident his intention to do so, and, on his resignation being accepted by the Resident, he shall be deemed to have vacated his office

Office and attendance of Registrar

15 (*1*) Every Registrar of Births and Deaths shall have an office in the local area for which he is appointed

(*2*) Every Registrar of Births and Deaths to whom the Resident may direct this sub section to apply shall attend at his office for the purpose of registering births and deaths on such days and at such hours as the Registrar-General of Births, Deaths and Marriages may direct, and shall cause to be placed in some conspicuous place on or near the outer door of his office his name, with the addition of Registrar of Births and Deaths for the local area or class for which he is appointed, and the days and hours of his attendance

Absence of Registrar or vacancy in his office

16. (*1*) When any Registrar of Births and Deaths to whom the Resident may direct this section to apply is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf or, in default of such appointment, the First Assistant Resident at Hyderabad, or such other officer as the Resident appoints in this behalf shall be the Registrar of Births and Deaths during such absence or until the Resident fills the vacancy

(*2*) The Registrar General of Births, Deaths and Marriages shall report to the Resident all appointments made by him under this section

Register books to be supplied and preservation of records to be provided for

17 The Resident shall supply every Registrar of Births and Deaths with a sufficient number of register books of births and of register books of deaths, and shall make suitable provision for the preservation of the records connected with the registration of births and deaths

Mode of Registration

Duty of Registrar to register births and deaths of which notice is given

18 Every Registrar of Births and Deaths, on receipt of notice of a birth or death within the local area or among the class for which he is appointed, shall, if the notice is given within the prescribed time and in the prescribed mode by a person authorised by this Law to give the notice, forthwith make an entry of the birth or death in the proper register book

Provided that—

(*a*) if he has reason to believe the notice to be in any respect false, he may refuse to register the birth or death until he receives an order from the First Assistant Resident at Hyderabad directing him to make the entry and prescribing the manner in which the entry is to be made, and

(*b*) he shall not enter in the register the name of any person as father of an illegitimate child, unless at the request of the mother and of the person acknowledging himself to be the father of the child

Persons authorised to give notice of birth

19 Any of the following persons may give notice of a birth, namely —

(*a*) the father or mother of the child,

(*b*) any person present at the birth,

(*c*) any person occupying, at the time of the birth, any part of the house wherein the child was born and having knowledge of the child having been born in the house,

(*d*) any medical practitioner in attendance after the birth and having personal knowledge of the birth having occurred,

(*e*) any person having charge of the child

Persons authorized to give notice of death

20 Any of the following persons may give notice of a death, namely —

(*a*) any relative of the deceased having knowledge of any of the particulars required to be registered concerning the death,

(*b*) any person present at the death,

(*c*) any person occupying, at the time of the death, any part of the house wherein the death occurred and having knowledge of the deceased having died in the house,

(*d*) any person in attendance during the last illness of the deceased,

(*e*) any person who has seen the body of the deceased after death

Entry of birth or death to be signed by person giving notice.

21 (*1*) When an entry of a birth or death has been made by the Registrar of Births and Deaths under section 18, the person giving notice of the birth or death must sign the entry in the register in the presence of the Registrar

(*2*) Until the entry has been so signed, the birth or death shall not be deemed to be registered under this Law

(*3*) When the birth of an illegitimate child is registered, and the mother and the person acknowledging himself to be the father of the child jointly re-

quest that that person may be registered as the father, the mother and that person must both sign the entry in the register in the presence of the Registrar

Grant of certificate of registration of birth or death

22 The Registrar of Births and Deaths shall, on application made at the time of registering any birth or death by the person giving notice of the birth or death, and on payment by him of the prescribed fee, give to the applicant a certificate in the prescribed form, signed by the Registrar of having registered the birth or death

Duty of Registrars as to sending certified copies of entries in register books to Registrar General

23 (*1*) Every Registrar of Births and Deaths shall send to the Registrar-General of Births, Deaths and Marriages, at the prescribed intervals, a true copy certified by him, in the prescribed form, of all the entries of births and deaths in the register book kept by him since the last of those intervals

Provided that in the case of Registrars of Births and Deaths who are clergymen of the Churches of England, Rome and Scotland, the Registrar may, if so directed by his ecclesiastical superior, send the certified copies in the first instance to that superior, who shall send them to the Registrar-General of Births, Deaths and Marriages

(*2*) In this section "Church of England" and "Church of Scotland" mean the Church of England and the Church of Scotland as by law established respectively, and "Church of Rome" means the Church which regards the Pope of Rome as its spiritual head

Searches and copies of entries in register books

24 (*1*) Every Registrar of Births and Deaths shall, on payment of the prescribed fees, at all reasonable times, allow searches to be made in the register books kept by him, and give a copy of any entry in the same

(*2*) Every copy of an entry in a register book given under this section shall be certified by the Registrar of Births and Deaths, and shall be admissible in evidence for the purpose of proving the birth or death to which the entry relates

Exceptional provision for registration of certain births and deaths

25 Notwithstanding anything in section 18, the Governor General in Council may make rules authorising Registrars of Births and Deaths, on conditions and in circumstances to be specified in the rules to register births and deaths occurring outside the local areas or classes for which they are appointed

Penalty for False Information

Penalty for wilfully giving false information

26 If any person wilfully makes, or causes to be made, for the purpose of being inserted in any register of births or deaths, any false statement in connection with any notice of a birth or death under this Law, he shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both

Correction of Errors

Correction of entry in register of births or deaths

27 (*1*) If it is proved to the satisfaction of a Registrar of Births and Deaths that any entry of a birth or death in any register kept by him under this Law is erroneous in form or substance, he may, subject to such rules as may be made by the Governor General in Council with respect to the conditions and circumstances on and in which errors may be corrected, correct the error by entry in the margin, without any alteration of the original entry, and shall sign the marginal entry and add thereto the date of the correction

(*2*) If a certified copy of the entry has already been sent to the Registrar-General of Births, Deaths and Marriages, the Registrar of Births and Deaths shall make and send a separate certified copy of the original erroneous entry and of the marginal correction therein made

CHAPTER IV

AMENDMENT OF CHRISTIAN MARRIAGE ACT

XV of 1872

28 In the Indian Christian Marriage Act, 1872, as applied to the Cantonment of Secunderabad the following amendments shall be made, namely —

Amendment of the Indian Christian Marriage Act, 1872

(*a*) at the end of section 3, the words "'Registrar General of Births, Deaths and Marriages' means the Registrar-General of Births, Deaths and Marriages appointed under the Secunderabad Births, Deaths and Marriages Registration Law, 1888," shall be added,

VI of 1886

(*b*) for the words "Secretary to the Resident at Hyderabad," wherever they occur, the words "Registrar General of Births, Deaths and Marriages" shall be substituted,

(*c*) for the words "at such places as the Resident at Hyderabad directs," in section 62, the words "in the office of the Registrar-General of Births, Deaths and Marriages" shall be substituted, and

(*d*) in section 81, after the words "Registrar-General of Births, Deaths and Marriages," the words "in England" shall be added

---

CHAPTER V

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS

29 If any person has for the time being the custody of any register or record of birth, baptism, naming, dedication, death or burial of any persons of the classes referred to in section 11, sub section (*1*), or of any register or record of marriage of any persons of the classes to which the Indian Christian Marriage Act, 1872, applies, and if such register or record has been made otherwise than in performance of a duty specially enjoined by law, he may, within one year from the date on which this Law comes into force, send the register or record to the office of the Registrar General of Births, Deaths and Marriages

Permission to persons having custody of certain records to send them within one year to Registrar General

XV of 1872

30 (*1*) The Governor General in Council may appoint so many persons as he thinks fit to be Commissioners for examining the registers or records sent to the Registrar-General of Births, Deaths and Marriages under the last foregoing section

Appointment of Commissioners to examine registers

(*2*) The Commissioners so appointed shall hold office for such period as the Governor-General in Council, by the order of appointment, or any subsequent order, directs

31 (*1*) The Commissioners appointed under the last foregoing section shall enquire into the state, custody and authenticity of every such register or record as may be sent to the Registrar General of Births, Deaths and Marriages under section 29,

Duties of Commissioners

and shall deliver to the Registrar-General a descriptive list or descriptive lists of all such registers or records, or portions of registers or records, as they find to be accurate and faithful

(*2*) The list or lists shall contain the prescribed particulars and refer to the registers or records, or to the portions of the registers or records, in the prescribed manner

(*3*) The Commissioners shall also certify in writing upon some part of every separate book or volume containing any such register or record or portion of a register or record, as is referred to in any list or lists made by the Commissioners, that it is one of the registers or records, or portions of registers or records referred to in the said list or lists

32 (*1*) Subject to the payment of the prescribed fees, the descriptive list or lists of registers or records, or portions of registers or records, delivered by the Commissioners to the Registrar General of Births, Deaths and Marriages shall be at all reasonable times open to inspection by any person applying to inspect it or them, and copies of entries in those registers or records shall be given to all persons applying for them

Search of lists prepared by Commissioners and grant of certified copies of entries

(2) A copy of an entry given under this section shall be certified by the Registrar-General of Births, Deaths and Marriages, or by an officer or person authorised in this behalf by the Resident and shall be admissible in evidence for the purpose of proving the birth, baptism, naming, dedication, death, burial or marriage to which the entry relates

CHAPTER VI

RULES

Power for Governor General in Council to make rules

33 In addition to any other power to make rules impliedly or expressly conferred by this Law, the Governor General in Council may make rules—

(*a*) to fix the fees payable under this Law,

(*b*) to prescribe the forms required for the purposes of this Law,

(*c*) to prescribe the time within which, and the mode in which, persons authorised under this Law to give notice of a birth or death to a Registrar of Births and Deaths must give the notice,

(*d*) to prescribe the registers to be kept and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this law, and the intervals at which they are to send to the Registrar General of Births, Deaths and Marriages true copies of the entries of births and deaths in the registers kept by them,

(*e*) to prescribe the particulars which descriptive lists to be prepared by Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the registers or records, or portions of registers or records, to which they relate,

(*f*) to prescribe the custody in which those registers or records are to be kept, and

(*g*) generally to carry out the purposes of this Law

Procedure for making and publication of rules

34 (*1*) The Governor General in Council shall before making rules under this Law, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of persons likely to be affected thereby

(*2*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration

(*3*) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified

(*4*) Every rule made under this Law shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under this Law shall be conclusive evidence that it has been duly made

No 469 I.—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879, and of all other powers enabling him in this behalf the Governor General in Council is pleased to direct, with reference to clause 4 of Foreign Department notification No 1494 I dated the 14th May, 1885 that all officers exercising civil jurisdiction within the limits of the Indore Residency shall follow the procedure prescribed by the Debtors Act, VI of 1888, and the Civil Procedure Code Amendment Act, VII of 1888 in so far as it modifies the procedure prescribed by the Code of Civil Procedure, XIV of 1882, and is applicable to the lands within the said limits

No 471 I.—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, XXI of 1879 and of all other powers enabling him in this behalf the Governor General in Council is pleased to direct, with reference to clause (*a*) of Foreign Department notification No 1496 I, dated the 14th May, 1885, that all officers exercising civil jurisdiction in the Cantonment of Mhow shall follow the procedure prescribed by the Debtors Act, VI of 1888 and the Civil Procedure Code Amendment Act, VII of 1888, in so far as it modifies the procedure prescribed by the Code of Civil Procedure, XIV of 1882 and is applicable to the said cantonment

CUSTOMS

The 1st February 1889

No 625 —In exercise of the power conferred by section 19 of the Sea Customs Act, VIII of 1878 the Governor-General in Council is pleased to prohibit the bringing into British India by sea or by land of pieces of copper or mixed metal which, not being coin as defined in the Indian Penal Code, are intended to be used as money

Provided that the bringing of such pieces into British India by a traveller in quantity not exceeding one hundred pieces and in good faith for his own use shall not be deemed to be prohibited by this notification

2 In exercise of the power conferred by section 6 of the Metal Tokens Act, I of 1889, the Governor General in Council is further pleased to direct—

(*a*) that any person bringing pieces of copper into British India in contravention of the foregoing prohibition under section 19 of the Sea Customs Act, 1878, shall be liable to the punishment to which he would be liable if he were convicted under the Metal Tokens Act, I of 1889, of making in British India, in contravention of section 3 of that Act, any such piece as is mentioned in that section, and

(*b*) that the provisions of sub section (3) of section 4 and sub section (*1*) of section 5 of the Metal Tokens Act, I of 1889, in relation to the offence of making in British India, in contravention of section 3 of that Act, any such piece as is mentioned in that section, shall apply, so far as they can be made applicable, to the offence of contravening the foregoing prohibition under section 19 of the Sea Customs Act, 1878

SEPARATE REVENUE

POST OFFICE

RAILWAY MAIL SERVICE

The 31st January, 1889

No. 644.

RESOLUTION—By the Government of India, Department of Finance and Commerce

Read—

Communication from the Director General of the Post Office of India, No 164, dated the 3rd October 1888, regarding the proposal for running a fast special mail train between Calcutta and Bombay

RESOLUTION —According to the present contract with the Peninsular and Oriental Steam Navigation Company, the inward mails are due in Calcutta on

Thursday morning, but it is probable that the Company will be able ordinarily to land the mails in time for despatch either by the ordinary night train which leaves Bombay on Sunday, or by the special train which, under existing rules, is run so as to catch that ordinary train at or before Allahabad In either of these cases the inward overland mail will be delivered at Calcutta on Wednesday morning

2 It is extremely desirable to secure for the large and important trade of Calcutta, if it can be done at reasonable cost, an advantage of a whole week in replying to European correspondence The Government of India has, therefore, been investigating the possibility of running a Special Mail Train which would leave Calcutta on Wednesday evening during that part of the year in which the outward mails have hitherto left Calcutta on Tuesday, so that the Wednesday would be available for the receipt and disposal of correspondence from Europe, and the Special Train would still arrive in time for the departure of the mail from Bombay

3 It is found that such a train can be run at a cost of R1,546 per week It would leave Calcutta on Wednesday at 8 P M , and would arrive at Bombay on Friday at 3 P M The Railway Companies would be authorised to carry, at ordinary fares, 1st and 2nd class passengers and their servants bound for Bombay The stoppages on the way would be as few and short as possible

4 As the mail service between Europe and India is carried on at a loss, the Government of India does not feel justified in undertaking, at the general charge of the Post Office, this altogether special service for one part of the Indian community only, and can undertake it only if the expenditure is wholly or nearly covered by special fees levied on the letters and other postal articles, in accordance with the principles of the Postal Union, which authorise the levy of special rates for cases in which special trains are used

5 The Government of India has, accordingly, determined to make the experiment for eight weeks, commencing with Wednesday, the 20th February 1889

6 Letters posted for transmission by the special train will be charged a special fee of 1½ annas per ½ ounce, *e g* , the rate for the United Kingdom will be 6 annas per ½ oz instead of 4½ annas , the additional fee for each newspaper will be ½ anna per 4 oz , and for each book packet ½ anna per 2 oz , and no letter, newspaper, or book packet that is not fully prepaid will be carried by the special train The special rates just mentioned will in no way affect or apply to letters or other postal articles transmitted by the regular weekly mail leaving Calcutta on Tuesday evening

7 The continuance of the service after the first eight weeks will depend upon a reconsideration of the question with regard to the facts and financial results ascertained by the experiment

---

ORDER —Ordered, that copy of the Resolution be forwarded to the Public * Works Department and the Director General of the Post Office of India for information

* Original papers returned

Ordered also, that the Resolution be published in the *Gazette of India*

1 Tenders should be submitted in the form to be obtained from this office and superscribed "Tenders for (name of article)," and should be accompanied by a deposit of 5 per cent on the value of tender

2 Samples of articles to be supplied should be produced with tenders such samples being distinctly marked with the name of the tenderer and rate offered

3 Every successful competitor will have to pay a security of 5 per cent on the value of the articles for which tender is accepted, and to sign a contract bond (a form of which can be seen at the Office) within fifteen days from the date of his being informed by this Office of the acceptance of his tender In case of failure to execute the bond, the deposit of 5 per cent delivered with the tender will be forfeited and credited to Government and his tender considered as cancelled

4 The necessary stamp duty on the contract bond should also be paid by the contractor

5 The quantities mentioned in the above schedule are only probable quantities, but the actual quantities required will be mentioned in the orders of this Office, given from time to time agreeably to which only the contractors should supply articles

6 The Superintendent of Stationery reserves to himself the right of rejecting any tender without assigning any reason for so doing

F C BARNES,
Supdt of Stationery

GOVERNMENT STATIONERY OFFICE
The 23rd January, 1889

POST OFFICE

NOTIFICATIONS

Calcutta, the 27th January, 1889

With effect from the 1st April, 1889 the sender of a value payable article will be required to sign a certificate to the effect that the article is sent in execution of a *bonâ fide* order, and in the case of a value payable unregistered packet, the sender will, in addition to signing the certificate referred to above, be required to prepay the usual money order commission on the amount specified for recovery from the addressee, by affixing postage stamps of the value of the commission to the form filled up by him

2 In lieu of the forms at present filled up by the senders of value payable articles, two revised forms will be substituted from the 1st April, 1889—one for use with all value payable articles other than value payable unregistered book packets, and the other for use with value payable unregistered book packets Each form will contain the certificate to be signed by the sender, and space is provided in the form for use with value payable unregistered packets for the postage stamps to be affixed in payment of commission

3 In case a value payable unregistered packet is refused by the addressee or returned as unclaimed to the sender no refund of the commission prepaid will be granted

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st February, 1889, and is hereby promulgated for general information —

ACT NO I OF 1889

An Act for the Protection of Coinage and other Purposes

WHEREAS it is expedient to prohibit the making, or the possession for issue, or the issue, by private persons of pieces of metal for use as money,

And whereas it is also expedient to amend
XLV of 1860 section 28 of the Indian Penal Code,

It is hereby enacted as follows —

Title extent and commencement

1 (*1*) This Act may be called the Metal Tokens Act, 1889

(*2*) It extends to the whole of British India, and

(*3*) It shall come into force at once

Definition

2 In this Act "issue" means to put a piece of metal into circulation for the first time for use as money in British India, such piece having been made in contravention of this Act or brought into British India by sea or by land in contravention of any notification for the time being in force
VIII of 1878 under section 19 of the Sea Customs Act, 1878

Prohibition of making by private persons of pieces of metal to be used as money

3 No piece of copper or bronze or of any other metal or mixed metal, which, whether stamped or unstamped, is intended to be used as money, shall be made except by the authority of the Governor General in Council

Penalty for unlawful making, issue or possession of such pieces

4 (*1*) In either of the following cases, namely —

(*a*) if any person makes in contravention of the last foregoing section, or issues or attempts to issue any such piece as is mentioned in that section,

(*b*) if, after the expiration of three months from the commencement of this Act, any person has in his possession, custody or control any such piece as is mentioned in the last foregoing section, with intent to issue the piece,

the person shall be punished,—

(*i*) if he has not been previously convicted under this section with imprisonment which may extend to one year, or with fine, or with both, or,

(*ii*) if he has been previously convicted under this section, with imprisonment which may extend to three years, or with fine, or with both

(*2*) If any person is convicted of an offence under sub section (*1*), he shall, in addition to any other punishment to which he may be sentenced, forfeit all such pieces as aforesaid and all instruments and materials for the making of such pieces, which may have been found in his possession, custody or control

(*3*) If in the trial of any such offence the question arises whether any piece of metal or mixed metal was intended to be used or to be issued for use as money, the burden of proving that the piece was not intended to be so used or issued shall lie on the accused person

Cognizance of offences under the last foregoing section

5 (*1*) The offence of making, in contravention of section 3, any such piece as is mentioned in that section shall be a cognizable offence

(2) Notwithstanding anything in the Code of X of 1882 Criminal Procedure, 1882, no other offence punishable under section 4 shall be a cognizable offence, or beyond the limits of a presidency town be taken cognizance of by any Magistrate, except a District Magistrate or Subdivisional Magistrate, without the previous sanction of the District Magistrate or Subdivisional Magistrate

Application of certain of the foregoing provisions of this Act to importation of pieces of metal for use as money

6 If at any time the Governor General in Council sees fit, by notification under section 19 of VIII of 1878. the Sea Customs Act, 1878, to prohibit or restrict the bringing by sea or by land into British India of any such pieces of metal as are mentioned in section 3, he may by the notification direct that any person contravening the prohibition or restriction shall be liable to the punishment to which he would be liable if he were convicted under this Act of making such pieces in British India instead of to the penalty mentioned in section 167 of the Sea Customs Act, 1878, and that the provisions of sub section (3) of section 4 and sub section (1) of section 5, or of either sub section, in relation to the offence of making such pieces shall, not withstanding anything in the Sea Customs Act, 1878, apply, so far as they can be made applicable, to the offence of contravening the prohibition or restriction notified under section 19 of that Act

Addition to section 98 Act X 1882

7 To section 98 of the Code of Criminal X of 1882 Procedure, 1882, the following shall be added, namely —

"The provisions of this section with respect to—

(a) counterfeit coin,

(b) coin suspected to be counterfeit, and

(c) instruments or materials for counterfeiting coin,

shall, so far as they can be made applicable, apply, respectively, to—

(a) pieces of metal made in contravention of of 1889 the Metal Tokens Act, 1889, or brought into British India in contravention of any notification for the time being in force under section 19 of the Sea Customs Act, 1878, VIII of 1878

(b) pieces of metal suspected to have been so made or to have been so brought into British India or to be intended to be issued in contravention of the former of those Acts, and

(c) instruments or materials for making pieces of metal in contravention of that Act"

Prohibition of receipt by local authorities and railways as money of metal which is not coin

8 (1) No piece of metal which is not coin as defined in the Indian Penal Code shall be received as money by or on behalf of any railway administration or local authority XLV of 1860

(2) If any person on behalf of a railway administration, or on behalf of a local authority, or on behalf of the lessee of the collection of any toll or other impost leviable by a railway administration or local authority, receives as money any piece of metal which is not such coin as aforesaid, he shall be punished with fine which may extend to ten rupees

Amendment of section 28 of the Indian Penal Code

9 For the *Explanation* to section 28 of the XLV of 1860 Indian Penal Code the following shall be substituted, namely —

'*Explanation 1*—It is not essential to counterfeiting that the imitation should be exact

"*Explanation 2*—When a person causes one thing to resemble another thing and the resemblance is such that a person might be deceived thereby, it shall be presumed, until the contrary is proved that the person so causing the one thing to resemble the other thing intended by means of that resemblance to practise deception or knew it to be likely that deception would thereby be practised"

S HARVEY JAMES,
Secretary to the Government of India

The following Report of the Select Committee on the Bill to prohibit the making or issue by private persons of pieces of metal for use as money and the making of coins in resemblance or similitude of coins of Foreign States was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th January, 1889 —

LEGISLATIVE DEPARTMENT

WE, the undersigned, Members of the Select Committee to which the Metal Tokens Bill was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto

From Mr P R Desai Pleader, District Court Tanna dated 25th February 1888 [Paper No 1]
Opinion by the Hon'ble Rana Sir Shankar Bakhsh Singh Bahadur K C I E [Paper No 2]
Office Memorandum by Government of India Department of Finance and Commerce No 1686 dated 29th March 1888 and enclosure [Papers No 3]
From Secretary to Chief Commissioner Assam, No 760 dated 12th April 1888 [Paper No 4]
From Secretary to Chief Commissioner Coorg No 711—468 dated 16th April, 1888 and enclosure [Papers No 5]
From Chief Commissioner, Ajmere Merwára No 395—690, dated 24th April 1888 [Paper No 6]
From Officiating Chief Secretary to Chief Commissioner, Burma No 486—17 S S dated 20th April 1888 and enclosure [Papers No 7]
From Secretary for Berar to Resident Hyderabad No 145 G dated 26th April 1888 and enclosure [Papers No 8]
From Chief Secretary to Government, Madras, No 990 3 dated 24th April 1888 and enclosures [Papers No 9]
From Secretary to Government, Bengal No 52 F F dated 2nd June 1888 and enclosures [Papers No 10]
From Chief Secretary to Government Bombay No 3753 dated 9th June 1888 and enclosures [Papers No 11]
From Registrar High Court Calcutta No 1496, dated 29th June 1888 [Paper No 12]
From Officiating Secretary to Chief Commissioner Central Provinces No 3803—191 dated 5th July 1888 and enclosures [Papers No 13]
From Secretary to Government North Western Provinces and Oudh No 1594—VI 110 B dated 21st July 1888, and enclosures [Papers No 14]
Telegram from Secretary to Government Punjab dated 9th January 1889

2 We have amended the definition of "issue" in section 2, so as to make it clear that the Act is not intended to apply to tokens now in circulation

3 From section 3, sub section (*1*) (section 3 of the revised Bill), we have omitted the words "or likely" Section 4 sub section (*3*), of the revised Bill appears to us to render the retention of those words unnecessary

4 We have proposed, in section 4 of the revised Bill, that an attempt to "issue", and possession with intent to "issue", any pieces of metal made in British India in contravention of the Act or imported into British India in contravention of any prohibition under the Sea Customs Act, 1878, shall be offences punishable in the same manner as the offence of issuing such pieces

5 For section 3, sub section (*5*), of the Bill as introduced we have proposed to substitute a section (section 7 of the revised Bill) applying to the pieces of metal to which the Bill mainly relates the provisions of section 98 of the Code of Criminal Procedure, 1882, respecting counterfeit coin

6 For section 3, sub section (*6*) of the Bill as introduced we have substituted a section (section 5 of the revised Bill) providing that no offence relating in any way to the "issue" of unauthorised pieces of metal for use as money is to be cognizable by the police or, without the previous sanction of the District Magistrate or Subdivisional Magistrate, by any Magistrate except a District Magistrate or Subdivisional Magistrate

7 In section 4 we have reduced the maximum period of imprisonment to one year for a first offence, and to three years after a previous conviction

8 We have added to section 5 of the Bill as introduced (section 8 of the revised Bill) a clause making it an offence for any person on behalf of a railway-administration or local authority, or on behalf of the lessee of any tolls leviable by such an administration or authority, to receive as money any piece of metal which is not coin as defined in the Indian Penal Code

9 As regards section 6 of the Bill as introduced (section 9 of the revised Bill) we agree with Mr R J Crosthwaite, the Judicial Commissioner of the Central Provinces, in thinking that the effect of that section might be to weaken the existing law as to Queen's coin, and we think that the purposes not only of section 231 but also of other sections of the Indian Penal Code will be better served by the addition to the definition of "counterfeit", in section 28 of that Code, of an *Explanation* applicable as well to coin as to

every other thing with reference to which the word "counterfeit" is used in the Code

THE FIRST SCHEDULE.—PORTS, VESSELS CHARGEABLE, RATE OF PORT DUES AND FREQUENCY OF PAYMENT

THE SECOND SCHEDULE.—ENACTMENTS REPEALED

The Indian Ports Bill

(Chapter I —Preliminary —Sections 1 3 Chapter II —Powers of the Local Government —Section 4.)

A Bill to consolidate and amend the law relating to Ports and Port charges

WHEREAS it is expedient to consolidate and amend the law relating to ports and port charges, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

[Act XII, 1875 ss 1 and 2]

Title, commencement and extent

1 (*1*) This Act may be called the Indian Ports Act, 1889, and

(*2*) It shall come into force on the first day of April, 1889

(*3*) It shall extend save as otherwise appears from its subject or context,—

(*a*) to the ports mentioned in the first schedule, and to such parts of the navigable rivers and channels leading to such ports respectively as have been declared to be subject to Act XXII of 1855 (*for the regulation of Ports and Port dues*) or to the Indian Ports Act, 1875, XII of 1875

(*b*) to the other ports or parts of navigable rivers or channels to which the Local Government in exercise of the power hereinafter conferred, extends this Act

(*4*) But nothing in this Act shall—

(i) apply to any vessel belonging to, or in the service of, Her Majesty or the Government of India, or to any vessel of war belonging to any Foreign Prince or State, or

(ii) deprive any person of any right of property or other private right, except as hereinafter expressly provided, or

(iii) affect any law or rule relating to the customs or any order or direction lawfully made or given pursuant thereto

(*5*) And nothing in section 31 or section 32 shall apply to any port, river or channel to which the section has not been specially extended by the Local Government

Act XII 1875, s 3]

Repeal

2 (*1*) The enactments mentioned in the second schedule are hereby repealed to the extent specified in the third column of that schedule

(*2*) All declarations, appointments, requisitions, orders and rules made, authorisations, directions and permissions given, prohibitions issued and notifications published under any of those enactments or under any enactment repealed by any of them shall, if in force at the commencement of this Act, be deemed, so far as may be, to have been made, given, issued and published under this Act and

(*3*) Any enactment or document referring to any such repealed enactment shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

Definitions

[Act XII, 1875, s 4]

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "port" includes also any part of a river or channel in which this Act is for the time being in force

(*2*) "vessel" includes anything made for the conveyance by water of human beings or of property

(*3*) "master", when used in relation to any vessel, means subject to the provisions of any other enactment for the time being in force, any person (except a pilot or harbour master) having for the time being the charge or control of the vessel

(*4*) "pilot" means a person for the time being authorized by the Local Government to pilot vessels

(*5*) "owner" includes also any agent to whom a vessel is consigned

(*6*) "ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the tonnage of British ships and [New]

(*7*) "Magistrate" means a person exercising powers under the Code of Criminal Procedure, 1882 not less than those of a Magistrate of the second class, and includes, in the towns of Calcutta, Madras and Bombay, a Presidency Magistrate X of 1882

CHAPTER II

POWERS OF THE LOCAL GOVERNMENT

Power to extend or withdraw the Act or certain portions thereof

[Act XII 1875 s 5]

4 (*1*) With the previous sanction of the Governor General in Council the Local Government may by notification in the official Gazette,—

(*a*) extend this Act to any port in which this Act is not in force or to any part of any navigable river or channel which leads to a port and in which this Act is not in force,

(*b*) specially extend the provisions of section 31 or section 32 to any port to which they have not been so extended,

(*c*) withdraw this Act, or section 31 or section 32 from any port or any part thereof in which it is for the time being in force

The Indian Ports Bill

(Chapter II —Powers of the Local Government —Sections 5 6) (Chapter III —Port-officials and their Powers and Duties —Section 7)

(2) A notification under clause (*a*) or clause (*b*) of sub section (*1*) shall define the limits of the area to which it refers

(3) Limits defined under sub section (2) may include any piers, jetties, landing places, wharves, quays docks and other works made on behalf of the public for convenience of traffic, for safety of vessels, or for the improvement, maintenance or good government of the port and its approaches whether within or without high water mark, and subject to any rights of private property therein, any portion of the shore or bank within fifty yards of high water mark

(4) In sub section (3) the expression 'high water mark" means the highest point reached by ordinary spring tides at any season of the year

[Act XII 1875 s 6]

Alteration of limits of ports

5 (*1*) The Local Government may, with the previous sanction of the Governor General in Council and subject to any rights of private property, alter the limits of any port in which this Act is in force

(2) When the Local Government alters the limits of a port under sub section (*1*), it shall declare or describe by notification in the official Gazette, and by such other means, if any, as it thinks fit, the precise extent of such limits

[Act XII 1875 s 7]

Power to make port rules

6 The Local Government may in addition to any rules which it may make under any other enactment for the time being in force, make such rules consistent with this Act, as it thinks necessary for any of the following purposes, namely —

(*a*) for regulating the time at which, and the manner in which, vessels are to enter or leave any port subject to this Act,

(*b*) for regulating the berths, stations and anchorages to be occupied by vessels in any such port,

(*c*) for striking the yards and top masts, and for rigging in the booms and yards, of vessels in any such port, and for swinging or taking in davits, boats and other things projecting from such vessels,

(*d*) for the removal or proper hanging or placing of anchors, spars and other things being in or attached to vessels in any such port

[Partly new] (*e*) for regulating vessels whilst taking in or discharging passengers, ballast or cargo, or any particular kind of cargo, in any such port, and the stations to be occupied by vessels whilst so engaged,

(*f*) for keeping free passages of such width as may be deemed necessary within any such port, and along or near to the piers jetties, landing places, wharves, quays, docks, moorings and other works in or adjoining to the same, and for marking out the spaces so to be kept free,

(*g*) for regulating the anchoring, fastening, mooring and unmooring of vessels in any such port,

(*h*) for regulating the moving and warping of all vessels within any such port and the use of warps therein,

(*i*) for regulating the use of the mooring buoys, chains and other moorings in any such port

(*j*) for fixing the rates to be paid for the use of such moorings when belonging to the Government, or of any boat, hawser or other thing belonging to the Government

(*k*) for licensing and regulating catamarans plying for hire, and cargo, passenger and other boats plying, whether for hire or not and whether regularly or only intermittently, in, or partly within and partly without, any such port, and for determining the quantity of cargo or number of passengers to be carried by any such vessel, [Partly new]

(*l*) for regulating the use of fires and lights within any such port,

(*m*) for enforcing and regulating the use of signals or signal lights by vessels by day or by night in any such port, [Partly new]

(*n*) for regulating the number of the crew which must be on board any vessel afloat within the limits of any such port,

(*o*) for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers or double bottoms of vessels, in any such port [New]

CHAPTER III

PORT-OFFICIALS AND THEIR POWERS AND DUTIES

[Act XII 1875 s 8]

Appointment of conservator

7 (*1*) The Local Government shall appoint some officer or body of persons to be conservator of every port subject to this Act, and may suspend or remove such officer or body

(2) Subject to any direction by the Local Government to the contrary,—

(*a*) in ports where there is a port-officer, the port officer shall be the conservator

(*b*) in ports where there is no port officer, but where there is a harbour-master, the harbour-master shall be the conservator

The Indian Ports Bill

(Chapter III —Port officials and their Powers and Duties —Sections 8 13)

(3) Where the harbour master is not conservator, the harbour master and his assistants shall be subordinate to, and subject to the control of, the conservator

(4) The conservator shall be subject to the control of the Local Government, or of any intermediate authority which that Government may appoint

[Act XII 1875 s 9]

Power of conservator to give and enforce directions for certain specified purposes

8 (1) The conservator of any port subject to this Act may with respect to any vessel within the port, give directions for carrying into effect any rule for the time being in force therein under section 6

(2) If any person wilfully and without lawful excuse refuses or neglects to obey any lawful direction of the conservator, after notice thereof has been given to him, he shall, for every such offence, be punished with fine which may extend to one hundred rupees and with further fine which may extend to one hundred rupees for every day on which, after such notice as aforesaid he wilfully and without lawful excuse continues to disobey the direction

(3) In case of such refusal or neglect, the conservator may do, or cause to be done, all acts necessary for the purpose of carrying the direction into execution, and may hire and employ proper persons for that purpose, and all reasonable expenses incurred in doing such acts shall be recoverable by him from the person so refusing or neglecting to obey the direction

[Act XII, 1875, s 10]

Power to cut warps and ropes

9 The conservator of any such port may in case of urgent necessity cut, or cause to be cut, any warp, rope, cable or hawser endangering the safety of any vessel in the port or at or near to the entrance thereof

[Act XII 1875 s 11]

Removal of obstructions within limits of port

10 (1) The conservator may remove, or cause to be removed, any timber, raft or other thing, floating or being in any part of any such port, which in his opinion obstructs or impedes the free navigation thereof or the lawful use of any pier, jetty, landing place, wharf, quay, dock, mooring or other work on any part of the shore or bank which has been declared to be within the limits of the port and is not private property

(2) The owner of any such timber, raft or other thing shall be liable to pay the reasonable expenses of the removal thereof, and if such owner or any other person has without lawful excuse caused any such obstruction or impediment, or causes any public nuisance affecting or likely to affect such free navigation or lawful use, he shall also be punished with fine which may extend to one hundred rupees

(3) The conservator or any Magistrate having jurisdiction over the offence may cause any such nuisance to be abated

[Act XII 1875, s 12]

Recovery of expenses of removal

11 If the owner of any such timber, raft or other thing, or the person who has caused any such obstruction impediment or public nuisance as is mentioned in the last foregoing section neglects to pay the reasonable expenses incurred in the removal thereof, within one week after demand, or within fourteen days after such removal has been notified in the official Gazette or in such other manner as the Local Government by general or special order directs, the conservator may cause such timber raft or other thing, or the materials of any public nuisance so removed, or so much thereof as may be necessary, to be sold by public auction,

and may retain all the expenses of such removal and sale out of the proceeds of the sale, and shall pay the surplus of such proceeds, or deliver so much of the thing or materials as may remain unsold, to the person entitled to receive the same,

and, if no such person appears, shall cause the same to be kept and deposited in such manner as the Local Government directs

and may, if necessary, from time to time, realize the expenses of keeping the same, together with the expenses of sale, by a further sale of so much of the thing or materials as may remain unsold

[Act XII, 1875, s 13]

Removal of lawful obstructions

12 (1) If any obstruction or impediment to the navigation of any port subject to this Act has been lawfully made, or has become lawful by reason of the long continuance of such obstruction or impediment, or otherwise, the conservator shall report the same for the information of the Local Government, and shall with the sanction of that Government, cause the same to be removed or altered, making reasonable compensation to the person suffering damage by such removal or alteration

(2) Any dispute arising concerning such compensation shall be determined according to the law relating to like disputes in the case of land required for public purposes

[Act XII, 1875 s 14]

Fouling of Government moorings

13 (1) If any vessel hooks or gets foul of any of the buoys or moorings laid down by or by the authority of the Local Government in any such port, the master of such vessel shall not, nor shall any other person except in case of emergency, lift the buoy or mooring for the purpose of unhooking or getting clear from the same without the assistance of the conservator,

The Indian Ports Bill

(Chapter III—Port-officials and their Powers and Duties—Sections 14-18)

and the conservator, immediately on receiving notice of such accident, shall assist and superintend the clearing of such vessel;

and the master of such vessel shall, upon demand, pay such reasonable expenses as may be incurred in clearing the same

(2) Any master offending against the provisions of this section shall for every such offence, be punished with fine which may extend to one hundred rupees

[Act XII, 1875 ss 15 and 44]

Raising or removal of wreck impeding navigation within limits of port

14 (1) If any vessel is wrecked, stranded or sunk in any such port, so as to impede, or be likely to impede, the navigation thereof, the conservator may cause the vessel to be raised, removed or destroyed

(2) If any property recovered by a conservator acting under sub section (1) is unclaimed, or the person claiming it fails to pay the reasonable expenses incurred by the conservator under that sub section, the conservator may sell the property by public auction, if the property is of a perishable nature, forthwith and, if it is not of a perishable nature, at any time not less than six months after the recovery thereof

(3) The expenses incurred by the conservator under sub section (1) shall be payable to him out of the sale proceeds of the property, and the balance shall be paid to the person entitled to the property recovered or, if no such person appears and claims the balance, shall be held in deposit for payment, without interest, to any person thereafter establishing his right thereto

Provided that the person makes his claim within one year from the date of the sale

[Act XII 1875 s 16]

Power to board vessels

15 (1) The conservator or any of his assistants may, whenever he suspects that any offence against this Act has been, or is about to be, committed, or whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

and the person appointed under this Act to receive any port dues, fees or other charges payable in respect of any vessel, may, whenever it is necessary for him so to do in the performance of any duty imposed upon him by this Act,

either alone or with any other person, board any vessel, or enter any building or place, within the limits of any port subject to this Act

(2) If the master of the vessel, or any person in possession or occupation of the building or place, without lawful excuse, refuses to allow any such person as is mentioned in sub section (1) to board or enter such vessel, building or place in the performance of any duty imposed upon him by this Act he shall for every such offence be punished with fine which may extend to two hundred rupees

[Act XII 1875, s 17]

Power to require crews to prevent or extinguish fire

16 (1) For the purpose of preventing or extinguishing fire in any port subject to this Act, the conservator or port officer may require the master of any vessel within the port to place at his disposal such number as he requires not exceeding three fourths of the crew then under the orders of such master

(2) Any master refusing or neglecting to comply with such requisition shall be punished with fine which may extend to five hundred rupees, and any seaman then under his orders who, after being directed by the master to obey the orders of the conservator or port officer for the purpose aforesaid, refuses to obey such orders shall be punished with fine which may extend to twenty five rupees

[Act XII, 1875 s 18 A — Act V 1883 s 31]

Appointment and powers of health officer

17 (1) The Local Government may appoint at any port subject to this Act an officer to be called the health officer, and may suspend or remove from office any officer so appointed

(2) A health officer shall, subject to the control of the Local Government, have the following powers within the limits of the port for which he is appointed, namely —

(a) with respect to any ship, the powers conferred on a shipping master by Act I of 1859, section 71,

(b) power to enter on board any vessel and medically examine all or any of the seamen or apprentices on board the vessel,

(c) power to require and enforce the production of the log book and any other books, papers or documents which he thinks necessary for the purpose of enquiring into the health and medical condition of the persons on board the vessel,

(d) power to call before him and examine for any such purpose all or any of those persons and to require true answers to any questions which he thinks fit to ask,

(e) power to require any person so examined to make and subscribe a declaration of the truth of the statements made by him

[Act XII 1875, s 19]

Indemnity to Government against act or default of port official or pilot

18 The Government shall not be responsible for any act or default of any conservator, port officer or harbour master of any port subject to this Act, or of any deputy or assistant of any of the authorities afore-

The Indian Ports Bill

(Chapter IV—Rules for the Safety of Shipping and the Conservation of Ports—Sections 19 26)

said, or of any person acting under the control or direction of any such authority, deputy or assistant, or for any act or default of any pilot, or for any damage sustained by any vessel in consequence of any defect in any of the moorings, hawsers or other things belonging to the Government which may be used by the vessel

Provided that nothing in this section shall protect the Secretary of State for India in Council from a suit in respect of any act done by or under the express order or sanction of the Government

CHAPTER IV

RULES FOR THE SAFETY OF SHIPPING AND THE CONSERVATION OF PORTS

General Rules

[Act XII 1875 s 20]

Injuring buoys beacons and moorings

19 (*1*) No person shall, without lawful excuse, lift injure, loosen or set adrift any buoy, beacon or mooring fixed or laid down by, or by the authority of the Local Government in any port subject to this Act

(*2*) If any person offends against the provisions of this section, he shall for every such offence be liable in addition to the payment of the amount of damage done to fine which may extend to two thousand rupees, or to imprisonment for a term which may extend to two years

[Act XII 1875 s 21]

Wilfully loosening vessel from moorings

20 If any person wilfully and without lawful excuse loosens or removes from her moorings any vessel within any such port without leave or authority from the owner or master of the vessel he shall, for every such offence be punished with fine which may extend to two hundred rupees or with imprisonment for a term which may extend to six months

[Act XII 1875 s 22]

Improperly discharging ballast

21 (*1*) No ballast or rubbish, and no other thing likely to form a bank or shoal or to be detrimental to navigation, shall, without lawful excuse, be cast or thrown into any such port, or into or upon any place on shore from which the same is liable to be washed into any such port, either by ordinary or high tides, or by storms or land-floods

(*2*) Any of the following persons, namely —

(*a*) any person who by himself or another so casts or throws any ballast or rubbish or any such other thing,

(*b*) the master of any vessel from which the same is so cast or thrown,

[I L R 9 Cal 849]

(*c*) any person employed to remove any ballast or rubbish or any such other thing whose agents or servants so cast or throw the same or cause the same to be so cast or thrown,

shall be punished with fine which may extend to five hundred rupees and shall pay any reasonable expenses which may be incurred in removing the same

(*3*) If after receiving notice from the conservator of the port to desist from so casting or throwing any ballast or rubbish or such other thing, any master continues so to cast or throw it he shall also be liable to simple imprisonment for a term which may extend to two months

(*4*) Nothing in this section applies to any case in which the ballast or rubbish or such other thing is cast or thrown into any such port with the consent in writing of the conservator, or within any limits within which such act may be authorized by the Local Government

[Act XII, 1875 s 23]

Graving vessel within prohibited limits

22 If any person graves, breams or smokes any vessel in any such port, contrary to the directions of the conservator, or at any time or within any limits at or within which such act is prohibited by the Local Government, he and the master of the vessel shall for every such offence be punished with fine which may extend to five hundred rupees each

[Act XII, 1875, s 24]

Boiling pitch on board vessel within prohibited limits

23 If any person boils or heats any pitch tar, resin, dammer turpentine, oil or other such combustible matter on board any vessel within any such port or at any place within its limits where such act is prohibited by the Local Government or contrary to the directions of the conservator, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

[Act XII 1875, s 25]

Drawing spirits by unprotected artificial light

24 If any person, by an unprotected artificial light, draws off spirits on board any vessel within any port subject to this Act, he and the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees each

[Act XII 1875 s 26]

Warping

25 (*1*) Every master of a vessel in any port subject to this Act shall, when required so to do by the conservator, permit warps or hawsers to be made fast to the vessel for the purpose of warping any other vessel in the port, and shall not allow any such warp or hawser to be let go until required so to do

(*2*) A master offending against sub section (*1*) shall be punished for every such offence with fine which may extend to two hundred rupees

[Act XII 1875 s 27]

Leaving out warp or hawser after sunset

26 (*1*) A master of a vessel shall not cause or suffer any warp or hawser attached to his vessel to be left out in any port subject to this Act after

The Indian Ports Bill

(Chapter IV —Rules for the Safety of Shipping and the Conservation of Ports — Sections 27 32 Chapter V —Port dues, Fees and other Charges —Section 33)

sunset in such a manner as to endanger the safety of any other vessel navigating in the port

(2) A master offending against sub section (1) shall be punished for every such offence with fine which may extend to two hundred rupees

[Act XII 1875, s 35] Discharge of fire arms in port

27 If any person, without lawful excuse discharges any fire arm in any port subject to this Act, or on or from any pier landing place, wharf or quay thereof, except a gun loaded only with gunpowder for the purpose of making a signal of distress or for such other purpose as may be allowed by the Local Government, he shall for every such offence be punished with fine which may extend to fifty rupees

[Act XII, 1875, s 36] Penalty on master omitting to take order to extinguish fire

28 If the master of any vessel in which fire takes place while lying in any such port wilfully omits to take order to extinguish the fire or obstructs the conservator or the port officer, or any person acting under the authority of the conservator or port officer in extinguishing or attempting to extinguish the fire, he shall be punished with imprisonment which may extend to six months or with fine which may extend to one thousand rupees, or with both

[Act XII 1875 s 40] Unauthorized person not to search for lost stores

29 (1) No person without the permission of the conservator shall in any port subject to this Act creep or sweep for anchors, cables or other stores lost or supposed to be lost therein

(2) If any person offends against the provisions of sub section (1), he shall be punished with fine which may extend to one hundred rupees

[Act XII 1875 s 41] Removing stones or injuring shores of port prohibited

30 (1) No person without the permission of the conservator hall in any port subject to this Act remove or carry away any rock, stones shingle, gravel, sand or soil or any artificial protection from any part of the bank or shore of the port

and no person shall sink or bury in any part of such bank or shore whether the same is public or private property, any mooring post, anchor or any other thing or do any other thing which is likely to injure or to be used so as to injure such bank or shore except with the permission of the conservator and with the aid or under the inspection of such person, if any, as the conservator may appoint to take part in, or overlook the performance of such work

(2) If any person offends against sub section (1), he shall for every such offence be punished with fine which may extend to one hundred rupees and shall pay any reasonable expenses which may be incurred in repairing any injury done by him to the bank or shore

Special Rules

[Act XII 1875 s 38] Moving of vessels without pilot or permission of harbour master

31 (1) No vessel of the burden of two hundred tons or upwards shall enter, leave or be moved in any port to which this section has been specially extended without having a pilot, harbour master or assistant of the port officer or harbour master on board

and no vessel of any burden less than two hundred tons and exceeding one hundred tons shall enter leave or be moved in any such port without having a pilot, harbour master or assistant of the port officer or harbour master on board unless authority in writing so to do has been obtained from the conservator or some officer empowered by him to give such authority

(2) If any vessel except in case of urgent necessity, enters, leaves or is moved in the port contrary to the provisions of sub section (1) the master of the vessel shall for every such offence be punished with fine which may extend to two hundred rupees, unless upon application to the proper officer the master was unable to procure a pilot, harbour master or assistant of the port officer or harbour master to go on board the vessel

[Act XVII, 1888 s 2] (3) Nothing in sub sections (1) and (2) shall apply to Native vessels when they are entering, leaving or being moved in the port of Bombay

(4) If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may appoint in this behalf shall be conclusive

[Act XII 1875 s 39] Provision of certain vessels with fire extinguishing apparatus

32 (1) Every vessel exceeding the burden of two hundred tons and lying in any port to which this section has been specially extended shall be provided with a proper force pump and hose and appurtenances, for the purpose of extinguishing any fire which may occur on board

(2) The master of such a vessel who having been required by the conservator to comply with the provisions of sub section (1) neglects or refuses, without lawful excuse, so to do for the space of seven days after such requisition, shall be punished with fine which may extend to five hundred rupees

---

CHAPTER V

PORT DUES, FEES AND OTHER CHARGES

[Act XII 1875 s 45] Levy of port dues

33 (1) In each of the ports mentioned in the first schedule such port due, not exceeding the amount specified for the port in the third column of the

The Indian Ports Bill

(Chapter V —Port-dues, Fees and other Charges —Sections 34 35)

schedule, as the Local Government or, in the case of the port of Bombay, the Board of Trustees of that port from time to time directs, shall be levied on vessels entering the port and described in the second column of the schedule, but not oftener than the time fixed for the port in the fourth column of the schedule

(2) Whenever the Local Government, with the previous sanction of the Governor General in Council, declares any other port to be subject to this Act, it may, with the like sanction, by the same or any subsequent declaration, further declare,—

(a) in the terms of any of the entries in the second column of the first schedule, the vessels which are to be chargeable with port dues on entering the port,

(b) the highest rates at which such dues may be levied in respect of vessels chargeable therewith, and

(c) the times at which such vessels are to be so chargeable

(3) All port dues now leviable in any port shall continue to be so leviable until it is otherwise declared in exercise of the powers conferred by this section

(4) An order increasing or imposing port dues under this section shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette

Act XII 1875, s 46]

Variation of port-dues by Local Government

34 The Local Government or, in the case of the port of Bombay, the Board of Trustees of that port may from time to time exempt the vessels entering a port subject to this Act from payment of port dues and cancel the exemption or may from time to time vary the rates at which port dues are to be levied in the port, in such manner as, having regard to the receipts and charges on account of the port, it thinks expedient, by reducing or raising the dues, or any of them

Provided that the rates shall not in any case exceed the amount authorized to be taken by or under this Act

Cf Act XII 1875, ss 47 and 48]

Receipt, expenditure and account of port-charges

35. (1) The Local Government shall appoint some officer or body of persons at every port at which any dues, fees or other charges are authorized to be taken by or under this Act to receive the same and, subject to the control of the Local Government, to expend the receipts on any of the objects authorized by this Act

(2) Such officer or body shall keep for the port a distinct account, to be called the port fund account, showing, in such detail as the Local Government prescribes, the receipts and expenditure of the port, and shall publish annually as soon after the first day of April as may be practicable an abstract in such form as that Government prescribes of the account for the past financial year

(3) If, for any of the purposes of this Act, an advance of money has been or shall be made by the Government on account of any port subject to this Act, simple interest upon that advance, or upon so much of it as remains or shall remain unrepaid, at such rate as the Governor General in Council may determine shall be charged in the port fund account of the port

(4) All moneys, excluding receipts on account of pilotage but including fines and proceeds of waifs, received under this Act at or on account of any port subject to this Act shall be credited in the port fund account of the port

(5) All expenses incurred for the sake of any such port, excluding expenses on account of pilotage but including—

(a) the pay and allowances of all persons upon the establishment of the port,

(b) the cost of buoys beacons lights and all other works maintained chiefly for the benefit of vessels being in or entering or leaving the port or passing through the rivers or channels leading thereto,

(c) pensions, allowances and gratuities of persons who have been employed in the port under this or any other enactment relating to ports and port dues, or such portion of those pensions, allowances and gratuities as the Local Government may by rule determine, [Act V 1889 s 2]

(d) with the previous sanction of the Local Government, contributions towards the support of public hospitals or dispensaries suitable for the reception or relief of seamen or otherwise towards the provision of sanitary superintendence and medical aid for the shipping in the port and for seamen whether ashore or afloat, belonging to ships in the port and [Act V, 1889 s 3]

(e) with the like sanction, contributions towards sailors' homes, institutes, rest-houses and coffee houses and for other purposes connected with the health, recreation and temporal well being of sailors, [New]

shall be charged to the port fund account of the port

(6) The Local Government may direct that for the purposes of this section any number of ports shall be regarded as constituting a single port, and thereupon all moneys to be credited to the port fund account under sub section (4) shall form a common port fund account which shall be available for the payment of all expenses incurred for the sake of any of the ports

Provided with respect to the ports of Calcutta, Madras, Bombay, Karáchi and Rangoon, that none of those ports may be grouped with any other port, and that the port fund account of each of those ports shall be kept separate from the port fund account of any other port

(7) Subject to the provisions of any local law as to the disposal of any balance from time to time standing to the credit of a port fund account, any such balance may be temporarily in

The Indian Ports Bill

(Chapter V—Port dues, Fees and other Charges—Sections 36-41)

vested in such manner as the Local Government may direct

[Act XII 1875 s 48]

36 The person to whom any dues, fees or other charges authorized to be taken by or under this Act are paid shall grant to the person paying the same a proper voucher in writing under his hand, describing the name of his office, the port or place at which the dues fees or other charges are paid, and the name, tonnage and other proper description of the vessel in respect of which the payment is made

Receipts for port charges

[Act XII, 1875, s 49

37 (*1*) Within twenty four hours after the arrival within the limits of any port subject to this Act of any vessel liable to the payment of port dues under this Act the master of the vessel shall report her arrival to the conservator of the port

Master to report arrival

(*2*) A master failing without lawful excuse to make such report within the time aforesaid shall for every such offence be punished with fine which may extend to one hundred rupees

(*3*) Nothing in this section applies to tug-steamers, ferry steamers or river steamers plying in any of the ports subject to this Act

[Act XII, 1875, s 50]

38 If any vessel liable to the payment of port dues is in any such port without proper marks on the stem and stern posts thereof for denoting her draught, the conservator may cause the same to be ascertained by means of the operation of hooking, and the master of the vessel shall be liable to pay the expenses of the operation

Conservator may in certain cases ascertain draught and charge expense to master

[Act XII 1875 s 51]

39 In order to ascertain the tonnage of any vessel liable to pay port dues the following rules shall be observed —

Ascertainment of tonnage of vessel liable to port dues

(*1*) (*a*) If the vessel is a British registered vessel, or a vessel registered under Act X of 1841 or Act XI of 1850 or under any other law for the time being in force for the registration of vessels in British India, the conservator may require the owner or master of the vessel or any person having possession of her register to produce the register for inspection

(*b*) If the owner or master or such person neglects or refuses to produce the register or otherwise to satisfy the conservator as to what is the true tonnage of the vessel in respect of which the port dues are payable, he shall be punished with fine which may extend to one hundred rupees, and the conservator may cause the vessel to be measured, and the tonnage thereof to be ascertained, according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British ships, and in such case the owner or master of the vessel shall also be liable to pay the expenses of the measurement

(*2*) If the vessel is not a British registered vessel or a vessel registered under Act X of 1841 or Act XI of 1850, or under any other law for the time being in force for the registration of vessels in British India, and the owner or master thereof fails to satisfy the conservator as to what is her true tonnage according to the mode of measurement prescribed by the rules for the time being in force for regulating the measurement of British ships, the conservator shall cause the vessel to be measured and the tonnage thereof to be ascertained, according to the mode aforesaid, and in such case the owner or master of the vessel shall be liable to pay the expenses of the measurement

(*3*) If the vessel is a vessel of which the tonnage cannot be ascertained according to the mode of measurement mentioned in clauses (*1*) and (*2*), the tonnage of the vessel shall be determined by the conservator on such an estimate as may seem to him to be just of the burden of the vessel [New]

[Act XII 1875 s 52]

40 If the master of any vessel in respect of which any port dues, fees or other charges are payable under this Act refuses or neglects to pay the same on demand, the authority appointed to receive such port dues, fees or other charges may distrain or arrest the vessel, and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount due is paid,

Distraint and sale on refusal to pay port charges

and in case any part of the port dues, fees or other charges, or of the costs of the distress or arrest or of the keeping of the vessel or other thing distrained or arrested, remains unpaid for the space of five days next after any such distress or arrest, may cause the vessel or other thing distrained or arrested to be sold, and with the proceeds of such sale may satisfy the port-dues, fees or other charges and the costs, including the costs of sale, remaining unpaid, and shall render the surplus, if any, to the master of the vessel upon demand

[Act XII, 1875 s 53]

41 The officer of Government whose duty it is to grant a port clearance for any vessel shall not grant such clearance—

No port clearance to be granted until port charges are paid

(*a*) until her owner or master, or some other person, has paid or secured to the satisfaction of such officer the amount of all port dues, fees and other charges, and of all fines, penalties and expenses to which

The Indian Ports Bill

(Chapter V—Port-dues, Fees and other Charges—Sections 42 47)

the vessel or her owner or master is liable under this Act,

17 & 18 Vict, c 104. (*b*) until all expenses, which by the Merchant Shipping Act, 1854, section 228, are to be borne by her owner, incurred since her arrival in the port from which he seeks clearance, have been paid

[Act XII, 1875, s 54] **42** (*1*) If the master of any vessel in respect of which any such sum as is mentioned in the last foregoing section is payable causes her to leave any port without having paid the sum, the authority appointed to receive port dues, fees and other charges at the port under this Act may require in writing the authority appointed to receive port dues fees and other charges under this Act at any other port in British India to which she may proceed, or in which she may be, to levy the sum

Port charges payable in one port recoverable at any other port

(*2*) The authority to whom the requisition is directed shall proceed to levy such sum in the manner prescribed in section 40, and a certificate purporting to be made by the authority appointed to receive port dues, fees and other charges at the port where such sum as is mentioned in the last foregoing section became payable, stating the amount payable, shall be sufficient *primâ facie* proof of such amount in any proceeding under section 40, and also (in case the amount payable is disputed) in any subsequent proceeding under section 58

[Act XII 1875 s 55] **43** (*1*) If the master of a vessel evades the payment of any such sum as is mentioned in section 41, he shall be punished with fine which may extend to five times the amount of the sum

Penalty for evading payment of port charges

(*2*) In any proceeding before a Magistrate on a prosecution under sub section (*1*), any such certificate as is mentioned in section 42, sub section (*2*), stating that the master has evaded such payment, shall be sufficient *primâ facie* proof of the evasion, unless the master shows to the satisfaction of the Magistrate that the departure of the vessel without payment of the sum was caused by stress of weather, or that there was lawful or reasonable ground for such departure

(*3*) Any Magistrate having jurisdiction under this Act in any port to which the vessel may proceed, or in which she may be found, shall be deemed to have jurisdiction in any proceeding under this section

[Act XII 1875 s 56] **44** A vessel entering any port subject to this Act (other than a port in Burma) in ballast and not carrying passengers shall be charged with a port due at a rate to be determined by the Local Government or, in the case of the port of Bombay, by the Board of Trustees of that port, and not exceeding three-fourths of the rate with which she would otherwise be chargeable

Port due on vessels in ballast

[Act XII, 1875 s 57] **45** When a vessel enters a port subject to this Act but does not discharge or take in any cargo or passengers therein (with the exception of such unshipment and reshipment as may be necessary for purposes of repair), she shall be charged with a port due at a rate to be determined by the Local Government or, in the case of the port of Bombay, by the Board of Trustees of that port and not exceeding half the rate with which she would otherwise be chargeable

Port due on vessels not discharging or taking in cargo

Provided that a vessel entering any of the ports within the territories administered by the Governor of Fort St George in Council and leaving the same within forty eight hours, without discharging or taking in any passengers or cargo, shall not be charged with any port due

[Act XII, 1875 s 58, and Act XVII 1882, s 3] **46** No port due shall be chargeable in respect of any pleasure yacht, nor shall any such due be chargeable in respect of any vessel which, having left any port is compelled to re enter it by stress of weather or in consequence of having sustained any damage

Port dues not chargeable on pleasure yachts or on vessels re entering from stress of weather

[Act XII, 1875, s 59.] **47** (*1*) The Local Government may, by notification in the official Gazette, order that there shall be paid in respect of every vessel entering any port subject to this Act, within a reasonable distance of which there is a public hospital or dispensary suitable for the reception or relief of seamen requiring medical aid such further port dues not exceeding one anna per ton as the Local Government thinks fit

Power to impose hospital port dues

(*2*) Such port dues shall be called hospital port dues, and the Local Government shall, in making any order under sub section (*1*), have regard to any contributions made under section 35 sub section (*5*) clause (*d*)

(*3*) An order imposing or increasing hospital port-dues shall not take effect till the expiration of sixty days from the day on which the order was published in the local official Gazette

(*4*) Whenever the Local Government is satisfied that proper provision has been made by the owners or agents of any class of vessels for giving medical aid to the seamen employed on board such class of vessels, or that such provision is unnecessary in the case of any class of vessels, it may by notification in the official Gazette, exempt such class of vessels from any payment under this section [New]

[Act V 1885 s 4] (*5*) The Local Government may, by notification in the official Gazette, cancel any order under sub-section (*1*) or withdraw any exemption under sub section (*4*)

The Indian Ports Bill

(Chapter V—Port-dues, Fees and other Charges—Sections 48-49 Chapter VI—Hoisting Signals—Sections 50 52) Chapter VII—Provisions with respect to Penalties—Sections 53-57)

[Act XII 1875, s 60]

Application of hospital port dues

48 Hospital port dues shall be applied, as the Local Government may direct, to the support of any such hospital or dispensary as aforesaid, or otherwise for providing sanitary superintendence and medical aid for the shipping in the port in which they are levied and for the seamen belonging to the ships therein, whether such seamen are ashore or afloat

[Act XII 1875, s 61]

Fees for pilotage and certain other services

49 (*1*) Within any port subject to this Act, fees may be charged for pilotage, hauling, mooring re mooring hooking, measuring and other services rendered to vessels at such rates as the Local Government may direct

Provided that, in the case of fees for pilotage the previous sanction of the Governor General in Council has been obtained

(*2*) The fees now chargeable for such services shall continue to be chargeable unless and until they are altered in exercise of the power conferred by sub section (*1*)

CHAPTER VI

HOISTING SIGNALS

[Act XII 1875 ss 62 and 63]

Master to hoist number of vessel

50 (*1*) The master of every inward or outward bound vessel, on arriving within signal distance of any signal station established within the limits of the river Hooghly, or within the limits of any part of a river or channel leading to a port subject to this Act, shall, on the requisition of the pilot in charge of the vessel, signify the name of the vessel by hoisting the number by which she is known or by adopting such other means to this end as may be practicable and usual and shall keep the signal flying until it is answered from the signal station

(*2*) If the master of a vessel arriving as aforesaid offends against sub section (*1*), he shall be punished for every such offence with fine which may extend to one thousand rupees

Act XII, 875, s 63]

Pilot to require master to hoist number

51 (*1*) Every pilot in charge of a vessel shall require the number of the vessel to be duly signalled as provided by the last foregoing section

(*2*) When, on such requisition from the pilot, the master refuses to hoist the number of a vessel or to adopt such other means of making her name known as may be practicable and usual the pilot may on arrival at the first place of safe anchorage, anchor the vessel and refuse to proceed on his course until the requisition has been complied with

[Act XII, 1875, s 65]

Penalty on pilot disobeying provisions of this Chapter

52 Any pilot in charge of a vessel who disobeys, or abets disobedience to, any of the provisions of this Chapter shall be punished with fine which may extend to five hundred rupees for each instance of such disobedience or abetment, and in addition shall be liable to have his authority to act as a pilot withdrawn

---

CHAPTER VII

PROVISIONS WITH RESPECT TO PENALTIES

[Act XII, 1875, s 42]

Penalty for disobedience to rules and orders of the Local Government

53 If any person disobeys any rule or order which a Local Government has made in pursuance of this Act and for the punishment of disobedience to which express provision has not been made elsewhere in this Act, he shall be punished for every such offence with fine which may extend to one hundred rupees

[Act XII, 1875, s 66]

Offences how triable and penalties how recovered

54 All offences against this Act shall be triable by a Magistrate, and any Magistrate may, by warrant under his hand, cause the amount of any fine imposed upon the owner or master of any vessel, for any offence committed on board of the vessel, or in the management thereof, or otherwise in relation thereto, whereof the owner or master is convicted, to be levied by distress and sale of the vessel and the tackle, apparel and furniture thereof, or so much thereof as is necessary

[Act XII, 1875, s 67]

Costs of conviction

55 (*1*) In case of any conviction under this Act the convicting Magistrate may order the offender to pay the costs of the conviction in addition to any fine or expenses to which he may be liable

(*2*) Such costs may be assessed by the Magistrate, and may be recovered in the same manner as any fine under this Act

[Act XII, 1875, ss 68 and 76 cf Act X 1887, s 46]

Ascertainment and recovery of expenses and damages payable under this Act

56 (*1*) If any dispute arises as to the sum to be paid in any case as expenses or damages under this Act it shall be determined by a Magistrate upon application made to him for that purpose by either of the disputing parties

(*2*) Whenever any person is liable to pay any sum, not exceeding one thousand rupees, as expenses or damages under this Act, any Magistrate, upon application made to him by the authority to whom the sum is payable, may, in addition to or instead of any other means for enforcing payment, recover the sum as if it were a fine

[Act XII 1875, s 69]

Costs of distress

57 Whenever any fine, expenses or damages is or are levied under this Act by distress and sale, the costs of the distress and sale may be levied

The Indian Ports Bill

(Chapter VII—Provisions with respect to Penalties—Sections 58 60 Chapter VIII—Supplemental Provisions—Section 61 63)

in addition to such fine, expenses or damages, and in the same manner

[Act XII, 1875, s 70]

Magistrate to determine the amount to be levied in case of dispute

58 If any dispute arises concerning the amount leviable by any distress or arrest under this Act or the costs payable under the last foregoing section, the person making the distress or using the arrest may detain the goods distrained or arrested, or the proceeds of the sale thereof, until the amount to be levied has been determined by a Magistrate, who, upon application made to him for that purpose, may determine the amount, and award such costs to be paid by either of the parties to the other of them as he thinks reasonable, and payment of such costs, if not paid on demand, shall be enforced as if they were a fine

[Act XII 1875, s 71]

Jurisdiction over offences beyond local limits of jurisdiction

59 (*1*) Any person offending against the provisions of this Act in any port subject to this Act shall be punishable by any Magistrate having jurisdiction over any district or place adjoining the port

(*2*) Such Magistrate may exercise all the powers of a Magistrate under this Act, in the same manner and to the same extent as if the offence had been committed locally within the limits of his jurisdiction, notwithstanding that the offence may not have been committed locally within such limits, and, in case any such Magistrate exercises the jurisdiction hereby vested in him, the offence shall be deemed, for all purposes, to have been committed locally within the limits of his jurisdiction

[Act XII, 1875, s 72]

Conviction to be quashed on merits only

60 (*1*) No conviction, order or judgment of any Magistrate under this Act shall be quashed for error of form or procedure, but only on the merits, and it shall not be necessary to state, on the face of the conviction, order or judgment, the evidence on which it proceeds

(*2*) If no jurisdiction appears on the face of the conviction, order or judgment, but the depositions taken supply that defect, the conviction, order or judgment shall be aided by what so appears in the depositions

---

CHAPTER VIII

SUPPLEMENTAL PROVISIONS

[Act XII, 1875, s 73]

Hoisting unlawful colours in port

61 (*1*) If any vessel belonging to any of Her Majesty's subjects, or sailing under British colours, hoists, carries or wears, within the limits of any port subject to this Act, any flag, jack, pennant or colours the use whereof on board such vessel has been prohibited by the Merchant Shipping Act, 1854, or any other statute now or hereafter to be in force, or by any proclamation made or to be made in pursuance of any such statute, or by any of Her Majesty's regulations in force for the time being, the master of the vessel shall, for every such offence, be punished with fine which may extend to fifty rupees

17 & 18 Vict, c 104.

(*2*) Such fine shall be in addition to any other penalty recoverable in respect of such an offence

(*3*) Any officer of Her Majesty's Navy or of the Indian Marine Service within the limits of such port, or the conservator of such port, may enter on board any such vessel, and seize and take away any flag, jack, pennant or colours so unlawfully hoisted, carried or worn on board the same

[Act XII 1875, s 74]

Foreign deserters

62 Any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters Act, 1852, has by an order of Her Majesty in Council been, or shall hereafter be, declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman, not being a slave from any ship of such Foreign Power, may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and, upon due proof of the desertion, may order him to be conveyed on board the vessel to which he belongs, or, at the instance of the Consul, to be detained in custody until the vessel is ready to sail, or, if the vessel has sailed, for a reasonable time not exceeding one month

15 & 16 Vict, c 26

Provided that a deposit be first made of such sum as the Magistrate deems necessary for the subsistence of the deserter during the detention, and that the detention of the deserter shall not be continued beyond twelve weeks

[Act XII 1875, s 75]

Application of sections 10 and 21

63 (*1*) The provisions of sections 10 and 21 shall be applicable to all ports heretofore or hereafter declared by the Local Government to be ports for the shipment and landing of goods but not otherwise subject to this Act, and may be enforced by any Magistrate to whose ordinary jurisdiction any such port is subject

(*2*) Any penalties imposed by him, and any expenses incurred by his order, under the said provisions shall be recoverable respectively in the manner provided in sections 54 and 56

(*3*) In any of the said ports for the shipment and landing of goods the consent referred to in section 21, sub section (*4*) may be given by the principal officer of customs at such port or by any other officer appointed in that behalf by the Local Government

The Indian Ports Bill

(Chapter VIII—Supplemental Provisions—Sections 64-69)

[Act XII 1875 s 77 and Act IX 1879 s 17]

Application of Maulmain and Bassein port dues

64 The port due leviable under this Act in either of the ports of Maulmain and Bassein shall, to the extent of one anna and six pie per ton, be applicable in the first place to defray the expenses of maintaining the existing port lights of Burma

[New]

Validation of irregular contributions

65 Any money contributed before the passing of this Act from any port fund for any purpose connected with the health, recreation and well being of sailors shall be deemed to have been lawfully contributed from the fund

[17 & 18 Vict c 104, s 546]

Grant of sites for sailors institutes

66 Any local authority in which any immoveable property in or near a port is vested may, with the previous sanction of the Local Government, appropriate, and either retain and apply, or transfer by way of gift or otherwise, the whole or any part of the property as a site for, or for use as, a sailors' home or other institution for the health, recreation and temporal well being of sailors

[Act XII 1875 s 18]

Exercise of powers of conservator by his assistants

67 (*1*) All acts, orders or directions by this Act authorized to be done or given by any conservator may, subject to his control, be done or given by any harbour master or any assistant of such conservator or harbour master

(*2*) Any person authorized by this Act to do any act may call to his aid such assistance as may be necessary

[Act XII 1875, s 9]

Service of written notices of directions

68 Any written notice of a direction given under this Act, left for the master of any vessel with any person employed on board thereof, or affixed on a conspicuous place on board of the vessel, shall, for the purposes of this Act, be deemed to have been given to the master thereof

[Act XII, 1875 s 42 and Act V, 1885 s 1]

Publication of orders of Local Government

69 Every declaration, order and rule of a Local Government made in pursuance of this Act shall be published in the official Gazette, and a copy thereof shall be kept in the office of the conservator and at the custom house, if any, of every port to which the declaration, order or rule relates and shall there be open at all reasonable times to the inspection of any person without payment of any fee

The Indian Ports Bill

(The First Schedule—Ports, Vessels chargeable, Rate of Port-dues and Frequency of Payment)

THE FIRST SCHEDULE

PORTS, VESSELS CHARGEABLE, RATE OF PORT DUES AND FREQUENCY OF PAYMENT

(*See sections 1 and 33*)

PART I—BENGAL

Name of port	Vessels chargeable	Rate of port dues	Due how often chargeable in respect of same vessel
1	2	3	4
Calcutta	Sea going vessels of twenty tons and upwards	Not exceeding four annas per ton provided that, in the case of *dhonis* and country vessels employed in the coasting trade, the rate shall be one half the rate chargeable in respect of other vessels	Whenever the vessel enters the port, except in the case of *dhonis* and country vessels employed in the coasting trade, which shall not be chargeable with port-dues at the same port more than once in sixty days
	Tug steamers and river steamers	Not exceeding four annas per ton	Once between the 1st January and the 30th June, and once between the 1st July and the 31st December, in each year
Chittagong	Sea-going vessels of ten tons and upwards	Not exceeding four and a half annas per ton	Whenever the vessel enters the port, except in the case of mail-steamers and coasting vessels which shall not be chargeable more than once in sixty days
	Tug steamers and river steamers	Ditto	Once between the 1st January and the 30th June and once between the 1st July and the 31st December, in each year
Cuttack Ports,—namely False Point and Pooree	Sea going vessels of ten tons and upwards	Not exceeding four annas per ton	Whenever the vessel enters any one of the ports, except in the case of mail steamers and coasting vessels, which shall not be chargeable more than once in sixty days
Balasore Ports,—namely Balasore Churáman, Laichhunpur, Chánua, Subarnarekha Dhamra (Chandbally) and Sartha	Ditto	Ditto	Ditto

Explanations to Part II of the First Schedule

Explanation 1—In this Part of the Schedule—

(*a*) "ship" means a sailing vessel and "steamer" a steam vessel

(*b*) 'coasting ship' or 'coasting steamer' means respectively a ship or steamer which at any port discharges cargo exclusively from, or takes in cargo exclusively for any port in the island of Ceylon or in any part of India between the western most part of Sind and the south eastern most part of Burma, and "coasting steamer" includes a coasting steam vessel having a general pass under section 164 of the Sea Customs Act 1878 VIII of 1878

(*c*) "foreign ship" or "foreign steamer" means respectively a ship or steamer not being a coasting ship or coasting steamer

Explanation 2—As regards the levy of port dues, each of the following pairs of ports, namely, Cocanada and Coringa Nagore and Negapatam, Beypore and Calicut, is to be treated as if it were only one port every vessel in respect of which such dues have been charged and taken at one of any of the said pairs being exempted from the dues on entering the other of the same pair immediately after leaving the one in which the dues were charged and taken

(The Second Schedule—Enactments repealed)

THE SECOND SCHEDULE

ENACTMENTS REPEALED.

(*See section 2*)

Number and year	Subject or title	Extent of repeal
	Acts of the Governor General in Council	
XII of 1875	Indian Ports Act, 1875	So much as has not been repealed
IX of 1879	Burma Coast lights Act, 1879	Section 17 and the preamble to that section
VII of 1880	Indian Merchant Shipping Act, 1880	The first paragraph of section 72 from and inclusive of the word "Chapter" down to and inclusive of the word "repealed"
IV of 1881	Madras Port dues Act, 1881	The whole
XVII of 1882	Indian Ports Act, 1882	The whole
V of 1883	Indian Merchant Shipping Act, 1883	Section 31
XI of 1883	Reduction of Port dues in the Port of Bombay	The whole
IV of 1884	Indian Explosives Act, 1884	Section 3
V of 1885	Amendment of the Indian Ports Act, 1875	The whole.
	Act of the Governor of Fort St George in Council	
II of 1872	Madras Port Rules	The whole

STATEMENT OF OBJECTS AND REASONS

FOURTEEN years have passed since the law relating to Indian ports and port dues was last consolidated During that time places which were ports have ceased to be so, and places which were not previously ports have had the Ports Act of 1875 extended to them The Act has itself been amended by no fewer than nine Acts, and a Bill for further amending it was pending in the Council of the Governor General when proposals for the introduction of a further Bill for still further amending the Act were received by the Government of India In these circumstances it appeared to the Government that the time had come for again consolidating as well as amending, the law relating to ports and port-dues A Bill was accordingly prepared in October last and submitted for the criticism of the Governments of Madras, Bombay, Bengal and Burma The replies of those Governments, and the opinions of the authorities consulted by them, have now been received and considered, and the Bill has been amended accordingly Effect has not been given to all the suggestions received partly because some will it is believed, be more suitably complied with in a Bill which is about to be introduced into the Council of the Lieutenant Governor of Bengal, and partly because others are such as should, in the opinion of the Government of India be left for consideration by the Select Committee which will have the advantage of hearing what the mercantile members of the Council have to say about them

2 The principal amendments which it is proposed to effect in the existing law will now be stated in the order of the sections and schedules in which they occur in the Bill —

(1) *Section 1 sub section* (3) —It has been proposed by the Government of Bengal that sections 40 and 41 of the Act of 1875 (sections 29 and 30 of the Bill) should apply to all ports without being specially extended thereto

(2) *Section 3 clause* (6) —The definition of the word 'ton' has been added for the purpose of giving effect to a proposal made by the Board of Trustees for the Port of Bombay

(3) *Section 6 clause* ( ) —The mention of passengers is suggested by the Governor of Bombay in Council and the Lieutenant-Governor of Bengal

(4) *Section 6 clauses* (*l*) *and* (*m*) —These clauses have been re modelled in the direction suggested by the Lieutenant Governor of Bengal and the Governor of Bombay in Council respectively

(5) *Section 6, clause* (*o*) —This clause has been proposed by the Board of Trustees for the Port of Bombay, and is believed to be as necessary for other ports in India as for that port

(6) *Section 21, sub section* (2), *clause* (*c*) —This clause is suggested by the case reported at I L R 9 Cal 849

(7) *Section 35 sub section* (5), *clause* (*e*), *and section 65* —These clauses are designed to authorise for the future and validate as regards the past certain contributions which Port Commissioners and Trustees make in aid of sailors' homes, coffee houses and other institutions for purposes connected with the well being of seamen ashore Apart from legal considerations, the action of Port Commissioners and Trustees in this matter appears to have been, and to be, generally defensible and proper

(8) *Section 39 clause* (3) —This clause has been suggested by the Commissioner of Customs at Bombay to meet the case of firewood and other articles being conveyed from one port to another on rafts which are incapable of being measured as ships

(9) *Section 47, sub section* (4) —The addition to this clause has been suggested by the Lieutenant Governor of Bengal to meet the case of native seamen in the coasting brigs plying from Chittagong These brigs are manned almost entirely by men of the Chittagong District, who, when ill, do and will continue to go to their homes Provision for giving medical aid to these seamen at Chittagong is not necessary, but the want of such provision there for Europeans is much felt

(10) *Section 66* —This clause reproduces a section of the Merchant Shipping Act 1854, which is in force in the United Kingdom, and may be found useful in

British India, where most local authorities are now bodies corporate, with their powers as to the disposition of their property strictly defined

(*11*) *First Schedule Parts I and IV*—It is proposed that tug steamers and river steamers at Chittagong and Rangoon pay a rate not exceeding four and a half annas and four annas, respectively, per ton every half year

(*12*) *First Schedule Part II*—This Part of the Schedule is still unsettled, its details being under the consideration of the Governor of Fort St George in Council and local experts, including the members of the Madras Chamber of Commerce

(*13*) *First Schedule, Part III*—The rate of port dues for coasting steamers visiting ports of the Northern and Southern Groups in the Bombay Presidency has at the instance of the Commissioner of Customs and the Collector of Salt revenue been modified in favour of ship owners

(*14*) *Second Schedule*—It will be for the consideration of the Government of Madras whether Act II of 1872 of the Governor in Council need be maintained It is obviously desirable that the power to make port-rules should be as uniform as possible for the whole of British India, and it appears that up to the beginning of last year at any rate it had not been found by the Madras Government to be necessary to make any rules under its Act of 1872

It may here be observed that a clause in the direction of clause XVI in that Act has been supported by the Board of Trustees for the Port of Bombay but has not been adopted at this stage of the Bill because a power to detain the master, and therefore his ship, for the purposes of a departmental inquiry as to the conduct of a port official or pilot ought not in the opinion of the Government of India to be given unless the power is conclusively proved to be necessary in the public interests

The power conferred on the Madras Government by clause XVII in its Act of 1872 for regulating the use of day signals is proposed to be taken in clause (*m*) of section 6 of the Bill

3 The chief authorities of Indian ports having already been consulted on the Bill as circulated in October last, it is requested that opinions on the revised Bill may be furnished to the Government of India in the Legislative Department by the 1st of March, 1889

The 30th January, 1889

D BARBOUR

S HARVEY JAMES,
Secretary to the Government of India

SUPPLEMENT TO

The Gazette of India.

No 5] CALCUTTA, SATURDAY, FEBRUARY 2, 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may seem to be of interest to the Public and such as may usefully be made known The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT regularly on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post

No Official Orders or Notifications the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be inserted in the SUPPLEMENT so that Orders and Notifications the body of the GAZETTE must be looked to

ACCOUNT

Establishment

RECRUITMENT OF THE SUPERIOR AND SUBORDINATE DIVISIONS OF THE ACCOUNTS BRANCH OF THE PUBLIC WORKS DEPARTMENT

No 19 A —F Calcutta the 30th January 1889

RESOLUTION—By the Government of India Public Works Department

Read the following —

Home Department Office Memorandum No 633, dated 16th March 1888
Report of the Public Service Commission, Chapter X, paras 99 and 100
Public Works Department Code, Volume I, Chapter II, paras 52 to 62
Report, dated 3rd October 1888, of a Committee appointed to revise the subjects of examination for entrance to the Superior and Subordinate Divisions of the Accounts Branch, Public Works Department

OBSERVATIONS —The Government of India has had under consideration the Report of the Public Service Commission on the Accounts Branch of the Public Works Department, in which the opinion is expressed that the present system of recruitment for this Branch of the service is unsatisfactory The recruitment hitherto has generally been—

(1) by transfer of Officers (Military and Civil) from the Engineer Establishment of the Public Works Department,
(2) by promotion of selected Accountants from the Subordinate service, and
(3) by appointment of nominated candidates outside the service, who have passed a prescribed entrance examination

The Public Service Commission considered that the number of Engineers and Military Officers already employed was excessive, and recommended certain alterations in the mode of recruitment of outside candidates

2 The transfer of Military Officers to the Accounts Branch, except under special circumstances, has already been stopped, and it is expected that the transfer of Civil Engineers to that Branch will also become exceptional when the present surplus staff of Engineers has disappeared

3 A Committee was appointed to work out the details of a revised scheme for the examinations qualifying for appointment to the Accounts Branch, both Superior and Subordinate, and, with certain modifications, the Government of India is pleased to accept its recommendations

---

RESOLUTION —The Government of India is now pleased to lay down the following general rules on the subject of the future recruitment for the Superior service of the Accounts Branch of the Department —

I —Appointments will be made mainly from successful candidates in a nominated (not open) competitive examination, and occasionally from senior Accountants as instanced in Public Works Department Code, Volume I, Chapter II, para 59

II —Nominations to the competitive examination will, as now, rest with the Accountant General, on the conditions laid down in Public Works Code, Volume I, Appendix C, paras 1 to 5, except that the maximum age in para 4 will be increased to 23 years, and that the number of candidates nominated will be at least three for each vacancy

III —The Accountant General will submit annually to the Government of India, early in January, a report stating which, if any, of the Accountants in the Subordinate service he recommends for promotion, on approval, to the Superior service

IV —After orders have been passed on that report an advertisement will be issued in the *Gazette of India* about the beginning of February, stating the number of vacancies to be competed for at the next examination

V.—The candidates who pass the examination will be appointed Apprentice Examiners, in order of merit, and to the extent of the number of vacancies announced for competition With respect to confirmation and subsequent promotion, they will be subject to the conditions laid down in Public Works Code, Volume I, Chapter II, paras 52 and 54

2 The examination for appointment to the Superior Accounts Branch will, in future, be in two parts, preliminary and general, as detailed in the accompanying Appendix The preliminary examination is meant to be a test of hand writing and of knowledge of Arithmetic and Hindustani, and candidates failing to pass this test will be debarred from appearing at the general examination

3 The examination will be held by the Principal of the Thomason Civil Engineering College, Rurki Candidates whose names have already been registered for examination should, accordingly, be instructed to communicate with that Officer and to state what subjects in groups IV and V they propose to take up An examination fee of Rs 32 should, at the same time, be remitted by each candidate to the Principal

4 A notification will issue subsequently prescribing the date and locality of the examinations

5 The limitation of age to 23 years will not apply to any candidates whose names may have been registered before this date for the next examination, and who may be above the prescribed age when it is held

6 The only modification considered necessary in the entrance examination for the Subordinate Division is to make it competitive This is explained in the last paragraph of the Appendix to this Resolution The examination will continue to be conducted as at present ordered

7 The Government of India desires to acknowledge the promptness and completeness with which the Committee,* referred to in para 8 of the preamble, have carried out the work entrusted to them

* Mr R Logan c s
T C Lewis
, R B Buckley
, R G Macdonald

ORDER —Ordered, that this Resolution be forwarded to the Local Governments and Administrations and Officers noted on the margin, for information, and that it be published in the *Gazette of India*

The Governments of Madras Bombay Bengal, the North Western Provinces and Oudh and the Punjab
The Chief Commissioners Central Provinces Burma Assam and Coorg
The Resident at Hyderabad
The Resident at Mysore (through Foreign Department)
The Agents to the Governor General for Central India Rajputana and Baluchistan
The Superintendent of Port Blair and Chief Commissioner Andaman and Nicobar Islands
The Director General of Telegraphs
The Director General of Railways
The Consulting Engineers to the Government of India for Railways Calcutta Lucknow and Central Division
The Comptroller General
The Accountant General Bengal

Also to the Department of Finance and Commerce for information

Also to the Accountant General, Public Works Department, for further necessary action

R C B PEMBERTON, *Colonel, R E,*
Secretary to the Govt of India

Document accompanying
Appendix

Appendix to Public Works Department Resolution No 19 A —E, dated 25th January 1889

Entrance examinations for appointment to the Superior and Subordinate Accounts Branches of the Public Works Department

SUPERIOR DIVISION

Preliminary test

Handwriting—

The candidate will be required to write a short passage of English from dictation, and also to copy two octavo pages of ordinary printed matter, the time allowed for the latter being 45 minutes, and for the whole examination 1 hour
The tests will be clearness and rapidity

Arithmetic—(to cover the whole subject) —One paper

Text-books —Cook's Arithmetic for schools, or Barnard Smith's Arithmetic

Note —Solutions by Algebraical methods will be accepted

Mental Arithmetic —One paper

Hindustani—

(*a*) Translation into English of an easy Hindustani passage printed in Roman character
(*b*) Translation into Hindustani of easy English sentences If Persian or Nagri characters are not used the Hunterian system of spelling must be followed
(*c*) Oral replies to grammatical questions given in English by the Examiner
(*d*) Conversation in Hindustani with an educated native on ordinary subjects

To pass in the preliminary test a candidate must obtain 75 per cent of the total marks in each of the subjects

General competitive test.

Groups of subjects

I —English
II —Mathematics
III —Book-keeping
Also, not more than two subjects to be selected out of groups IV and V
IV —Latin, Sanskrit, Arabic, Persian, French and German
V —Physics or Chemistry

The subjects and marks to be —

Groups	Subjects	Particulars	Marks
I	English	2 papers on the text-books—500 marks for each paper	1,000
		1 Essay paper	500
			1,500
II	Mathematics	Euclid, Algebra, and Plane Trigonometry—2 papers,—750 marks each	1,500
		Conic Sections, Statics, Dynamics and Hydrostatics—1 paper	750
			2,250
III	Book keeping	1 paper on general subjects	250
		1 paper on the system of ordinary Public Works Accounts as prescribed in the Code	250
IV	Languages	1 paper in each language,—500 marks each	1,000
V	Physics and Chemistry	1 paper on each subject,—500 marks each subject	
		TOTAL	5 250

In the English papers half of the marks given to each question will be awarded for correct English used in in writing it

No candidate will be eligible for appointment who fails to get 40 per cent of the marks in each of the subjects in groups I and papers 1 and 2 of group II, or be allowed to count marks in any subject in which he fails to get 25 per cent of the maximum

The standards and text books will be as follows, the text books being changed when necessary

English text books

1 A recent History of England—Molesworth's History of England (1830-74)
2 A book about India—Sir W W Hunter's Indian Empire (Trubner's Oriental Series)
3 A Marshall's Economics of Industry
4 Huxley's Physiography

English Essay

Several subjects to be given, out of which the candidate must elect one, such subjects being selected from the text books

Mathematics

Paper I —Euclid and Algebra
Euclid—Books I to IV, VI, XI to proposition 21, with definitions of Book V, also easy deductions
Algebra—including progressions permutations and combinations, binomial, and exponential theorems, logarithms and logarithmic series
Text book—Todhunter's Algebra
Paper II —Plane Trigonometry—As far as solution of triangles, properties of triangles, and area of circle
Text book—Todhunter's Plane Trigonometry
Elementary mensuration—No special text-book
Paper III —Geometrical Conic Sections (the Parabola and Ellipse)
Statics Dynamics, and Hydrostatics, treated mathematically, but without the aid of the Differential and Integral Calculus
Text books—Drew's Geometrical Treatise on Conic Sections
Wilson's Elementary Statics (or any other)
Garnett's Elementary Dynamics
Besant's or Babu S B Mukerjee's Elementary Hydrostatics

Book keeping

One paper to cover whole subject
Text-books —Ball and Hamilton, and W Inglis

One paper on ordinary Public Works accounts—
Public Works Department Code, Volume I, Chapter XII

I—Latin

Horace—Odes I & II Cicero—De Oratore I Livy—XXI and XXII Gow's Companion to School Classics	Text-books

II—Sánskrit

Banabhatta—Kadambari Uttarbhagá, page 80 to end, in Calcutta edition of Samvat 1919 Bharavi—Kiratarjuniya, Cantos I—III Sakuntala Also Sayce's Principles of Comparative Philology	Ditto

III—Arabic

1 Arabic (B A Course of Punjab University) 2 Hamasa, 31 pages (Urdu Guide Press) E W Lane's Arabian Society in Middle Ages [Studies of "Thousand and One Nights"] Publisher, Allen & Co	Ditto

IV—Persian

1 Persian (B A Course of Punjab University) 2 Shah Namah first 50 pages, Macan's Calcutta edition 3 Firoz Shahi, first 50 pages, Asiatic Society's edition Geiger's Civilisation of Eastern Iranians in Ancient Times, Vol I Ethnography and Social Life (Translated) Clarendon Press	Ditto

V and VI

French and German

If any candidates appear in these subjects, papers will be set containing passages in prose and verse by modern authors and idiomatic phrases for translation into English, and similar English prose passages and idiomatic phrases for translation into French and German Specimen papers showing the nature of the examination will be supplied on application

Physics—2 papers

* Deschanel's Natural Philosophy * S P Thompson's Elementary Lessons in Electricity and Magnetism Jevons' Principles of Science, 2nd edition omitting Books I and II	Ditto

Chemistry—2 papers

Frankland and Japp's Inorganic Chemistry, edition 1884, omitting all the sections in small type, and the parts relating to the following elements —Zirconium, Thorium, Niobium, Tantalum, Beryllium, Palladium, Iridium, Rhodium, Osmium, Ruthenium, Norwegium, Cerium, Didymium Lanthanum, Yttrium, Erbium, Terbium, Scandium, Samarium, and Decipium Remsen's Organic Chemistry Jevons' Principles of Science, 2nd edition, omitting Books I and II	Ditto

SUBORDINATE DIVISION

The examination prescribed in paragraph 18 of Appendix C, Volume I of the Public Works Department Code, will be continued, but, in future, this examination will be a competitive one, conducted by the Roorki, Seebpore Madras and Poona Colleges, for a place on the Accountant General's list of selected candidates This list will be circulated to Examiners by the Accountant General, and appointments will be made by Examiners only from persons whose names are on this register

* NOTE —It is probable that Daniell's Text Book of the Principles of Physics will be shortly substituted for these two books

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 26th January, 1889*—No rain More rain wanted in Ganjam, Tinnevelly, Coimbatore, and Salem Standing crops generally good, but withering in Coimbatore and parts of Bellary, and suffering from want of water in parts of Ganjam, Vizagapatam, Cuddapah, Chingleput, and from disease in South Arcot Pasture generally sufficient except in parts of Salem and Coimbatore Agricultural operations progressing Prices rising in nine districts, including five northern, falling in six, and stationary elsewhere General prospects favourable except in Ganjam and Coimbatore Laborers on Gopalpore canal and Rushikulya works, Ganjam, 2,900 and 30,853, respectively

Bombay —*For week ending 30th January, 1889*—Rain in parts of Sind Late crops in three talukas of Surat, two of Poona, and in parts of Khandesh, Ahmednagar and Sholapur unsatisfactory Gram in one taluka of Ahmedabad damaged by insects, and late crops in three talukas of Satara by insects and blight Cotton in parts of Sholapur and Bijapur *Jowari* in parts of Belgaum and exotic cotton and wheat in parts of Dharwar blighted, standing crops including opium in Baroda otherwise good except wheat in Broach Probable outturn of cotton in Broach from ten to twelve annas Fodder scarce in parts of Khandesh and Kathiawar Prices rising in three talukas of Nasik

Bengal —*For week ending 29th January, 1889*—Slight rain fell on the 24th instant in Behar and North Bengal, and in a few places in Chota Nagpur and Central Bengal Yesterday morning (30th) there was a smart shower, with high wind in and around Calcutta The *rabi* crops are generally reported to be fair, but in Chota Nagpur and parts of Central Bengal the prospects are not very hopeful on account of want of sufficient rain Spring rice is still being transplanted and is doing well Poppy and tobacco crops are reported on satisfactorily, and sugarcane, which is being harvested in some districts, is expected to yield a fair outturn on the whole The latest report regarding the affected tracts in the Patna Division shows that the rain of the 24th instant has done some good to the scanty *rabi* crops, that grain stocks are everywhere sufficient and prices are fairly stationary, that the number of persons on relief works is steadily increasing, and that gratuitous relief has been given to a few persons only in the districts of Mozufferpore and Durbhanga

North-Western Provinces and Oudh —*For week ending 30th January, 1889*—Rain has fallen in nearly all districts, greatly improving the prospects of the *rabi* crops, but more is still needed Poppy is doing well Sugar cane being pressed Markets well stocked Prices steady Condition of cattle satisfactory

Punjab —*For week ending 30th January, 1889*—Rainfall good and general throughout the province, though no rain is reported from Rawalpindi and Shahpur, it is believed that rain has fallen there Prices rising in Sialkot and Rawalpindi, unsettled in Delhi, and stationary elsewhere *Rabi* sowings completed Watering of crops in Lahore More rain is wanted in Hissar, Umballa, and Mooltan The crops have been generally improved by the recent rain, but those on unirrigated lands are reported to be slightly damaged by previous want of rain Stock cattle are reported healthy Pasturage or fodder sufficient, except in Hissar, Mooltan, Dera Ismail Khan, and in parts of Rawalpindi

Central Provinces —*For week ending 30th January, 1889*—Slight rain in northern districts, but not sufficient to benefit winter crops which are below average in Nagpur and Chattisgarh, elsewhere they are favourable Cattle in fair condition

Burma —*For week ending 26th January, 1889* —A little rain has fallen in Tavoy Prospects are favourable on the whole There is scarcely any alteration in the price of paddy since last week

Assam —*For week ending 30th January, 1889* —Weather warm at Dibrugarh, normal elsewhere Slight rain in most districts Reaping of winter rice finished, pulses and mustard are still being gathered and sugarcane being pressed Sowing of early rice begun Potatoes being sown in the Khasi Hills

Mysore and Coorg —*For week ending 30th January, 1889* —No rain Crops in good condition Outturn of crops harvested generally favourable Water supply ample except in one taluk of the Mysore District Prices slightly risen in the Tumkur District

Coffee picking nearly completed in Coorg

Berar and Hyderabad —*For week ending 30th January, 1889* —Picking of cotton and harvesting of other *kharif* crops almost completed *Rabi* crops are thriving Prospects unchanged Agricultural stock good Fodder insufficient in some districts Prices steady

No rain during the week in Hyderabad *Rabi* crops thriving Sowing of *tabi* nearly finished Scarcity of fodder still felt Prices stationary

Central India —*For week ending 30th January, 1889* —Slight rain in Gwalior, Bundelkhund, Baghelkhund, and Goona Weather cloudy with high wind at Indore Crops in Goona damaged by hail and want of rain Prices of food grains rising in Neemuch

Rajputana —*For week ending 30th January, 1889* —Slight rain at many places Agricultural operations satisfactory Standing crops thriving Agricultural stock good Pasturage or fodder sufficient except in Marwar, Kherwara, Meywar, and Dholpur Prices rising in Meywar, steady elsewhere Opium and cotton fair

Nepal —*For week ending 24th January, 1889* —Slight rain Weather fair Prospects good

The 7th February 1889

No 40 —The Right Reverend F R Johnson, D D, Lord Bishop of Calcutta and Metropolitan in India and the Island of Ceylon, having returned from leave on medical certificate, and resumed charge of his office on the forenoon of the 14th January, 1889, the unexpired portion of the leave granted to His Lordship is hereby cancelled

A P MACDONNELL,
Secretary to the Government of India

REVENUE AND AGRICULTURAL DEPARTMENT

NOTIFICATIONS—FORESTS

Calcutta, the 6th February, 1889

No 120 *F*—Consequent on the retirement from the service of Mr W Jacob, Deputy Conservator of Forests, 1st grade, Central Provinces, the following promotions are made, with effect from the 31st December, 1888, and until further orders —

Mr A E Wild, Officiating Deputy Conservator, 1st grade, Punjab, is confirmed in that grade

Mr R H M Ellis, Deputy Conservator, 2nd grade, Bengal, is appointed to officiate in the 1st grade of Deputy Conservators

The 7th February, 1889

No 130 *F*—The following permanent promotions are made in the Forest Department, consequent on the retirement from the service of Dr W Schlich Inspector General of Forests to the Government of India (on deputation in England), with effect from the 1st January, 1889 —

Mr B Ribbentrop, Conservator, 2nd grade, and sub *pro tem* Inspector General of Forests, is confirmed in the latter appointment

Mr G Mann, sub *pro tem* Conservator, 2nd grade, Assam, is confirmed in that grade

Mr C Bagshawe Deputy Conservator, 2nd grade, and sub *pro tem* Conservator, 3rd grade Central Circle, North Western Provinces and Oudh, is confirmed in the latter appointment

In notifying Dr W Schlich's retirement from the Forest Department, the Governor General in Council desires to place on record an acknowledgment of Dr Schlich's valuable and distinguished services both in organising the Forest Administration in Sind and Bengal, and in developing the Imperial Department as Inspector General of Forests

Dr Schlich's labours to perfect the technical education of the Forest Staff deserve special notice To him is to a great extent due the credit of having established on a satisfactory and practical basis the School at Dehra for the instruction of the Executive Forest Staff, and to a still greater extent that of having organised the Forest Branch of the College at Cooper's Hill for the education of the Controlling Staff It is a satisfaction to the Government of India to know that Dr Schlich's retirement does not sever all connection between him and this country, and that, as Principal Professor of Forestry in Cooper's Hill College, he will still continue to exercise a useful influence over the Forest Departments of India

E C BUCK,

Secretary to the Government of India

FOREIGN DEPARTMENT

NOTIFICATIONS

Fort William, the 4th February, 1889

No 508-*I*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879, and of all other powers enabling him in this behalf, the Governor General in Council is pleased to apply to the Hyderabad Assigned Districts the provisions of the Indian Majority Act, 1875, subject to the following modifications, namely —

For section 1, read "This Act may be called the Majority Act, 1889 It extends to the Hyderabad Assigned Districts, except so far as regards subjects of Her Majesty, and it shall come into force at once"

In section 2, clause (*b*), for the words "Her Majesty's subjects in India" read "persons in the Hyderabad Assigned Districts"

In section 3, omit the words "and every minor under the jurisdiction of any Court of Wards' and after the words and figures "(Act No X of 1865)," read "as applied to the Hyderabad Assigned Districts"

For the words "British India" or "British Indian domicile" wherever they occur, read "the Hyderabad Assigned Districts" or "domicile in the Hyderabad Assigned Districts," respectively

CIVIL LEAVE CODE

SECTION 1

Rule 1

Page 144

Add a note —

[NOTE—If the health of an officer, who is serving under an agreement which does not give a title to leave until the expiry of a fixed period, fails during that period, his engagement should be terminated, unless—

(1) he has exhibited such special ability that it is desirable on public grounds to retain him even at the cost of the difference between a leave allowance and any passage money, &c, due under his agreement, and

(2) it is certified that he will in all probability be able to return to duty at or before the end of six months

In cases in which the engagement is not terminated, leave may be granted for a period not exceeding six months and on allowances not exceeding half pay]

REWARDS

ORDER OF MERIT

No 123—The Governor-General in Council is pleased to admit the undermentioned native officers, non commissioned officers and sepoys of the Khaibar Rifles to the 3rd class of the Order of Merit —

SUBADAR MAJOR MIR AKBAR KHAN—For conspicuous gallantry on the following occasions —

1 On the 8th October, 1888, at the attack on Abu village, Black Mountain, in having single handed charged five or six of the enemy, and saved the life of a wounded sepoy

2 On the 24th October, 1888, at the attack on the village of Ghori, when he was the first man to enter the village under a heavy fire

3 On the 1st November, 1888, at the capture of the Ghoraphor Pass, when he led the right attack and displayed great personal bravery

4 On the 3rd November, 1888, at the attack on Pokal, when he led his men over difficult ground under a heavy fire, and cleared the enemy from the left flank, inflicting on them heavy loss

5 On the same occasion, in having carried a wounded sepoy to a place of safety under a heavy fire during an attack on the rear guard, when returning from Pokal

6 On the 4th November, 1888, in having with thirty of his men dislodged a large body of the enemy who were occupying the summit of the Chel Mountain

JEMADAR MUHAMMAD GHALLI (MADGALLI) —For conspicuous gallantry on the following occasions —

1 On the 10th October, 1888, at the attack on Khund, Black Mountain, Hazara, when he led the attack and was the first man to enter the village

2 On the 12th October, 1888, in having with four sepoys driven thirty or forty of the enemy out of a village near Betban

3 On the 15th October, 1888, in having, near the village of Mer Khanai, when in command of a flanking party, during the return march from Kunhar, rushed forward with a few of his men and repulsed a party of the enemy who had opened fire from the heights

4 On the 28th October, 1888, in the vicinity of Thakot, in having with a piquet dislodged the enemy from a *sangar,* killing several of their number

5 On the 1st November, 1888, in having, at the capture of the Ghoraphor Pass been conspicuously to the front in storming the heights under a heavy fire

6 On the 3rd November, 1888, in having, when returning from Pokal, during a series of most determined attacks on the rear guard, been the last to leave his position, on each occasion allowing the enemy to come to close quarters, and thus securing the retirement of his men

NAICK HABIB —For conspicuous gallantry on the 28th October, 1888, in the vicinity of Thakot, Black Mountain, Hazara, in having with three sepoys captured a *sangar* occupied by the enemy

SEPOY AKHTAR SHAH —For conspicuous gallantry on the 8th October, 1888, in having in the attack on the Abu village, been the first man to reach the village under a heavy fire On this occasion he was severely wounded

No 29, SEPOY MIR ABBAS, AND No 583, SEPOY AJAR DIN —For conspicuous gallantry on the 1st November, 1888, in having, at the storming of the Ghoraphor Pass, Black Mountain, Hazara, been the first of the Khaibar Rifles to reach the crest

1 Tenders should be submitted in the form to be obtained from this office and superscribed "Tenders for (name of article)" and should be accompanied by a deposit of 5 per cent on the value of tender

2 Samples of articles to be supplied should be produced with tenders, such samples being distinctly marked with the name of the tenderer and rate offered

3 Every successful competitor will have to pay a security of 5 per cent on the value of the articles for which tender is accepted and to sign a contract bond (a form of which can be seen at the Office) within fifteen days from the date of his being informed by this Office of the acceptance of his tender In case of failure to execute the bond, the deposit of 5 per cent delivered with the tender will be forfeited and credited to Government and his tender considered as cancelled

4 The necessary stamp duty on the contract bond should also be paid by the contractor

5 The quantities mentioned in the above schedule are only probable quantities, but the actual quantities required will be mentioned in the orders of this Office, given from time to time agreeably to which only the contractors should supply articles

6 The Superintendent of Stationery reserves to himself the right of rejecting any tender without assigning any reason for so doing

F C BARNES,
Supdt of Stationery

GOVERNMENT STATIONERY OFFICE,
The 23rd January 1889

POST OFFICE

NOTIFICATIONS

Calcutta, the 27th January, 1889

With effect from the 1st April, 1889 the sender of a value payable article will be required to sign a certificate to the effect that the article is sent in execution of a *bonâ fide* order and in the case of a value payable unregistered packet the sender will, in addition to signing the certificate referred to above, be required to prepay the usual money order commission on the amount specified for recovery from the addressee, by affixing postage stamps of the value of the commission to the form filled up by him

2 In lieu of the forms at present filled up by the senders of value payable articles two revised forms will be substituted from the 1st April, 1889—one for use with all value payable articles other than value payable unregistered book packets, and the other for use with value payable unregistered book packets Each form will contain the certificate to be signed by the sender, and space is provided in the form for use with value payable unregistered packets for the postage stamps to be affixed in payment of commission

3 In case a value payable unregistered packet is refused by the addressee or returned as unclaimed to the sender no refund of the commission prepaid will be granted

The 1st February, 1889

ACCELERATED MAIL SERVICE FROM CALCUTTA TO BOMBAY

A special train will be run experimentally for eight weeks from Howrah to Bombay starting from Howrah on Wednesdays at 8 PM, and reaching Bombay on Fridays at 3 PM, in connection with the homeward Peninsular and Oriental Steam Navigation Company's contract steamers

The first train will leave Howrah on Wednesday the 20th February, 1889

Fully prepaid foreign letters and fully prepaid foreign printed papers* only (not post cards, legal and commercial documents samples or any other articles), may be posted for despatch by this special train On each *letter* a special fee of *1½ anna per ½ ounce* will be levied in addition to the ordinary foreign postage rate, and on each packet of *printed papers* a special fee of *½ anna per 2 ounces* (or *½ anna per 4 ounces* for each newspaper) will likewise be levied

* Including newspapers and books

The rates of postage for the principal places concerned are shown below —

COUNTRIES &c	LETTERS		PRINTED PAPERS INCLUDING BOOKS &c			
	EACH LETTER PER ½ OUNCE		EACH NEWSPAPER PER 4 OUNCES		EACH PACKET PER 4 OUNCES	
	By ordinary train	By special train	By ordinary train	By special train	By ordinary train	By special train
	As	As	As	As	As	As
United Kingdom						
Served through the United Kingdom (United States of America Canada West Indies and Union places)	4	6	1½	2	1½	2
Continent Europe Aden Zanzibar Mauritius Egypt Malta Gibraltar United States of America and Canada when served *viâ* Italy	3	4½	1	1½	1	1½
Cape of Good Hope Natal *viâ* Brindisi	9	10½	3	3½	3	3½
Cape of Good Hope and Natal *viâ* Aden	8	9½	1	1½	1	1½

These special rates will in no way affect or apply to foreign correspondence transmitted by the regular mail leaving Howrah on Tuesday evenings

Letters and printed papers (including newspapers, books, &c) intended to be conveyed by the special train, must be fully prepaid with the ordinary foreign postage as well as with the special fee otherwise they will be detained until the departure of the next week's regular mail

Postal notices will be circulated in the stations concerned, notifying to the public the day and hour when letters should be posted for despatch by the special train

PART V.

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to amend the Law relating to Fraudulent Marks on Merchandise was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th February, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Law relating to Fraudulent Marks on Merchandise was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto

From Registrar, High Court Calcutta No 3171, dated 5th December, 1888 [Paper No 1]
From Chief Commissioner Ajmere Merwára No 78 C —690, dated 12th December, 1888 [Paper No 2]
From Secretary to Chief Commissioner Coorg, No 2202—2037 dated 18th December 1888 and enclosure [Papers No 3]
From Chief Secretary to Government Madras, No 2603 dated 21st December 1888, and enclosures [Papers No 4]
From Her Majesty's Secretary of State for India No 30 Legislative, dated 6th December 1888 and enclosures [Papers No 5]
From Officiating Chief Secretary to Chief Commissioner Burma No 186—17 L dated 9th January 1889 and enclosures [Papers No 6]
From Secretary for Berar to Resident, Hyderabad No 17 G, dated 11th January 1889 [Paper No 7]
Telegram from Secretary to Chief Commissioner Assam, dated 17th January, 1889 [Paper No 8]
From Secretary to Government North-Western Provinces and Oudh No 73 R —VI 95 A dated 17th January 1889 [Paper No 9]
Telegram from Secretary to Chief Commissioner Central Provinces dated 21st January 1889 [Paper No 10]
From Chief Secretary to Government, Bombay No, 182, dated 16th January, 1889, and enclosures [Papers No 11]
From Secretary to Government North Western Provinces and Oudh No 96—VI 95A dated 19th January 1889, and enclosures [Papers No 12]
From Officiating Junior Secretary to Chief Commissioner Central Provinces No 81 S, dated 24th January 1889 [Paper No 13]

Observations by the Hon ble Sir Dinshaw Manockjee Petit Kt. [Paper No 15]
From Secretary to Government, Bengal No 37, dated 28th January 1889 and enclosures [Papers No 16]
From Secretary to Government North Western Provinces and Oudh, No 195—VI 95 A dated 2nd February 1888 and enclosures [Papers No 17]
From Secretary to Government Bengal, No 205 dated 4th February 1889

2 We have added to the Bill clauses (sections 10 (2), 12 and 19) requiring all goods sold by length or the piece to have their real length stamped thereon in standard yards before they are brought into British India in the case of imported goods, and before they are removed from the factory in the case of goods manufactured in British India The adoption of a compulsory provision of this kind was advocated by the Madras Cham-

ber of Commerce and has been strongly pressed upon us by the Bengal Chamber In a communication received by us from the latter body, it is stated —

'A very important suggestion put forward by the Sub Committee—though with one dissentient—is that the stamping upon all goods sold by length or the piece of the length of such goods in standard yards of 36 inches or fractions of a yard should be made compulsory

The Committee of the Chamber of Commerce have after special consideration of the principle here involved come to the decision that the interests of the trade generally of the honest trader and of the Indian consumer require them to give to this recommendation their strong support The scope of the Indian Merchandise Marks Act' is so wide that as regards goods sold by length a door would be left open for a resort to those fraudulent practices the measure is intended to combat if the importation of goods not bearing a stamp of length were permitted The Committee have made enquiries which satisfy them that even in Calcutta this way of escaping the provisions of the Act has already begun to be availed of and they have reason to believe that the importation of goods having no stamp of length is on the increase

Some five years ago a powerful agitation against 'unstamped goods' sprung up in Bombay and led to a combination on the part of native dealers which resulted in the almost total displacement of such goods in the Bombay market The agitation spread to Calcutta where it forced itself on the consideration of the Chamber of Commerce and induced the Committee to sanction special arrangements for the protection of native buyers, not only against goods not stamped with an indication of length but also against goods incorrectly so stamped To-day the Committee feel themselves justified in saying that the experience of the various Indian import markets points very clearly to the mischief which will result from allowing goods to be brought forward for sale bearing no indication of their length and on this point they would ask to be excused if they briefly mention some of the evidence which has been put before them

In Calcutta itself a trading firm in the import trade felt themselves compelled to stamp the length on certain goods because they discovered that the goods they had imported unstamped were being fraudulently stamped in the bázár

At Karáchi the importation of unstamped goods has quite recently almost disorganised that market The Committee have before them a notice, published at Karachi and dated 1st of October 1888 in the Sindhi Marwari Persian and Arabic languages which runs as follows —

Notice—Caution

"Dealers in European piece goods are warned that for time past goods have been imported and sold in the Karáchi market bearing no length stamp as has been the invariable custom up to this time

Buyers of goods without length stamp plainly written on each piece run the risk of being deceived'

The state of things which has given rise to the necessity for such a notice as that just quoted would probably cause at Karáchi as it did in Bombay and Calcutta a combination amongst dealers against the purchase of unstamped goods and as at Bombay and Calcutta such a combination would not do more than check to a greater or less extent the evil at which it was directed and would fail to stop it altogether The question which thus forces itself upon the consideration of the Legislature is whether such an Act as the Indian Merchandise Marks Act being under consideration the mercantile communities of India should be left to combat an admitted mercantile mischief by the proved ineffective means of combinations amongst native buyers

The Committee of the Chamber of Commerce are in a position to supplement what they have said above by evidence not only weighty in itself but so independent in character as in their opinion, to increase its value During the discussions on the Bill the Committee received from Mr James Kerr Bell a member of the Manchester Chamber of Commerce a letter dated from Madras the 19th December 1888 in which that gentleman says —

I find in my visits to the Indian bázárs that the *omission* of length stamps is a source of great misrepresentation in the sale of piece goods I would suggest that the new Act should make the stamping of exact length compulsory In this way the honest trader would be protected from the many underhand ways which are at present in vogue to elude the scope of the English Act

The Madras, Bombay and Karáchi Chambers of Commerce and the Bombay Mill owners Association have been consulted by us with reference to this proposal of the Bengal Chamber and requested to favour us with their opinion as to whether or not effect should be given to it These bodies have all replied that in their opinion the fullest effect should be given to the proposal

3 On the suggestion of the Bengal Government we have, in section 2, sub section (*2*), and in the amended section 478 of the Indian Penal Code in section 3, so revised the definitions of trade description and trade mark that the one may not overlap the other We have further, with reference to some remarks of the Calcutta Trades Association on the Bill so expressed the definition of trade mark as to make it include a proprietary mark of a trader as well as of a manufacturer

4 On the suggestion of the Bengal Chamber of Commerce we have substituted the word "numeral" (L R Ch D 659) for the word "figure' in section 2, sub section (*2*), and section 4, sub section (*1*)

5 Certain remarks of the same Chamber have led us to amplify section 4, sub section (*1*), corresponding to section 3, sub-section (*2*), of the English Act

6 We have provided in section 9, sub sections (*2*) and (*3*), for appeals against forfeitures

7 We have by sections 13, 14 and 15 introduced into the Bill section 10, sub section (*2*), of the English Act respecting evidence of origin of goods imported by sea, section 14 of the same Act respecting costs of criminal proceedings, and section 15 of the same Act respecting the limitation of prosecutions

8 By section 16 we have, at the instance of the Bengal Chamber, proposed to invest the Governor General in Council with authority to prescribe rules as to the limits of variation which are to be recognised by the Courts as permissible in the case of certain goods, and as to other such matters likely to arise in the working of the Act

9 The other alterations which we have proposed are not material and do not call for special remark

The 7th February, 1889

No II

A Bill to amend the Law relating to Fraudulent Marks on Merchandise

WHEREAS it is expedient to amend the law relating to fraudulent marks on merchandise, It is hereby enacted as follows —

Title extent and commencement

1 (*1*) This Act may be called the Indian Merchandise Marks Act, 1889

(*2*) It extends to the whole of British India, and, *subject to the provision of the last section of this Act*,

(*3*) It shall come into force on the first day of April, 1889

Definitions

2 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "trade mark" has the meaning assigned to that expression in section 478 of the Indian Penal Code as amended by this Act

XLV of 1860

[50 & 51 Vict c 28, s 3 (*1*)]

(*2*) "trade description" means any description, statement or other indication, direct or indirect,—

[*Act XLV 1860, s 478*]

(*a*) as to the number, quantity, measure gauge or weight of any goods, or

(*b*) as to the place or country in which, *or the time at which*, any goods were made or produced, or

(*c*) as to the mode of manufacturing or producing any goods, or

(*d*) as to the material of which any goods are composed, or

(*e*) as to any goods being the subject of an existing patent, privilege or copyright,

and the use of any *numeral*, word or mark which according to the custom of the trade is commonly taken to be an indication of any of the above matters shall be deemed to be a trade description within the meaning of this Act

[50 & 51 Vict c 28 s 3 (*1*)]

(*3*) "false trade description" means a trade description which is untrue in a material respect as regards the goods to which it is applied, and includes every alteration of a trade description, whether by way of addition, effacement or otherwise, where that alteration makes the description untrue in a material respect, and the fact that a trade description is a trade mark or part of a trade mark shall not prevent such trade description being a false trade description within the meaning of this Act

(*4*) "goods" means anything which is the subject of trade or manufacture and

(*5*) "name" includes any abbreviation of a name

Amendment of the Indian Penal Code

Substitution of new sections for sections 478 to 480 of the Indian Penal Code

3. For that part of Chapter XVIII of the Indian Penal Code which relates to Trade and Property Marks the following shall be substituted, namely — XLV of 1860

"*Of Trade, Property and Other Marks*

Trade mark

"478 A mark used for denoting that goods *are the manufacture or merchandise of a particular person* is called a trade mark, and for the purposes of this Code the expression 'trade mark' includes any trade mark which is registered in the register of trade marks kept under the Patents, Designs and Trade Marks Act, 1883, and any trade mark which, either with or without registration, is protected by law in any British possession or foreign State to which the provisions of the one hundred and third section of the Patents, Designs and Trade Marks Act, 1883, are, under Order in Council, for the time being applicable [50 & 51 Vict c 28, s 3 (*1*)] 46 & 47 Vict, c

Property mark

"479 A mark used for denoting that moveable property belongs to a particular person is called a property mark

Using a false trade mark

"480 Whoever marks any goods or any case, package or other receptacle containing goods, or uses any case, package or other receptacle with any mark thereon, in a manner *reasonably* calculated to cause it to be believed that the goods so marked, or any goods contained in any such receptacle so marked, *are the manufacture or merchandise of a person whose manufacture or merchandise they are not*, is said to use a false trade mark

Using a false property mark

"481 Whoever marks any moveable property or goods or any case, package or other receptacle containing moveable property or goods, or uses any case, package or other receptacle having any mark thereon, in a manner *reasonably* calculated to cause it to be believed that the property or goods so marked, or any property or goods contained in any such receptacle so marked, belong to a person to whom they do not belong, is said to use a false property mark

"482 Whoever uses any false trade mark or any false property mark shall, unless he proves that he acted without intent to defraud, be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both

Punishment for using a false trade mark or property mark

"483 Whoever counterfeits any trade mark or property mark used by any other person shall be punished with imprisonment of either description for a term which may extend to two years, or with fine, or with both

Counterfeiting a trade mark or property mark used by another

"484 Whoever counterfeits any property mark used by a public servant or any mark used by a public servant to denote that any property has been manufactured by a particular person or at a particular time or place or that the property is of a particular quality or has passed through a particular office or that it is entitled to any exemption, or uses as genuine any such mark knowing the same to be counterfeit, shall be punished with imprisonment of either description for a term which may extend to three years, and shall also be liable to fine

Counterfeiting a mark used by a public servant

"485 Whoever makes or has in his possession any die, plate or other instrument for the purpose of counterfeiting a trade mark or property mark, or has in his possession a trade mark or property mark for the purpose of denoting that any goods *are the manufacture or merchandise of a person whose manufacture or merchandise they are not*, or that they belong to a person to whom they do not belong, shall be punished with imprisonment of either description for a term which may extend to three years, or with fine, or with both

Making or possession of any instrument for counterfeiting a trade mark or property mark

"486 Whoever sells, or exposes or has in possession for sale or any purpose of trade or manufacture any goods *or things* with a counterfeit trade mark or property mark affixed to or impressed upon the same or to or upon any case, package or other receptacle in which such goods are contained, shall, unless he proves—

Selling goods marked with a counterfeit trade mark or property mark

(*a*) that, having taken all reasonable precautions against committing an offence against this section, he had at the time of the commission of the alleged offence no reason to suspect the genuineness of the mark, and

(*b*) that, on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons from whom he obtained such goods or things, or

(*c*) that otherwise he had acted innocently,

be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both

"487 Whoever makes any false mark upon any case, package or other receptacle containing goods in a manner *reasonably* calculated to cause any public servant or any other person to believe that such receptacle contains goods which it does not contain or that it does not contain goods which it does contain or that the goods contained in such receptacle are of a nature or quality different from the real nature or quality thereof shall unless he proves that he acted without intent to defraud, be punished with imprisonment of either description for a term which may extend to three years, or with fine, or with both

Making a false mark upon any receptacle containing goods

"488 Whoever makes use of any such false mark in *any manner prohibited by the last foregoing section* shall, unless he proves that he acted without intent to defraud, be punished as if he had committed an offence against *that* section

Punishment for making use of any such false mark

"489 Whoever removes, destroys, defaces *or adds to* any property mark, intending or knowing it to be likely that he may thereby cause injury to any person, shall be punished with imprisonment of either description for a term which may extend to one year, or with fine, or with both"

Tampering with property mark with intent to cause injury

Trade Descriptions

4 (*1*) The provisions of this Act respecting the application of a false trade description to goods *or respecting goods to which a false trade description is applied*, shall extend to the application to goods of any such *numerals*, words or marks, or arrangement or combination thereof, whether including a trade mark or not, as are *or is* reasonably calculated to lead persons to believe that the goods are the manufacture or merchandise of some person other than the person whose manufacture or merchandise they really are, *and to goods having such numerals words or marks, or arrangement or combination, applied thereto*

Provisions supplemental to the definition of false trade description

[50 & 51 Vict c 28, s 3 (2) *and Wright pp 16 & 38 thereon*]

(*2*) The provisions of this Act respecting the application of a false trade description to goods, or respecting goods to which a false trade description is applied, shall extend to the application to goods of any false name or initials of a person, and to goods with the false name or initials of a person applied, in like manner as if such name or initials were a trade

[50 & 51 Vict c 28, s 3 (3)]

description, and for the purpose of this enactment the expression false name or initials means as applied to any goods any name or initials—

(*a*) not being a trade mark, or part of a trade mark, and

(*b*) being identical with or a colourable imitation of, the name or initials of a person carrying on business in connection with goods of the same description and not having authorised the use of such name or initials

[New]

(*3*) A trade description which denotes or implies that there are contained in any goods to which it is applied more yards, feet or inches than there are contained therein standard yards, standard feet or standard inches is a false trade description

[50 & 51 Vict c 28 s 5]

Application of trade descriptions

5 (*1*) A person shall be deemed to apply a trade description to goods who—

(*a*) applies it to the goods themselves or

(*b*) applies it to any covering label, reel or other thing in or with which the goods are sold or are exposed or had in possession for sale or any purpose of trade or manufacture, or

(*c*) places, encloses or annexes any goods which are sold, or are exposed or had in possession for sale or any purpose of trade or manufacture in, with or to any covering, label, reel or other thing to which a trade description has been applied, or

(*d*) uses a trade description in any manner *reasonably* calculated to lead to the belief that the goods in connexion with which it is used are designated or described by that trade description

(*2*) A trade description shall be deemed to be applied whether it is woven, impressed or otherwise worked into or annexed or affixed to the goods or any covering, label, reel or other thing

(*3*) The expression "covering" includes any stopper, cask, bottle vessel, box, cover, capsule case, frame or wrapper, and the expression 'label' includes any band or ticket

[50 & 51 Vict c 28, s 2 (*1*)]

Penalty for applying a false trade description

6 If a person applies a false trade description to goods, he shall, subject to the provisions of this Act and unless he proves that he acted without intent to defraud, be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in the case of a second or subsequent conviction with imprisonment which may extend to *one year*, or with fine, *or with both*

[*Act XLV, 1860, s 482*]

Penalty for selling goods to which a false trade description is applied

7 If a person sells, or exposes or has in possession for sale or any purpose of trade or manufacture, any goods or things to which a false trade description is applied, he shall, unless he proves— [50 & 51 Vict c 28, s 2 (*2*)]

(*a*) that, having taken all reasonable precautions against committing an offence against this section he had at the time of the commission of the alleged offence no reason to suspect the genuineness of the trade description, and

(*b*) that on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons from whom he obtained such goods or things, or

(*c*) that otherwise he had acted innocently,

be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in case of a second or subsequent conviction with imprisonment which may extend to *one year*, or with fine, *or with both* [*Act XLV 1860 s 486*]

Unintentional Contravention of the Law relating to Marks and Descriptions

Unintentional contravention of the law relating to marks and descriptions

8 Where a person is accused under section 482 of the Indian Penal Code of using a false trade mark or property mark by reason of his having applied a mark to any goods, property or receptacle in the manner mentioned in section 480 or section 481 of that Code, as the case may be or under section 6 of this Act of applying to goods any false trade description or under section 485 of the Indian Penal Code of making any die plate or other instrument for the purpose of counterfeiting a trade mark or property mark, and proves— [50 & 51 Vict c 28, s 6] XLV of 1860

(*a*) that in the ordinary course of his business he is employed on behalf of other persons, to apply trade marks or property marks, or trade descriptions, or, as the case may be, to make dies, plates or other instruments for making, or being used in making, trade marks or property marks, and that in the case which is the subject of the charge he was so employed and was not interested in the goods or other thing by way of profit or commission dependent on the sale thereof, and

(*b*) that he took reasonable precautions against committing the offence charged, and

(*c*) that he had, at the time of the commission of the alleged offence, no reason to suspect the genuineness of the mark or description, and

(*d*) that, on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons on whose behalf the mark or description was applied,

he shall be acquitted

Forfeiture of Goods

50 & 51 Vict 28 s 2 (3) (i)] LV of 1860

Forfeiture of goods

9 (*1*) When a person is convicted under section 482 of the Indian Penal Code of using a false trade mark, or under section 486 of that Code of selling or exposing or having in possession for sale or any purpose of trade or manufacture, any goods *or things* with a counterfeit trade mark applied thereto, or under section 487 or section 488 of that Code of making or making use of a false mark, or under section 6 or section 7 of this Act of applying a false trade description to goods or of selling, or exposing or having in possession for sale or any purpose of trade or manufacture any goods *or things* to which a false trade description is applied or is acquitted on proof of the matter or matters specified in section 486 of the Indian Penal Code or section 7 or section 8 of this Act the Court convicting or acquitting him may direct the forfeiture to Her Majesty of all goods and things by means of, or in relation to, which the offence has been committed or but for such proof as afore said, would have been committed

(*2*) *When a forfeiture is directed on a conviction and an appeal lies against the conviction, an appeal shall lie against the forfeiture also*

(*3*) *When a forfeiture is directed on an acquittal and the goods or things to which the direction relates are of value exceeding fifty rupees, an appeal against the forfeiture may be preferred, within thirty days from the date of the direction, to the Court to which in appealable cases appeals lie from sentences of the Court which directed the forfeiture*

Amendment of the Sea Customs Act, 1878

50 & 51 Vict 28 s 16 2)] VIII of 1878.

Amendment of section 18, Act VIII of 1878

10 (*1*) For clause (*d*) of section 18 of the Sea Customs Act, 1878, the following shall be substituted namely —

"(*d*) goods having applied thereto a counterfeit trade mark within the meaning of the Indian Penal Code, or a false trade description within the meaning of the Indian Merchandise Marks Act, 1889 LV of 1860

(*e*) goods made or produced beyond the limits of the United Kingdom and British India and having applied thereto any name or trade mark being, or purporting to be, or being a colourable imitation of, the name or trade mark of any person who is a manufacturer, dealer or trader in the United Kingdom or in British India, unless—

(i) the name or trade mark is, as to every application thereof, accompanied by a definite indication of the goods having been made or produced in a place beyond the limits of the United Kingdom and British India and

(ii) that place and the country in which it is situated are in that indication indicated in letters as large and conspicuous as any letter in the name or trade mark *and in the same language and character as the name or trade mark* [*New*]

(*2*) *To section 18 of the Sea Customs Act, 1878, as amended by sub section (1), the following shall be added, namely —* [*New*]

"(*f*) *piece goods, such as are ordinarily sold by length or by the piece, which—*

(*i*) *have not conspicuously stamped on each piece the length thereof in standard yards or in standard yards and a fraction of such a yard according to the real length of the piece, and*

(*ii*) *have been manufactured beyond the limits of India or,*

(*iii*) *having been manufactured within those limits, have been manufactured beyond the limits of British India in premises which if they were in British India would be a factory as defined in the Indian Factories Act, 1881* XV of 1881

[50 & 51 Vict, c 28, s 10 (2), (3) (4) (5) (7) & (8)]

Addition of a section after section 19 Act VIII of 1878

11 The following shall be added after section 19 of the Sea Customs Act, 1878, namely —

"19A (*1*) Before detaining any such goods as are or may be specified in or under section 18 or section 19, as the case may be, or taking any further proceedings with a view to the confiscation thereof under this Act, the Chief Customs-officer or other officer appointed by the Local Government in this behalf may require the regulations under this section, whether as to information security conditions or other matters, to be complied with and may satisfy himself in accordance with those regulations that the goods are such as are prohibited to be imported VIII of 1878

(*2*) The Governor General in Council may make regulations either general or special respecting the detention and confiscation of goods the importation of which is prohibited, and the conditions, if any, to be fulfilled before such detention and confiscation, and may by such regulations determine the information notices and security to be given, and the evidence requisite for any of the purposes of this section and the mode of verification of such evidence

(3) Where there is on any goods a name which is identical with, or a colourable imitation of, the name of a place in the United Kingdom or British India, that name, unless accompanied in equally large and conspicuous letters, *and in the same language and character*, by the name of the country in which such place is situate, shall be treated for the purposes of sections 18 and 19 as if it were the name of a place in the United Kingdom or British India [New]

(4) Such regulations may apply to all goods the importation of which is prohibited by section 18 or under section 19, or different regulations may be made respecting different classes of such goods or of offences in relation to such goods

(5) The regulations may provide for the informant reimbursing any public officer and the Secretary of State for India in Council all expenses and damages incurred in respect of any detention made on his information, and of any proceedings consequent on such detention

(6) All regulations under this section shall be published in the Gazette of India *and in the Calcutta, Fort St George, Bombay and Burma Gazettes*"

Stamping of Length of Piece goods manufactured in British India

[New] **12** (1) *Piece goods such as are ordinarily sold by length or by the piece, which have been manufactured in premises which are a factory as defined in the Indian Factories Act 1881 shall not be removed from those premises without having conspicuously stamped on each piece the length thereof in standard yards or in standard yards and a fraction of such a yard, according to the real length of the piece*

Stamping of length of piece goods manufactured in British India

XV of 1881

[Cf Act VIII 1878 s 167 cl 8] (2) *If any person removes or attempts to remove any such piece goods from any such premises without the length of each piece being stamped in the manner mentioned in sub section (1), every such piece and everything used for the packing or removal thereof, shall be forfeited to Her Majesty, and such person shall be punished with fine which may extend to one thousand rupees*

Supplemental Provisions

[50 & 51 Vict, c 28 s 10 (2)] **13** *In the case of goods brought into British India by sea, evidence of the port of shipment shall, in a prosecution for an offence against this Act or section 18 of the Sea Customs Act 1878 as amended by this Act, be primâ facie evidence of the place or country in which the goods were made or produced*

Evidence of origin of goods import d by sea

VIII of 1878

[50 & 51 Vict c 28 s 14] **14** (1) *On any such prosecution as is mentioned in the last foregoing section, or on any prosecution for an offence against any of the sections of the Indian Penal Code as amended by this Act, which relate to trade, property and other marks, the Court may order costs to be paid to the defendant by the prosecutor, or to the prosecutor by the defendant, having regard to the information given by and the conduct of the defendant and prosecutor respectively*

Costs of defence or prosecution

XLV of 1860

(2) *Such costs shall, on application to the Court be recoverable as if they were a fine* [New]

15 *No such prosecution as is mentioned in the last foregoing section shall be commenced after the expiration of three years next after the commission of the offence, or one year after the first discovery thereof by the prosecutor, whichever expiration first happens* [50 & 51 Vic, c 28, s 15]

Limitation of prosecution

16 (1) *The Governor General in Council may, by notification in the Gazette of India and in local official Gazettes, issue instructions for observance by Criminal Courts in giving effect to any of the provisions of this Act* [New]

Authority of the Governor General in Council to issue instructions as to administration of this Act

(2) *Instructions under sub section (1) may provide, among other matters, for the limits of variation, as regards number, quantity, measure, gauge or weight which are to be recognised by Criminal Courts as permissible in the case of any goods*

17 On the sale or in the contract for the sale of any goods to which a trade mark or mark or trade description has been applied, the seller shall be deemed to warrant that the mark is a genuine mark and not counterfeit or falsely used or that the trade description is not a false trade description within the meaning of this Act, unless the contrary is expressed in some writing signed by or on behalf of the seller and delivered at the time of the sale or contract to and accepted by the buyer [50 & 51 Vict c 28, s 17]

Implied warranty on sale of marked goods

18 (1) *Nothing in this Act shall* exempt any person from any suit or other proceeding which might, but for *anything in* this Act, be brought against him [50 & 51 Vict, c 28 s 19]

Savings

(2) Nothing in this Act shall entitle any person to refuse to make a complete discovery or to answer any question or interrogatory in any suit or other proceeding but such discovery or answer shall not be admissible in evidence against such person in any *such prosecution as is mentioned in section 14*

(3) Nothing in this Act shall be construed so as to render liable to any prosecution or punishment any servant of a master resident in British India who in good faith acts in obedience to the instructions of such master and on demand made by or on behalf of the prosecutor, has given full information as to his master *and as to the instructions which he has received from his master*

Transitory Provision

19 *The prohibition of the bringing into British India of such piece-goods as are described in clause (f) of section 18 of the Sea Customs Act, 1878, as amended by this Act, shall not take effect till the first day of August, 1889, and the provisions of section 12 shall as regards piece-goods made up in bales in a factory before the first day of April, 1889, remain in abeyance till the first day of July, 1889* [New]

Date of commencement of this Act as regards unstamped piece goods

METAL TOKENS BILL

The Hon'ble SIR DAVID BARBOUR moved that the Report of the Select Committee on the Bill to prohibit the making or issue by private persons of pieces of metal for use as money and the making of coins in resemblance or similitude of coins of Foreign States be taken into consideration He said —

"I wish to take the opportunity of explaining briefly the nature of the changes which the Select Committee has recommended Before doing so I may explain that a few verbal amendments have been found to be necessary

in the Bill as reported by the Select Committee, they are purely verbal and formal alterations and I shall deal with them separately hereafter

"The main objects of the original Bill were to prohibit the making of pieces of metal by private persons for use as money, to prohibit the import of such pieces of metal into British India, and to prohibit the putting of such pieces of metal into circulation for the first time, and these continue to be the main objects of the Bill as amended by the Select Committee

"But, in order to carry out more fully the object of the Bill, the Select Committee has made the attempt to put pieces of metal into circulation as money for the first time punishable, as well as the actual putting into circulation, and has also made it an offence to be in possession of such pieces of metal with intent to put them into circulation for the first time

"The object of the Select Committee in making these changes was to prevent persons from dealing in such pieces of metal with a view to their issue, and to these alterations, I think, no objection can be taken In order that no person who is now in possession of such pieces of metal may be taken by surprise, the Committee has recommended that possession with intent to issue shall not be punishable till a period of three months has elapsed from the coming of the Act into force

'Section 3, sub-section (5), of the original Bill conferred the power of search on police officers in charge of stations For this sub section the Committee has substituted the provisions of section 98 of the Code of Criminal Procedure in respect to counterfeit coin Consequently a police officer will not be able to make a search of his own motion, and will only be able to proceed under warrant issued by a Magistrate

"The Select Committee has also recommended that none of the offences punishable under section 4 other than the manufacture of pieces of metal for use as money shall be cognizable offences, and that the other offences referred to in that section shall not be taken cognizance of by a Magistrate outside the presidency town without the previous sanction of the District or Subdivisional Magistrate Several of the terms of imprisonment provided in the original Bill have also been materially reduced These changes, as well as the restriction on the right of search just referred to, afford a valuable guarantee that the provisions of the Act shall not be abused Indeed, the only question is whether the Select Committee has not gone too far in relaxing the provisions of the original Bill The receipt of pieces of metal as money by railways and local authorities was prohibited in the original Bill This prohibition has now been made effective by providing that the receipt of pieces of metal as money by any person acting on behalf of a railway administration or local authority may be punished by the infliction of a slight fine not exceeding Rs 10

"Section 6 of the original Bill made it penal to manufacture coin in resemblance of coin of a Foreign State which was a legal tender or which actually circulated in such State If this provision had been maintained, it would have afforded greater protection to foreign coin than to Queen's coin This result was one which it was impossible to justify, and the difficulty has been got over by adding an *explanation* to section 28 of the Indian Penal Code to the effect that a person who makes one thing to resemble another shall be assumed to intend the natural consequences of his action, namely, that some person should be deceived by mistaking the one for the other Good authorities have held that this was always the law, but the *explanation* to be added to section 28 will put the matter beyond doubt, and, if hereafter any person is found imitating either foreign coin or Queen's coin, it will be assumed, unless he can prove the contrary, that he intended to practise deception. He will consequently be punishable for counterfeiting coin"

The Hon'ble RAJA DURGA CHARN LAHA said —"The principle of this Bill was fairly discussed at the last meeting of the Council The Bill was professedly a half-and half measure, and, like all half measures, it cannot be expected to be very effective all at once, but, in view of the explanation afforded by the hon'ble member in charge of the Bill, I think it should be allowed a fair trial The provisions against the making and issue of metal tokens are stringent enough and likely to discourage the making or use of them On the whole, I see no objection to the passing of the Bill"

The Hon'ble THE MAHARAJA OF VIZIANAGRAM said — "As far as its main objects of prohibitory and monopolising nature of coinage of the Empire are concerned, there can hardly be two opinions as to the great expediency that will be effected, by the coming into force of this Bill, in securing both economical and administrative advantages to the Government, in harmony with the universal laws of currencies in different parts of the world, which, like so many other essential principles of government, prove profitable to the ruling power immediately, and to the subjects mediately The Hon'ble Mr Macaulay says, in his answer to the Secretary in the Legislative Department, that His Honour the Lieutenant-Governor thinks that, by the success of this Bill, the profit that is now shared by the manufacturers in Nepal and by the money changers in India would go to the Indian tax-payer So, that the Bill is one of urgent legislative importance cannot be doubted for a moment, but at the same time, I think, I should be found wanting in duty if I were not to lay before your Excellency and this august body a few facts relating to the Bill on this, perhaps, my last opportunity of saying anything regarding the Bill It is as much a matter for regret as of surprise to me, and I think to every one else who might spare a thought on the subject, that its legalization has not taken place long before now, for, apace with the time, the evil against which this Bill is to militate has struck deep root into the land over large areas, not only in the northern but also in the southern parts of the Empire, with this difference, while they are coined and put into circulation in the north, in the south they are not coined, but they find a ready circulation, or rather, I should say, that they supply a very needy want, being the only handy means of exchange among the poorest agricultural classes, of whom, to the number of millions, inhabit, as far as my direct knowledge goes, throughout the Northern Circars, the population in its average density being about 353 per square mile, and the aggregate figure for the four districts comprising Northern Circars being no less than 7,574,737 I hope to be able to show further on that the knowledge of the existence of copper token currency down in the south as well is not devoid of interest to this Government, when viewed in connection with opinions favoured by some of the authorities of either of the presidencies. Mr H G Turner, our esteemed Collector of the Vizagapatam District, has contributed most valuable information which seems to be consonant with the consensus of the unions akin to that held in France, and issued its coin under the name of Latin Mint I will read a passage or two, which run as follows —

'There can be no free trade in labour and goods when there is not free coinage We recognise this principle in the matter of silver coins, but depart from it when we deal with copper money'

"I beg to draw particular attention to the following passage of his —

'The money, the principal money of rural India, is copper, not silver

'Indian copper coin is not token coin in the same way that pence are tokens in England Pence are in that country subsidiary to the daily wage rate, which is expressed in silver In India copper is the principal wages paying coin It is true that as gold is the standard coinage metal in England, silver tokens are likewise unfair to the interests of her labouring classes, but, inasmuch as the difference in metal value between gold and silver is vastly less than the difference between silver and copper, the harm done to labour in England is not so much felt, though that it is felt is obvious from the clamour now raised on the bimetallic question

'Not being really tokens, and not occupying the place of subsidiary coins for gha labour, they are not subsidiary, and not being actually convertible into standard coin, because no one can change a half or a quarter anna copper piece into silver, it follows that this coinage is nothing but an imperfectly convertible currency, akin in many respects to an inconvertible paper currency

'Circulating side by side with silver, it interferes with the rise and fall of prices which are governed by free silver and free commerce, for the forces which regulate those prices are in no way connected with the force which governs the issue of copper money

'The copper coin is issued to the public at the expense of silver coin Mr Westland says that this profit is rightfully the property of the tax payers But, inasmuch as the loss falls ultimately on labour, it is really a case where the richer portion of a community benefits at the expense of the poorer portion'

"In paragraph 6 he says —

'So far as I have been able to calculate, * * * there is in circulation in India not more copper coin than to the value of ½ pence per head * * * Perhaps copper coin to the value of 250 lakhs of rupees has been issued since 1835 About 97 lakhs were issued up to 1858 I have no account from 1858 to 1873, but I think the issue fell off during these years From 1873 to 1884, 92 lakhs were issued * * * The next following issue was of 1874, succeeded by coins of every year up to 1886, except 1880'

"Making allowances for the coins dropped and lost,—10 per cent for the dropped and 10 per cent for the waste of the coins,—he says—

'If we guess * * * this would reduce the amount of copper in circulation to 200 lakhs of rupees, or twenty millions of rupees of copper for use amongst 250 millions of people If the rupee = 1*s* 6*d*, this gives a *per capita* distribution of 1½d This amount is very sadly beneath the amount of copper coin current in other countries Italy, for instance, had when Professor Jevons wrote his work, 29½ pence per head, England 8½ pence, France 15 pence, and Belgium 21½ pence Now, it is the opinion of some very able economists, Roseber for instance, that the poorer a country is the larger should be its circulating medium Hence we may take it that a proper amount per head of copper coin for India would run to some figure vastly in excess of these European rates'

"He also speaks very correctly that—

'in this connection I would remark that the complaints now springing up as to the hardships of the increased salt tax are in some measure due not to the enhanced price but to the actual want of copper coins to permit of the people purchasing salt in petty quantities In rural parts of this district there is such a deficiency * * * that transactions are to a great extent effected by barter, and in remote parts cowries are still in circulation

"These facts are very clearly and cleverly set forth by Mr Turner, and I doubt not that, by other executive channels, these evils will be soon remedied, hence and therefore I have nothing else to say in regard to the passing of this important Bill"

The Hon'ble SIR DAVID BARBOUR said —"In answer to what has fallen from the Hon'ble the Maharaja of Vizianagram, I should like to say a word or two It has been for many years a standing order of the Government that copper coins are to be supplied wherever they are wanted, and every Collector of a district is bound to see that the treasury has a full supply of copper coins and to issue them at a fair rate in exchange for silver Any person who wants copper coins can always get them from the treasury at a fair rate, and, if in the tracts referred to by the Maharaja there should be any want of such coin, it is the duty of the Collector to see that the necessary steps are taken to meet this want I merely wish to point out that the Government has already done all that is in its power in order to ensure that there is a sufficient supply of small coins in all parts of the country"

The Hon'ble THE MAHARAJA OF VIZIANAGRAM, in answer to the remarks of the hon'ble member in charge of the Bill, said —"I am aware that Mr Turner did bring these facts to the notice of the Madras Government, but somehow or other I find, from the remarks made by the then Secretary to the Madras Government, that he could not clearly see the facts, and therefore he did not pass any opinion as to the propriety of Mr Turner's remarks"

His Honour THE LIEUTENANT GOVERNOR said —"As the discussion has been raised at this particular stage of the Bill, when the Motion before the Council is to take into consideration the Report of the Select Committee, I may say the few words I have to say now If I had been in my place a fortnight ago when the Hon'ble Mr Steel took part in the debate, I should have felt it my duty to support the hon'ble member's view that the Bill does not go far enough to effect what the Government have in their mind The answer which the hon ble member in charge of our finances gave us was to the effect that the alternatives were either to inflict great hardship or to buy up the existing amount of token coinage in circulation at a considerable loss to the Government I must say that after thinking over his answer I do not see my way to contest the truth of his assertion that we have nothing but these two alternatives before us whether now or later, and we shall have to adopt one or the other of them But the difficulty in the way of this Bill, leading even as a first step towards getting rid of the copper coinage called Goruckporee pice and generally spoken of as dumpy pice, was very great The hon'ble member was perfectly correct in saying that the orders were that wherever Government pice were wanted they should be supplied from the treasury, and they were so supplied, and he believed the Collectors of districts did their best to put them into circulation, but my experience is—and Sir David Barbour I believe will back me up—that after the famine of 1874 a very real attempt was made to put them into circulation, but unfortunately they found their way back to the treasury, and ultimately an enormous amount of Govern-

ment pice which had been sent there for their free use in connection with the famine relief works found their way back to Calcutta When I was recently in Behar I made enquiries to see whether I could do something to give a fillip to the policy of the Government by introducing Government pice in payment for labour at the relief works which were then going on I got an energetic officer, who promised to try to do all he could, but from what I could ascertain of the general feeling of all those whom I consulted—planters and others—I gathered that so long as the circulation of dumpy pice was not made illegal we could not get the Government pice into circulation at all The difficulties were these, that, in the first place, small shop keepers would not take them at all, or, if they took them, they would only do so at a large discount Government pice were in circulation at the sadr stations, as for instance at Durbhunga, but as soon as you got ten miles out into the villages not a Government pice was to be seen, and when I look at the proposal of the Select Committee making it an offence for any person not merely on behalf of a railway administration or local authority, but even on behalf of the lessee of any tolls leviable by such administration or authority, to receive as money any piece of metal which is not coined as defined in the Indian Penal Code, it occurs to me that the difficulty with which we would have to contend in carrying out this measure would be very considerable Until the Government pice have taken the place of these dumpy pice it is perfectly certain that a man who wishes to cross a toll bar, for instance, would have nothing else with which to pay the toll If the lessee of the toll refuses to take dumpy pice in payment of the toll, the man must either go back, or it becomes a question whether the lessee himself, or a bunnia in his interest, is to do the exchange and thus make the man pay more as toll than the authorised toll I do not say that this objection is one which ought to lead to the exclusion of the section, but I am not sure that the real importance of it has been considered The principle of the Bill I entirely approve, but I do hope it will be worked on the one hand energetically and on the other carefully, and that it will lead to more stringent legislation before many years are over"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR then said —"The inadvertent retention in section 3 of the Bill of the words 'or issued' in the ordinary sense of those words, and not in the special sense which we have found it necessary by the interpretation clause to assign to the word 'issue' where it occurs in other parts of the Bill, compels me at this stage to ask for the omission of those words from section 3 and to move certain further amendments which their removal suggests The amendments are verbal and their sole object is to carry out in clearer and more unmistakeable language the intention of the members of the Select Committee

'The amendments I have to move are the following —

(*a*) that in section 2 of the Bill, after the word 'put' in line 1, the words 'a piece of metal' be inserted, and for the words 'any piece of metal' in line 4 the words 'such piece having been be substituted,

(*b*) that from section 3 of the Bill the words 'or issued' be omitted

(*c*) that in section 4, sub section (*1*), clause (*a*), of the Bill, the words 'in contravention of the last foregoing section,' with the addition of the word 'or', be placed immediately after the word 'makes',

(*d*) that in section 4, sub section (*1*), clause (*b*), of the Bill, the words 'issue the piece' be substituted for the words 'issue it in contravention of that section',

(*e*) that the marginal notes to sections 3 and 4 of the Bill be modified with reference to the foregoing amendments"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, as amended, be passed He said —"I have only one word to say, and that is with reference to the penalty provided in the case of a person who while acting on behalf of a railway administration or local authority receives these pieces of metal as money This provision may no doubt in some cases occasion a certain amount of inconvenience, but I do not think the inconvenience will be very great,

because if these pieces are refused at a railway-station some money-changer or bunnia at the place would immediately arrange to give Government pice in exchange for them, and, though some inconvenience might be caused to travellers, it would not be of great magnitude The justification for causing even this limited amount of inconvenience is that, unless we take some steps in this direction, we shall never get rid of these pieces of copper that now do duty as money"

The Motion was put and agreed to

MEASURES OF LENGTH BILL

The Hon'ble MR SCOBLE presented the Report of the Select Committee on the Bill to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India

SEA CUSTOMS ACT, 1878, AND INDIAN TARIFF ACT, 1882, AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR moved that the Bill to amend the Sea Customs Act, 1878, and the Indian Tariff Act, 1882, be referred to a Select Committee consisting of the Hon'ble Mr Scoble, the Hon'ble Mr Steel, the Hon'ble Mr Halliday the Hon'ble Sir Dinshaw Manockjee Petit, the Hon'ble Rajá Durga Charn Laha and the Mover

The Motion was put and agreed to

PORTS BILL

The Hon'ble SIR DAVID BARBOUR also moved for leave to introduce a Bill to consolidate and amend the law relating to Ports and Port charges He said —

"Since the Indian Ports Act of 1875 was enacted, no less than nine amending Acts have been passed, and, if it were not for the introduction of the present Bill for consolidating the existing enactments, it would have been necessary to pass a tenth These facts are sufficient to show the necessity that exists for the consolidation of the existing law, and I need not say anything more on this point

"With regard to the amendments of the existing law which it is now proposed to introduce, I may explain that a draft Bill has been already circulated to the maritime Governments—Madras, Bombay, Bengal and Burma—and considered by them Of the changes which they have suggested, some have been incorporated in the present Bill, while others will be considered by the Select Committee, and a few have been left to be dealt with by local legislation

"The changes which it is proposed to make in the existing law are set forth in the Statement of Objects and Reasons attached to the Bill, and I need only mention a few of the more important

"The first proposal is that the provisions of sections 40 and 41 of the present Act shall apply to all ports in future without the necessity of their being specially extended to each port by the Local Government The provisions of these sections prevent certain acts from being done in ports without the permission of the conservator The alteration will save trouble, and it appears to be free from objection

"The next alteration to which I desire to call attention is one affecting the liability of a master for certain acts of his servants or agents

"Under section 22 of Act XII of 1875, the present Ports Act, any person who, by himself or another, casts ballast or rubbish or anything which is likely to impede navigation into a port is liable to fine It has been held under this section that a contractor who had undertaken to remove ballast from a vessel and whose servants cast the ballast into the port was not liable to fine, because it could not be proved that he abetted or connived at the offence

"To meet such a case as this it is proposed that, if a person contracts to remove ballast or rubbish and his servants cast it into the port, such person shall be liable to fine on the ground that a person who undertakes a work

of this character is bound to see that his servants act in a legal and proper manner, and so as not to injuriously affect public interests and rights

"It also appears that Port Commissioners and Trustees have in some cases made grants to sailors' homes and for other objects connected with the well being of seamen on shore The men for whose benefit these grants have been made are subject to great temptations when on shore, and are, for many reasons, entitled to some special consideration at the hands of the public authorities But, as doubts have been raised whether such grants could legally have been made under the law as it stood, advantage will be taken of the present opportunity to validate all such grants that may have been made in the past, and to remove any doubts as to the legality of making them in the future

"A provision has been inserted to provide for ascertaining the tonnage of vessels which are of such a nature that they do not admit of being measured for this purpose

"It sometimes happens that firewood and other articles are conveyed from port to port in the Bombay Presidency on rafts of which it is impossible to ascertain the tonnage by measurement, although, for certain purposes connected with ports, it is absolutely essential that the tonnage should be known To meet such cases it will now be provided that, where measurement is impossible in accordance with the provisions of the law, the conservator shall have power to declare the tonnage according to such estimate as may, under the circumstances of the case, be reasonable This seems to be the easiest and best way of getting over the difficulty

"A provision will also be introduced into the Bill giving power to local authorities, with the previous sanction of the Local Government, to deal with any immoveable property that may be vested in them so as to make it available for use in connection with a sailors' home or other institution for the benefit of sailors Such a provision will obviously be of use under certain circumstances and cannot be productive of evil, it is taken from the English law on the subject

"In the case of Rangoon and Chittagong, it is provided that tugs and river steamers shall pay port dues once in six months This is obviously a proper provision, and the case of these vessels is not provided for in the present law

"The schedule of port dues for the Madras ports is still under the consideration of the Government of that presidency, which will also have to consider whether it is necessary any longer to maintain Madras Act II of 1872, hitherto it has not been found necessary for the Government to make use of the provisions of that Act

"An important provision in that Act which gives power to detain the master of a ship, and consequently the ship itself, for certain departmental purposes, has not been inserted in the Bill, although a provision of a somewhat similar nature has been supported by the Trustees of the Port of Bombay The proposal of the Trustees is one which obviously cannot be adopted except after careful consideration It would be a serious evil in the present days of keen competition to do anything which might lead to a vessel being detained except on public grounds of clear necessity The Select Committee will no doubt give their attention to this question"

The Hon'ble Mr STEEL said —"I would suggest to the hon'ble mover that, by the statement he has just made, he has not supplied us with all the information which should be before us to justify legislation He has described the Bill he proposes to introduce as designed rather to consolidate than to change the existing law, but this will not relieve the legislature from responsibility for the principles on which the Bill is founded It will be admitted that funds raised in the form of port-dues should be devoted to the specific purpose of providing facilities for trade, and that it would be improper to allow them to be merged in the general revenues This principle is carefully applied in the case of the larger Indian ports whose affairs are administered by trustees, but we have no assurance that the same rule holds good with regard to the smaller ports, and it is in respect of these that I ask for information The ports on the Madras coast are 149 in number Of these the great majority are not ports in the ordinary sense of the word, but merely open roadsteads, marked out on the

coast-line by a flagstaff on which by night a small lamp is hung At these places of call there are no facilities provided for loading or discharging cargo, no buoys to mark the proper anchorage No public officer comes alongside a vessel except a coolie on a catamaran Now, for calling at one or more of a group of these ports, a steamer is charged the considerable sum of Rs 300 to Rs 500 according to her size It appears to me that no commensurate service is rendered in exchange I would remark that during the past few years the steam tonnage employed in the coasting trade has more than doubled, and presumably the revenue from port dues has increased in similar proportion We may, therefore, assume either that in past years the revenue has been insufficient to meet the charges, or that it must now be more than sufficient, or else that some new expenditure has been undertaken to provide facilities for trade If the last hypothesis be the true one, the public have no information concerning it With this explanation I suggest to my hon'ble friend that before asking for a vote on his Bill he should supply us with a statement showing the amount annually levied in the form of dues at the small ports in the Madras Presidency, and the purposes to which the funds are applied"

The Hon'ble SIR DAVID BARBOUR said —"With reference to the remarks made by the Hon'ble Mr Steel, I may say that I agree with him that all port dues should be expended upon the legitimate purposes of the port, and I wish also to add that, so far as I have been able to ascertain, this is the case at present In the Madras Presidency, and in Bombay also, a number of ports are grouped together for certain purposes, but, so far as I am aware, the money raised by the port dues is spent upon those ports If in any of these ports the facilities for trade are not great, I believe it is due to the fact that the income of the port is not large But I shall be happy, at a future stage of the Bill, to give the hon ble member all the information I possess, or which I can obtain, on the subject, and I hope he will consent to serve on the Select Committee on the Bill, when he will have a further opportunity of bringing the facts to notice"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the Fort St George Gazette, the Bombay Government Gazette, the Calcutta Gazette and the Burma Gazette in English and in such other languages as the Local Governments think fit

The Motion was put and agreed to

MADRAS CORONER'S BILL

The Hon'ble MR HUTCHINS moved that the Select Committee on the Bill to abolish the office of Coroner of Madras be instructed to submit their Report at the next Meeting of the Council

The Motion was put and agreed to

The Council adjourned to Friday, the 8th February, 1889

S HARVEY JAMES,
Secretary to the Government of India,
Legislative Department

FORT WILLIAM,
The 8th February, 1889

SUPPLEMENT TO

The Gazette of India.

No 6] CALCUTTA, SATURDAY, FEBRUARY 9 1889

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Paper and information as the Government of India may deem to be of interest to the Public and such as may usefully be made known The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post

No Official Orders or Notifications the publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be inserted in the SUPPLEMENT For such Orders and Notifications the body of the GAZETTE must be looked to

ADMINISTRATION REPORT OF THE INDIAN TELEGRAPH DEPARTMENT FOR THE YEAR 1887-88

No 30 T, dated Calcutta the 1st February 1889

RESOLUTION—By the Government of India Public Works Department

Read—

Letter from the Director General of Telegraphs, No 476 T, dated 12th November 1888 and its enclosure, the Administration Report of the Indian Telegraph Department for the year 1887 88

OBSERVATIONS —The Government of India notices with satisfaction that Colonel Mallock, the Officiating Director General of Telegraphs, submitted the Administration Report of the Telegraph Department for 1887 88 on the 12th November 1888, this is more than a month earlier than it was received last year, and is the earliest date on which the report has ever been submitted to Government

2 The Telegraph Department of India had, up to the 15th February 1888, administered only the lines of telegraph situated within India itself, including Burma and Baluchistan, but on the date mentioned the Department undertook the administration of the telegraph lines and cables extending from Karachi to Teheran in Persia, which had formerly been administered by a Director-in-Chief whose head quarters were in London The accounts of this system are not, however, included in the present report

3 The Capital expenditure of the year in the Indian Telegraph Department was Rs 23,49,550, as given in the following statement —

	Expenditure of the year	
	1887 88	Expenditure to end of the year 1887 88
	Rs	Rs
Lines	17,16,026	3,22,63,581
Buildings	2,11,243	51,36,797
Tools and Plant	92,152	17,12,611
Stores, Exchange and suspense heads	3,29,929	36,64,591
Total	23,49,550	4,27,77,583

It is necessary to bear in mind with reference to this statement of the Capital Account of the Department that it is not an absolutely correct one from a purely financial point of view The capital expenditure to date, Rs 4,27,77,583, does not represent the total sum of money which has been actually expended on the construction of telegraph lines in India The cost of experimental lines, abandoned lines, and of outlay incurred upon the lines and offices not now working, has been excluded from the capital sum of 128 lakhs

4 The capital expenditure of the year was mainly incurred on new lines and wires for departmental purposes, 5,014 miles of wire and cable having been constructed The principal works which fell under this head are enumerated in pages 21 to 23 of the report, the most important being an additional wire from Hyderabad (Deccan) to Bezwada, a wire from Multan *vid* Sukkur and Sibi to Quetta, and a line connecting Assam *via* Manipur and the Kubo Valley with Upper Burma In addition to purely departmental lines, 1,634 miles of wire and cable were constructed specially for Railways and were rented to them The working of the last few years of the telegraph lines has shown that the trunk lines are now nearly taxed to their full power by the traffic which has been thrown upon them by the large number of branch telegraph lines and offices which have been established Further capital expenditure will be devoted rather to strengthening these over-taxed lines than to opening new branches and feeders A large demand for expenditure on strengthening the trunk lines has been already submitted by the Director General of Telegraphs to the Government of India

5 The extensions made in the Telegraphic system of India in the year 1887 88 are expressed by the following figures —

	At end of 1886 87	At end of 1887 88	Increase
Miles of line	30,035	31,894	1,859
Miles of wire and cable	87,087	93,743	6,656
Number of Signal Offices	699	745	46

These extensions fall, on the whole, slightly below the average of the previous three years A large proportion of the wires owned by the Telegraph Department are specially provided for State and Guaranteed Railways for their exclusive use, 32,959 miles out of the total of 93,743 are special wires rented to the Railways The extensions of the year were larger than usual in Departmental wires and smaller in Railway ones

6 The following statement shows the working expenses of the year —

	1886 87	1887 88	Increase
	Rs	Rs	Rs
Working expenses	41,21,873	42,92,248	1,70,375

7 The most noticeable increases are under the head of "Direction, Superintendence and Accounts," Rs 89,714, under "Line Maintenance and Establishment," Rs 42,163, under "Departmental signal offices," Rs 1,19,953, and under "Stationery and Printed Forms," Rs 41,085 The increase under the first head is not explained in the report, but is understood to be mainly due to the re organisation of the Superior Establishment of the Telegraph Department, which was carried out with the object of ameliorating the position of those Officers in the Department who had suffered from the block in promotion The increase under the second head is probably due to increase in the mileage to be maintained particularly in Burma The increase under the third head is 5 5 per cent, while the number of signal offices increased by 6 6 per cent, and this rise is therefore, moderate Under the last head the increase is stated to be due partly to the increased number of printed forms used, and partly to a replenishment of the reserve stock of stationery and forms It should be noted that the expenditure here shewn includes outlay incurred in the Public Works Department on the construction and repair of buildings which, as well as the cost of stationery, is not shewn against the Telegraph Department in the Finance Accounts

There have, on the other hand, been decreases in the Working Expenses under the head of "Repairs to Lines" The expenditure under this head is subject to considerable fluctuation, mainly on account of the varying amount of damage done by floods and storms The expenditure of 1887 88 was about 1¼ lakhs less than in 1886-87, but about 1½ lakhs more than in the previous year

8 The following statement shews the receipts of the year under review, and differs slightly from the Finance Accounts of the year, as being the earnings rather than the actual receipts of the Department —

	Rs
Receipts	66,28,660
Working expenses (see para 6 above)	42,92,248
NET REVENUE .	23,36,412

9 In the year 1883 84 the net Revenue was Rs 3,80,078, which was only 1 19 per cent of the Capital at that time The rapid improvement which has taken place in the last four years is due not merely to the increase in receipts (which has, however, been large), but also to the very small increase which has taken place in the working expenses Thus—

	Receipts	Working Expenses	Net Revenue
	Rs	Rs	Rs
1883 84 . .	41,24,264	37,44,186	3,80,078
1887 88	66,28,660	42,92,248	23,36,412

The receipts have increased by 25 lakhs, but the working expenses have only increased by 5½ lakhs The working expenses of the Telegraph Department are primarily divided into the two main heads—"Line Maintenance"

and "Signalling" The following statement shews the expenditure under these heads for the years mentioned —

Year	Number of messages dealt with	Number of miles of wire and cable including Railway wires	Working Expenses		Cost of Line Maintenance per mile of wire	Cost of "Signalling" per message dealt with
			Line Maintenance	Signalling		
			Rs	Rs	Rs	Rs
1883 84	1,818,886	68,829	11,70,128	25,74,058	17 0	1 4
1887-88	2,804,485	93,743	12,08,480	30,83,768	12 89	1 1

The amounts expended both on "Line Maintenance" and on "Signalling" are largely composed of the cost of establishments which are permanently entertained The figures in the above statement seem to shew that in 1888 it was possible to deal with a much larger message traffic without any sensible addition to the working expenses, or, in other words, that a considerable proportion of the establishments were formerly working below their real power

The net Revenue of the year was 5 46 per cent on the capital of Rs 4,27,77,583 It is again the largest which has been recorded, and is more than fifty per cent in excess of the average of the previous three years It must, however, be remembered that the gross receipts of Rs 66,28,060 include Rs 17 07,657 for State messages, which are payments from the State back to itself, and Rs 34,522, the amount which might have been charged for messages which were sent free of charge, such as reports of the arrival of Mail Steamers if these receipts are excluded from the account the net revenue is reduced to Rs 5,94,234 and the interest on capital to 1 39 per cent

10 The receipts of the Department consist mainly in message revenue and in receipts from State Railways for wires rented, the figures of the two years which have been selected are shown below —

	State messages	Private messages	Claims from State Railways	Other sources of revenue including credit taken for value of free messages	Total
	Rs	Rs	Rs	Rs	Rs
1883 84	5,06,239	27,05,131	5,89,813	3,23,081	41,24,264
1887 88	17,07,657	34,60,339	11,47,983	3,12,681	66,28,660
Increase in four years	12,01,418	7,55,208	5,58,170	—10,400	25,04,396

The number of messages sent during the year was a little over two million eight hundred thousand This number is 11 55 per cent larger than in the previous year The number of State telegrams was again in excess of the unprecedented figures of the previous year, but it is satisfactory to notice that there was generally a more extended use of "Deferred" State telegrams and a reduction in their length in all parts of India except in Upper Burma, where the rather extravagant use of State telegrams was unchecked during 1887-88 On this point the Director General of Telegraphs writes —

"It may be added that since the 1st April 1888, the number and value of State telegrams sent from Upper Burma have fallen considerably, due, no doubt, to a great extent to the enforcement from that date of the rule requiring all such telegrams to be prepaid During the first three months of the current year the number of telegrams sent was at the rate of less than half the number sent in 1886 87, and the average value of each was only Rs. 2 4

After making due allowance for the more settled state of the province, these results shew that the rule regarding prepayment of State telegrams by officials acts as a most salutary check on an undue use of the wires to the detriment of the paying public"

The Foreign State messages showed a slight decrease as compared with the previous year

11 It is interesting to notice how largely political affairs influence the financial results of the Indian Telegraph Department The following statement shows the number and value of Inland State messages in 1887-88 —

Telegraph Division	Number of messages	Value of messages
		Rs
Upper Burma	169,084	8,18,776
Lower Burma	47,255	1,67,979
Punjab	80 326	1,97,445
Bengal	43,701	95,377
Thirteen other Divisions	196,827	3,66,220
Total Inland State Messages	537,193	16,15,797

The location of the Government of India at Simla and Calcutta explains the excess of the State messages in the Punjab and Bengal as compared with all other provinces except Upper Burma The figures which refer to Burma show the very free use which is made of the telegraph lines in that province Considerably more than half the entire State message revenue of the whole of India is due to Burma alone When a normal condition of affairs is established in Burma, the Inland State message revenue should fall to about seven or eight lakhs of rupees yearly, which is somewhat more than the average before the operations in Burma were undertaken This change would at once reduce the net revenue of the Telegraph Department from 5½ to a little over 3 per cent on the Capital invested

12 The State messages from which a gross revenue of Rs 17,07,657 was derived were divided between Inland and Foreign thus —

	Number	Value
		Rs
State, Inland	537,193	16,15 797
„ Foreign	6,286	61,268
Total State	543,479	17 10,065

In order to make these figures agree with those given in para 10 of this Resolution, it is necessary to deduct certain messages of which the receipts (Rs 2,409) are credited to Provincial Revenues State messages showed an increase under the head of "Deferred" messages as compared with "Urgent" ones, a larger proportion of the former class having been used

Similarly, the Private messages from which a revenue of Rs 34,60,339 was derived were divided thus—

	Number	Value
		Rs
Private, Inland	1,860,390	19,81,814
„ Foreign	403,748	14,81,166
Total Private	2,264,138	34,62,980

The messages included in these figures, which were credited to Provincial Revenues, were 2,385 in number and Rs 2,640 in value The proportion of "Private" messages sent as "Deferred," and the proportion of those sent "Urgent" both decreased during the year, with a corresponding increase in the proportion of "Ordinary" ones

13 The average length of inland private telegrams in all classes remains very constant at a little over ten chargeable words, exclusive of the address which is not taken into account in India The average charge is about Rs 1 1 per message The privilege of a free address is one which has been with-

drawn in England, and the principle that senders should be fully charged for the amount of work involved—that is that the address should be charged for—is now generally adopted in Europe A free address was adopted in India in 1872, mainly because it was found that senders would not pay for a sufficient address In comparing the India tariff with that of other countries, it is necessary to remember that the address, which is not paid for, is often longer than the body of the message itself

14 The following statement shows the progress of private traffic as compared with the increased number of offices —

	Departmental and Combined Signal Offices		Inland Private Messages			
	Number open	Percentage of increase compared with previous year	Number	Percentage of increase in number compared with previous year	Value	Percentage of increase in value as compared with previous year
					Rs	
1883 84	349	11 14	1,236 140	3 92	14,15,754	9 10
1884 85	521	49 28	1,364 814	10 40	15,04 633	6 27
1885 86	634	21 68	1,507,990	11 95	16,38 165	8 87
1886 87	699	10 25	1,683 758	10 19	18,17,798	10 96
1887 88	745	6 58	1,860,390	10 19	19,81,814	9 02

The facilities offered by the Telegraph system may be roughly gauged by the figures in the columns of the statement in paragraph 9, which shows the increase in the number of miles of wires, and by the figures in the second column of the table in this paragraph, which show the increase in the number of signal offices The increase in the revenue derived from Private messages hardly keeps pace with the increase in those facilities, while the revenue from State messages increases in a much more rapid ratio The number of Signal Offices has increased since 1883 84 by 113 per cent, the State message revenue by 240 per cent, and the Private message revenue by 40 per cent

15 Although the progress made in the development of the Inland private message traffic has been rather slow in comparison with the facilities afforded, this class of traffic has steadily increased during the last six years It is impossible to determine whether this increase is primarily due to the new tariff, which was introduced in 1882, or to the large increase in the mileage of wires and in the number of offices, or to progress on the part of the people Probably all these causes have tended in different degrees to produce the effect It is, however, a fact that previously to the introduction of the new tariff in 1882, Inland private messages had for five years shown a tendency to decrease in number, and had actually decreased largely in value, whereas since 1882 the increase, both in number and value, has been progressive This fact seems to show that the tariff has been successful, both financially and administratively, and has had its share, along with the other causes named, in producing the increase which has occurred

16 During the year under review there was a large increase of nearly three lakhs of rupees, or about 40 per cent in the revenue derived from State Railways, this was due partly to the extension of the wires rented to railways, but chiefly to the introduction of higher rates which it was found necessary to impose, the rates previously in force having been proved to be too low

17 Private foreign messages increased 7 98 per cent in number and 12 78 per cent in value as compared with the previous year, this was a rather larger increase than is usual in this class of traffic Foreign State messages showed a decrease of 8 87 per cent in number and 18 12 per cent in value The revenue shewn in the Report as received on account of these messages is only about one ninth of the total cost to the senders, the remainder being credited to the Administrations which carry the messages beyond Indian limits

18 The speed of transmission of telegrams over all the main routes continues to improve considerably in spite of the increase in the number of messages sent There was a material increase in speed in the year under

review on all lines, except two, as compared with the speed in the previous year "Ordinary" and "Urgent" messages are now transmitted in about two thirds of the time which was taken in sending them five years ago The actual average time in transmission of all foreign messages between Bombay and Madras for the six months ending 31st March last was a few seconds over nine minutes

19 The rules for Telegraphic money orders were simplified, and the charges reduced from the 1st January 1887 The result has been a very large extension of remittances by this system. During the three months, January, February and March 1887, the number of advices was 2,379 in each month, during the year under review the number increased to an average of 3,868

20 There were rather more interruptions than usual in the lines and offices, but the average duration of the interruptions was considerably smaller than in the previous year In Bengal much damage was done to the lines by exceptional storms in May and June, the same cause produced similar results in the neighbourhood of Rangoon Forty four faults in Upper Burma were due to the lines being cut by dacoits An abnormal rise in the Pudda River near Goalundo caused the destruction of two of the four cables in the Calcutta-Rangoon line which crossed the river at that place The Superintendent of the Dacca Division and his staff deserve credit for the efficient work they performed in saving two of the four cables, and in making temporary arrangements for passing messages across the river

21 A new line of communication between Upper Burma and India was established during the year by the completion of the line from Assam *vid* Manipur, Tammu, Kendat, the Chindwin Valley, and Ava to Mandalay The line is not at present much used as it is liable to interruption in parts, but in time this route will be a valuable alternative route to Upper Burma It is also important in view of the possible connection of the Burmese Telegraph lines with those of China There has been marked progress in the construction of telegraph lines in China during the year The Northern line from Shanghai through the provinces of Hupe and Szechneu was completed to Yunnan, and three offices have been opened in that province which is partly conterminous with the British Frontier of Upper Burma A comparatively short distance now intervenes between the Chinese lines and the extremity of the India Telegraph system at Bhamo

22 The operations of the Telephone Companies at Bombay, Calcutta, Karachi, Madras, Moulmein and Rangoon shewed a small increase in revenue and in the number of private lines, but the number of subscribers and exchange connections decreased

23 The Government of India desires again to acknowledge the excellent services which Sir A J Leppoc Cappel, the Director General of Telegraphs, has rendered to the Government during the past year

---

ORDER.—Ordered, that a copy of this Resolution, and of the report, be forwarded to the Secretary of State and to the Local Governments and Administrations noted on the margin, and to the Government of Ceylon and the Commissioner in Sind

The Governments of Madras Bombay Bengal the North Western Provinces and Oudh and the Punjab
The Chief Commissioners of the Central Provinces, Burma, and Assam
The Resident at Hyderabad
The Agents to the Governor General for Central India Rajputana and Baluchistan

Also to the Foreign Department for communication to the Residents at Mysore and Coorg

Also that a copy of this Resolution be forwarded to the Director General of Telegraphs for information

Also that a copy of this Resolution and of the Report and Appendices A, B, and F be forwarded to the Home Department of the Government of India for information, and be published in the *Gazette of India*

R C B PEMBERTON, *Colonel, R E,*
Secretary to the Govt of India

ADMINISTRATION REPORT

OF THE

INDIAN TELEGRAPH DEPARTMENT

FOR

1887-88.

1.—GENERAL REVIEW

The most important event of the year was the transfer, on the 15th February 1888, to the charge of the Director General of the Indian Telegraph Department, of the Indo European Telegraph Department, which had hitherto been administered by a Director-in Chief, whose head quarters were in London

2 In order to render the financial results of each department comparable with those of previous years, the Administration Reports must be written separately, and it is only here desirable to refer to the Indo European Department so far as to show how the finances of the country are affected by the two combined

The following summary exhibits the gross capital of the two Departments to the end of the year under review, and the receipts, expenditure, and profit for the year —

Department	Capital to the end of the year	1887-88			
		Revenue Receipts	Revenue Expenditure	Profit	Profit per cent
	₹	₹	₹	₹	₹
Indian	4,27,77,583	66,28,660	42,92,248	23,36,412	5 46
Indo European	1,12,81,595	10,35,237	8,36,856	1,98,381	1 75
TOTAL	5,40,59,178	76,63,897	51,29,104	25,34,793	4 69

It should be here noted that the "Receipts" for both Departments include the value of Government Service telegrams

3 The remainder of this Report deals with the Indian Department alone

Appendix A Para 14

4 **Finance**—The Total Capital expenditure to the end of the year is ₹4,27,77,583 The Revenue of the year amounts to ₹66,28,660, and the expenditure was ₹42,92,248, leaving a surplus of ₹23,36,412, which is equal to 5 46 per cent on the Capital

Omitting the *pro formâ* revenue, and the value of the messages despatched on the service of Government, the surplus is reduced to ₹5,94,234 and the interest on Capital to ₹1 39

Para 16

5 **Message Traffic.**—2,80,617 paid telegrams were despatched against 2,516,826 in 1886 87—an increase of 290,791, of which increase, 206,487 were private and 84,304 State As is shewn in this report, a considerable amount of the increased traffic of late years is due to the large number of branch telegraph lines and offices which have been established These feeders all bring work on to the main line wires, which are now taxed nearly to their full capacity, and a

Paras 23 and 57

considerable increase to the trunk wires will shortly be inevitable to enable the growing traffic to be satisfactorily dealt with

6. Message Revenue —This revenue amounted to ₹51,73,045 (including ₹5,049 credited to Provincial offices), showing an increase over 1886-87 of ₹3,42,806, of which ₹10,945 was for State, and ₹3,31,861 for Private telegrams Para 16

The proportions of the total message revenue due to the several classes of traffic were—

State	Inland	51 81
	Foreign	1 25
Private	Inland	38 31
	Foreign	28 63

7. New Telegraph Stations —190 new offices were opened during the year, raising the number open to the public on the 31st March 1888 to 2,579 Paras 42 43

Of these, 745 were departmental and combined offices, and the remainder licensed offices on railways and canals The total number of public telegraph offices has increased 61 per cent during the past five years (since 1882 83), and the increase in the same period in departmental offices has been 431, or 137 per cent Paras 42 44

8 Extensions of lines —The following figures show the extent of lines, wire and cable at the close of the year — Paras 62 64.

	Miles
Posts	31 894
Wire	93,517
Cable	226

These figures represent an increase over the figures for the previous year of—

	Miles
Posts	1 860
Wire	6 627
Cable	30

9 Upkeep of lines —The interruptions to communication caused by faults on the lines during the year under review do not compare favourably in number with the previous year, but on the other hand those that occurred were removed with greater rapidity Most of the faults are traceable to exceptional causes, and the fact that the average duration as compared with that of the previous year is less by 58 per cent shows that the line establishment have been in no way remiss in the performance of their arduous duties Excluding Upper Burma, where, owing to the disturbed state of the country and the necessity for the repair parties having to travel under escort, the duration of interruptions is exceptionally long, the average duration of faults becomes 19 hours as compared with 36 of the previous year Paras 76 81

10 Licensed Telegraph Systems —During the year the wire erected for railways and for canals respectively was 1,652 miles for the former, and 76 for the latter, and the number of new offices fitted up was 125 The extent of the system maintained by this Department for Railways and Canals at the close of the year is as follows — Para 63

	Railways	Canals	Total
Miles of wire	33,043	597	33,640
„ „ cable	9		9
Number of offices	1,472	32	1,504

The line along the Sone Canal, which was the property of the Irrigation Department, was transferred to the capital account of this Department and the offices are now all worked as combined offices

11 Telephones —The earnings of the Telephone Companies show a slight increase over those of the previous year, but the business done is still small Para 82

The decrease shewn in para 83 under private lines maintained by this Department is only apparent, and is due to those for Railways and Canals being

now included under licensed Telegraph Systems, uniform charges for all work done for such systems having been introduced

as 45 and 46

12 Traffic efficiency —It is satisfactory to record a substantial improvement in speed of transmission and some diminution in the number of complaints by the public

II —REVENUE AND EXPENDITURE

13 Capital Account —The Capital expenditure of the year amounted to ₹23,49 550, under the following heads —

Lines and Buildings		19 18 347
Tools and plant		94 327
Workshop — Buildings		2,414
Workshop — Machinery and plant		*1,975
Workshop — Materials		*7 327
Store houses		6,508
Stores		9,15,269
Charge for exchange on payments in England		*5,87,064
Suspense heads		9 051
	TOTAL	23 49 550

In the above account the expenditure of ₹9,15,269 on stores and the credit of ₹5 87,064 to loss by exchange require explanation

Hitherto all stores and workshop materials were brought on the books at a value of two shillings per rupee and the loss by exchange was debited in a lump sum This plan caused the cost of stores locally purchased or locally manufactured to compare unfavourably with that of those imported, and in the case of instruments and other articles, manufactured partly from imported and partly from indigenous material, rendered it most difficult to calculate the real value Consequently the Government of India (in a letter, No 11 A T, dated the 28th February 1888) ordered that in future the imported stores should be brought on the books at a price to include loss by exchange, and those already in stock should be revalued

The actual value of stores imported or purchased during the year was ₹3,28,205

14 Revenue Account —The Revenue Account of 1887 88 compares as shewn below with that of 1886 87 —

	1886 87	1887 88		1886 87	1887 88
	₹	₹		₹	₹
RECEIPTS			EXPENDITURE		
Message revenue	†48 26,078	51,67 996	Repairs of lines	4,64,601	3,40,355
Receipts from Railways and canals for rent of lines and offices supplied and maintained for them	9,64,997	12,55,080	Direction	1,58 741	1,71,267
			Accounts	56 301	63,254
			Superintendence	7,40,473	8,10,708
			Line maintenance and establishment	2,41,467	2,83,630
			Check office	54,532	60,250
Rent of private lines and claims against guarantees	82,975	1,18,866	*Signal Offices*		
			Departmental	21,68 586	22,88,539
Sale of books, Gazettes &c	16 099	15,955	Non departmental	1,41,502	1,37,085
Miscellaneous	51 767	36,241	Minor undertakings	6 427	6,503
			Telegraph stamps	6,089	6,896
News—free and other *pro-formâ* messages	34,215	34,522	Stationery and printed forms	68,767	1,09,852
			Other items	14,387	13,909
			Total Expenditure	41,21,873	42 92,248
			Surplus receipts	18,54,258	23,36,412
TOTAL	59,76,131	66,28,660	TOTAL	59,76,131	66,28,660

* Credits

† In para 13 of last year's report the Imperial message revenue was shewn as ₹332 too much owing to this amount received from Provincial offices having been twice credited in the Revenue accounts

15 It will be seen that against an increased outlay of ₹1,70,375, there was an increase of revenue of ₹6,52,529, making a net improvement of ₹4,82,154 Of the increased receipts ₹3,41,918 is due to message revenue and ₹2,90,083 to increased rent from Railways and Canals, due partly to additional mileage of wires supplied and partly to an alteration in rates On the expenditure side of the account the cost of repairs has fallen from what it was in 1886 87, but is higher than in 1885-86 This item is liable to fluctuation and is necessarily largely dependent on floods, storms, &c

There is a large increase in the cost of printed forms, which is partly due to the increased number used for message traffic and partly to a replenishment of the reserve stock

III —TRAFFIC

16. The number and value of Paid telegrams of all kinds, under the two heads State and Private, including those collected in Provincial offices, are shewn below with the corresponding figures of the previous year —

Class of Message	1887 88		1886 87	
	Number	Value	Number	Value
		₹		₹
State Inland	537,193	16,45,797	452 277	16 20,626
State Foreign	6 286	64 268	6,898	78,494
Total State	543 479	17 10 065	459 175	16,99 120
Private Inland	1,860,3 0	19,81 814	1,683 758	18 17 798
Private Foreign	403 748	14 81,166	373,893	13,13,321
Total Private	2 264 138	34 62,980	2,057 651	31,31 119
Total State and Private	2,807,617	51,73 045	2,516,826	48,30 239

The net increase in 1887-88 amounts to 290,791 in number, and ₹3,42,806 in value, or 11 55 and 7 09 per cent, respectively

The Provincial revenue included above is shewn below It is collected in only three offices working under special arrangements with Local Governments, *viz*, False Point, Dhulia and Malegaon

Class of Message	1887 88		1886 87	
	Number	Value	Number	Value
		₹		₹
State	1 680	2 409	1 481	1 755
Private	2,385	2,640	2,076	2,406
Total	4 065	5 049	3,557	4 161

Deducting these amounts from those first given, the net Imperial message revenue of the year, as shewn in the Revenue account given in para 14, is —

	₹
State	17,07 656
Private	34 60,340
Total	51,67,996

17 In Appendix B will be found a statement of the message revenue collected in the various administrative divisions of the Department, contrasted with the figures of the previous year

18 The proportion in which the traffic was contributed during the year by the four main heads, Inland State, Foreign State, Inland Private, Foreign Private are shewn in the following table —

Class	Inland		Foreign		Total	
	Number	Value	Numbe	Value	Number	Value
State	19 14	31 81	0 22	1 25	19 36	33 06
Private	66 26	38 31	14 38	28 63	80 64	66 94
Total	85 40	70 12	14 60	29 88	100 00	100 00

19 The proportion of the value of State Inland traffic to the total message revenue was 33 55 per cent in 1886 87, and though it has slightly fallen to 31 81 per cent during 1887 88, it is still unduly high, the average of the four years previous to 1886 87 having been only 19 1 per cent The causes are the same as those stated in last year's report, *viz*, the military operations in Upper Burma and the general settlement of administration in that province

Inland State Telegrams

20 The number and value of these telegrams continued to rise above even the previously unprecedented figures attained in 1886 87 The net increases over 1886 87, were 84,916 in number, and ₹25,171 in value, making the total of the year 537,193 telegrams of the value of ₹16,45,797 The increase in number in the Upper Burma Division alone amounted to 81,544 telegrams and the increase in value to ₹1,29,329 Against this large increase in value in Burma, there was a very general falling off in other divisions owing to a greater use of the "Deferred" class and a reduction in the length of telegrams "Urgent" telegrams formed only 32 71 per cent of the whole number of Inland State telegrams in 1887 88, against 38 77 per cent in the previous year, and the average cost of a State Inland telegram throughout the whole Department fell from ₹3 383 in 1886 87, to ₹3 069 in 1887 88 The fall in the Upper Burma Division alone was from ₹7 87 to ₹4 84, showing a satisfactory economy in the use of the wires, though the average cost of a telegram in Upper Burma was still 58 per cent higher than the average of the whole Department

21 It may be added that since the 1st April 1888, the number and value of State telegrams sent from Upper Burma have fallen considerably, due no doubt to a great extent to the enforcement from that date of the rule requiring all such telegrams to be prepaid During the first three months of the current year, the number of telegrams sent was at the rate of less than half the number sent in 1886 87, and the average value of each was only ₹2 4 After making due allowance for the more settled state of the province, these results show that the rule regarding prepayment of State telegrams by officials acts as a most salutary check on an undue use of the wires to the detriment of the paying public

Foreign State Telegrams

22 This traffic fell slightly as compared with 1886-87, by 612 telegrams in number, and ₹14,226 in value, the total of the year being 6,286 telegrams of the value of ₹64,268 (Indian share only) The latter amount represents, in the case of telegrams to Europe, only about one ninth of the actual cost of the telegrams the remainder being the shares of the administrations which carry them beyond the limits of India As these payments, which may be roughly stated at five lakhs of rupees during the year under review, are for the most part a final charge on the revenues of India, any diminution of this class of traffic is satis-

factory from a financial point of view, and it is evidently desirable that the codification of phrases should be availed of as much as possible

Inland Private Telegrams

23 This class of telegrams increased 10 49 per cent in number, and 9 02 per cent in value over the figures of 1886-87 The actual increases were 176,632 in number, and R1,64,016 in value, making the total of the year 1,860,390 telegrams costing R19,81,814 The growth of the traffic during the past six years, and the number of offices open at the end of each year are exhibited in the statement given in paragraph 32 As was the case in the year 1886 87, nearly one third of the increase, both in number and value was collected in Upper Burma alone, and was to great extent due to the special circumstances of a large number of native troops serving in that province at a distance from their families The remainder of the increase was very generally distributed, the Sind and Baluchistan Division being the only one that showed a decrease, due apparently to the contraction of operations on the frontier railways More than one quarter of the increased receipts, or R43,609, were collected in new offices, opened at the close of 1886 87, and during 1887 88 As the return traffic addressed to these new offices, and practically created by them in the old offices, must also have been very considerable, it is evident that but for these new offices, and for the exceptional traffic from Upper Burma, the ordinary increase of traffic in the older offices throughout the country generally would have been very small, thus indicating that the use of the telegraph by the public continues very stationary, except when developed by an expenditure of capital on extensions of lines and offices This subject was fully dealt with in the report for 1886 87, and it is sufficient to repeat here that under the present tariff, which is very much cheaper than those that preceded it, the receipts from private Inland telegrams are steadily improving, but that the progress of 42 92 per cent comparing 1882 83 with 1887-88 has been mainly due to an increase during the same period of the number of offices from 314 to 745, or 137 per cent, and that the increased revenue has only been gained by considerable expenditure both for new lines and extra establishment

24 The average length of an Inland private telegram in all classes remains remarkably constant at a little over 10 chargeable words, exclusive of the free address, which is often, especially in the case of messages to natives, very voluminous The concession of a free address is one that has been withdrawn of recent years in the United Kingdom, and the general principle adopted there, and in Europe generally, is that senders should be charged for the work their telegrams involve, as measured by the number of words This rule was formerly in force in India, but was abandoned in 1872 in favour of a free address in deference to public requirements, experience having shewn, not only the difficulty of delivering telegrams, insufficiently addressed in a country where there is so much similarity in names, but also the unwillingness of senders to give adequate addresses when it was necessary to pay for every word In any comparison of the Indian tariff with those of other countries, it is therefore necessary to allow for the mass of matter which we carry free in the address, the latter being often very much longer than the body of the message itself, which alone is charged for

Foreign Private Telegrams

25 This traffic shows an increase over the previous year of 29,885 in number, and R1,67,845 in the receipts, being increases of 7 98 and 12 78 per cent respectively A part of the increase is due, not to increased traffic, but to the loss by exchange in settlement with other administrations having been R59,882 less than in the previous year, when the loss was exceptionally heavy owing to special circumstances, as explained in paragraph 26 of the Administration Report for 1886-87 The traffic between India and Europe was almost stationary both in number and amount, but there was an improvement in the traffic between India and Ceylon, between India and the countries to the eastward, and between Europe and China, Australia, &c

26 As has been pointed out in previous reports, our foreign traffic is almost entirely of a mercantile character, and the factor which mainly controls its volume is the state of trade The telegrams, with few exceptions, are in abbreviated code, the economy of the use of which is thoroughly appreciated

27 Classification of Inland Telegrams —The inland paid traffic of the year, both State and Private, was classed by senders in the following proportions —Urgent 12 03 per cent , Ordinary 36 85 per cent , and Deferred 51 12 per cent , showing a slight increase of the deferred and reduction of the urgent class as compared with the previous year

28 The statements below show the classification separately under the three heads of State, Private and Press, compared with the previous year, and with the average of the previous four years —

Class	1887 88	1886 87	Average of four years from 1883-84 to 1886 87
State			
Local*		0 21	0 97
Deferred	64 07	52 08	57 74
Ordinary	3 22	8 94	11 17
Urgent	32 71	38 77	30 12
TOTAL	100 00	100 00	100 00
Private			
Local*		0 15	0 49
Deferred	47 34	49 25	46 94
Ordinary	46 65	43 81	46 06
Urgent	6 01	6 79	6 51
TOTAL	100 00	100 00	100 00
Press			
Deferred	56 90	53 57	49 61
Ordinary	36 78	37 20	42 64
Urgent	6 32	9 23	7 75
TOTAL	100 00	100 00	100 00

Under the orders of Government, rescinded since the close of the year under review, State telegrams, except in a few specified cases, could hitherto only be classified Urgent or Deferred, thus affording no comparison in classification with private telegrams The fall in the number of State telegrams classed Urgent as shown in the statement is, however, satisfactory

It will be seen that the classification of telegrams by the public is very constant, the proportions for 1887 88 closely approaching the average of the previous four years, and as compared with 1886 87 showing a slight diminution in "Deferred" and increase in "Ordinary" In press telegrams there is a tendency towards an increase of the "Deferred" class

During the year under review, a substantial concession was made in favour of Deferred telegrams by allowing greater recourse to delivery by hand in cases when such telegrams had suffered delay in transmission, or were likely to do so by the local postal delivery arrangements not fitting in well

29 The numbers and values of the telegrams in each class are shewn in the statement given below —

Class	Urgent		Ordinary		Deferred		Total	
	No	Value	No	Value	No	Value	No	Value
		R		R		R		R
State	175 713	11 14 157	17 303	17 954	344,177	5,16 911	537 193	16,49,022
Private	110 865	2 87 609	860 381	10 43 986	873 104	5 89 993	1,844 350	19,21 588
Press	1 014	1 126	5,899	19,690	9,127	25 597	16 040	57 413
TOTAL	287 592	14 13 892	‡883,583	‡10 81,630	12,26,408	11,32,501	2 397 583	†36 28,023

* Discontinued from 1st July 1886
† Exclusive of R12 055 on account of fees for abbreviated address, and a debit adjustment of R12 467
‡ Includes 46 420 telegraphic money order advices, value R46 440

30 Telegraphic money orders—It was stated in last year's report that in communication with the Postal Department the rules for these orders had been simplified and the charges reduced from the 1st January 1887, with the result that the number of them had risen in the three months from January to March 1887, to 7,138 against 2,883 in the corresponding months of the previous year Though the subject is one which mainly concerns the Postal Department, it is satisfactory to record that during 1887 88, the use of these orders has greatly extended, the Telegraph Department having transmitted in that year 46,420 advices or an average of 3,868 monthly against a monthly average of 2,379 in the first three months of the new system This rapid means of remittance has proved a boon to sepoys, camp followers, servants, &c , absent from their homes, who, until the amount of the prepaid reply to a telegram was limited to Rupees two, used to send a considerable portion of their remittances under the guise of "reply paid" telegrams through the agency of the Telegraph Department The Department now receives a fixed charge of one rupee from the Postal Department for each telegraphic money order advice, irrespective of the number of words it contains the advice being transmitted and delivered, under special precautions, as a telegram of the "Ordinary" class

31 Total number of Messages—The figures given below show the actual signalling work done, being the total of all telegrams, paid and free, both sent and received, as well as of all repetitions made in transit It will be noticed that the work has doubled since 1882 83

1880 81	6 649 709	1884 85	9 776,896
1881 82	6,719,621	1885 86	12,177 387
1882 83	7 862,671	1886 87	14 096,713
1883 84	8,271,509	1887 88	15 929,199

32 Inland Traffic —The following statement exhibits the growth of State and Private traffic for the past six years, during which the tariff has remained unchanged State messages have more than doubled in number since 1882-83, while the increase in private traffic, comparing 1882-83 and 1887-88, has been 56 40 per cent in number and 42 92 per cent in value, and the increase in the number of offices has been from 314 to 745 or 137 per cent The figures include Provincial revenue

33 Foreign Traffic —The rate of progress of this traffic shows an improvement in 1887-88 over that of previous years, but, as explained in paragraph 25, this is partly due to a reduced loss by exchange, and partly to increased traffic between Europe and countries to the East of India, including Australia The traffic between Europe and India has been very stationary for the past three years

34 Communication between India and Europe —In Appendix C are given details of the distribution of the traffic between India and Europe by the Suez, Teheran and Turkish routes for the past seventeen years Transit messages to and from the Far East are excluded from the Return, which refers to *numbers* of messages only The figures for the last five years are reproduced below —

Route		1883 84	1884 85	1885 86	1886-87	1887 88
Red Sea	*via* Suez	57 25	55 50	52 08	58 23	64 01
Indo European	„ Teheran	41 06	43 03	46 55	40 67	34 50
	„ Turkey	1 69	1 47	1 37	1 10	1 49
	TOTAL	100 00	100 00	100 00	100 00	100 00

It will be noticed that the Suez route carried more, and the Teheran route less, than the average during 1887-88, this is due to the Teheran route having been interrupted with Great Britain from the 13th to the 17th December 1887, and from the 1st February 1888 to the end of the official year, owing to the failure of the North Sea cables between Emden and Lowestoft It is understood that bad weather mainly though not altogether, prevented the more speedy repair of these cables by the Submarine Telegraph Company and the German Union Telegraph Company, to which they belonged The interruption was a serious one from an Imperial point of view, as, in the event of a simultaneous failure of the Suez cables, both the Indian and Colonial Governments, and the East Indian, China and Australian trade, would have been put to great inconvenience The Indo European Telegraph Company did all in their power to expedite the repairs, and representations were made by this Department both to the British Postal Department and to the Government of India to use their good offices to the same end *

The Eastern Company's route *vid* Suez worked admirably throughout the year and the only important interruption on the Turkish route was one between Bagdad and Mossul in April 1887, which lasted 16 days

35 Communication with the Straits, China and Australia —There was fortunately no simultaneous interruption of the Eastern Extension Company's cables between Madras and Penang, and between Rangoon (Elephant Point) and Penang, such as occurred during 1886 87, so that communication with the Straits was maintained throughout the year, as was also the case between Singapore and the Australian Continent

Direct communication between India and China by cable was cut off, between the 30th July and the 7th August, by the failure of the single cable which connects Singapore and Saigon But the Company in such cases divert the China traffic, from and to Europe, by the Great Northern Telegraph Company's line through Asiatic Russia The Indo Siam line to Saigon, see para 36, did not prove a reliable alternative during the interruption of the Singapore Saigon cable, as it was also out of order at the time

The following is a list of the cable interruptions that occurred —

Elephant Point to Penang	11th July to 3rd August
„	18th October to 5th December
Madras to Penang	9th to 17th April
„	13th to 15th December (for repairs)
Singapore to Saigon	30th July to 7th August

36 Indo-Siam Line —There was very little improvement in the traffic of this line during the year, and as a through International route from India to Saigon, the line continued almost valueless The total number of messages sent and received was 1 387, against 1,386 in the previous year, and the receipts of the Indian Department amounted to ₹7,365 4, against ₹6,903-15 in 1886 87

The northern route from Moulmein to Bangkok, *vid* Raheng, remained almost constantly interrupted throughout the year, and the southern route, *vid*

* The British and German Governments now each own one of these cables and will undertake their maintenance from January 1889 It is probable therefore, that any future breaks will be speedily repaired

Myitta and Kanburi, was also subject to long interruptions, mostly in Siamese territory the duration of which aggregated over one hundred days, moreover between Bangkôk and Saigon the route suffered further interruption for about fifty seven days Owing to the care with which they were constructed and maintained, the lines within the British frontier, though traversing most difficult and unhealthy forest and mountainous country, were kept in good working order, but the defect ve working of the lines to the eastward, in foreign territory, prevented any adequate return in the shape of traffic being reaped from the expense and trouble bestowed on our lines The inefficiency of the line from the frontier of India to Saigon *vid* Bangkok was made the subject of diplomatic representation to the Siam Government during the year under review, and a small section of the most difficult part of the Siamese line near the British frontier was, at the request of the Siam Government, inspected and reported on by an officer of this Department There is reason to hope that these measures may result in an improvement in its maintenance

37 **Extensions in China** —The opening up of telegraphic communication in China made rapid strides during the year The northern line from Shanghai *vid* the provinces of Hupe and Szechuen was completed to Yunnan, and three offices have been opened in that province which is partly co terminous with the British frontier in Upper Burma A second line from Yunnan to the Coast ports *vid* the provinces of Kwangsi and Kwantung to Canton was also under construction, and from recent official reports this line was expected to have been completed to Yunnan in March last, thus affording two routes from Yunnan to the the Pacific Ocean These extensions are a matter of considerable interest to India, as there now remains but a short link to connect the wires of this Department and those of the Chinese Government in the neighbourhood of Bhamo When this has been done, a comparatively cheap telegraphic tariff between India and China will, with the co operation of the Chinese Government, probably be possible The latest information received regarding the progress of the telegraph line in Western Yunnan, was that it had reached Momein, which is about 140 miles from Bhamo

38 **Other extensions of interest in Foreign countries** —During the year the Island of Formosa was connected with Foochow by a Submarine cable, and three offices were opened in the Island, telegraphic connection was established between Malacca and the States of Selangor and Sungie Ujong, and three offices were opened in each State, and a cable was laid from Gibraltar to Tangier, establishing communication with Morocco

39 **Traffic Statistics** —A graphic representation of the number and value of inland and foreign paid messages, year by year, as far back as the record is available, will be found in diagrams A and B

40 Appendix D is an abstract of signal offices, classed in groups according to the amount of traffic originating at each, year by year, since 1877-78

41 Appendix E shows the number of signal offices in each division, opened at the end of the year

42 The total number of Departmental, including "combined" offices open at the end of the year was 745, and the department provided and supervised 1,504 Railway and canal offices, of which 1,243 were available to the public

There were also 642 Railway offices not maintained by the Telegraph Department, of which 591 were available to the public

43 The total number of Telegraph offices open to the public during the past five years is shewn below —

	1883 84	1884 85	1885 86	1886 87	1887 88
Departmental and Combined	349	521	634	699	745
Railway and other licensed offices	1 382	1 514	1 577	1,690	1,834
TOTAL	1,731	2,035	2,211	2,389	2,579

44 Appendix M is a list, arranged by Provinces, of departmental offices opened during the year, *viz* —

Assam	6
Bengal	19
Bombay	4
Burma	36
Kathiawar	6
Madras	4
Mysore	4
North Western Provinces and Oudh	6
Punjab	5
Sind and Baluchistan	1
Offices opened in connection with His Excellency the Viceroy's Tour	5
Offices opened in connection with His Excellency the Commander-in Chief's Tour	2
TOTAL	98
The number closed* (permanently or temporarily)	52
Leaving a net increase of	46

or a percentage of 6 58 The offices were worked as shewn below —

By the Post Office (*see* paragraphs 55 to 60)	486
„ a Clerk of a Public Office	1
„ „ Light house keeper	1
„ Soldiers	64
Total worked by extra Departmental Agency	552
„ „ „ purely Departmental Agency	193
TOTAL	745

45 Speed of transmission —In the following table and in Diagram C are given the average time intervals occupied in the transmission† of telegrams (excluding deferred) over the principal main routes during the past five years —

	1883 84		1884 85		1885 86		1886 87		1887 88	
	H	M	H	M	H	M	H	M	H	M
Calcutta to Karachi	1	2	0	57	0	51	0	51	0	32
Karachi to Calcutta	0	36	0	35	0	36	0	35	0	20
Calcutta to Bombay	1	6	0	47	0	34	0	40	0	34
Bombay to Calcutta	1	10	0	48	0	36	0	43	0	31
Calcutta to Madras	1	7	1	1	0	50	0	54	0	34
Madras to Calcutta	1	4	0	59	0	46	0	59	0	45
Madras to Bombay	0	40	0	33	0	33	0	24	0	27
Bombay to Madras	0	38	0	28	0	36	0	32	0	31
Bombay to Karachi	0	35	0	35	0	31	0	28	0	24
Karachi to Bombay	0	30	0	24	0	21	0	14	0	17
Rangoon to Calcutta	2	50	2	10	1	22	3	17	2	22

It will be observed that there has been a very marked improvement in 1887 88 on all routes, in spite of the increase in traffic and the pressure on the lines between Calcutta and Rangoon—aggravated by the long interruption at the Pudda River referred to in para 71 The results afford good evidence of the attention that has been devoted to increasing the means of communication where necessary, and maintaining the lines and offices in a state of efficiency

The speed at which "Urgent" messages, including all Foreign messages, are carried is very much greater than that shewn in the table in which all "Ordinary" messages are taken into account as well as "Urgent"† In illustration of this, it may be mentioned that the actual average time in transmission

* For particulars *see* Appendix N

† To save the labour of compiling the real average delay from the actual time occupied in transmission of *all* messages the averages above referred to are calculated on the mean of the daily maximum and minimum delay on each route, and they are as a fact very much higher than the true averages

of *all* foreign transit messages between Bombay and Madras for the six months ending 31st March 1888, was only a few seconds over nine minutes

46 Complaints—In Appendix F will be found two statements giving particulars of the complaints made by the public regarding telegrams during the past two years While the traffic, including messages transferred for delivery from licensed administrations, increased 10 57 per cent over that of 1886 87, the net increase in the number of admitted complaints in which the Department was concerned was only 1 46 per cent , the percentage of messages forming the subject of complaint falling from 033 to 029 There was therefore a slight improvement over the results of 1886 87

News-Free and Concessional Telegrams

47 The numbers of free news telegrams, such as Mail Steamer reports, transmitted during the last three years have been as follows —

1885 86	788
1886 87	823
1887 88	933

These telegrams are transmitted to a large number of stations, and entail a very considerable amount of work on the Department Their nominal value was R28,909-3

In addition to the above, 1,253 telegrams of the nominal value of R5,612-14 were transmitted free on behalf of the French and Portuguese Governments and of His Highness the Khan of Kalât, under the special agreements existing with those governments

Traffic with Licensed Telegraphs

48 The statistics of this traffic for the past four years are given below —

	1884 85	1885 86	1886 87	1887 88
Transferred to Railways	132,330	124,288	118,764	100,469
Received from Railways	*185,261	†201,264	‡236,152	§236,455
TOTAL	317,591	325 552	354,916	336,924

In addition to the telegrams shewn as transferred to Railways, all of which were booked at departmental or combined offices a large number of telegrams were transferred, which originated in railway offices, and passed over the wires of the Department in transit to the offices of other railways

Press Telegrams

49 As will be seen from the statement below, Inland press telegrams continue almost stationary both in number and value There has been a diminution both in number and value of urgent and ordinary press telegrams, compensated for by an increase in deferred The total number of chargeable words transmitted in Inland press telegrams has been only 2,462,304 during the year, roughly 8,200 a day, excluding Sundays and holidays, and the concession of quarter ordinary rates represents a total reduction in charges to the "press" of R1,72,239 It is probable, however, that but for the reduced rates, the number and length of telegrams sent would have been much curtailed

Foreign press traffic shows some growth The press telegrams addressed to India, included in the statement, numbered 723, of the value (Indian share only) of R2,555—against 449 and R1,581, during the nine months of the previous year that the reduced rates for foreign press telegrams were in force It may be use-

* Includes 857 Foreign messages originating on Railway lines and transferred to this Department
† , 716 " , , ,
‡ , 525 , " , ,
, 558 " , " , , "

ful to mention here that these telegrams, which are not allowed to interfere with ordinary traffic, are carried at one third rates

Years	Inland		Foreign		Total		Remarks
	No	Value	No	Value	No	Value	
		₹		₹		₹	
1883 84	10,218	37,290	532	2 303	10,705	39,593	In the report for 1886-87 the foreign press message figures did not includ 449 tele grams of the value of R1,581 addressed to stations in India under the reduced rat s introduced in July 1886 These have been added and similar statistics will always be given in future years
1884 85	12,996	49,347	877	3,937	13,873	53,284	
1885 86	15,175	57,985	975	11,442	16,150	69,427	
1886 87	15,963	57,167	1,522	12 573	17,485	69,740	
1887 88	16,040	57 413	1,824	15 125	17,864	72,538	

A statement showing month by month the number and value of press messages during the year will be found in Appendix G

Undelivered Telegrams

50 The results compared with the previous year are shewn below The percentage of undelivered telegrams has somewhat increased, but the causes of non delivery are almost entirely beyond the control of the telegraph service

Cause of non delivery	1886 87		1887 88	
	No	Percentage	No	Percentage
1 Not found address insufficient	2 168	074	2 365	073
2 Not found at address given	3,583	123	3,933	122
3 Address changed in transmission	47	002	51	002
4 Left station new address not known	560	019	597	018
5 Left India	186	007	208	006
6 I eft for original station	1,678	057	1 950	061
7 Returned by Dead Letter Office	2,019	070	2,750	085
8 Addressee, or address given unknown	511	017	901	028
9 Refused	141	004	177	005
10 Other reasons	183	007	187	006
Total	11 076	380	13,119	406

Signalling Establishment.

51 At the close of the year, 1,345 Civil Telegraph Masters and Signallers, 11 Non Commissioned Officers on the Unattached List, and 265 Military Signallers were employed, in addition, one clerk of a public office, 586 postal clerks, three light house keepers, and six inspectors were more or less engaged on telegraph duties

52 The number of soldiers trained in telegraphy during the year was 190, and at its close 226 were under instruction These latter figures show a grea increase on the previous year, and are the result of the desire of the Government and of His Excellency the Commander-in-Chief to spread a knowledge of telegraphy in the Army, so as to provide trained signallers, in case of war, for employment in Field Telegraph Offices

Died	18
Dismissed	11
Invalided	11
Resigned	14
Retired	2
Transferred to clerical establishment or to other departments	2
Total	58

53 The number of casualties among the departmental Signalling Staff during the year was 58, a percentage of 4 27, due to the causes marginally noted

54 The list of efficient members of Volunteer Corps in the Telegraph Department at the close of the year 1887-88, showed a strength of 404 against 369 for the previous year

55 **Post Office Agency**—The utilization of the agency of the Post Office for working small telegraph offices of the main circuits continued to make steady progress

56 Thirty nine new combined offices were established, and thirteen departmental offices were transferred to postal agency, on the other hand, six combined offices were closed, making the net increase in the number of combined offices 46, as shewn in the statement below In connection with the extensions to the new offices, 342 miles of line and 368 miles of wire were added during the year, and the total number of combined offices open at the end of the year, including 125 small departmental offices transferred, was 486

Year	Number of combined offices open on 31st March		Mileage of line and wire added in connection with these extensions	
	Transferred to Postal Agency	New	New wire on existing supports	New supports and wire
1883-84	24	31	612	405
1884 85	73	194	636	1,216
1885 86	92	296	1,662	2,150
1886 87	114	326	1,851	2 434
1887 88	125	361	2,193	2,802
Net additions during 1887 88	11	35	342	368

57 The total number of paid telegrams sent from combined offices during the year was 572,512, of the value of R6 63,708, representing one eighth of the total message revenue of the Department, but though the number of these subsidiary offices largely exceeds the number of the main system, the signalling work done in them was less than one eleventh of that of the whole Department The combined offices are almost entirely local feeders to the more important offices worked by the Telegraph Department on the trunk lines, all their traffic, in and out, having to be repeated at the latter Under this arrangement they can be worked very economically, both as regards men and apparatus, but as this repetition, of necessity, adds largely to the work of the central or main line offices, the direct charges paid to the Postal Department for the establishments employed in combined offices only form a part of the expenses the latter entail, neither line charges nor establishment charges in the main line offices being included

58 The number of telegrams handed in at Postal Receiving offices, *i e* post offices which are not also telegraph offices, was 32,819, and the value of the telegrams amounted to R30,698 These figures differ little from those of the previous two years, and the special record of these statistics will be discontinued The telegrams and their value are both duly accounted for in the telegraph offices to which they are sent for transmission

59 There were 273 Postal Signallers under training during the year, of whom 137 were granted certificates of qualification by the Department, 64 withdrew, and 72 were still under instruction at the close of the year

60 In connection with the mutual working arrangements between the Postal and Telegraph Departments, it may be mentioned that a special small "telephone exchange" was established in order to connect the various departments of the Post Office in Calcutta, and was reported to be a great convenience in facilitating business (*see* paragraph 74)

Telegraphic Meteorological Service

61 With a view to afford the Meteorological Department facilities for promptly warning the various ports of India and Burma of approaching bad weather, a special class of storm signal telegrams was introduced during the year, with the approval of Government, on the application of the Meteorological Reporter to the Government of India These telegrams are given "precedence" over *ordinary* and *urgent* messages, and their use is resorted to by the Meteorological Reporter to the Government of Bengal and by the Observers at certain important stations, when there would be risk of delay in trusting to telegrams sent under the usual rules The telegraphic service between the Meteorological Office and the Central Telegraphic Office, in Calcutta, was also improved to enable the Meteorological Reporter to get out his daily reports earlier than hitherto A considerable number of the Meteorological observers throughout India are *employés* of this Department, and as the work of the two departments is so much connected, the arrangement is advantageous and saves much delay in the despatch of weather telegrams

IV—EXTENSION OF LINES AND LINE MAINTENANCE

62 One thousand eight hundred and sixty miles of line, 6,627 miles of wire and 30 miles of cable, were added during the years

63 The following figures show the system as it stood at the end of each year for the last 5 years —

	Miles of Line	Wire	Cable
1883 84	23,341	68,694	135
1884 85	25,387	74,973	142
1885 86	27 510	81,480	187
1886 87	30,034	86,890	196
1887 88	31,894	93,517	226

The wires and cables are maintained for the following purposes —

	Miles of wire	Miles of cable
Imperial lines	58,862	215
Provincial lines	71	
Native States	100	
Railway systems	33,043*	9
Canal systems	597	
Private lines	844	2
TOTAL	93,517	226

64 Appendix I is a statement of the lines, wire and cables maintained in each division, classified according to the purposes for which used Appendix J gives the length of the lines, wire and cables supplied for each railway and canal system

65 The following are some of the more important works undertaken for Railways —

For the Bengal-Nagpur Railway—On the Nagpur side the existing line from Kanhan Junction to Bilaspur, 244 miles, was completed throughout with three wires From Bilaspur to Raighur, and on towards the Eeb River, 120 miles of line with one wire was supplied for Railway construction purposes From the Bengal end, the line, of which 45 miles had been made from Assensol in 1886-87, was continued for Railway construction purposes to Chikardarpore, and on to the Konia River, a total distance from Assensol of 160 miles On the Katni-Bilaspur branch, the line already up to Umaria, was extended to Sohagpur, 42 miles

For the Indian Midland Railway—A line was constructed with two wires from Kalpi to Jhansi, 43 miles, and a second wire was erected from Basoda to Jhansi, 124 miles

* Exclusive of 6 miles of "crossings"

For the Southern Mahratta Railway—The following works were in progress at the end of the year —

	Miles
An extra wire Poona to Londa	276
„ „ Hudgi to Gadag	174
Three wires Bellary to Guntakul	30

For the Bellary-Kistna State Railway—An extra wire was put up from Guntakul to Nandyal, 89 miles

For the Tirhoot State Railway—A line of two wires was constructed in extension of the existing line from Baptiahi to Pertabganj, 14 miles

For the Madras Railway—An extra wire was erected on the extension from Beypore to Calicut, 9 miles

For the Nizam's State Railway—A line was constructed with two wires from Dornakul to Bezvada, 76 miles

For the Toungoo-Mandalay Extension, Burma State Railway—A line of two wires from Toungoo to Mandalay, 230 miles, was well on towards completion at the end of the year

For the Junagad State Railway—A line was constructed with two wires from Jetalsur to Verawal, 6- miles

For the Morvi State Railway—A line with one wire was constructed from Dholia to Morvi, 44 miles

For the North-Western State Railway—The erection of an extra wire from Sukkur to Quetta, *vid* Harnai, was in progress at the end of the year, and a wire was put up from Gulistan junction to Killa Abdulla and Shelabagh

66 A line was constructed for the *Western Jumna Canal* from Tajavalla to Manak, 76 miles

67 The following are the principal works carried out for departmental purposes —

Additional wires	Miles
From Broach to Ahmedabad	110
„ Rangoon to Poungde	170
„ Hyderabad (*Deccan*) to Bezvada	225
„ Raneegunge to Burhee	115
„ Bankipur to Chupra	36
„ Jalpaiguri to Silliguri	24
„ Lucknow to Sitapur	53
„ Multan to Sukkur	283
„ Sukkur to Sibi	297
„ Sibi to Quetta *viâ* Harnai	154
„ Shahrig to Quetta	86
„ Quetta to Killa Abdulla	70

The temporary line from Toungoo to Yamethin was transferred to the permanent line along the Railway

The line from Thayetmyo to Minbu was made permanent

The second line from Lahore to Multan, 210 miles, was completed

68 Among the works carried out in connection with combined offices the following are the more extensive —

Assam Division	Miles
From Alipur Duar to Baxa Duar	22
„ Gauhati to Palasbari	15
„ Silchar to Karimganj	33
„ Karimganj to Patharkandi	20

Bellary Division	Miles
From Belgaum to Ashta Road, with branches to Miraj, Sangli and Tasgaon	114

Bombay Division	Miles
From Ahmedabad to Dhandhuka	99
„ Bhavnagar to Veraval	184
„ Panchganni to Mahabaleshvar	11
„ Poona to Purandhar	22

Ganjam Division	Miles
From Kendrapara to Alba	14
„ Bishnupur to Garbetta	18
„ Coconada to Pithapuram	16
„ Chicacole to Pandur	13
„ Ellore to Narsapur	77

Madras Division	Miles
From Nidamangalam to Mannargudi, and from Tanjore to Trichinopoly	38
„ Ammiyanayakanur to Periyakolam	52
„ Madras to Vellore	86

Punjab Division	Miles
From Sardhana Railway Station to Sardhana Post Office	12
„ Baraut to Kandhla	19
„ Roorkee to Saharanpur	43

Burma Division	Miles
From Myokwin to Lemyethna	14

Upper Burma Division	Miles
From Pyintha to Maymyo	18

Special works

69 The work in Upper Burma has mainly been in consolidating and strengthening the existing lines

Communication between Upper Burma and Assam was established by the completion of the line commenced last year, from Manipur *vid* Tammu and the Chindwin Valley The wire runs from Mandalay on existing posts to Ava, where a cable across the Irrawadi connects it with Sagain From Sagain the line is taken across country *vid* Myinmu to Moniwa where it meets the Chindwin the valley of which it follows up to the junction of the Yu River It then follows the Yu River generally to Tammu With the exception of the section from Kendat to Tammu, 60 miles, which is at present a temporary field line, the circuit has worked well, notwithstanding the great natural difficulties of the country through which it runs Since the commencement of the monsoon, heavy floods and impassable roads have made it impossible to keep up communication on this section, but it is hoped that by the end of this year the whole section Manipur to Kendat will be completed in a reliable manner The connection of Upper Burma with India by this route has been a work of considerable difficulty, and the staff employed have suffered much from hardships and exposure and the consequent fever and malaria

The additional wire between Calcutta and Rangoon, the erection of which was carried as far as Narayanganj last year, was completed to Rangoon, a distance of 580 miles, of which 390 miles are on a separate line of posts An alternative route has thus been partially secured over the most difficult sections for the important Calcutta-Rangoon traffic

70 The trial of hard drawn copper wire, mentioned in last year's report, having proved encouraging, a wire of this metal was put up between Bombay and Madras, 800 miles, and between Bombay and Nagpur, 520 miles It is in contemplation to extend this latter, by wire of a similar metal, to Calcutta, as soon as the line of posts along the Bengal-Nagpur Railway is completed The results obtained on the new wire are highly satisfactory Bombay and Madras are now able to work quadruplex without any intermediate translating station The difficulties connected with the manipulation and erection of the "hard drawn copper wire," have in practice proved, with ordinary precautions, to be less than was anticipated The use of this wire would have been much extended had it not been for an exceptional rise in the price of copper, which has rendered the purchase of it for the present almost prohibitive It is, however, in contemplation to attempt its manufacture in the Telegraph Workshops in Calcutta, utilising old cable core and copper in stock

71 The abnormal rise and change of course of the Pudda River, which resulted in the village of Goalundo being washed away in September, caused the loss of two valuable cables out of the four which crossed that river at this point It was only by the exertions of the Superintendent of the Dacca Division and his staff that two of the cables were lengthened in time and so saved Two cables not being sufficient to carry the traffic, bank offices had to be kept open until two new cables were laid in March After much deliberation it was decided not to lay these new cables at Goalundo, where the limits of the river are so uncertain Another crossing was selected—at Gopalpur—some miles lower down, and an alternative route established leaving the old line at Rajbaree on one side of the river and meeting it again at Manickganj on the other The Pudda River is always a source of danger and anxiety, and it is much to be feared that the two working cables that now remain at Goalundo will not much longer withstand the constant scour and shifting sandbanks to which they are exposed

72 The completion of the Jubilee Bridge has admitted of the span which carried the wires across the Hooghly River at Barrackpur being dismantled The wires now cross the river on brackets attached to the girders of the Bridge, and the 150 feet iron masts formerly used at Barrackpur have been taken down, and will be re erected at the Kurnafuli River in Arakan

73 In connection with the meteorological observations taken at Diamond Island, and the advantages which this place has for communicating with vessels passing between Rangoon and Calcutta, an improved service with Rangoon was called for by the Government An expenditure amounting to ₹19,500 was sanctioned for moving a portion of the telegraph line to a safer position between Henzada and Bassein, and for insulating the line from Bassein towards the island, besides clearing the wires of heavy jungle for a considerable distance along the route

74 *Telephone lines*—An extensive telephone system was constructed for the Postal Department in Calcutta at an expense for lines and offices of ₹5,299

A telephone system for the Police at Madras was in course of construction at the end of the year, and radical improvements were made to the Madras Government system by substituting copper for iron wire

75. The following cables were added during the year—

1	across the	Moulmein	River	at	Moulmein,
1	„	„ Irrawaddy	„	„	Prome,
1	„	„ ,	„	„	Ava,
1	„	„ Ganges	„	„	Deegaghat,
2	„	, Pudda	„	,	Gopalpur
and 1	„	„ Koladyne	„	near	Akyab,

aggregating a total length of 22 miles

Interruptions to communication

76 The number, nature and duration of all faults on lines and in offices, which have in any way affected communication during the year, will be found in Appendix K

Although the number of faults during the year is larger than that of the previous year, being 1,568 against 1,260, the average duration of each kind of fault is much less, being only 19 hours as against 29

The increase in number is partly due to the numerous faults caused by the Burmans in Upper Burma, where it is likely the difficulties of maintenance will continue to be experienced until the country becomes more settled

77 There was a large increase in the number of interruptions caused by carelessness or neglect in signal offices Of 273 such faults, 206 were caused in combined offices, and 50 in departmental offices—chiefly those worked by military signallers The offices in fault in the remaining 17 instances were not traced

78 The following table shows the number of interruptions due to various causes, compared with last year —

Cause	Number of Interruptions	
	1886 87	1887 88
Storms	86	98
Wire breaking	47	83
Trees and branches	104	74
Insulators damaged by lightning	20	47
Supports breaking	11	30
Fires	17	12
Floods	34	20
Dacoits		44

The majority of interruptions is and always will be, due to trees, which are a source of danger to telegraph lines that it is impossible altogether to guard against An immense amount of tree cutting and jungle clearing is done annually, but in many places the trees in the vicinity of the lines, either from their value as shade trees, or from their being private property, cannot be interfered with, and all that can be done is by constant patrolling and cutting off small branches to provide against the danger as far as possible

In Bengal much damage was done to the lines by exceptional storms in May and June

In the Bombay Division several interruptions were attributable to malicious tampering with the wires All endeavours to trace the culprit or culprits have, however, been unsuccessful

In the Burma Division much damage was done to the lines within 35 miles of Rangoon, both on the Prome and Toungoo sections, by a storm of unusual severity in the month of May Some damage was done at the same time to the line from Rangoon to Elephant Point, the branch line to Kyauktan and the main line from Rangoon to the Siamese Frontier

Of the faults on lines in Upper Burma, 44 were due to the wires being cut by dacoits, and many of the rest to the mischievous breaking of insulators by the Burmans

In Dacca Division the loss of two out of the four cables which crossed the Pudda River at Goalundo, owing to the sudden rise and change of course of the river, referred to in paragraph 71, seriously interfered with the through communication between Calcutta and Rangoon

In the Ganjam Division a cyclone in the month of May caused damage to the lines between Balasore and Midnapore that interrupted communication for 144 hours

Unusually heavy floods in the Bolan which occurred in August, causing breaks in the railway, resulted in interruption to telegraphic communication aggregating 251 hours Severe storms in the neighbourhood of Quetta caused interruptions that lasted for some 280 hours, the long duration being due to the fact of the heavy snow rendering rapid restoration impossible

79 *Licensed systems* —Appendix L is a statement showing all faults which have occurred on the lines and in the offices of licensed systems, their nature, number and duration, as well as the mileage of wire in use by each system at the close of the year

80 The interruptions per mile of wire were the same as in the previous year, *viz*, 018, against 023 and 024 for 1885-86 and 1884 85 respectively

81 The interruptions due to defects in offices show a decrease per office, being only 065 as against 08 for each of the two previous years.

V—PRIVATE LINES AND TELEPHONE EXCHANGES

82. The gross earnings of the Telephone Companies at Bombay, Calcutta, Karachi, Madras, Moulmein and Rangoon were ₹12,572 more than in the previous year

The following table shows the extent of their operations for the past six years —

Year	Number of Subscribers on 31st December	Number of Exchange connections	Number of Private lines	Amount of gross rentals
				₹
1882	244	244	5	73,009
1883	411	392	34	1,19,165
1884	699	703	77	1,37,490
1885	822	837	100	1,51,349
1886	849	871	95	1,66,876
1887	808	842	104	1,79,448

83 The extent of the departmental operations in the same class of business is shewn in the following table —

Year	Number of Exchanges	Number of Exchange connections	Private lines		Amount of Subscriptions
			Number of circuits	Number of offices	
					₹
1881	4	24	37	67	19,808
1882	8	56	88	147	40,069
1883	12	92	89	148	47,131
1884	9	72	122	200	53,213
1885	8	71	160	257	61,443
1886	8	79	156	247	60 182
1887	11	105	124	195	58,118

VI —ELECTRICAL

84 Quadruplex working was introduced during the year on the line between Calcutta and Rangoon, a distance of over 1,000 miles, with Akyab as a half way station, where the signals are automatically repeated The introduction of the same system was also arranged for on one of the wires between Calcutta and Agra, with Allahabad as the repetition station

The number of circuits worked duplex has also increased, and there are now 23 main circuits, most of them of great length, worked on the quadruplex or duplex system

85 The suspension of a copper wire between Madras and Bombay, which was completed early in the year 1888, has very much improved quadruplex working between those cities, and the important Australian and China traffic which mainly traverses India by this route is disposed of with great ease and rapidity

86. The Electrician and his staff were busily engaged throughout the year in connection with the above work, and in their ordinary duties connected with the manufacture of new cables, the repair of cables already laid, line, instrument and insulator testing, &c Several comprehensive technical pamphlets, illustrated by diagrams, were also prepared and issued

The record of the year shows much useful work done, among which may be mentioned the following —a series of experiments by which the system of Differential Duplex in use in the British Postal Telegraphs was modified and perfected so as to meet the special requirements of India, and the introduction of a universal relay adapted for ordinary, duplex or quadruplex working Hitherto it had been necessary to obtain relays from England owing to the difficulty of manufacturing magnets which should retain their magnetism permanently This difficulty was overcome in a series of experiments made the previous year, with the result that the relays, which form the most important part of the Morse instrument, can now be manufactured locally.

VII —STORES AND WORKSHOPS

87 The work of the Store Branch calls for little remark except that the numerous demands upon it were promptly met

88 In consequence of the order of Government to revalue all stores in stock at a rate to include loss by exchange in the case of those received from England, a new Rate List was prepared which shows the real value of the stores instead of as heretofore their value in Rupees at par This corrected valuation is of considerable importance in cases where stores are obtained sometimes locally and sometimes from England The amount added to the value of stores on the books on 1st April 1888 to cover loss by exchange was R5,87,064

89 The Workshops continued to be fully employed, and the cost of the various articles made was R4,72,172 A new range of sheds, designed as work-sheds, with north lights, which was commenced in the year 1884-85, was completed, and some additions made to the machinery Much satisfactory work was done in deciding on new patterns of Field Telegraph Stores The local manufacture of Telegraph instruments was much extended, and, as regards instruments, the Department is now almost independent of London except for delicate testing apparatus and some component parts of Quadruplex sets Large numbers of tools were also made, and the manufacture of iron tubular posts was much improved

Appendix O gives a list of the principal articles manufactured In addition to these, 2,583 instruments were repaired

---

90 Sir Albert Cappel, K C I E, the Director General, proceeded on furlough on the 9th March 1888

H MALLOCK, *Colonel*,
Offg Director General of Telegraphs

SIMLA,
The 2nd October 1888

APPENDIX A

Summary of Financial Results of the Indian Telegraph Department for the year 1887-88

	Miles of Line			Miles of Wire			Miles of Cable

W J HAM,

For *Director General*

CALCUTTA,

The 1st February, 1889

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

Weekly Report on the state of the Season and prospects of the Crops

Madras —*For week ending 2nd February, 1889* —No rain More rain wanted in Ganjam, Vizagapatam, Cuddapah, Bellary, Trichinopoly, Tinnevelly, Salem and Coimbatore Standing crops generally good, but withering in parts of Coimbatore, Bellary, Cuddapah and Tinnevelly, affected by disease or insects in parts of Coimbatore, South Arcot, Chingleput, Cuddapah and Bellary Pasture deficient in Coimbatore and parts of Salem Prices rising in ten districts including Ganjam, falling in five, and stationary in others General prospects favourable except in Ganjam and Coimbatore Coolies employed on Rushikulya works 33,572, and on Gopalpore Canal 32,413

Bombay —*For week ending 6th February, 1889* —Rain throughout Sind and in parts of Broach and Surat Late crops in Upper Sind Frontier benefited by it Standing crops in three talukas of Surat and Poona and in parts of Ahmednagar unsatisfactory, *jowari* in one taluka of Ahmednagar, cotton and *kardi* in one of Sholapur, cotton in parts of Bijapur, exotic cotton and wheat in parts of Dharwar and late crops generally in one taluka of Kanara blighted, wheat in Broach poor, opium in Baroda good, and late crops good in most districts Harvesting progressing generally, probable outturn of cotton in Kaira eight, and in Broach ten annas, and of wheat in Kaira eleven annas Fodder scarce in Khandesh, Nasik, and in parts of Kathiawar

Bengal —*For week ending 5th February, 1889* —General rain is reported to have fallen over the whole of the Province except Orissa and parts of East Bengal, the fall being rather heavy in Behar and North Bengal The rain has been generally very useful, but the hail, which fell in places in Behar and North Bengal, has caused some injury to the standing crops The prospects of the *rabi* crops are now more hopeful all round, and tobacco and poppy promise well *Boro* or spring rice is also progressing satisfactorily Ploughing for the autumn crops has begun, and *cheena* and other millets are being sown The sugarcane and potato harvests are proceeding, and are expected to yield fair returns No marked fluctuation in the price of rice has been reported during the past fort-

night Regarding the afflicted tracts in North Behar no further accounts have been received during the week, but the rain is expected to have improved matters Distress in consequence of the floods, which occurred during last rainy season, is reported from certain parts of the Midnapore District

N W P & Oudh —*For week ending 6th February, 1889* —Good rain fell during the week in all districts with hail here and there *Rabi* prospects much improved Poppy doing well Sugarcane pressing continues Markets well supplied Prices steady, but slightly falling in places Condition of cattle good

Punjab —*For week ending 6th February, 1889* — Rainfall general through out the province Prices unsettled in Delhi and Peshawar, falling in Jullundur, Ferozepore and Sialkot, rising in Rawalpindi, and stationary elsewhere *Rabi* sowing over More rain wanted in Hissar The *rabi* crops have been generally improved by the recent fall of rain , prospects are now said to be good Stock cattle are reported healthy Fodder sufficient except in Hissar, Dera Ismail Khan and in parts of Rawalpindi Poppy crops good in Amritsar

Central Provinces —*For week ending 6th February, 1889* —Slight rain in Saugor Prospects of winter crops continue unfavourable in northern districts Wheat fading in Bilaspur for want of moisture and expected to yield eight annas in Raipur Prospects elsewhere favourable Cattle in fair condition

Burma —*For week ending 2nd February, 1889* —Crop prospects continue favourable on the whole The price of paddy has fallen in Tharrawaddy and Thôngwa, and has risen in Prome, Moulmein, Shwebo, Magwé and Pyinmana, elsewhere there is no change

Assam —*For week ending 6th February, 1889* —Weather cool Moderate rainfall in all districts has facilitated ploughing Sowing of early rice, gathering of mustard and pressing of sugarcane are going on, and potatoes are being sown in the Khasi Hills

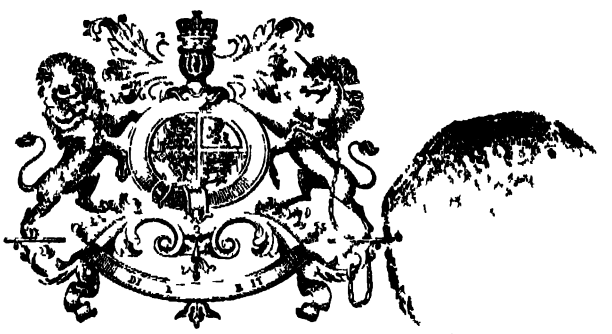
Mysore and Coorg —*For week ending 6th February, 1889* —No rain in Mysore Condition of crops and prospects good Outturn of crops generally fair Water-supply deficient in parts of the Mysore and Hassan districts Prices risen in the Bangalore district, and fallen in the Tumkur district slightly

Coffee crop for the most part picked in Coorg

Berar and Hyderabad —*For week ending 6th February, 1889* —In Berar picking of cotton and harvesting of other *kharif* crops completed almost everywhere Cutting of *rabi* crops now commenced Cattle healthy Fodder in sufficient in some districts Prices same as last week

No rain in Hyderabad *Rabi* crops thriving, transplanting of *tabi* crops begun, prices stationary

Central India.—*For week ending 6th February, 1889* —Slight rain in Bundelkund and hail in Jaora, which has damaged the crops there Condition of standing crops in Bundelkund only average, but prices have fallen slightly during the week Prices stationary in Neemuch



Rajputana —*For week ending 6th February, 1889* —Good rain in Ajmere, Jeypore, and Ulwar Slight in some other places Agricultural operations and standing crops satisfactory Agricultural stock good Pasturage or fodder sufficient except in Marwar, Kherwara and Meywar Prices steady except in Kherwára and Meywar Opium satisfactory Cotton fair

Nepal —*For week ending 31st January, 1889* —Good rain fell during the week. Weather chilly. Prospects improved in the valley

Value of silver held in the Mint on account of the Currency Department on the evening of the 6th February 1889	5 74 942	
Value of Government silver in the Mint on the same date	15 30 223	
		21 05 165
ADD —		
Silver received by the Mint during the week on account of the Currency Department	17	
Ditto ditto Government	6,21 512	
		6 21 529
		27 26 694
DEDUCT		
New coin paid to Reserve Treasury during the week	2,65 000	
Petty items issued for miscellaneous purposes	13,055	
		2 78 055
Balance on the evening of the 13th February 1889		24,48 639
The Balance comprises—		
Silver held on account of the Currency Department	4 62 532	
Ditto ditto Government	19 86 107	
		24 48 639
There is in addition awaiting assay—		
Bullion belonging to Private Individuals	3 75 291	
Ditto ditto Government		
		3 75 291

R V RIDDELL *Lieut Colonel R E*
Warden of the Mint

CALCUTTA MINT
The 14th February 1889

AGENT TO THE GOVERNOR-GENERAL IN BALUCHISTAN

NOTIFICATION

Quetta, the 7th February, 1889

No 418—Surgeon A W D Leahy is appointed Honorary Surgeon in the Baluchistan Volunteer Rifle Corps with effect from the 21st January, 1889, *vice* Surgeon Major C W Owen, C M G, C I E, resigned

By Order
C PRITCHARD, *Lieut,*
Second Asst to the Govr Genl's Agent in Baluchistan

AGENT TO THE GOVERNOR GENERAL, RAJPUTANA

NOTIFICATION

Abu the 11th February, 1889

No 392 *G*—Surgeon W H Neilson, L M S, Medical Officer of the Erinpura Irregular Force, is permitted to avail himself of the privilege leave for one month, granted in Foreign Department Notification, No 2280 G, dated the 13th December, 1888, from the 31st January, 1889

By Order,
E A FRASER, *Major,*
First Asst to the Agent to the Govr-Genl in Rajputana

CHIEF COMMISSIONER OF AJMERE-MERWARA

NOTIFICATIONS

Abu, the 6th February, 1889

No 110—695—In exercise of the powers conferred by sections 70, 73 and 110 of the Ajmere Land and Revenue Regulation, II of 1877 the Chief Commissioner of Ajmere Merwara is pleased to make the following rules —

UNDER SECTION 70

Maintenance of Settlement Record

1 All cases of mutation of names whether necessitated by the death of the recorded proprietor or mafidar or otherwise shall be disposed of by the Tehsildar in manner hereinafter provided

2 A register of mutation of names shall be kept in each Tehsil in the following Form (No I), in which all such cases shall be entered provided that, in cases not directly reported by the supervisor of the circle, such entry shall not be made until the supervisor has had an opportunity of reporting thereon —

FORM NO I

Register of Mutation Cases

Name of village	Number of case	Names and descriptions of parties	Specification of land regarding which mutation is sought or required	Date fixed for hearing	Final order with brief abstract of statements of parties and witnesses (if any) explaining grounds of decision if the question of right is summarily decided	Date of decision	Nature of objections and final order thereon	Note of appellate decision with date	Amount of fees due	Amount realised and when	Date or dates of payment into Treasury	REMARKS
1	2	3	4	5	6	7	8	9	10	11	12	13

3 Having fixed a day for the decision of the mutation cases of the villages in any neighbourhood, the Tehsildar shall issue notices to such villages in the following Form (No II) Such notices shall never be served less than six days before the day fixed for the decision and shall be posted in some conspicuous place in the village hatai—

FORM NO II

Notice No I

Whereas the following case/cases for mutation of names is/are pending in the village of , Tehsil , this is to give notice that on the day of 18 the undersigned will be present in the said village of for the purpose of deciding the case/cases Parties concerned are hereby directed to be in attendance with such documentary or oral evidence as they may wish to produce

(Sd)

Dated *Tehsildar*

4 On the day fixed, the Tehsildar shall record the result of the enquiry made by him in column 6 of the Register (Form No I) It will not be necessary to prepare a separate record of the statements of the parties or their witnesses If the parties fail to attend, the case shall be decided on the statements of the village Patwari, the Lambardars, and other respectable witnesses present on the spot

5 All cases shall be decided on the question of possession only, but where such question is contested, the Tehsildar may decide the matter on the question of right, such decision being relevant only for the purpose of correcting the settlement record

6 In all cases disposed of under the preceding rule, a notice shall be issued in the following Form (No III), inviting objectors to come forward within fifteen days The notice shall be served in manner laid down in Rule 3

FORM NO III

Notice No II

The following mutation of names having been ordered, under No 5 of the rules framed under section 70 Land and Revenue Regulation II of 1877 notice is hereby given to objectors to appear before the undersigned on or before the day of 18 to state their objections

Date of order	Number of Khata	Area	Name of recorded owner	Name of person in whose favour mutation of names is proposed to be made	REMARKS
1	2	3	4	5	6

(Sd)

Dated *Tehsildar*

7 No mutation of names shall be made in the Patwari's register until the objections, if any, have been heard and determined

8 Should the objections preferred within the prescribed period be allowed the Tehsildar shall modify or alter his original order as may seem to him equitable

9 On such mutation a fee of R1 4 per cent on the income of Khalsa and R2 8 on that of Muafi lands shall be levied provided that the minimum fee shall be 4 annas for Khalsa and 8 annas for Muafi lands An extract from the register (Form No I) showing the amount of fees levied and the dates of payment into the Treasury shall be sent once a month to the Collector

10 The Tehsildar shall visit all the villages in his Tehsil at least once in every three months, to clear off mutation cases

11 The Naib Tehsildar may, with the previous sanction of the Collector, perform in uncontested cases the duties above assigned to the Tehsildar

UNDER SECTION 73

Payment of Revenue

12 The revenue shall ordinarily be paid at the head quarters of the Tehsil to the Tehsildar or such subordinate as he, with the sanction of the Collector may appoint to receive it With the permission of the Collector, the revenue may be paid direct into the head Treasury

13 The instalments of revenue shall be paid on the dates fixed at settlement, namely, 1st January and 15th June in each year

14 All money paid into the Tehsil shall be accompanied by an arz irsal

The arz irsal shall first be taken to the Wasilbakinavis, who shall, after verifying the correctness of the payment endorse it for payment to the Tahvildar (Treasurer)

15 No native officer other than the Tahvildar (Treasurer) shall on any account receive or keep any public money whatever

16 In all cases in which land revenue and cesses are due, the sum paid shall first be credited to cesses and the balance, if any, to land revenue

17 On receipt of the arz irsal endorsed by the Wasilbakinavis, the Tahvildar shall take the money, and enter the payment in his own siaha, and endorsing the arz irsal with his receipt, pass it to the Siahanavis

18 The Siahanavis shall on the authority of the Tahvildar's receipt, enter the sum as paid in his siaha, and shall draw out the dakhila or receipt, which after having been duly signed by the Tahvildar and the Tehsildar or other officer in charge of the Tehsil, shall be given to the payer

19 Information of the credit shall then be given to the Wasilbakinavis, who shall note the same in his khatauni (ledger), initialling the siaha to show that he has done so

20 The dakhila bahis shall be kept in printed counterfoil registers each book containing one hundred duplicates bound up and paged

21 At the end of each day, and before the siaha is sent to the head office, the Wasilbakinavis and the Siahanavis shall compare the siaha with the khatauni, item by item, and the Wasilbakinavis shall number each item in the khatauni with the number borne by such item in the siaha The Siahanavis and the Tahvildar shall then compare the totals of their siahas, and at once bring to the notice of the Tehsildar or officer in charge of the Tehsil, any discrepancy they may discover The dakhila bahi shall then be compared with the siaha by the Wasilbakinavis and the Siahanavis

22 To each arz irsal, a serial number shall be given, according to the order in which the money is credited in the Tahvildar's roznamcha or daily ledger The series of these numbers shall com

mence daily and the Tahvildar shall number each irsal before passing it to the Siahanavis The same numbering shall be shown in the daily siaha, in the Wasilbakinavis' khatauni, in the dakhila, and in the record of any payments kept up for special departments

UNDER SECTION 110 (*a*)

Assessment of Land Revenue —Lands variably assessed

23 Of land variably assessed to revenue, there shall be two classes —

Class 1 —The portions of villages lying in the beds of certain tanks which are liable to sub mergence, and which have been demarcated by the Settlement Officer

Class 2 —Whole villages in which a standard revenue has been assessed on a standard culti vated area by the Settlement Officer

24 In lands of class I, the cultivation of each harvest shall be recorded and measured up The revenue due shall be found by applying to the cultivated area the rate or rates fixed by the Settlement Officer at settlement

25 In variably assessed villages (class 2), the assessments shall be made by a rate varying between a maximum and minimum assessed at settlement on the cultivated area found under the rules hereinafter provided The standard rate on which variation is calculated is the rate for the dry cultivation, and to it as a basis all other rates in the village must be referred All the other rates are multiples of the dry rate, and to find the dry unit area, the area under each class of culti vation (chahi, talabi, abi and dry) must be multiplied by the multiple of its own class

NOTE —*When the rat falls b low th minimum the minimum rat shall b collected and the excess credited to Government when the rate rises above the maximum the maximum rate only shall be collected and the balance of the revenue remitted*

26 The area to be assessed shall comprise all cultivation except that of Muafi and Bhum lands

27 The record of measurements for purposes of assessment shall give the necessary details for—

1 Lands assessable at well (chahi) rates
2 Lands assessable at tank (talabi) rates,
3 Lands assessable at wet (abi) rates,
4 Lands assessable at dry rates

28 The assessments shall be made under the superintendence and orders of the Collector

29 In determining the rates of assessments, the following general rules shall be observed —

(*a*) The rate for the autumn (kharif) harvest shall be struck on the completion of the records of that harvest at a time when the prospects of the ensuing spring (rabi) harvest are fair ly well known The rate to be taken will depend partly on the area under crops in the autumn harvest and partly on the prospects of the ensuing spring harvest, and shall, sub- ject to the maximum and minimum referred to in Rule 25, be so fixed that the revenue of the whole year may be collected in full without loss or balance Provided that if, with a view to making good any possible loss of revenue by failure of the rabi har vest, a rate higher than the minimum rate is imposed in the kharif, allowance shall be made for the excess when the rabi assessment is being made, and the assessable area for the whole year is known, and conversely if at the time of making the assess ment for the rabi harvest, it appears that the kharif assessment ought to have been made at a higher rate than that actually assessed, the deficiency shall be recovered along with the rabi instalment

(*b*) The rate for the spring (rabi) harvest shall, subject to the rule of maximum and mini mum referred to in Rule 25, be found by dividing the balance of the assessment of the year not assessed in the autumn (kharif) harvest by the conventional area of the spring harvest

(*c*) Lands irrigated from a well existing as such at Mr LaTouche's settlement, shall be liable to assessment at well (chahi) rates

(*d*) Lands irrigated from a village tank or nadi, existing as such at Mr LaTouche s settle ment, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi

(*e*) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr LaTouche s settlement, shall be liable to assessment at abi rates

(*f*) Lands irrigated from a well or village tank or nadi not existing as such at Mr LaTouche s settlement or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry

(*g*) Lands assessed at settlement as irrigated or as abi but growing dry crops only shall be assessed as dry

Explanation —Irrigated includes irrigation from wells, village tanks, and nadis referred to in clauses (*c*) and (*d*), but does not include irrigation from variably or perma nently assessed tanks

(*h*) Lands assessed as irrigated from a permanently assessed tank shall pay full talabi rates, whether irrigated or not

(*i*) Lands assessed as irrigated from a variably assessed tank shall pay talabi rates under the rules in force for such tanks

(*j*) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi as is referred to in clause (*d*), shall be liable to assessment at talabi rates

(*k*) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate

(*l*) Double cropped irrigated lands which are irrigated from such wells, village tanks, or nadis as are referred to in clauses (*c*) and (*d*) and are liable to be assessed as such, shall pay the full irrigated rate for the first harvest and one fourth of the rate for the second harvest

Explanation —This rules does not apply—

I to double cropped lands irrigated from—

(A) Permanently assessed tanks,
(B) Variably assessed tanks,
(C) Any of the sources mentioned in clauses (*f*) and (*j*)

II, or to double cropped abi lands referred to in clause (*e*)

(*m*) Double cropped dry lands assessed as such shall only pay the assessment for one harvest

(*n*) Lands growing dry crops or crops assessed as dry in the autumn (kharif, harvest shall pay the dry rate only and if such lands become liable to assessment as irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated rate minus the amount collected on account of the autumn harvest Similarly lands paying full irrigated rates for the autumn harvest, and growing dry crops, or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter

(*o*) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate if cultivated, even though not irrigated during that harvest

(*p*) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year

30 When the rate for the harvest for the village has been settled, the revenue of each sharer shall be found by multiplying the rate into the area of his cultivation as shown in the khataun

31 Ordinarily the area bearing crops shall be assumed to be that producing a sufficient crop to supply seed, and if in any particular village in any harvest the crop happens to fall below this standard, the Collector may remit the assessment provided that in years when there is any general failure of rain over the whole country the Commissioner may declare, for reasons to be recorded that the crop in unirrigated lands is only a half or a quarter of an average crop or is nothing (see Example (*d*) under Rule 32)

32 When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 25

Example (*a*) —At the time of settlement the Settlement Officer determined that the assessable area of a village ordinarily cultivated was—

	Area	Rate of assessment per acre	Total assessment
	Acres	₹ a	₹ a
Dry	124	0 10	77 8
Abi	40	1 9	62 8
Tank	8	2 13	22 8
Well	50	3 12	187 8
TOTAL	222		350 0

This area is reduced to a multiple of dry units in the following manner —

The abi rate of ₹1 9 the acre is 2½ times the dry rate
The tank rate of ₹2 13 the acre is 4½ times the dry rate
The well rate of ₹3 12 the acre is 6 times the dry rate

The area in terms of dry units will therefore be—

Dry	
Abi	124 × 1 = 124 acres
Tank	40 × 2½ = 100
Well	8 × 4½ = 36
	50 × 6 = 300 „
TOTAL	560 acres

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of ₹350

Example (*b*) —To continue with the above example, in all variably assessed villages of class 2 a maximum and a minimum rate has been fixed as has been stated in Rule 25 Say that in this village the variation allowed on the standard of 10 annas is between $8\frac{3}{4}$ annas and $11\frac{1}{4}$ annas the acre, then according as the dry unit area increases, the rate to be paid will approximate to the minimum, and according as the dry unit area decreases, the rate will approximate to the maximum, the rate being always found by dividing the standard revenue by the dry unit area Thus, if in any year the areas are—

Dry	$199 \times 1 = 199$ acres
Abi	$30 \times 2\frac{1}{2} = 75$,
Tank	$8 \times 4\frac{1}{2} = 36$
Well	$60 \times 6 = 360$,
TOTAL DRY UNIT AREA	670 acres

This dry unit area would give a rate of $8\frac{1}{4}$ annas the acre ($\text{R}\frac{350}{670} = 8\frac{1}{4}$ annas) but $8\frac{3}{4}$ being the minimum, this rate must be collected and the excess R10 6 credited to Government

Example (*c*) —Take another year in which the areas are—

Dry	$102 \times 1 = 102$ acres
Abi	$40 \times 2\frac{1}{2} = 100$
Tank	$4 \times 4\frac{1}{2} = 18$,
Well	$40 \times 6 = 240$
TOTAL DRY UNIT AREA	460 acres

This dry unit area would give a rate of $12\frac{1}{4}$ annas the acre ($\text{R}\frac{350}{460} = 12\frac{1}{4}$ annas), but, $11\frac{1}{4}$ annas being the maximum, this rate must be collected which will give a revenue of R323 7 or R26 9 less than the standard revenue, which deficit must be remitted

Example (*d*) —The following is an example (continuing the same village as used above) of the assessment in a year in which the Commissioner has declared the dry crop to be a quarter one (see Rule 31)—

The assessable area is found to be—

Dry	80 acres
Abi	40
Tank	0
Well	30

Then the dry unit area will be ascertained in the following manner—

Dry	$\frac{80}{4} = 20$ acres
Abi	$40 \times 2\frac{1}{2} = 100$
Tank	$0 \times 4\frac{1}{2} = 0$
Well	$30 \times 6 = 180$
TOTAL DRY UNIT AREA	300 acres

33 An English register in the following Form (No IV) shall be kept up in the Collector's Office, and an opening of two pages shall be assigned to each variably assessed village In this register the assessment of each harvest shall be recorded —

FORM NO IV

Register of Assessments of variably assessed Villages

NAME OF VILLAGE					Standard revenue				Standard dry rate	Maximum rate	Minimum rate
YEAR	AUTUMN (KHARIF) HARVEST				SPRING (RABI) HARVEST				TOTAL ASSESSMENT OF YEAR	DIFFERENCE FROM STANDARD REVENUE		REMARKS
	Actual area assessed	Dry unit area	Rate	Assessment	Actual area assessed	Dry unit area	Rate	Assessment		Increase	Decrease	
1	2	3	4	5	6	7	8	9	10	11	12	13

34 In the column of Remarks of the above register a brief note of any of the remarkable events of the year as affecting the revenue history of the village shall be entered

35 In the villages variably assessed the R5 per cent collection fee payable to the Lambardars shall vary as the collections the R3 2 per cent cess, and the R10 per cent Patwari Fund collections, shall be payable as fixed sums on the standard demand

36 With his Annual Revenue Report the Collector shall submit three statements in the Forms (Nos V, VI and VII) given below —

Statement No I (Form V) refers to the assessment of variably assessed beds of tanks It shall be prepared separately for each harvest and submitted whether any assessments have been made or not

Statement No II (Form VI) refers to the assessment of variably assessed villages in the autumn (Kharif) harvest

Statement No III (Form VII) refers to the assessment of variably assessed villages in the spring (Rabi) harvest

FORM No V—STATEMENT No I

Return of the assessment of variably assessed beds of tanks (for each harvest separately) in the District of in the year 18

Serial number	Name of tank	Name of village	Cultivated area			Rate		Assessment			Remarks
			Irrigated	Unirrigated	Total	Irrigated	Unirrigated	Irrigated	Unirrigated	Total	
1	2	3	4	5	6	7	8	9	10	11	12

FORM No VI—STATEMENT No II

Return of the assessment of the autumn (Kharif) harvest in variably assessed villages in the District of in the year 18

Serial No	Village	Standard settlement assessment	Details of cultivation														Total	Assessed area					Rate	Assessment	Remarks
			Well assessed as			Tank assessed as			Abi assessed as			Dry assessed as											Dry unit area			
			Well	Tank	Dry	Tank	Well	Dry	Abi	Well	Tank	Dry	Dry	Well	Tank	Abi		Well	Tank	Abi	Dry

FORM No VII—STATEMENT No III

Return of the assessment of the spring (Rabi) harvest in variably assessed villages in the District of in the year 18

Serial number	Village	Standard settlement assessment	Revenue assessed on kharif	Details of cultivation																				Total	Assessed area						Dry unit area	Rate	Assessment of the rabi	Total assessment of the year	Difference from standard revenue		Remarks
				Well assessed as				Tank assessed as				Abi assessed as				Dry assessed as																						
				Well	Tank	Dry	Dofasli	Tank	Well	Dry	Dofasli	Abi	Well	Tank	Dofasli	Dry	Well	Tank	Abi	Dofasli																	Increase	Decrease	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35

UNDER SECTION 110 (*c*)

Appointment and removal of village headmen and Patels

37 The number of Lambardars and Patels, as fixed at Mr Whiteway s settlement, shall not be altered except by order of the Commissioner

38 The appointment of Lambardars and Patels shall be made by the Collector after a summary inquiry as to the right of succession in accordance with local custom as recorded in the Wajibularz Provided that where no record of such custom exists the candidate supported by the largest number of those sharers who would have to pay through him shall, if not otherwise disqualified, be elected

39 The Collector shall notify in the village the name of the person whom he proposes to appoint or who shall have been elected as the case may be, as Lambardar or Patel, and shall call on the Khewatdars concerned to state their objections, if any, within the space of one month

40 No minor or female shall, except for special reasons be appointed where by the custom of the village another sharer is eligible, and if appointed an adult male agent shall be nominated to represent the minor or female

41 Subject to appeal to the Commissioner the Collector may refuse to appoint any person as Lambardar or Patel, or may remove from his appointment any Lambardar or Patel, on any of the following grounds —

(*a*) That he is not a sharer in the village
(*b*) That his share in the village is heavily burdened with mortgages or other incumbrances
(*c*) That he is not in possession of his share in the village
(*d*) That he is incompetent to perform the duties of the office
(*e*) That he has been convicted of an offence which in the opinion of the Collector disqualifies him for holding the appointment, or that he is of notoriously bad character

42 A Lambardar or Patel may be fined by the Collector for neglect of duty, whether such neglect arises from not carrying out orders, or from disobeying any rules laid down for his guidance, or from wilful delay in paying the instalment of the Government demand The amount of such fine shall not exceed the pay due to him for the harvest in the course of which the fine is inflicted

43 As soon after the collection of an instalment of land revenue as may be practicable, the Tehsildar shall draw up a list of the Lambardars and Patels in his Tehsil, showing against their names the amount of revenue collected by each, the amount due to each for commission on collections the sums to be deducted for fines, &c , and the net amount due to each Lambardar and Patel

44 The list shall be submitted to the Collector who after verification of the amounts, shall prepare the bill for encashment at the Tehsil in the usual way

UNDER SECTION 110 (*d*)

The persons by whom the time, place and manner at or in which any thing to be done under the Land and Revenue Regulation II of 1877, and for which no express provision is made in these respects shall be done

45 The following shall be among the duties of a Lambardar under Regulation II of 1877 —

(*a*) To represent the village community in all their dealings with Government
(*b*) To collect the Government revenue and cesses for which he is responsible, and to pay the same to the Officer or Treasury appointed to receive it
(*c*) To defray in the first instance village expenses, and to reimburse himself in accordance with village custom
(*d*) To supervise the accounts of the village common lands, and to render accounts to the villagers of all receipts, payments, and sources of income
(*e*) To report to the Patwari or the supervisor all changes in the proprietorship of Muafi and Bhum lands, and the death of pensioners
(*f*) To report to the Patwari or the supervisor all encroachments on roads or Government land all injuries to or appropriations of Nazul buildings in the village and the destruction or removal of, or injury to, boundary or other marks erected in the village by order of Government

46 The chief duty of a Patel under Regulation II of 1877 shall be to collect the Government revenue and cesses for which he is responsible, and to pay the same to the Officer or Treasury appointed to receive it

47 The duties and responsibilities of a Patwari are—

A To reside within his circle, unless specially exempted by a written order of the Collector

B Immediately on the occurrence of any calamity as hail, locusts, fire, breaching of any tank, epidemic disease of men or cattle, to report the same to the Supervisor

C To report to the Supervisor when he visits his circle—

(*a*) Cases of encroachment on Nazul or Government property
(*b*) The condition of the crops
(*c*) Destruction or decay of village or survey boundary marks

(*d*) Emigration of cultivators
(*e*) Condition of cattle and quantity of fodder available
(*f*) All injuries to the embankments of Government tanks
(*g*) Death of any zemindar, muafidar or pensioner residing in his circle

D To obtain the Supervisor's signature to his diary and books of account

E To keep the following records in such forms and manner as may be prescribed by the Collector with the previous sanction of the Commissioner —
(*a*) Diary or Roznamcha
(*b*) Khasra
(*c*) Crop statement for the Rabi and Kharif separately
(*d*) Khatiauni's for —
1 Villages variably assessed
2 Tanks variably assessed
3 Tanks paying crop rates
4 Variably assessed beds of tanks
(*e*) Khatabandi
(*f*) Register of changes of proprietary right
(*g*) Khata bahi
(*h*) Accounts of the common fund of the village
(*i*) Receipts from grazing fees and house tax
(*j*) The returns required from him under the Irrigation Rules or any special orders

F To file in the Tehsil office copies of the records referred to in the preceding clause on dates determined by the Collector with the previous sanction of the Commissioner

G To keep in safe custody and good condition the records, papers and maps in his charge

H At the time fixed for the audit of village accounts, to explain them to the assembled sharers, obtaining their signatures to his account

I To furnish any sharer on demand with a written statement of his account free of cost

J To supervise the work of an Assistant Patwari appointed to his circle

48 In addition to the ordinary duties and responsibilities hereinafter prescribed for Supervisors, the Head Supervisor is responsible for—
(*a*) The custody of the Supervisor's and Patwari's records filed in the Tehsil
(*b*) The custody and issue of blank registers and records to the Patwari
(*c*) The disbursing of the Patwari's pay and keeping accounts of the same
(*d*) The correct preparation of the Tehsil totals from the registers kept by himself and the other Supervisors
(*e*) Keeping records of cases of encroachment on Nazul or Government property, condition of crops destruction or decay of village or survey boundary marks and emigration of cultivators
(*f*) Keeping the Muafi registers and the registers of Imlak Wakf and Nazul properties
(*g*) Completing the general returns of the Tehsil from statistics furnished by the Supervisors

49 The duties and responsibilities of a Supervisor are—
(*a*) To keep the following registers in such forms and in such manner as may be directed by the Collector with the previous sanction of the Commissioner —
I Register of proprietary mutations
II Village registers in two parts—
1 Revenue
2 Area and crops
III Special registers for villages, tanks, and beds of tanks variably assessed
IV Registers of Patwaris
(*b*) To generally superintend the out door work of the Patwaris of his circle, and see that orders are strictly carried out
(*c*) To keep the village maps up to date
(*d*) To make local enquiries under the orders of the Collector or the Tehsildar as to the correctness of entries in the village records, or to collect statistical information relating to land or agriculture
NOTE — The Supervisor shall not be appointed a Commissioner for the purpose of local investigation by a civil court without the consent of the Collector
(*e*) To verify the life and report the death of any pensioner or life muafidar to the Tehsildar
(*f*) To keep a register of the Lambardars of his circle
(*g*) To supervise the working of the Irrigation Rules and the irrigation from all Government tanks, and furnish for his own circle the totals of the forms prescribed from time to time for recording the results of irrigation
(*h*) To keep a diary of the work performed by him and send the same through the Tehsildar to the Collector once a month, any matter requiring special orders being separately reported
NOTE — The diary shall show the name of each village visited during the day and the total number of fields tested
(*i*) To submit through the Tehsildar to the Collector on the prescribed dates such periodical returns of the various classes of his work as may be called for
(*j*) To see that the Patwaris obey all rules prescribed for their guidance, reporting to the Collector all cases of infringement for orders

(*k*) To get the maps of all villages in his circle corrected and kept up to date by the Patwaris and apply for appointment of an Amin from the pay of Patwari, if he is incapable of doing his work

NOTE.—The following corrections should be always made new roads hamlets wells nadis tanks and fields also where a field has been permanently divided or wherein the shifting cultivation of Hulsora land any field boundary has become permanent

(*l*) To test from time to time the chains used by the Patwari

(*m*) To apply to the Collector for fresh skeleton survey map of the village to be filled in by the Patwari, whenever the existing map is worn out or has for any cause become obsolete

50 The Supervisor shall test the entries of the Khasra on the spot, and see that all fields of the map have been included and all new cultivation measured up That the total areas of the Khasra agree with those of the previous year and with that of the year of measurement, that totals of each page are correct, and that the Khasra statements agree with the Khasra

51 The Supervisor shall test at least seven per cent of the Khasra entries in each harvest initialling each number tested The testing will extend to all entries against the number, and in such testing at least seven per cent of the cultivated numbers must be included

NOTE.—The work of testing the Kharif entries must be completed by November 1st and the Rabi by March 1st The extra hot weather crops must also be tested

52 On receipt of the report from the Patwari of the death of any sharer, or the change in any proprietary or mutfi right in any village, the Supervisor shall, after testing the accuracy of the report, forward it for necessary action to the Tehsildar

53 The Supervisor is responsible that the slips of changes in the village map filed yearly by the Patwari are kept in safe custody, and that the office copy of the same is corrected as may be ordered from time to time by the Commissioner

54 The following shall be among the duties of a Tehsildar under Regulation II of 1877 —

(*a*) To collect the land revenue cesses and other items for the collection of which he receives a regular order and to check the Tehsil accounts, and see that they are carefully kept

(*b*) To keep in safe custody all Government moneys and property which may be placed in his charge

(*c*) To report to the Assistant Commissioner all cases in which revenue free grants or other grants or immoveable property lapse to Government by the death of the holder or otherwise Also all calamities affecting the crops and any sickness, epidemic or mortality among men or cattle

(*d*) To supervise the proceedings of his subordinates and to see that all rules are observed

(*e*) To see that the Supervisors and Patwaris perform their duties properly, and that their registers and records are correctly kept up to date

(*f*) To collect supplies for troops and Government officers marching through the Tehsil

(*g*) To gauge the rain register and report on the prescribed date to the Assistant Commissioner all falls of rain

(*h*) To act generally as the executive officer of Government under the direction of the Assistant Commissioner in all matters connected with the land revenue administration of his Tehsil

55 The Naib Tehsildar is the Assistant of the Tehsildar, and will take over such work as is transferred to him subject to the orders of the Assistant Commissioner

UNDER SECTION 110 (*d*)

To regulate the procedure of Revenue Officers and Arbitrators acting under the Land and Revenue Regulation II of 1877

56 The procedure of Revenue Officers in compelling the attendance before them of the parties to proceedings and witnesses the mode of recording evidence and the production, rejection, and admission of documents, and the issue of commissions for local investigations &c., shall be regulated as far as practicable by the rules contained in the Code of Civil Procedure

57 Arbitrators shall ordinarily be chosen by the parties, but in cases of partition and boundary disputes, a Revenue Officer not below the rank of Assistant Commissioner may in his discretion refer matters in dispute to arbitrators appointed by himself

58 The arbitrators shall submit their award only with reference to the point or points referred to them in the order of reference, a copy of which shall be furnished to each member of the arbitration

59 The Revenue Officer shall appoint a day for the submission of the award and may in his discretion extend the time so fixed

60 In case of difference of opinion the decision of the majority of the arbitrators shall be accepted

61 The Revenue Officer may remit the award for reconsideration if it is incomplete or defective

62 The Revenue Officer may for reasons to be recorded in writing, on sufficient cause shewn, decline to accept an award or may accept it with such modifications as he may think fit to make, but ordinarily he shall pass an order consistent with the award

63 The Revenue Officer may make such order as he thinks fit respecting the costs of the arbitration

UNDER SECTION 110 (*e*)

Investigation by the higher Revenue Officers of charges of misconduct preferred against Revenue Officers of lower grade

64 The investigation by the higher Revenue Officers of charges of misconduct preferred against Revenue Officers of a lower grade shall be made in conformity with the Government of India Resolution No $\frac{17}{1404}$, dated the 29th July 1879 Provided that the Assistant Commissioner in charge of the District instead of dealing with the case departmentally, may, with the sanction of the Commissioner, refer it to a Criminal Court for enquiry and trial

UNDER SECTION 110 (*f*)

Fees to be charged for the service of process issued under the Land and Revenue Regulation II of 1877 and to regulate the costs in all proceedings before a Revenue Officer

65 The fees to be charged for the service of process issued under Regulation II of 1877 shall unless hereinafter expressly provided be regulated by rules framed under the Court Fees Act, and shall be levied in Court Fee stamps

66 The Revenue Officer shall have full power to give and apportion costs in any manner he thinks fit every order relating to costs may be executed under the rules relating to the execution of decrees for money

UNDER SECTION 110 (*g*)

Form of notice or notification required by the Land and Revenue Regulation II of 1877, to be served or published and the mode in which such notice or notification shall be served or published

67 A writ of warning and warrant of arrest issued in connection with a default in payment of revenue shall be in the following forms (Nos VIII and IX) They shall be issued in duplicate and shall be signed by the Wasilbakinavis and the Tehsildar The fee payable on the writ of warning shall be twelve annas, and on the warrant of arrest one rupee eight annas—

Assistant Commissioner

The Proclamation and Notification above referred to shall be made known by posting a copy of the same in the village Hatu, and also in the Tehsil office

No 114—In exercise of the powers conferred by section 28, clauses (*a*) (*b*), (*e*) to (*g*), (*i*) and (*j*) of the Ajmere Government Wards Regulation, 1888 the Chief Commissioner of Ajmere Merwara is pleased to make the following rules —

1 In appointing guardians the Court of Wards shall give preference to a near relative of the Ward, who is willing and fit to be entrusted with the charge of his person, and may, if necessary call upon the Collector or Magistrate for a report on the character and qualification of such person

2 Guardians appointed under section 12 shall receive such remuneration as may be determined by the Court of Wards

3 The amount of the security which is taken from a manager appointed by the Court of Wards shall in each case be fixed by the Court and shall, as a general rule, not be less than the maximum amount of receipts, which it is estimated may be in the manager's hands at any one time

4 The Court of Wards may in its discretion require any member of the subordinate managing establishment to furnish such security as it deems fit to ensure an efficient and faithful discharge of his duties

5 The previous sanction of the Court of Wards shall be obtained to the following transactions by a manager when the value in question exceeds Rs1,000, *viz* —

(*a*) The expenditure of any sum or the incurring of any liability
(*b*) The compromise of any claim

6 Subject to the previous sanction of the Court of Wards, and the Chief Commissioner, and subject also to the provisions of the Ajmere Government Wards Regulation, 1888, and of these rules a manager appointed under section 10 of the Regulation may entertain such ministerial and subordinate managing establishment as may be required to assist him in the efficient discharge of his duties under the Regulation and these rules

7 The Collector of the District or other Revenue Officer when he is appointed manager may, subject to the rules in force under section 40 of the Ajmere Laws Regulation, 1877, define the duties of the ministerial establishment entertained by him and make such orders, punishing, suspending, or dismissing any member of such establishment as he may think fit

8 The establishment ministerial as well as subordinate, managing now in the employ of the Court of Wards shall be deemed to have been entertained under this rule

9 The manager shall keep in the forms given in the Appendix, or in such forms as the Chief Commissioner may, from time to time, prescribe, the following accounts in respect of each estate in his charge —

(*a*) An inventory of the propertry belonging to the Ward, in vernacular
(*b*) Cash book in English
(*c*) Contingent bill file English and vernacular
(*d*) Salary bills of managing establishment, in English and vernacular
(*e*) Acquittance rolls of salaries, &c disbursed, in vernacular
(*f*) Monthly balance sheet, in English
(*g*) Monthly statement of demands and collections, in vernacular
(*h*) Monthly statement of receipts and payments, in vernacular
(*i*) Account of half yearly collections and outstanding Jamabandhis, in vernacular,
(*j*) Annual account of receipts and charges, in English

10 As soon after the close of the financial year as possible, the manager shall submit the annual account together with a report of his operations to the Court of Wards, by whom it shall be submitted to the Chief Commissioner

11 The annual report should give an account of the management during the past year with a full explanation of any considerable differences between the figures for the year and the year previous and should show the condition of the estate the system of management, the improvements effected, whether any scheme of systematic improvement is being carried out, and all other points of interest

12 An explanation should be given whenever the cost of establishment exceeds 5 per cent of the ordinary income If villages have been leased, the character of the lessees, whether resident in the village or not, should be stated In the case of minors the age, date of birth (which should be carefully ascertained by regular enquiry when the minor's estate is taken charge of) and provision for education should be mentioned, also his progress in this respect

13 No payment shall be made on any contingent or salary bill unless the same has been countersigned by the Commissioner

14 An Abstract Statement of Revenue and Expenditure in Form K, hereto annexed, shall be submitted to the Commissioner monthly for check and record in his office

15 All Government securities including stock notes and shares in Government Railways, the property of Government Wards, shall be forwarded to the Office of the Comptroller of India Treasuries, for safe custody, if it is likely that they will be held for a longer period than twelve months

16 All Government securities, including stock notes and shares in Government Railways, which are likely to be returned within a period of twelve months, all securities other than Government securities and all title deeds, the property of Government Wards, shall be deposited in the District Treasury for safe custody

17 For the purpose of disposing of business connected with the management of estates of Government Wards under its superintendence the Court of Wards shall have the powers conferred by the Code of Civil Procedure on a Civil Court in respect of the summoning and enforcing the attendance of parties and witnesses, and compelling them to give evidence or to produce documents and of issuing commissions

Such powers may be exercised by the same means and as far as possible in the same manner, as is provided in the case of a Civil Court by the Code of Civil Procedure

18 The enquiry preliminary to the declaration by the Chief Commissioner under the second clause of section 7 of the Ajmere Government Wards Regulation, 1888, shall be made by the Collector, and shall contain information on the following points, *viz* —

(1) Approximate value of the immoveable and moveable property in possession of the person said to be disqualified

(2) Annual income

(3) Annual expenditure

(4) Grounds showing whether the estate should be managed directly by the Court of Wards or left in charge of a friend or relative of the disqualified person, and in the latter case whether such friend or relative is willing and fit to undertake the responsibility, with or without payment of remuneration

(5) Proposals for the appointment of guardian of person

19 The Court of Wards may require any manager under its control to produce for inspection the accounts kept by him and take or cause stock to be taken of the property in his charge

20 When an estate is restored to the Ward in consequence of his attaining majority or by reason of cessation of disability, the accounts of income and expenditure for the period of management shall be made over to him together with an inventory of the property held in trust by the Court, and his receipt for them shall be filed in the Court of Wards

NOTIFICATIONS

Calcutta, the 27th January, 1889

With effect from the 1st April, 1889, the sender of a value payable article will be required to sign a certificate to the effect that the article is sent in execution of a *bonâ fide* order, and in the case of a value payable unregistered packet, the sender will, in addition to signing the certificate referred to above, be required to prepay the usual money order commission on the amount specified for recovery from the addressee, by affixing postage stamps of the value of the commission to the form filled up by him

2 In lieu of the forms at present filled up by the senders of value payable articles, two revised forms will be substituted from the 1st April, 1889—one for use with all value payable articles other than value payable unregistered book packets, and the other for use with value-payable unregistered book packets Each form will contain the certificate to be signed by the sender, and space is provided in the form for use with value payable unregistered packets for the postage stamps to be affixed in payment of commission

3 In case a value payable unregistered packet is refused by the addressee or returned as unclaimed to the sender no refund of the commission prepaid will be granted

The 1st February, 1889

ACCELERATED MAIL SERVICE FROM CALCUTTA TO BOMBAY

A special train will be run experimentally for eight weeks from Howrah to Bombay, starting from Howrah on Wednesdays at 8 P M, and reaching Bombay on Fridays at 3 P M, in connection with the homeward Peninsular and Oriental Steam Navigation Company's contract steamers

The first train will leave Howrah on Wednesday, the 20th February, 1889

Fully prepaid foreign letters, and fully prepaid foreign printed papers* only (not post cards, legal and commercial documents samples or any other articles), may be posted for despatch by this special train On each *letter* a special fee *1½ anna per ½ ounce* will be levied in addition to the ordinary foreign postage rate, and on each packet of *printed papers* a special fee of *½ anna per 2 ounces* (or *½ anna per 4 ounces* for each newspaper) will likewise be levied

* Including newspapers and books

The rates of postage for the principal places concerned are shown below —

COUNTRIES &	LETTERS		PRINTED PAPERS INCLUDING BOOKS &			
	EACH LETTER PER ½ OUNCE		EACH PAPER NEWSPAPER PER 4 OUNCES		EACH PACKET PER 2 OUNCES	
	By ordinary train	By special train	By ordinary train	By special train	By ordinary train	By special train
	As	As	As	As	As	As
United Kingdom						
Served through the United Kingdom (United States of America Canada West Indies and Union places)	4	6	1½	3	1½	2
Continental Europe Aden Zanzibar Mauritius Egypt Malta Gibraltar also United States of America and Canada via Liverpool and via Brindisi	3	4½	1	1½	1	1½
Cape of Good Hope and Natal via Brindisi	9	10½	3	3½	2	2½
Cape of Good Hope and Natal via Aden	8	9½	1	1½	1	1½

These special rates will in no way affect or apply to foreign correspondence transmitted by the regular mail leaving Howrah on Tuesday evenings

Letters and printed papers (including news papers, books, &c) intended to be conveyed by the special train, must be fully prepaid with the ordinary foreign postage, as well as with the special fee, otherwise they will be detained until the departure of the next week's regular mail

Postal notices will be circulated in the stations concerned, notifying to the public the day and hour when letters should be posted for despatch by the special train

PART IV

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor General on the 15th February, 1889, and is hereby promulgated for general information —

ACT NO II OF 1889

An Act to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India

WHEREAS it is expedient to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India, It is hereby enacted as follows —

Title extent and commencement

1 (1) This Act may be called the Measures of Length Act 1889

(2) It extends to the whole of British India, and

(3) It shall come into force on such day as the Governor General in Council may appoint in this behalf

Standard yard

2 The imperial standard yard for the United Kingdom shall be the legal standard measure of length in British India and be called the standard yard

Measure for determining length of standard yard

3 A copy, approved by the Governor General in Council of the imperial standard for determining the length of the imperial standard yard for the United Kingdom shall be kept in such place within the limits of the Town of Calcutta as the Governor General in Council may prescribe, and shall be the standard for determining the length of the standard yard

Standard foot and inch

4 One-third part of the standard yard shall be called a standard foot, and one thirty sixth part of such a yard shall be called a standard inch

Presumption in favour of accuracy of certified measures

5 Any measure having stamped thereon or affixed thereto a certificate purporting to be made under the authority of the Governor General in Council or of a Local Government, and stating that the measure is of the length of the standard yard or that a measure marked thereon as a foot or inch is of the length of the standard foot or standard inch, as the case may be, shall, when produced before any Court by any public servant having charge of the measure in pursuance of any direction published in an official Gazette by order of the Governor General in Council or the Local Government, or by any person acting under the general or special authority of such a public servant, be deemed to be correct until its inaccuracy is proved

Inspection of certified measures by the public

6 A public servant having in pursuance of such a direction charge of such a measure as is mentioned in the last foregoing section shall allow any person to inspect it free of charge at all reasonable times and to compare therewith or with any measure marked thereon any measure which such person may have in his possession

Certified measures to be kept by authorities required by existing enactments to keep measures of length

7 There shall be kept by the Commissioner of Police in the Town of Calcutta under section 55 of the Calcutta Police Act, 1866, by the Commissioners in Calcutta under section 370 of the Calcutta Municipal Consolidation Act, 1889, by the Commissioner of Police in the City of Madras under section 32 of the Madras City Police Act 1888, by the Municipal Commissioner in the City of Bombay under section 418 of the City of Bombay Municipal Act, 1888 and by the District Magistrate under section 20 of Regulation XII of 1827 of the Bombay Code, such certified measures of the standard yard, standard foot and standard inch as are mentioned in section 5

Ben Act IV of 1866

Ben Act II of 1888

Mad Act III of 1888

Bom Act III of 1888

S HARVEY JAMES,
Secretary to the Government of India

The following Report of the Select Committee on the Bill to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st February, 1889 —

LEGISLATIVE DEPARTMENT

WE, the undersigned Members of the Select Committee to which the Bill to declare the imperial standard yard for the United Kingdom to be the legal standard measure of length in British India was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report with the Bill as amended by us annexed thereto

From Secretary to Chief Commissioner Assam No 784 dated 14th April 1888 [Paper No 1]
From Registrar High Court Calcutta No 984 dated 26th April 1888 [Paper No 2]
From Chief Commissioner Ajmere Merwara No 510—690 dated 21st May 1888 and enclosure [Papers No 3]
From Officiating Chief Secretary to Chief Commissioner Burma No 585—5N dated 22nd May 1888 and enclosure [Papers No 4]

From Secretary to Chief Commissioner Coorg No 6 dated 22nd May, 1888, and enclosure [Papers No 8]
From Chief Secretary to Government Bombay No 1937 dated 6th June 1888 [Paper No 9]
Endorsement by Under Secretary to Government of India Home Department No 1655 dated 12th June 1888 and enclosures [Papers No 10]
From Secretary to Government North Western Provinces and Oudh No 1352—VI 95A dated 2nd June 1888 and enclosure [Papers No 11]
From Officiating Junior Secretary to Chief Commissioner Central Provinces No 744S dated 20th June 1888 [Paper No 12]
Endorsement by Under Secretary to Government of India Home Department No 1813, dated 4th July 1888 and enclosures [Papers No 13]
From Officiating Secretary to Government Punjab No 206S dated 7th July 1888 and enclosures [Papers No 14]

2 We understand that the copy of the imperial standard which has been ordered from England has not yet been received We have therefore proposed that it shall be left to the Governor General in Council to bring the Act into force by executive order as soon as circumstances admit

3 In section 5 we have extended the presumption in favour of the correctness of certified measures and in section 7 have substituted references to the Calcutta and Bombay Municipalities and Madras Police Acts of last year for the references to the enactments which have been or are about to be superseded by them

PART V.

Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th February, 1889 —

No 3 of 1889

A Bill to authorise the imposition of a patwari rate in the North-Western Provinces and Oudh, and make certain provisions respecting kanungos and patwaris in those Provinces

WHEREAS it is expedient to authorise the imposition of a patwari rate in the North Western Provinces and Oudh, and make certain provisions respecting kanungos and patwaris in those provinces, It is hereby enacted as follows —

Title and commencement

1 (1) This Act may be called the North-Western Provinces and Oudh Kanungos and Patwaris Act, 1889, and

(2) It shall come into force on the first day of April, 1889

XIII of 1882

Repeal

2 The Kanungos and Patwaris Act, 1882, and section 35 of the North-Western Provinces Land

XIX of 1873.

revenue Act, 1873, are hereby repealed

Division of Act into Parts, and local extent of the several Parts

3 (1) The remainder of this Act is divided into Parts as follows, namely —

Part I —North-Western Provinces.

Part II —Oudh

Part III —North-Western Provinces and Oudh.

(2) Part I extends to the North Western Provinces, Part II to Oudh, and Part III to the North Western Provinces and Oudh [Act XIII, 1882, s 11

PART I

NORTH WESTERN PROVINCES

Definitions

4 In this Part, unless there is something repugnant in the subject or context,—

(1) expressions defined in the North Western Provinces Local Rates Act, 1878, have the meanings respectively assigned to them in that Act and III of 1878

(2) "rent" means whatever is payable to a landlord by a tenant on account of the use or occupation of land held by the tenant, and includes, where rent in respect of land is payable in kind or service, or land is held without payment, the rent in money which would on a reasonable assessment be payable in respect of the land [Ben Act I 1880, s 4.]

Patwari rate

5 (1) Every estate shall be liable to the payment of such rate, not exceeding two per cent on its annual value, as the Local Government imposes, for the purpose of defraying the salaries of patwaris and any charges incurred for the proper supervision, maintenance and correction of patwaris' records, including charges incurred in the preparation of village maps [Act III, 18 ss 4 and 5.

(2) Such rate, hereinafter referred to as the patwari rate, shall be payable by the landlord independently of, and in addition to, any land-revenue assessed on the estate and any rate or cess leviable under, or recognised by, the North-Western Provinces Local Rates Act, 1878, and any sum due on account of the patwari-rate shall be recoverable as if it were an arrear of land revenue due in respect of the estate. III of 1878. [Act III, 187 s 6] [Act III, 187 s 19]

(3) The Local Government may, by notification in the official Gazette,—

[Act III 1878, s 20 (a)] (a) prescribe by what instalments, and at what times and places, the patwari-rate is to be paid and by whom it is to be assessed and collected,

[Act VIII 1879, s 5] (b) fix the periods for which, in the cases referred to in clause (2) of the definition of the expression "annual value" in section 4 of the North Western Provinces Local Rates Act, 1878 assessments to the patwari rate are to have effect,

[Act III, 1878 ss 17 and 18 and Act VIII 1873 s 75 (2)] (c) determine the cases in which, the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari-rate are to be appealable or subject to revision and

[Act III 1878, s 20 (c)] (d) exempt any portion of the North Western Provinces from the operation of this Part, or exempt any estate from liability to pay the whole or any part of the patwari rate, and cancel such exemption

[New] 6 (1) There shall be formed for the North Western Provinces a fund, to be called the North Western Provinces Patwari Fund, and there shall be placed to the credit thereof— North Western Provinces Patwari Fund

(a) the proceeds of the patwari rate, and

(b) a contribution, to be made thereto each year of such sum as the Local Government may allot from the general revenues at its disposal

(2) The fund so formed shall be exclusively applicable to the purpose mentioned in sub section (1) of the last foregoing section

(3) An account of the fund shall be published annually by the Local Government in the official Gazette

[Cf Act III 1878 s 9] 7 The landlord of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land a cess on the rent of the tenant at the rate of two pies for every rupee of such rent Payment of patwari cess to payer of patwari rate

[Act III 1878 s 16] 8 Suits for the recovery of any sum on account of the patwari rate, or of the cess mentioned in the last foregoing section, and appeals and other proceedings arising out of such suits shall be cognizable as if such suits had been included among the suits mentioned in section 93 of the North Western Provinces Rent Act, 1881 Recovery of rate or cess through Revenue Courts XII of 1881

PART II

OUDH

9 In this Part, unless there is something repugnant in the subject or context,— Definitions

(1) the expressions "land", "estate", "annual value" and "year" have the same meanings as are respectively assigned to them in the Oudh Local Rates Act, 1878 IV of 1878

(2) "landholder", used with reference to any land, means the person for the time being receiving or entitled to receive, whether as proprietor or as under proprietor, the rent of the land [Act IV 1878 s 3 and Act XIII, 1882 ss 204, *et seqq*]

(3) "tenant" used with reference to any land, means a person holding directly from the landholder of the land and [Act III 1878, s 3, and Act VIII 1879 s 28]

(4) "rent" means whatever is payable to a landholder by a tenant on account of the use or occupation of land held by the tenant, and includes, where rent in respect of land is payable in kind or service or land is held without payment, the rent in money which would on a reasonable assessment be payable in respect of the land [Ben Act IX 1880, s 4]

10 With the previous sanction of the Local Government, the Deputy Commissioner may from time to time alter the number of patwaris circles in his district and the respective limits of such circles [Act XIII 1882, s 6] Power to alter number and limits of patwaris circles

11 The Local Government may make rules consistent with this Act— [Act XIII 1882, s 7] Power to make rules respecting kanungos and patwaris

(a) regulating the selection, appointment, remuneration, suspension, dismissal, duties and supervision of kanungos and patwaris, and

(b) prescribing the fines which may be imposed on kanungos and patwaris for neglect of their duty

12 (1)-Every estate shall be liable to the payment of such rate, not exceeding one and a half per cent on its annual value, as the Local Government imposes for the purpose of defraying the salaries of patwaris and any charges incurred for the proper supervision, maintenance and correction of patwaris' records, including charges incurred in the preparation of village-maps [cf Act IV 1878 ss 4 & 5] Patwari rate

(2) Such rate, hereinafter referred to as the patwari-rate, shall be payable by the landholder independently of, and in addition to, any land revenue assessed on the estate and any rate or cess leviable under, or recognised by, the Oudh Local Rates Act, 1878, and any sum due on account of the patwari rate shall be recoverable as if it were an arrear of land revenue due in respect of the estate IV of 1878

(3) The Local Government may, by notification in the official Gazette,—

(a) prescribe by what instalments, and at what times and places the patwari rate is to be paid, and by whom it is to be assessed and collected, [Act IV, 1878 s 15]

(b) fix the periods for which, in the cases referred to in clause (2) of the definition of the expression "annual value" in section 3 of the Oudh Local Rates Act, 1878, assessments to the patwari rate are to have effect, [Act VIII 1879, s 5]

(c) determine the cases in which, the conditions subject to which, and the officers to or by whom, orders with respect to the assessment or collection of the patwari rate are to be appealable or subject to revision, and [Act IV, 1878 s 9 and Act VIII, 1873, s 75 (2)]

[Act IV 1878, s 15 (c)]

(*d*) exempt any portion of Oudh from the operation of this Part, or exempt any estate from liability to pay the whole or any part of the patwari rate, and cancel such exemption

[New]

Oudh Patwari Fund

13 (*1*) There shall be formed for Oudh a fund to be called the Oudh Patwari Fund, and there shall be placed to the credit thereof—

(*a*) the proceeds of the patwari rate, and

(*b*) a contribution to be made thereto every year, of such sum as the Local Government may allot from the general revenues at its disposal

(*2*) The fund so formed shall be exclusively applicable to the purpose mentioned in sub section (*1*) of the last foregoing section

(*3*) An account of the fund shall be published annually by the Local Government in the official Gazette

[Act IV 1878 s 7]

Payment of patwari cess to payer of patwari rate

14 The landholder of any land in respect of which the patwari rate is for the time being payable shall be entitled to recover from the tenant of the land a cess on the rent of the tenant at the rate of one and a half pies for every rupee of such rent

[Act IV 1878 s 8]

Recovery of rate or cess through Revenue Courts

15 Suits for the recovery of any sum on account of the patwari rate, or of the cess mentioned in the last foregoing section, and appeals and other proceedings arising out of such suits shall be cognizable as if such suits had been included among the suits mentioned in section 108 of the Oudh Rent Act, 1886 XXII of 1886.

PART III

NORTH WESTERN PROVINCES AND OUDH

[Act XIX 1873, s 35, and Act XLII, 1882 s 8] XLV of 1860

Character of kanungos and patwaris and their records

16 Every kanungo and patwari shall be deemed to be a public servant within the meaning of the Indian Penal Code and any register or account which any kanungo or patwari is required by any law or rule to prepare or keep shall be deemed to be the property of the Government and, while in his keeping, to be, for the purposes of Chapter V of the Indian Evidence Act 1872 a public document of which he, as a public officer, has the custody and which any person has a right to inspect

[Act XVII 1887 s 151] I of 1872

[Act XIII, 1882 ss 4 & 9]

Information to be furnished by owner or occupier of land

17 Every owner or occupier of land in the circle of a patwari, and the agent of every such owner or occupier, shall, for the purposes of the preparation of any such register or account as is referred to in the last foregoing section furnish to the patwari of the circle the kanungo or such person as the Collector or Deputy Commissioner of the district may appoint in this behalf, such information, at such times as the Local Government may by rule prescribe

[Cf Act VIII, 1879 s 11]

Matters supplemental to definitions

18 For the purposes of this Act the word "landlord" in Part I, the word 'landholder' in Part II and the word "owner" in the last foregoing section include a lessee or mortgagee in possession of the land with reference to which the word is used

STATEMENT OF OBJECTS AND REASONS

IN 1882 a remission of taxation to the extent of over 30 lakhs of rupees, was granted to the North Western Provinces and Oudh The form which this remission took was the abolition of the patwari rate in the North Western Provinces and the exemption of Oudh landlords from the liability to pay the wages of patwaris All charges on these accounts were undertaken by the State

It has, however been found that, in the present financial condition of the Government, this is a larger sum than can properly be spared for the purpose, and experience of the working of the arrangement has shown that the remission of taxation failed to reach those for whose benefit it was primarily intended, while the effective administration of the Land-revenue and Settlement Departments has been seriously prejudiced by it

For some years the Government of India and the Local Government have laid great stress on the improvement of the patwari establishments with a view to securing correct records to form a basis for future assessments of the land revenue, and to avoid the enormous expense and harassing of the people involved in making a new record of-rights at each settlement Progress was being made to a great extent in this direction, as the expanding assets of the patwari fund in the North Western Provinces afforded money for the employment, instruction and supervision of a better class of men than was previously obtainable for the small pay offered, but the abolition of the fund at once checked this progress by compelling the department to depend for its existence on annual grants from provincial funds The amount of these grants necessarily depended on the amount of funds available after satisfying the more urgent or more persistent claims of other departments, and in effect fell considerably short of what was necessary to maintain the rate of progress previously attained

Under these circumstances it has been determined to re impose a patwari rate in the North-Western Provinces and to impose one in Oudh in order to form funds in each province which may be in a great measure independent of annual budget fluctuations

The rates are lower than those formerly paid in the North Western Provinces, being 4 per cent on the revenue for those provinces and 3 per cent for Oudh, and will be supplemented by an annual grant from Government which for the present is expected to be 10 lakhs of rupees, being about half the estimated aggregate income from the rates The general tax payer is largely interested in the efficiency of the patwari establishment, as on it depends the fair and economical assessment of the land revenue

The 8th February, 1889

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to amend the Indian Succession Act, 1865, the Probate and Administration Act, 1881, and the Court Fees Act, 1870, and to make provision with respect to certain other matters was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th February, 1889 —

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Indian Succession Act, 1865, the Probate and Administration Act, 1881, and the Court-fees Act, 1870, and to make provision with respect to certain other matters was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto

From Mr A M Sabhapathi Mudaliar Masulipatam dated 15th September 1888 [Paper No 1]
From Chief Commissioner, Ajmere Merwára No 1173—690 dated 2nd October, 1888 [Paper No 2]
Endorsement by Under Secretary to Government of India, Home Department No 1581 dated 5th October 1888 and enclosure [Papers No 3]
From Secretary to Chief Commissioner Coorg No 1793—1858 dated 9th October 1888 [Paper No 4]
From Officiating Secretary to Chief Commissioner Central Provinces No 66C dated 15th October 1888 [Paper No 5]
From Chief Secretary to Government, Bengal No 229 J D dated 12th October 1888, and enclosures [Papers No 6]
From Officiating Secretary to Chief Commissioner Assam No 2991 dated 18th October 1888 and enclosures [Papers No 7]
From Secretary for Berar to Resident Hyderabad No 449G, dated 22nd October, 1888 [Paper No 8]
From Officiating Secretary to Chief Commissioner Burma No 516—2L dated 23rd October 1888 and enclosure [Papers No 9]
From Chief Secretary to Government, Madras, No 2174 dated 20th October 1888 and enclosures [Papers No 10]
From Secretary to Government Bombay No 6254 dated 17th November 1888 and enclosures [Papers No 11]
From Officiating Secretary to Government Punjab, No 963 dated 1st November 1888 and enclosures [Papers No 12]
From Secretary to Government North Western Provinces and Oudh No 33—VII 34B, dated 17th January 1889 and enclosure [Papers No 13]
From Secretary to Government, North Western Provinces and Oudh No 30—VII 34B, dated 21st January 1889 and enclosures [Papers No 14]
From Registrar High Court Calcutta No 197 dated 25th January 1889 [Paper No 15]

2 In sections 2 and 11 of the revised Bill we have given effect to the suggestion of the Calcutta High Court that contumacious refusal on the part of an executor or administrator to exhibit an inventory or account under the Indian Succession Act, 1865, or the Probate and Administration Act, 1881, or the submission by him of an inventory or account which is untrue in a material respect, should be declared to be a cause for which a grant of probate or letters of administration may be revoked

3 By section 3 of the revised Bill we have, on the suggestion of the Punjab Chief Court, assimilated the language of section 244 of the Indian Succession Act, 1865, to that of section 62 of the Probate and Administration Act, 1881 The schedule to the Act of 1865 required a fixed fee of eight rupees to be paid on a probate, and it was not till the year 1870 that the schedule was repealed and an *ad valorem* fee became payable

4 We have so modified sections 4, 5, 7, 12, 13 and 15 of the revised Bill (sections 2, 3, 4, 5, 6 and 8 of the Bill as introduced) as to impose on executors and administrators in all cases the duty of exhibiting inventories and accounts, it being left to the Courts to compel the exhibition of inventories and accounts in cases in which it is desirable to do so

5 By section 6 of the revised Bill it is proposed to bring the provisions of section 256 of the Indian Succession Act into harmony with the rulings and practice of the Courts

6 By sections 8 and 16 of the revised Bill it is proposed, at the instance of the Punjab Chief Court, to correct an error in the drafting of sections 277A and 99 of the Indian Succession Act, 1865, and the Probate and Administration Act, 1881, respectively

7 By section 9 we have proposed to reverse the existing law with respect to the application, to payment of debts, of the moveable property of a deceased person belonging

to a class to which the provisions of the Indian Succession Act, 1865 apply, but not having his domicile in British India Section 283 of that Act was based on the rule laid down by Romilly, M R, in *Wilson* v *Lady Dunsany* (18 Beav 293), where it was held that the priorities of creditors are regulated by the domicile of the testator though the personal assets may be situate and administered in another country The effect of the rule is that the whole of the estate of a person dying in British India may have to be applied, to the entire exclusion of British Indian and other creditors, to the payment of some possibly recent debt due from the deceased to a creditor in England But the rule laid down by Lord Romilly in 1854 is not the rule upon which the Courts act either in England or in America and is directly opposed to the rule which such writers on private international law as Story* and Westlake† describe as the established rule Indeed, in a recent case (L R 28 Ch D 175) it was observed by Pearson, J, that it was unfortunate that the case of *Wilson* v *Lady Dunsany* was ever reported "If there are Indian assets, said Pearson J "they must be distributed according to the law of India if there are English assets they must be distributed according to the law of England No one doubts that according to the jurisdiction of the country where the assets are the assets must be distributed I am not speaking of the assets that remain after the payment of debts, when the law of a man's domicile comes into play"

*Confl Law ss 524 and 525
†Private International Law s 102

8 By sections 10 and 17 of the revised Bill we have proposed to empower the Courts to compel the surrender of revoked probates and letters of administration

9 We have added to section 18 of the revised Bill (section 9 of the Bill as introduced) clauses which have been suggested to us by the case reported at I L R 11 All 16, where certain bonds were held to be chargeable both under the Court fees Act, 1870, and under the Indian Stamp Act, 1879 We consider that the instruments ought to be stamped under one only of those Acts and not under both

10 We have re drafted section 19 of the revised Bill (section 10 of the Bill as introduced) in accordance with the opinion of the Calcutta High Court that the section should be so expressed as to do no more than validate transactions which were proper in themselves and are not impugnable on any other ground than that they were carried out without the consent of the Court

11 By section 20 of the revised Bill (section 11 of the Bill as introduced) we have proposed to authorise the Chief Controlling Revenue-authority to remit any part of any penalty payable under section 19E of the Court fees Act which may seem to such authority to be excessive

No 11

A Bill to amend the Indian Succession Act, 1865, the Probate and Administration Act, 1881, the Court fees Act, 1870, and the Indian Stamp Act, 1879, and to make provision with respect to certain other matters

WHEREAS it is expedient to amend the Indian Succession Act 1865 the Probate and Administration Act, 1881, the Court fees Act, 1870, *and the Indian Stamp Act, 1879* and to make provision with respect to certain other matters, It is hereby enacted as follows —

X of 1865
V of 1881
VII of 1870
I of 1879

1 (1) This Act may be called the Probate and Administration Act, 1889

Title *extent* and commencement

(2) *It applies to the whole of British India (inclusive of Upper Burma except the Shan States) and*

(3) It shall come into force *at once*

Indian Succession Act, 1865

[New]

2 *After the 4th clause of the Explanation to section 234 of the Indian Succession Act, 1865, the following shall be added namely* —

Amendment of section 234 Act X 1865

X of 1865

"*5th that the person to whom the grant was made has wilfully and without reasonable cause omitted to exhibit an inventory or account in accordance with the provisions of Part XXXIV of this Act or has exhibited under that Part an inventory or account which is untrue in a material respect*"

[Act V 1881 s 62]

3 *In section 244 of the same Act, for the words "and that the petitioner is the executor therein named" the following shall be substituted, namely* —

Amendment of section 244 Act X 1865

"*the amount of assets which are likely to come to the petitioner's hands, and*

"*that the petitioner is the executor named in the will,*"

4 For the last forty-two words of section 254 of the *same Act*, the following shall be substituted, namely :—

Amendment of section 254 Act X 1865

"he having undertaken to administer the same, and to make a *full and* true inventory of the said property and credits and exhibit the same in this Court *within* six months from the date of this grant *or within such further time as the Court may from time to time appoint*, and also to render to this Court a true account of the said property and credits within one year from the same date *or within such further time as the Court may from time to time appoint*"

5 For the last forty five words of section 255 of the same Act the following shall be substituted, namely —

Amendment of section 255 Act X, 1865

"he having undertaken to administer the same and to make a *full and* true inventory of the said property and credits and exhibit the same in this Court *within* six months from the date of this grant *or within such further time as the Court may from time to time appoint*, and also to render to this Court a true account of the said property and credits within one year from the same date *or within such further time as the Court may from time to time appoint*"

6 *In section 256 of the same Act, for the words 'Every person to whom any grant of administration shall be committed' the words "Every person to whom any grant of letters of administration is committed" shall be substituted*

Amendment of section 256, Act X 1865

[I L R 7 Cal 84 3 Mad Ap 10 and 4 C L R 408]

7 For section 277 of the same Act the following shall be substituted, namely —

Substitution of new section for section 277, Act X 1865

"277 (1) An executor or administrator shall, within six months from the grant *of probate or letters of administration*, or within such further time as *the* Court *which granted the probate or letters may from time to time appoint, exhibit in that Court* an inventory containing a full and true estimate of all the property in possession, and all the credits, and also all the debts owing by any person to which the executor or administrator is entitled in that character, and shall in like manner, within one year from the *grant* or within such further time as the *said* Court may *from time to time appoint*, exhibit an account of the estate, showing the assets which have come to his hands and the manner in which they have been applied or disposed of

Inventory and account

"(2) The High Court may from time to time prescribe the form in which an inventory or account under this section is to be exhibited

"(3) *If an executor or administrator, on being required by the Court to exhibit an inventory or account under this section, intentionally omits to comply with the requisition, he shall be deemed to have committed an offence under section 176 of the Indian Penal Code*

XLV of 1860

"(4) *The exhibition of an intentionally false inventory or account under this section shall be deemed to be an offence under section 193 of that Code*"

8 *In section 277A of the same Act, for the words "it is sought to obtain a grant" the words "a grant has been made", and for the words and figures "the person applying for administration after the first day of*

[New]

Amendment of section 277A Act X 1865

April, 1875 the word "administrator", shall be substituted

9 (*1*) *In section 283 of the same Act, for the words "the country in which he was domiciled" the words "British India" shall be substituted*

Amendment of section 283 Act X 1865

(*2*) *The* Illustration *to the same section is hereby repealed*

10 *To the same Act the following shall be added, namely —*

Addition to Act X, 1865

[*Act XVIII 1879 ss 26 and 33*]

'333 (*1*) *When a grant of probate or letters of administration is revoked or annulled under this Act, the person to whom the grant was made shall forthwith deliver up the probate or letters to the Court which made the grant*

Surrender of revoked probate or letters of administration

"(*2*) *If such person wilfully and without reasonable cause omits so to deliver up the probate or letters, he shall be punished with fine which may extend to one thousand rupees, or with imprisonment of either description for a term which may extend to three months, or with both*"

Probate and Administration Act, 1881

[*New*]

11 *After the 4th clause of the Explanation to section 50 of the Probate and Administration Act, 1881, the following shall be added, namely —*

Amendment of section 50 Act V 1881

V of 1881

"*5th, that the person to whom the grant was made has wilfully and without reasonable cause omitted to exhibit an inventory or account in accordance with the provisions of Chapter VII of this Act or has exhibited under that Chapter an inventory or account which is untrue in a material respect*"

12 For the portion of section 76 of the *same* Act beginning with the words "he having undertaken to administer the same" and ending with the words "within one year from the same date", the following shall be substituted, namely —

Amendment of section 76 Act V 1881

"he having undertaken to administer the same, and to make a *full and* true inventory of the said property and credits and exhibit the same in this Court *within* six months from the date of this grant *or within such further time as the Court may from time to time appoint*, and also to render to this Court a true account of the said property and credits within one year from the same date *or within such further time as the Court may from time to time appoint*"

13. For the portion of section 77 of the same Act beginning with the words 'he having undertaken to administer the same" and ending with the words "within one year from the same date", the following shall be substituted, namely —

Amendment of section 77, Act V 1881

"he having undertaken to administer the same, and to make a *full and* true inventory of the said property and credits and exhibit the same in this Court *within* six months from the date of this grant *or within such further time as the Court may from time to time appoint*, and also to render to this Court a true account of the said property and credits within one year from the same date *or within such further time as the Court may from time to time appoint*"

14 For section 90 of the same Act the following shall be substituted, namely —

Substitution of new section for section 90, Act V 1881

"90 (*1*) An executor or administrator has, subject to the provisions of this section power to dispose, as he thinks fit, of all or any of the property for the time being vested in him under section 4

Power of executor or administrator to dispose of property

"(*2*) The power of an executor to dispose of immoveable property so vested in him is subject to any restriction which may be imposed in this behalf by the will appointing him, unless probate has been granted to him and the Court which granted the probate permits him by an order in writing notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order

"(*3*) An administrator may not, without the previous permission of the Court by which the letters of administration were granted,—

(*a*) mortgage, charge or transfer by sale, gift, exchange or otherwise any immoveable property for the time being vested in him under section 4, or

(*b*) lease any such property for a term exceeding five years

"(*4*) A disposal of property by an executor or administrator in contravention of sub section (*2*) or sub section (*3*), as the case may be, is voidable at the instance of any other person interested in the property,

"(*5*) Before any probate or letters of administration is or are granted under this Act there shall be endorsed thereon *or annexed thereto* a copy of sub sections (*1*), (*2*) and (*4*), or of sub sections (*1*), (*3*) and (*4*), as the case may be

"(*6*) A probate or letters of administration shall not be rendered invalid by reason of the endorsement *or annexure* required by the last foregoing sub section not having been made thereon *or attached thereto*, nor shall the absence of such an endorsement *or annexure* authorise an executor or administrator to act otherwise than in accordance with the provisions of this section"

Substitution of new section for section 98, Act V, 1881

15 For section 98 of the same Act the following shall be substituted, namely —

"98 (1) An executor or administrator shall, within six months from the grant *of probate or letters of administration*, or within such further time as *the* Court *which granted the probate or letters may from time to time appoint, exhibit in that Court* an inventory containing a full and true estimate of all the property in possession, and all the credits, and also all the debts owing by any person to which the executor or administrator is entitled in that character, and shall in like manner, within one year from the *grant* or within such further time as the *said* Court *may from time to time appoint*, exhibit an account of the estate, showing the assets which have come to his hands and the manner in which they have been applied or disposed of

Inventory and account

"(2) The High Court may from time to time prescribe the form in which an inventory or account under this section is to be exhibited

'(3) *If an executor or administrator on being required by the Court to exhibit an inventory or account under this section, intentionally omits to comply with the requisition, he shall be deemed to have committed an offence* XLV of 1860 *under section 176 of the Indian Penal Code*

"(4) *The exhibition of an intentionally false inventory or account under this section shall be deemed to be an offence under section 193 of that Code*"

Amendment of section 99 Act V 1881

16 *In section 99 of the same Act, for the words "it is sought to obtain a grant" the words "a grant has been made", and for the words "the person applying for administration" the word "administrator", shall be substituted*

Addition to Act V, 1881

17 *To the same Act the following shall be added, namely —*

[Act XVIII, 1879 ss 26 and 33]

Surrender of revoked probate or letters of administration

"157 (1) *When a grant of probate or letters of administration is revoked or annulled under this Act, the person to whom the grant was made shall forthwith deliver up the probate or letters to the Court which made the grant*

"(2) *If such person wilfully and without sufficient cause omits so to deliver up the probate or letters, he shall be punished with fine which may extend to one thousand rupees or with imprisonment which may extend to three months, or with both*"

Court-fees Act, 1870, and Indian Stamp Act, 1879

Amendment of Act VII 1870 and Act I, 1879

18 (1) Article 16 (Administration bond) of the second schedule to the Court fees Act, 1870, is hereby repealed VII of 1870

(2) In article 6 of the second schedule to the Court fees Act, 1870, for the words "Bail bond or other instrument of obligation not otherwise provided for by this Act, when given by the direction of any Court or executive authority" the following words shall be substituted, namely —

"Bail bond or other instrument of obligation given in pursuance of an order made by a Court or Magistrate under any section of the Code of Criminal Procedure, 1882, or the Code of Civil Procedure" X of 1882 XIV of 1882

(3) In article 2 of the first schedule to the Indian Stamp Act, 1879, after the words "Administration bond" the following shall be added, namely — I of 1879

"including a bond given under section 256 of the Indian Succession Act, 1865, section 6 of the Government Savings Banks Act, 1873, section 78 of the Probate and Administration Act, 1881, or section 9 or section 10 of the Succession Certificate Act, 1889 X of 1865 V of 1873 V of 1881 of 1889

(4) In article 13 of the first schedule to the Indian Stamp Act 1879 after the words 'not otherwise provided for by this Act" there shall be added the words "or by the Court fees Act, 1870" VII of 1870

Miscellaneous

Validation of acts under grants of administration already made

19 *Notwithstanding anything in section 90 of the Probate and Administration Act, 1881, a disposal of property by an executor or administrator who was appointed before the commencement of this Act and to whom the provisions of that section were applicable, shall not be void by reason only that the consent of the Court to the disposal of the property was not obtained* V of 1881

Recovery of penalties and forfeitures under Act VII 1870

20 (1) Any penalty or forfeiture under section 19G or section 19H of the Court fees Act, 1870, may, on the certificate of the Chief Controlling Revenue authority, be recovered from the executor or administrator as if it were an arrear of land-revenue by any Collector in any part of British India VII of 1870

(2) The Chief Controlling Revenue authority may remit the whole or any part of any such penalty or forfeiture, *or any part of any further penalty payable under section 19E of the said Act*

Repeal of part of section 7 (3) Bengal Act VII of 1880

21 The following portion of section 7, clause (3), of the Act of the Lieutenant Governor of Bengal in Council No VII of 1880, entitled the Public Demands Recovery Act, 1880, namely —

"or in the following sections and portions of the following Act passed by the Governor General in Council, that is to say, in Act VII of 1870, 'the Court fees Act,' sections 19G, 19H,"

is hereby repealed

S HARVEY JAMES,
Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th February, 1889 —

WE, the undersigned Members of the Select Committee to which the Bill to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as revised by us annexed thereto

From Mr P R Desai Pleader District Court Tanna dated 4th September 1888 [Paper No 1]
From Chief Commissioner Ajmere Merwára No 1174—690 dated 2nd October 1888, and enclosure [Papers No 2]
From Secretary to Chief Commissioner Coorg, No 1840—1848 dated 17th October 1888 and enclosure [Papers No 3]
From Chief Secretary to Government Bengal No 235 J D dated 16th October 1888 and enclosures [Papers No 4]
From Secretary for Berar to Resident Hyderabad No 456 G dated 26th October 1888 [Paper No 5]
From Officiating Secretary to Chief Commissioner Assam No 3026 dated 22nd October 1888 and enclosures [Papers No 6]
From Officiating Secretary to Chief Commissioner Burma No 632—1 L dated 26th October 1888 and enclosure [Papers No 7]
From Chief Secretary to Government Madras No 2176, dated 20th October 1888 and enclosures [Papers No 8]
From Officiating Secretary to Chief Commissioner Central Provinces No C—84 dated 23rd October 1888 and enclosures [Papers No 9]
From Secretary to Government Bombay No 6253, dated 17th November 1888, and enclosures [Papers No 10]
From Officiating Secretary to Government Punjab No 971 dated 3rd November, 1888, and enclosures [Papers No 11]
From Officiating Secretary to Chief Commissioner Assam No 3616 dated 5th December 1888 and enclosures [Papers No 12]
From Secretary to Government North Western Provinces and Oudh, No 15—VII 154B, dated 16th January 1889 and enclosures [Papers No 13]
From Registrar High Court, Calcutta No 198 dated 25th January 1889 [Paper No 14]
From Secretary to Government North Western Provinces and Oudh No 45—6-154 B dated 25th January, 1889 and enclosures [Papers No 15]

2 *Section 1, sub section* (2) —We have proposed that the Bill shall come into operation on the first day of May, 1889 Some time will be occupied in the making and circulation of translations

3 *Sections 2 and 28 and the first schedule* —We have deferred to the opinion of the Government of Bombay that no part of Bombay Regulation VIII of 1827 should at present be repealed, but we consider that several of the provisions of this Bill as regards debts and securities, and the whole of section 98 of the Probate and Administration Act, 1881, as regards the liability of executors and administrators to exhibit inventories and accounts, should, *mutatis mutandis*, apply, respectively, to debts and securities in respect of which certificates are granted under the Regulation on or after the 1st of May next, and to the holders of certificates so granted

4 *Section 3, clause* (*1*) —We have modified the definition of "District Court" with reference to the terms of proviso (*b*) to section 23 of the Punjab Courts Act, 1884

5 *Section 4*—In revising this section we have had regard to the case reported at I L R 13 Cal 47

6 *Section 6*—We have modified this section in accordance with suggestions received from the North-Western and the Central Provinces

7 *Section 7*—We concur with Sir Meredyth Plowden in thinking that the Bill, as revised by us in accordance with his advice, renders it unnecessary to retain sub-section (*2*) of section 7 of the Bill as introduced, but we consider, with reference to certain remarks of the Bengal Government and its officers, that a clause in the sense of the judgment of Turner, C J, at I L R 7 Mad 452, and another clause in the sense of the judgments reported at W R (1864) Mis 41 and 12 W R 38 and 356, should be added to the section

8 *Sections 8 10, 12 and 13 and the second schedule (sections 8 17, 19 and 20 and the second schedule of Bill as introduced)*—As some of the securities specified in section 3 clause (*2*), may not be technically *negotiable*, we have used, with respect to securities, the word "transfer" as well as the word 'negotiate"

9 *Section 14 (section 21 of Bill as introduced)*—We are of opinion that a person desiring to obtain a certificate should present an application for it and should not be able to obtain it as an objector to the application of some other person

10 *Sections 16 and 22 (sections 9 and 16 of Bill as introduced)*—We consider that a certificate should not afford indemnity to persons making payments in respect of debts or securities which are not specified in the certificate

11 *Section 18*—We think, with Sir Meredyth Plowden, that there should be added to the Bill a clause providing, as nearly as possible in the terms of section 234 of the Indian Succession Act, 1865, and section 50 of the Probate and Administration Act, 1881, for the revocation of certificates

12 *Section 19 (section 13 of Bill as introduced)*—We have, on a suggestion from the Government Advocate of the Central Provinces, made it clear that the period of limitation for appeals under the proposed Act is to be that prescribed by the Indian Limitation Act, 1877, for appeals under the Code of Civil Procedure

13 *Section 20 (section 14 of Bill as introduced)*—We have revised the expression of this clause for the purpose of avoiding certain difficulties which the expression of the clause in the Bill as introduced appeared to us to be likely to create

14 *Section 24 (section 25 of Bill as introduced)*—It appears that certain grants of administration made by the Recorder of Rangoon, and possibly by the former Recorder of Maulmain, also require to be validated

15 *Section 26 and the first schedule*—We are of opinion that a clause on the lines of section 360 of the Code of Civil Procedure should be enacted for the purposes of the proposed Act and take the place of the sections which occur in some of the local Civil Courts Acts respecting the disposal by inferior Courts of proceedings under Act XXVII of 1860 In the first place, some of the local Acts contain no such sections, and those Acts would, with reference to the large increase in the number of applications for certificates which must result from the passing of the Bill, have in any case to be supplemented In the second place, the concession to District Courts of a power of merely transferring proceedings to inferior Courts gives little or no relief to applicants for certificates, who often become compelled by the exercise of such a power to employ at least two pleaders, one for the District Court and another for the inferior Court In the third place, the Courts which are ordinarily to grant or extend certificates should be more easily accessible than District Courts, and should be Courts to which resort is cheaper than to District Courts In the fourth place, the inferior Courts of thirty years ago were very different from most of such Courts now Lastly, most District Judges are so heavily worked that, apart from the other considerations which we have mentioned, it is very desirable in most parts of British India that the District Court should cease to be the only tribunal to which in practice applications for certificates must be made

16 The Bill as introduced followed the arrangement of the Act of 1860 We agree with Sir Meredyth Plowden that the clauses of the Bill may be more conveniently arranged and we have arranged them accordingly

17 Having regard to section 9 of the revised Bill, to sections 40 and 41 of the Probate and Administration Act, 1881, to Chapter XXXVI of the Code of Civil Procedure and to the balance of local opinion, we consider that section 11 of the Bill as introduced may be omitted The corresponding sections of Act XXVII of 1860 seem never to have been anywhere used

THE SECOND SCHEDULE—FORMS OF CERTIFICATE AND EXTENDED CERTIFICATE

The Succession Certificate Bill

(Sections 1-5)

No II

A Bill to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons

WHEREAS it is expedient to facilitate the collection of debts on successions and afford protection to parties paying debts to the representatives of deceased persons, It is hereby enacted as follows —

Title commencement extent and application

1 (*1*) This Act may be called the Succession Certificate Act, 1889

(*2*) It shall come into force on the first day of *May*, 1889, and

(*3*) It extends to the whole of British India (inclusive of Upper Burma *except the Shan States*),

(*4*) But a certificate shall not be granted thereunder with respect to any debt or security to which a right can be established by probate or letters of administration under the Indian Succession Act 1865 or by probate of a will to which the Hindu Wills Act, 1870, applies or by letters of administration with a copy of such a will annexed

X of 1865
XXI of 1870

Repeal

2 (*1*) The enactments specified in the first schedule are repealed to the extent mentioned in the third column thereof

(*2*) But nothing in this Act shall affect any certificate granted before the commencement of this Act under Act XXVII of 1860 or any enactment repealed by that Act

(*3*) Any enactment except *this Act and* section 152 of the Probate and Administration Act, 1881, or any document, referring to any enactment repealed by this Act shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

V of 1881

Definitions

3 In this Act, unless there is something repugnant in the subject or context,—

(*1*) "District Court", *subject to the other provisions of this Act and to the provisions of proviso (b) to section 23 of the Punjab Courts Act, 1884, and of any other like enactment for the time being in force,* means a Court presided over by a District Judge *and*

XVIII of 1884

(*2*) "security" means—

(*a*) any promissory note, debenture, stock or other security of the Government of India,

(*b*) any bond, debenture or annuity charged by the Imperial Parliament on the revenues of India,

(*c*) any stock or debenture of, or share in, a company or other incorporated institution,

(*d*) any debenture or other security for money issued by, or on behalf of, a local authority,

(*e*) any other security which the Governor General in Council may, by notification in the Gazette of India, declare to be a security for the purposes of this Act

Proof of representative title a condition precedent to recovery through the Courts of debts from debtors of deceased persons

4 (*1*) *No Court shall—* [*I L R 13 Cal 47*]

(*a*) *pass a decree against a debtor of a deceased person for payment of his debt to a person claiming to be entitled to the effects of the deceased person or to any part thereof, or*

(*b*) *proceed, upon an application of a person claiming to be so entitled, to execute against such a debtor a decree or order for the payment of his debt*

except on the production, by the person so claiming of—

(*i*) *a probate or letters of administration evidencing the grant to him of administration to the estate of the deceased, or*
